BRG REALTY GROUP, LLC EMPLOYEES SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

1. Plan description

The following description of the BRG Realty Group, LLC Employees Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of BRG Realty Group, LLC (the Company) who have one year of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Each year participants may contribute a percentage of their pre-tax annual compensation to the Plan, as defined in the plan document. Participants may also roll over amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers two guaranteed investment contracts and 52 pooled separate accounts as investment options for participants. The Company, at its discretion, may make matching contributions to the Plan each year equal to 25.00% of every 1.00% of deferred salary up to 6.00% of compensation that a participant contributes to the Plan, subject to IRS limitations. The employer matching contribution for 2013 was \$36,965, which was paid in 2014. The Company may also make an additional non-elective discretionary contribution for participants who are considered eligible and are actively employed on the last day of the Plan year. There were no non-elective discretionary contributions made for the Plan year ended December 31, 2013.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching and discretionary contributions and (b) plan earnings, and charged with (a) an allocation of administrative fees and expenses paid out of the Plan, and (b) decreases in investment value. Allocations of matching contributions are based on participant deferrals; allocations of discretionary contributions are based on participant's compensation; and allocations of Plan earnings are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully vested in the Company matching contributions and discretionary contributions after six years of credited service, vesting 20 percent per year after two years of service. Participants are vested immediately in their contributions plus actual earnings thereon.

Notes receivable from participants

Participants may borrow a minimum of \$1,000 up to a maximum equal to \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates from 3.25 percent to 6.00 percent, as determined on the date the loan is issued. Principal and interest are paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Expenses of the Plan

The Plan pays certain administrative expenses. The Company provides other administrative services at no cost to the Plan. Investment income is stated net of investment fees.

Forfeited accounts

Participant forfeitures of Company matching and discretionary contributions are first used to offset plan expenses. The remaining balance may be applied to any Qualified Non-Elective Contribution (QNEC) and reallocated to participant accounts at the end of the plan year in which the forfeiture occurs. At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$0. During 2013, no forfeited non-vested accounts were used to pay Company matching contributions to the Plan.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Payment of benefits

On termination of service due to death, disability or retirement, or any other reason, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments if the vested balance is greater than \$5,000.

Net assets of withdrawing participants

No participants had elected to withdraw from the Plan prior to December 31, 2013 that had not received distributions before year end.

2. Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits

Benefit payments are recorded when paid.

Fully-benefit responsive investment contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through the Lincoln Guaranteed Investment Contract (GIC). The statement of net assets available for benefits, as of December 31, 2013 and 2012, presents the contract value of the investment in the declared rate fund, which approximates fair value. The statement of net assets available for benefits is prepared on a contract value basis.

Contract value is equal to principal balance plus accrued interest. There are no reserves against contract value for credit risk of the contract issuer or otherwise. Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any such event that would limit the Plan's ability to transact at contract value with participants is probable of occurring.

3. Transactions with related parties

The Plan permits the payment of administrative expenses to be made from the Plan's assets and for them to be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. However, substantially all administrative expenses of the Plan are paid by the Company. Expenses related to specific participant transactions (i.e., loan setup, distribution request, etc.) are charged directly against the appropriate participant's account.

Certain plan investments are managed by Lincoln Financial Group. Lincoln Financial Group is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees for investment management services were paid by reducing the return earned on each fund.

4. Tax status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and the related trust, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended and restated since that date. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2010.

5. Fair value measurements

The Plan accounts for financial instruments where the measurement objective specifically requires the use of "fair value" related to financial assets.

Fair value is an exit price, representing the amount that would be received in the sale of an asset in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based upon assumptions that market participants would use in pricing an asset. As a basis for considering such assumptions, a three-tier fair value hierarchy exists, which prioritizes the inputs used in measuring fair value as follows:

- | | |
|----------|--|
| Level 1: | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2: | Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3: | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Guaranteed investment contracts: See below for description.

Pooled separate accounts: See below for description.

Pooled separate accounts (PSAs) invest primarily in common stock and mutual funds. The NAV is used as a practical expedient to determine fair value for these accounts. Each PSA provides for redemptions by the Plan at reported NAVs per share, with no advance notice requirement; therefore these funds are classified within Level 2 of the valuation hierarchy. The trustee may defer transfer or distribution of investments in this up to 30 days, if there is negative cash flow in a fund and the trustee determines that any liquidation would adversely affect other investors in the fund.

The NAV of the PSAs is determined using the market value or fair value, if market data is unavailable, of the underlying securities. The fund allows for daily liquidation with no additional days' notice for redemption for participant directed transactions. The fair value of the PSAs as of December 31, 2013 and 2012 was \$2,991,419 and \$2,343,152.

The guaranteed investment contract is a benefit-responsive group annuity contract issued by Lincoln National Life Insurance Company and is carried at fair value. The following table provides information about significant unobservable inputs related to the Plan's investment in the Guaranteed Option, which is categorized as Level 3 in the fair value hierarchy.

<u>Instrument</u>	<u>Fair Value</u>	<u>Principal Valuation Technique</u>	<u>Unobservable Inputs</u>	<u>Range of Significant Input Values</u>
Guaranteed Investment Contract	\$ 659,940	Assumed proceeds at discontinuance	Composite Crediting Rate	*

*The Composite Crediting Rate history for the contract is as follows:

December 31, 2012	3.11%
December 31, 2013	2.60%

The concept of a value other than contract value does not apply to this insurance company issued general account backed evergreen (no maturity date) group annuity contract. Even upon a discontinuance of the contract, contract value would be paid if the sponsor provides a 90 day irrevocable advance notice. As there are not any specific securities in the general account that back the liabilities of this annuity contract, it would be inappropriate to look to the market value of the securities within the insurer's general account to determine a fair value. The Plan owns a promise to pay interest at crediting rates which are announced and reset semiannually. The crediting rate is net of administrative fees.

The contract is backed by the full faith and creditworthiness of the issuer. Guarantees are based on the claims-paying ability of the issuer and not on the value of the securities within the insurer's general account. As a result, the fair value amount shown is equal to the contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed net crediting rates, less withdrawals. Key factors that could influence future interest crediting rates are changes in interest rates, and default or credit failures of the securities in the insurer's general assets. Past interest rates are not indicative of future interest rates.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

6. Investments

The Plan provides for investments in various investment securities, which are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

The following presents investments that represent 5% or more of the Plan's net assets.

As of December 31, 2013:

* Lincoln Financial Group -	
Annuity Contract Stable Asset Fund	\$ 575,515
SSgA Russell All Cap Index	458,500
Stadion Managed Moderate	413,213
* LVIP Delaware Growth & Income	369,611

As of December 31, 2012:

* Lincoln Financial Group -	
Annuity Contract Stable Asset Fund	\$ 620,451

Stadion Managed Moderate	290,986
* LVIP Delaware Growth & Income	279,846
Fidelity VIP Contrafund	237,244

*denotes party-in-interest

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$615,632. All appreciation is related to the pooled separate accounts held by the Plan.

7. Reportable transactions

No reportable transactions were noted in 2013.

8. Information certified by the Plan's trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Lincoln Financial Group, the trustee of the Plan, has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the Statement of Net Assets Available for Benefits as of December 31, 2013 and 2012.
- Net investment income and interest income on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2013.
- Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2013.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information included in the financial statements and supplemental schedule.

9. Fidelity bonding requirements

The Plan was covered by a \$500,000 fidelity bond during 2013.

10. Subsequent events

The plan administrator has evaluated subsequent events through August 19, 2014, which is the date the financial statements were available to be issued.

Effective January 1, 2014, the Plan was amended to allow participation upon completing 90 days of service with no age requirement.
