Notes to Financial Statements

1. Plan Description

The following description of the Pentaho Corporation (the “Company”) 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan’s provisions.

- a) *General* – The Plan, originally effective November 1, 2006, is a defined contribution plan covering substantially all employees of Pentaho Corporation. The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the provisions of the Internal Revenue Code. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (“ERISA”).
- b) *Eligibility* – Employees are eligible to participate in the Plan upon attaining age 21. Additionally, employees must be employed on the last day of the Plan year and work a minimum of 1,000 hours during the Plan year in order to receive the Company’s matching and non-elective (profit sharing) contributions unless employment during the year is terminated due to death, disability or retirement.
- c) *Contributions* – Employees participating in the Plan may elect to defer up to the maximum of \$17,500 allowed under the Internal Revenue Service limitation for calendar year 2013. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to \$5,500 to the Plan in 2013. Participants may also contribute amounts representing distributions from other qualified retirement plans or individual retirement accounts. The Plan provides for the Company to make discretionary matching contributions equal to a percentage, as determined annually by the employer, of the participants’ elective deferrals. During 2013, the Company elected not to provide a matching contribution. Additional non-elective (profit sharing) contributions may be made at the discretion of the Company. The Company did not make any non-elective (profit sharing) contributions for 2013.
- d) *Notes Receivable from Participants* – Participants may borrow from their accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of the participant’s vested account balance. Participants may have one loan outstanding at any given time. Interest is charged at a reasonable fixed rate determined by the Plan administrator. Interest rates were 4.25% at December 31,

Pentaho Corporation 401(k) Retirement Plan

Notes to Financial Statements

2013 and December 31, 2012. Loans have a maximum term of five years unless the loans were used to purchase a primary residence, in which case a longer repayment term may be allowed by the trustee. The loans are collateralized by a security interest in the participant's vested account balance and are repayable via payroll deductions.

- e) *Participant Accounts* – Each participant's account is credited with the participant's contribution and allocations of the Plan's earnings and Company contributions, and charged with benefits payments and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
- f) *Investment Options* – Participants direct the investment of their accounts into various options offered by the Plan. Participants may change their investments periodically as permitted by the Plan sponsor.
- g) *Vesting* – Participants are immediately vested in elective contributions and earnings thereon. Vested rights to Company matching contributions and non-elective (profit sharing) contributions accrue at a rate of 20% per year beginning with the second year of vesting service, with full vesting accruing after six years. Participants must work a minimum of 1,000 hours during each Plan year to earn a year of vesting service. Upon Plan termination, participant death or disability, or participant reaching the age of 65, Company contributions vest immediately.
- h) *Payment of Benefits* – On termination of service due to death, disability, retirement or termination of employment, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or a series of installments over time. Hardship withdrawals may be requested on pre-tax and Roth elective deferrals and are paid out in one lump-sum. In-service distributions may be made to participants who have attained age 59½.
- i) *Administrative Expenses* – The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Certain transaction fees for loan issuances and distributions are charged directly to the accounts of the participants who incur those fees.

Pentaho Corporation 401(k) Retirement Plan

Notes to Financial Statements

- j) *Forfeitures* – Any non-vested amounts remaining after the distribution of a terminated participant's account balance are forfeited. Forfeitures are first used to pay Plan expenses and any remaining forfeitures are used to reduce employer contributions. No forfeitures were used to pay Plan expenses during the year ended December 31, 2013. There were no unallocated forfeiture accounts at December 31, 2013 or 2012.
- k) *Plan Termination* – Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

2. Summary of Significant Accounting Policies

The accompanying financial statements reflect the application of certain significant accounting policies as described in this note and elsewhere in the accompanying financial statements.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting, except for benefit payments which are reported on a cash basis, in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit risks, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Pentaho Corporation 401(k) Retirement Plan

Notes to Financial Statements

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for additional discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances. Notes receivable from participants that are deemed delinquent by the Plan administrator are reduced and are recorded as distributions based on the terms of the Plan document.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. There were no excess contributions payable as of December 31, 2013 and 2012.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Notes to Financial Statements

3. Investments

All of the Plan's investments were held by Transamerica Life Insurance Company, the Plan's custodian, during 2013 and 2012. The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the auditor not to perform any auditing procedures with respect to the information certified by the custodian, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan administrator has obtained a certification from the custodian that the information provided to the Plan administrator by the custodian as of December 31, 2013 and 2012, and for the year ended December 31, 2013, is complete and accurate. Such information includes all investments, investment income and the information in the supplemental schedule of assets (held at end of year).

The following table presents investments that represent 5% or more of the Plan's net assets available for benefits:

4. Fair Value Measurements

The Plan measures and reports its financial assets and liabilities using a three-tier hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820, *Fair Value Measurements & Disclosures*, are described below:

- Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 – Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly. If the asset or liability has a specified (contractual) term, the input must be observable for substantially the full term of the asset or liability.
- Level 3 – Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- *Pooled separate accounts*: The pooled separate accounts with Transamerica Life Insurance Company ("Transamerica") are stated at fair value as reported to the Plan by Transamerica, based on the quoted market prices of the underlying mutual funds. The unit value of the pooled separate account is calculated by dividing the total value of the assets of the separate account by the number of units in the separate account. For separate accounts that invest exclusively in mutual funds, the total value of the assets of the separate account is based on the net asset value

Pentaho Corporation 401(k) Retirement Plan

Notes to Financial Statements

(“NAV”), or price per share, of the underlying mutual fund. The mutual fund calculates its NAV by dividing the mutual fund’s net assets by the mutual fund’s outstanding number of shares. Those separate accounts investing in mutual funds or equity securities are measured using quoted prices in active markets for identical assets. Those separate accounts directly investing in fixed maturity securities are measured based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities. There are currently no restrictions or unfunded commitments on these investments.

- *Stable value fund:* The Plan invests in the Transamerica Stable Value Fund which is considered to be a fully benefit-responsive investment contract. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported by Transamerica, represents contributions made to a contract plus earnings, less participant withdrawals and administrative expenses and approximates fair value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

This investment seeks to protect against any loss of principal while providing returns in excess of money market funds and one-year U.S. Treasury bills. The investment has a portfolio investment rate design in which all deposits are credited with the same interest rate on a daily basis, and with no set maturity. The effective credited interest rate is set on a semi-annual basis and is effective on the first day of the semi-annual period. Interest is credited, based upon the daily balance, at a rate that is the daily equivalent of the effective annual rate of interest applicable for the six month period. There is no stated minimum or maximum interest rate for the Stable Value Fund. Contract charges may reduce this return.

The average yield of the Stable Value Fund based on actual earnings and interest credited to participants was 1.45% and 1.75% for the years ended December 31, 2013 and 2012, respectively.

Pentaho Corporation 401(k) Retirement Plan

Notes to Financial Statements

Although plan participants generally may withdraw assets from the Stable Value Fund investment choice without restrictions, Transamerica may impose a hold period at the contract level in the event of a full contract discontinuance or partial contract discontinuance. Additionally, under limited circumstances, Transamerica may impose up to a 12-month delay period on all withdrawal requests from all plan sponsors at the plan level. The Plan administrator is not aware of any events, which would limit the Plan's ability to transact at contract value with participants that are probable of occurring.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

5. Tax Status

The prototype Plan sponsor has obtained an opinion letter dated May 30, 2008, in which the IRS stated that prototype plan document was in compliance with applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's accompanying financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's income tax returns remain subject to examination by the Internal Revenue Service for three years from the date of filing.

6. Exempt Party-in-Interest Transactions

Plan investments are held and managed by Transamerica Life Insurance Company, the custodian, as defined by the Plan, therefore, these transactions qualify as party-in-interest transactions. These investments amounted to \$4,050,734 and \$2,282,565 at December 31, 2013 and 2012, respectively. Administrative expenses paid to the custodian totaled \$20,133 for the year ended December 31, 2013.
