## 1. Description of Plan

### General

The following description of the JMK Holdings 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provision.

Employees of the following companies are presently covered under the Plan:

- Jamak Fabrication-Tex, LLC
- K&M Plastics, Inc.
- JA Operations-Tex, LLC
- CF-Tex, LLC
- JMK Holdings Management Co., LLC
- Reata Restaurants Management Co., LLC

The Plan is a defined contribution retirement plan administered by JMK International, Inc. (the "Company" or "Sponsor") and was established on August 1, 1984. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

### Eligibility

Employees are eligible to participate in the Plan upon reaching the age of twenty-one and completing six months of service. Eligible employees may enter the Plan on the first day of the month following the date they first become eligible. Participation is voluntary and must be requested by the employee.

### Contributions

Each year, participants may contribute up to 60% of pretax annual compensation, as defined by the Plan, not to exceed limits as set by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options provided by the Plan in one percent increments.

At the discretion of the Board of Directors, the Company may elect to contribute a discretionary matching contribution based on participants' elected salary deferrals. To be eligible to receive the matching contribution a participant must be either employed on the last day of the plan year and have completed 1,000 hours of service during the plan year or have died, retired or suffered disability during such plan year. During 2013, the Company authorized matching contributions of $29,855.

**1. Description of Plan (continued)**

**Participant Accounts**
Each participant's account is credited with the participant's contributions and the participant's allocation of any Company contributions. Earnings and losses are credited to each participant account based on the performance of the underlying investments. Contributions and earnings are allocated among investment options, which include various mutual funds and a common collective trust fund, as selected by the participant.

**Vesting**
Participants are always fully vested in their deferral contributions and any earnings thereon. Participants vest in Company contributions according to the table below. Forfeited balances of terminated participants' nonvested accounts are used first to pay administrative expenses incurred by the Plan. Any remaining forfeitures are then used to offset employer contributions made.

| Years of Service | Vested Percentage |
|---|---|
| Less than 2 years | 0% |
| 2 years | 20% |
| 3 years | 40% |
| 4 years | 60% |
| 5 years | 80% |
| 6 years | 100% |

**Notes Receivable from Participants**
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of prime plus 1% at the time of inception. The loans are repaid ratably through payroll deductions over a period of five years or less, unless such loan is for the purchase of a participant's primary residence. Participants may not have more than one loan outstanding at a time.

**Payment of Benefits**
Upon termination of service due to death, disability, retirement or termination of employment, a participant may elect to receive a lump-sum distribution, installment payments or a direct rollover distribution. A participant may withdraw part of the vested interest in his or her account upon attainment of age 59 ½, subject to Plan provisions.

**Forfeited Accounts**
At December 31, 2013 and 2012, forfeited nonvested accounts totaled $991 and $1,734, respectively. These amounts will be used to reduce future expenses incurred by the Plan or employer contributions. Also, in 2013, administrative expenses were reduced by $4,104 from forfeited nonvested accounts.

## 2. Significant Accounting Policies

**Basis of Accounting**
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

**Use of Estimates**
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Investment Valuation and Income Recognition**
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Plan Steering Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, trustee and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Notes Receivable from Participants**
Notes receivable from participants represent loans and are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recognized on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loans to be in default, the participant loan balance is reduced and a benefit payment is recorded.

**Excess Contributions Payable**
Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2013 excess contributions to the applicable participants prior to March 15, 2014.

**Payment of Benefits**
Benefits are recorded when paid.

## 2. Significant Accounting Policies (continued)

**Expenses**
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Certain investment and administration fees are deducted directly from participant's investment returns. Transaction costs borne by the Plan are charged to the individual participant who initiated the transaction to which the charge relates by reducing the participant's account balance.

**Subsequent Events**
Subsequent events have been evaluated through the date of the report of independent auditors, which is the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

## 3. Information Prepared and Certified by Trustee (unaudited)

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

| **As of December 31,** | | **2013** | | 2012 |
|---|---|---|---|---|
| Investments, at fair value: | | | | |

| Adjustment from fair value to contract value | | **(9,897)** | | (19,540) |
| Total investments | **$** | **5,567,298** | $ | 4,847,421 |

## 4. Investments

The fair values of individual investments that represent 5% or more of the Plan's net assets are as follows at December 31:

| **As of December 31,** | **2013** | 2012 |
|---|---|---|
| Mutual funds: | | |
| Janus Overseas Fund | **$ 517,316** | $ 489,608 |

*Amount represents less than 5% of net assets available for benefits. Information was presented for comparative purposes.

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated by $562,213 as follows:

| | |
|---|---|
| Mutual funds | **$ 562,213** |
| | **$ 562,213** |

## 5. Fair Value Measurements

The fair value hierarchy prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

**5. Fair Value Measurements (continued)**

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

*Mutual funds:* Quoted market prices are used to value investments in mutual funds, which are publicly traded funds of registered investment companies, and common stock.

*Common/collective trust fund:* Composed of a fully benefit-responsive investment contract and is valued at NAV and primarily invested in fixed income securities. The fund is not available in an exchange and active market, however, the fair value is determined based on the observable inputs of underlying investments as traded in an exchange and active market. There is no restriction in place with respect to the daily redemption of the fund.

There were no transfers of Plan investments between levels 1 and 2 during 2013. The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**5. Fair Value Measurements (continued)**

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

| | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Mutual fund accounts: | | | | |
| Large cap (1) | $ 1,791,744 | $ - | $ - | $ 1,791,744 |
| Asset allocation (2) | 1,716,820 | - | - | 1,716,820 |

| Total assets at fair value | $ 4,920,561 | $ 656,634 | $ - | $ 5,577,195 |

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

| | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Mutual fund accounts: | | | | |
| Large cap (1) | $ 1,011,136 | $ - | $ - | $ 1,011,136 |
| Asset allocation (2) | 1,305,675 | - | - | 1,305,675 |
| Fixed income (3) | 905,940 | - | - | 905,940 |
| Global/international equity (4) | 590,484 | - | - | 590,484 |

| Total assets at fair value | $ 4,184,152 | $ 682,809 | $ - | $ 4,866,961 |

(1) Large cap funds invest primarily in combination of common stocks of large size U.S. companies with the potential for growth and/or large U.S. companies that pay or are expected to pay dividends.

(2) Asset allocation funds invest in a combination of funds that invest in U.S. Stock, international stocks, U.S. bonds and other fixed-income investments. Asset allocation funds' mix typically provides exposure to return seeking assets, such as equities, in early years when risk capacity is higher, and becomes increasingly conservative as time progresses with exposure switched towards capital preservation assets, such as bonds and fixed income assets, as the target date (usually retirement) approaches.

(3) Fixed income funds invest in bonds, or debt of a company or government entity (including U.S. and Non-U.S.).

(4) International equity funds invest in stocks or shares of ownership in companies with their principal place of business or office outside of the United States.

(5) Small/mid/specialty funds invest in common stock of small U.S. Companies or the common stock of specialized U.S. Companies.

(6) The common collective trust fund is designed to deliver safety and stability by preserving principal and accumulating earnings. This fund is primarily invested in guaranteed investment contracts and synthetic investment contracts.

## 6. Fidelity Managed Income Portfolio

The Plan has an interest in Fidelity Managed Income Portfolio ("MIP"), a common collective trust. The MIP is a stable value fund that is an open-end commingled pool dedicated exclusively to the management of assets of defined contribution plans. The MIP's investment objective is to seek preservation of capital and a competitive level of income over time. To achieve its investment objective, the MIP invests in underlying assets (typically fixed income securities or bonds and may include derivative instruments such as futures contracts and swap agreements) and enters into a "wrapper" contract issued by a third party. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value, as reported to the Plan, represents the principal balances of the contracts, plus accrued interest at the stated rate, less payments received and contract charges by the insurance company. There is no immediate recognition of investment gains and losses. Instead, the gain or loss is recognized over time by adjusting the interest rate credited to the MIP under the wrapper contract. The wrapper contract also provides for the payment of participant withdrawals and exchanges at contract value. The contract value as of December 31, 2013 and 2012, was $646,737 and $663,269, respectively; the fair value, as of December 31, 2013 and 2012, was $656,634 and $682,809, respectively.

Wrapper contracts accrue interest using a formula called the "crediting rate." The crediting rate is the discount rate that equates estimated future market value with the portfolio's contract value. The crediting rate is based on a formula agreed upon with the issuer of the wrapper contract with the requirement that interest rates may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate may be affected by many factors, including purchases and redemptions by unit holders. Certain events limit the ability of the Plan to transact at contract value with the wrapper contract issuer. Such events include the following: (1) the failure of the Plan to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code, (2) establishment of a defined contribution plan that competes with the Plan for employee contributions, (3) any substantive modification to the Plan or administration of the Plan that is not consented to by the wrapper contract issuer, and (4) transfer of assets from the fund directly to a competing option. However, the Plan's management is not aware of the occurrence or likely occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants. The wrapper contract issuer may terminate a wrapper contract for cause at any time.

The following table sets forth the average yields earned by the Plan on its investment in the MIP:

| **Years Ended December 31,** | **2013** | 2012 |
|---|---|---|

## 7. Related-Party and Party In Interest Transactions

Certain Plan investments are shares of mutual funds and common collective trust funds managed by Fidelity Investments. Fidelity Management Trust Company is the trustee of the plan and, therefore, these transactions qualify as party in interest transactions.

Fees incurred by the Plan for investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. The Plan also made direct payments to the trustee and third party administrator totaling $12,390. These costs incurred by the Plan are included in administrative expense on the statement of changes in net assets available for benefits. The Plan Sponsor pays directly any other fees related to the Plan's operations.

## 8. Termination of the Plan

The Company's Board of Directors has the right under the terms of the Plan to terminate the Plan at any time. In the event of termination, the Plan provides that all amounts credited to the respective accounts of the participants shall be fully vested.

## 9. Income Tax Status

The Plan has adopted a volume submitter 401(k) and profit sharing plan with cash or deferral arrangement sponsored by Fidelity Management & Research Co., which received a favorable opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008, stating that the Plan, as then designed, was acceptable under Section 401(a) of the Code, and therefore, the related trust is exempt from taxation. The Plan itself has not received a determination letter from the IRS. However, Plan management believes the Plan, as adopted and amended, is operating within the guidelines of the Internal Revenue Code (IRC). Accordingly, no provision for federal income taxes has been provided in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require Plan Management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by IRS. The Plan is subject to routine audits taken by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

## 10. Risks and Uncertainties

The Plan invests in various investment funds. Investments in general are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such change could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.
