Report on the Financial Statements

We were engaged to audit the accompanying financial statements of URS Professional Solutions Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we are not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by The Bank of New York Mellon, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Trustee as of December 31, 2013 and 2012 and for the years then ended, that the information provided to the Plan Administrator by The Bank of New York Mellon is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the Trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

URS PROFESSIONAL SOLUTIONS PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the URS Professional Solutions Pension Plan (the “Plan”), formerly named the URS Safety Management Solutions LLC Pension Plan, is provided for general information purposes only. Participants should refer to the Plan document for a complete description of the Plan.

General: URS E&C Holdings, Inc. (“the Company”), a division of URS Corporation, is the sponsor of the Plan.

The Plan is a frozen noncontributory defined benefit pension plan, subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Prior to the Plan Freeze Date (December 31, 2005), the Plan covered all employees of Washington Safety Management Solutions, LLC (the “Employer”) who, on October 1, 1997, were members of the pension plan maintained by Westinghouse Savannah River Company (“WSRC”). Other full-service employees, as defined by the Plan, not meeting the above requirements, were eligible for the Plan as of their first day of employment or reemployment with the Employer. All other employees were eligible for the Plan once they had completed one full year of service in accordance with the Plan. After the Plan Freeze Date, no new participants were allowed into the Plan and pension benefits stopped accruing.

Benefits: The Plan provides for normal retirement at age 65 with completion of 15 years of service and provides 100% cliff vesting upon completion of 5 years of service. Benefits are determined primarily as a function of both the years of service and the highest average compensation over 36 consecutive months at any time during the participants’ employment with the Employer. The Plan generally provides for a reduced benefit for early retirement.

Even though the Plan is frozen, a participant, through continued employment with the Employer, continued to earn eligibility credit for vesting and retirement purposes. Pension benefits for active participants in the Plan as of the Plan Freeze Date were based on pay and service earned through December 31, 2005.

Death and Disability Benefits: If an active employee dies, the spouse may be entitled to a spouse survivor benefit. Depending on the employee’s age and/or eligibility service at the time of death, the spouse may qualify for an immediate spouse survivor benefit or a deferred spouse survivor benefit. The amount of spouse survival benefit is dependent upon the employee’s length of service at time of death.

An active employee who becomes permanently disabled and has at least 15 years of eligible service may qualify for a retirement benefit as long as the disability exists. The disability benefit is a lifetime-unreduced pension equal to the pension benefit earned as of the date of retirement. A supplemental benefit payment from the Plan may be awarded to the disabled participant if he or she doesn’t qualify for social security disability benefits or is not old enough to receive social security old age payments at the time the disability retirement benefit begins.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting: The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America using the accrual basis of accounting.

Valuation of investments: The fair value of interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses. Investments are reported at fair value. Fair value is the price that would be received when an asset is sold or paid to transfer a liability in an orderly transaction between market participants at the measurement date. (See Note 6 for a description of fair value measurements under Accounting Standards Codification ("ASC") 820.) Investment income (loss) and realized and unrealized gains or losses are reported as a single amount as plan interest in investment gain (loss) of the Master Trust. (See Note 7 for information about the Master Trust.)

The Master Trust records purchases and sales of securities on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as those held during the year.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Risks and uncertainties: The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Administrative expenses: The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain investment-related expenses are included in net appreciation of fair value of investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Subsequent events: The Plan has evaluated subsequent events through September 25, 2014, the date the financial statements were available to be issued.

3. FUNDING POLICY

The Employer contributes such amounts as are necessary (calculated on an actuarial basis) to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants. For 2013 and 2012, the minimum funding requirements of ERISA, as determined by consulting actuaries, have been met.

4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) current employees or their beneficiaries. Because the benefits under the Plan are frozen, the accumulated plan benefits for active employees are based on their accrued benefits as of the December 31, 2005 Plan Freeze Date. Future active employee compensation and credited service increases are no longer applicable after the Plan Freeze Date. Due to the plan freeze, benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included and are fully attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits of the Plan is as follows:

	<u>January 1, 2013</u>	<u>January 1, 2012</u>
Vested benefits:		
Participants and beneficiaries currently receiving benefits	\$ 10,580,784	\$ 9,411,551
Other participants	<u>10,195,200</u>	<u>10,761,871</u>
Total vested benefits	20,775,984	20,173,422
Non-vested benefits	<u>381,417</u>	<u>476,741</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 21,157,401</u>	<u>\$ 20,650,163</u>

The changes in the actuarial present value of the Plan's accumulated plan benefits are as follows:

	<u>January 1, 2013</u>	<u>January 1, 2012</u>
Actuarial present value of accumulated plan benefits at beginning of period	\$ 20,650,163	\$ 19,005,548
Increase (decrease) during the period attributable to:		
Benefits paid	(857,056)	(779,905)
Interest due to the decrease in the discount period	1,354,850	1,340,323
Actuarial gain	(24,861)	(153,353)
Change in assumptions	<u>34,305</u>	<u>1,237,550</u>
Net increase	<u>507,238</u>	<u>1,644,615</u>
Actuarial present value of accumulated plan benefits at end of period	<u>\$ 21,157,401</u>	<u>\$ 20,650,163</u>

The actuarial present value of accumulated plan benefits is determined by independent actuaries and reflects actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and expected date of payment.

Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, the effect of such changes could be material to the Plan's financial statements.

The significant actuarial assumptions used in the valuations for 2013 and 2012 are shown below:

Investment return	-	6.70%
Rate of pay increases	-	Not applicable
Mortality basis	-	Mortality tables as described under Section 430(h)(3)(A) of the Internal Revenue Code using static tables with blended mortality rates for annuitants and non-annuitants for small plans
Average retirement age	-	Ranging from 1% at age 50 to 100% at age 65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2013 and 2012. Had the valuations been performed as of December 31, there would be no material difference.

5. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (“IRS”) has determined and informed the Plan by a letter dated October 27, 2008, that the Plan, as amended through November 2007, and related trust were designed in accordance with applicable regulations of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the determination letter, and a request for a new determination letter was made in January 2013. The Plan administrator believes the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for federal income taxes has been included in the Plan’s financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

6. FAIR VALUE MEASUREMENTS

The Plan’s investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits.

Financial Accounting Standards Board (FASB) ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs into three broad levels:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access.
Level 2	Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.	
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Level 1: The master trust in which the Plan's investment assets are held did not have any Level 1 investments.

Level 2: The Plan's investments, which are held in a master trust, consist of common trust funds. The value of the common trust funds are based on the net asset value (NAV) of the underlying assets.

Level 3: The master trust, in which the Plan is invested, did not have any Level 3 investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

7. INTEREST IN URS GOVERNMENT SERVICES GROUP MASTER TRUST

The Plan's investment assets are held in a trust account at The Bank of New York Mellon ("Trustee") and consist of an undivided interest in an investment account of the URS Government Services Group Master Trust ("Master Trust"), a master trust established by Westinghouse Government Services Company, LLC and Washington Government Environmental Services Company, LLC, subsidiaries of the Company, and administered by the Trustee. Use of the Master Trust permits the commingling of trust assets with the assets of three other pension plans sponsored by the Company for investment and administrative purposes. Although assets of the four pension plans are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income (loss) of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

The Plan had a 12% and 14% interest in the Master Trust's net assets at December 31, 2013, and 2012, respectively. At December 31, 2013 and 2012, the assets of the Master Trust were invested in common trust funds. The fair value of investments was \$170,137,842 and \$160,110,287 at December 31, 2013 and 2012, respectively.

The net investment earnings for the common trust funds of the Master Trust were \$13,341,784 and \$19,239,720 for the years ended December 31, 2013, and 2012, respectively.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2013, and 2012:

Financial Accounting Standards Board ASU 2009-12, *Fair Value Measurement and Disclosure (Topic 820): Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)* requires disclosures of certain attributes in entities that calculate a net asset value (NAV) per share (or its equivalent) and do not have a readily determinable fair value. (a) Investment funds are stated at fair value based on the quoted market prices of the underlying assets, which represent the net asset value (NAV) of shares held by the Master Trust at year-end.

Changes in fair value levels: The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan administrator evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for

benefits. For the years ended December 31, 2013 and 2012, there were no significant transfers in or out of Levels 1, 2 or 3.

8. INFORMATION CERTIFIED BY PLAN TRUSTEE

The Plan administrator has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, no independent auditing procedures were performed with respect to the information certified by the Trustee, as of December 31, 2013 and 2012.

The information certified by the Trustee was the annual report and accounting for the years ending December 31, 2013 and 2012, which includes beginning and ending balances of assets, and a detailed listing of the transactions in the various funds, including investment gains (losses).

9. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

One of the Plan investments at December 31, 2013 and 2012, is shares of a common trust fund managed by the Trustee; and therefore, this transaction qualifies as party-in-interest transactions and is exempt from the prohibited transaction rules of ERISA. Fees paid by the Plan for investment management services of the common trust funds were included as a reduction of the return on each fund. Fees paid by the Plan for investment fund services provided to the Master Trust were \$34,871 and \$33,590 for the years ended December 31, 2013 and 2012, respectively, and reported as a deduction in the Statements of Changes in Net Assets Available for Benefits.

10. PLAN TERMINATION

Although it has not expressed any intention to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated as specified by the Plan document in accordance with ERISA and its related regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the form of benefit payment elected by the participant at Plan termination. The ceiling varies depending on the form of benefit payment elected by the participant at the time of termination.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

11. CURRENT LITIGATION

On September 26, 2006, a retired employee filed a class action complaint against the Company, the Plan, and the Plan trustees in the Court of Common Pleas for Aiken, South Carolina. Plaintiff alleged that 2004 and 2005 amendments to the Plan, involving elimination of a monthly supplemental medical benefit for early retirees, constituted breach of contract, fraud, conspiracy, unjust enrichment, and violated ERISA anti-cutback provisions. Plaintiff sought a declaratory judgment, injunction, disgorgement, and compensatory and punitive damages on behalf of himself and other similarly situated retirees. The Company removed the action to the United States District Court for South Carolina. The Company's motion to dismiss for failure to exhaust administrative remedies and dismissal of the breach of contract and common law claims was granted. Plaintiff pursued an administrative hearing through the Plan Administrative Committee and his claim was denied. Plaintiff then re-filed his Complaint in Federal Court seeking only statutory ERISA remedies. The Company again moved for Summary Judgment on the basis that the Company's acts did not violate Federal ERISA statutes. The District Court granted the Company's Motion. A final judgment was entered in favor of the Company and Plaintiff appealed this judgment to the Fourth Circuit Court of Appeals.

On March 20, 2012, the Fourth Circuit Court of Appeals ruled in a narrow, unpublished opinion, that the "plain language" of the Plan established that the supplemental medical benefit was an "accrued benefit" that early retirees who meet Plan criteria are entitled to and that cannot be eliminated. Consistent with the Fourth Circuit ruling, the District Court vacated the grant of summary judgment in the Company's favor and granted Plaintiff's motion for summary judgment. On August 28, 2012, the District Court certified the complaint as a Class Action. Two classes were defined: (1) the Savani Class of individuals who, if they chose to retire early, were eligible for the medical supplement when the Plan was frozen in December 2005; and (2) the Taylor Subclass including individuals that allege that they continued to accrue eligibility for the medical supplement as early retirees after the Plan was frozen in December 2005.

On November 19, 2013, the Federal District Court entered judgment for the Savani Class members and ordered the Company to pay \$1.8 million in past due benefits to early retirees eligible for the medical supplement before the Plan was frozen, to continue to pay the benefit monthly to those eligible retirees going forward until they reach normal retirement age, and to pay \$475,000 in attorney fees and costs to class counsel Stanley Jackson. AIG, the Company's fiduciary insurance carrier paid \$237,500 of the attorney fee and cost award. The remainder of the Savani class judgment was distributed from Plan assets.

On November 19, 2013 the Federal District Court also ruled that Taylor Subclass members who choose early retirement are also eligible for the early retirement medical supplement and could continue to accrue eligibility even though the Plan was frozen in December 2005. The Company has appealed the Taylor Subclass decision to the Fourth Circuit Court of Appeals. Oral argument on appeal was heard September 16, 2014. If the District Court judgment for the Subclass is affirmed some minimal past due benefits will be paid to early retirees who meet Plan criteria with monthly benefits paid going forward. Actuaries will consider the outcome in calculating future contributions to the Plan and the Company will seek reimbursement from the Federal

Government for Plan expenditures associated with this litigation. The Company's attorney fees and costs for this litigation continue to be covered by fiduciary insurance.

Schedule SB, Part V Summary of Plan Provisions as of January 1, 2013

Plan Provisions

The plan was originally effective October 1, 1997 and was frozen as of December 31, 2005. It was amended and restated effective August 10, 2012. This valuation accounts for the plan as amended through the valuation date.

Covered Employees	Eligible employees who were participating in the WSRC plan on September 30, 1997 became participants on the Effective Date. Employees of WSMS who are either a Full Service Employee (working at least 20 hours a week on a regular basis) or a Limited Service Employee (working part-time with less than 1,000 Hours of Service). Employees are no longer eligible to enter the plan as of December 31, 2005.
Participation Date	A Full Service Employee becomes a participant on date of hire. A Limited Service Employee becomes a participant after completing one year of Eligibility Service.

Definitions

Eligibility service	Includes all service with WSMS, WSRC, Westinghouse Electric Corporation, and affiliated entities. For those Employees employed on or before December 31, 1995, at least 1,000 hours of service count as one full year of Eligibility Service. After January 1, 1996, however, Eligibility Service for a Full Service Employee begins on the date the Employee completes an Hour of Service. Eligibility Service for Full Service Employees also includes defined absences.
Credited Service	<p>Full Service Employee: Credited Service begins on completion of an Hour of Service and ends on Severance Date.</p> <p>Limited Service Employee: one year of Credited Service for each year of Eligibility Service when the Employee completes 2,080 Hours of Service. However, if Hours of Service are at least 1,000, but less than 2,080, Credited Service is based on a fraction of Hours of Service over 2,080.</p> <p>Prior to September 30, 1997, all service as an Employee was generally included as Credited Service. Credited Service includes service with WSMS and WSRC.</p> <p>Credited service will no longer be accrued after the plan freeze date of December 31, 2005.</p>
Vesting Date	The date the Participant completes five years of Eligibility Service.
Plan Compensation	Regular compensation paid to a participant including overtime, shift differential, holiday pay, employee certification pay, and 50% of the incentive compensation award. Only incentive compensation awards for the 120 months preceding retirement or termination will be taken into account in computing Average Monthly Pay. Average Monthly Pay is frozen as of December 31, 2005.

Member Paid Pre-Retirement Spouse Benefits Active Full Service Employee, age 55 or older with 15 or more years of Eligibility Service.

Pre-Payment Spouse Benefits (from a Deferred Vested Pension Benefit) Paid to employees who are either (i) or (ii):

- (i) Vested active Full Service Employee with less than 15 years of Eligibility Service
- (ii) Terminated vested employee who left WSMS with a Deferred Vested Pension Benefit.

Post-Payment Spouse Benefits (from a Deferred Vested Pension Benefit) A married employee who has commenced their vested pension payments.

Post-Retirement Spouse Benefits A married employee who has retired with a Normal, Early, Optional or Incapability Benefit.

Benefits Paid Upon Eligibility and Status

Normal Retirement Benefit A monthly amount equal to the greatest of:

- (i) 1.2% of Average Monthly Pay multiplied by Credited Service;
- (ii) 1.5% of Average Monthly Pay multiplied by Credited Service minus 50% of the primary Social Security benefit; or
- (iii) \$9 multiplied by Credited Services plus 10% of Average Monthly Pay.

The monthly pension amount is offset by the accrued benefit under the WSRC plan as of September 30, 1997 calculated using Average Monthly Pay based on base pay at retirement.

Supplemental Retirement Benefit \$200 for the life of the employee, which will continue after the employee's death to the employee's spouse for the spouse's lifetime.

Early Retirement Benefit The monthly regular pension is either:

- (i) a regular pension deferred to age 65 equal to the normal retirement pension accrued to date of retirement; or
- (ii) an immediate regular pension equal to the deferred pension as follows:
 - Service at retirement $\leq$ 20 years: 5% for each year prior to age 65 that payments commence (50% maximum reduction),
 - Service at retirement $>$ 20 and $<$ 27: 5% times (85 minus age minus service) up to a maximum of 50%, or
 - Service at retirement $\geq$ 27: 5% for each year prior to age 58 that payments commence.

If a participant is at least age 58 with age plus service at least equal to 85, early retirement benefit is unreduced.

Post-Payment Spouse Benefits
(From a Deferred Vested Pension Benefit)

Immediate benefit payable to spouse equal to actuarially reduced monthly deferred vested pension payments. If death occurs while receiving deferred vested pension payments, with this coverage in effect, spouse will receive monthly payments equal to 50% of the reduced pension benefit.

Post-Retirement Spouse Benefits

Spouse will receive 10% of reduced (actuarially) pension benefit amount combined with Employer-Paid Survivor Benefit.

Other Plan Provisions

Forms of payment

Normal form of payment

Unmarried Participant: Single life annuity.

Married Participant:

- For retirement eligible participants, a single life annuity plus the Employer Paid Survivor Benefit and the Post-retirement Spouse Benefit, but not less than a 50% joint and survivor annuity.

The Employer Paid Survivor Benefit form reduction is based on the tabular reduction factors in Appendix E of the plan document if applicable.

The Post-retirement Spouse Benefit form reduction is based on the rounded interest rate in Appendix A*, which is used to look up the tabular reduction factors in Appendix D of the plan document. The benefit is further reduced, if applicable, for the Member Paid Pre-retirement Spouse benefit.

- For participants eligible for a vested pension, a 50% joint and survivor annuity which is a single life annuity plus the Post-payment Spouse Benefit.

The 50% joint and survivor benefit form reduction is based on the rounded interest rate in Appendix A*, which is used to look up the tabular reduction factors in Appendix C of the plan document. The benefit is further reduced, if applicable, for the Pre-payment Spouse Benefit.

Forms of payment (continued)

Optional forms of payment

- Income leveling option if elected Early or Optional retirement before age 62. Benefit adjustment is determined using either (1) the applicable interest rate and mortality table under 417(e) or (2) the rounded interest rate in Appendix A*, which is used to look up the tabular reduction factors in Appendix B of the plan document, whichever produces the higher benefit.
- Joint and 75% survivor annuity. The optional benefit form reduction shall be computed using a 5% interest rate and the GAM 71 mortality table.
- Joint and survivor annuity (10%, 20%, 30%, 40% maximum J&S annuity based on reduced pension) if age 50 with at least 25 years of Eligibility Service at retirement or eligible for unreduced benefit. Optional benefit form reduction is based on the rounded interest rate in Appendix A*, which is used to look up the tabular reduction factors in Appendix D of the plan document.

* The interest rate per Appendix A of the plan document is based on the average PBGC immediate annuity rates for the preceding quarter but no less than 5% or greater than 15%.

Mandatory lump-sum cashout under \$1,000

A lump sum payment of Equivalent Actuarial Value shall be made in lieu of all benefits if the present value of benefits payable is \$1,000 or less. For this purpose, the Equivalent Actuarial Value is calculated using the applicable interest rate and mortality table under 417(e).

Pension Increases

None.

Plan Participants' Contributions

None permitted.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions. Towers Watson is not aware of any future plan changes which are required to be reflected.

Changes in Benefits Valued Since Prior Year

There have been no changes to benefits valued since the prior year, other than the increase in the maximum benefit limit under IRS §415 as of January 1, 2013 which had no impact on the funding target.

Substantive Commitment

No substantive commitments other than the above plan provisions have been included in this valuation.

Schedule SB, Line 24 Change in Actuarial Assumptions

Other than the prescribed changes in the discount rate and mortality, the following other change in assumptions was made as part of this valuation:

- ▶ The administrative expense assumption has been changed to reflect PBGC premium increases. For the January 1, 2013 valuation, expected administrative expenses are based on the average actual administrative expense net of PBGC premiums for the prior three years, plus the expected PBGC premium for the current year, rounded to the nearest thousand. For the January 1, 2012 valuation, the administrative expense assumption was based on the average of the prior three years actual expenses including PBGC premiums, rounded to the nearest thousand.

There were no other changes to non-prescribed actuarial assumptions for the January 1, 2013 valuation.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
