Contributions

Full time employees are automatically enrolled in the Plan upon hire but are provided the option to opt out of participating in the Plan. For the years ended December 31, 2013 and 2012, each participant's annual compensation is required to be reduced by 3%, which represents the Automatic Core Contribution. These contributions are classified as employer contributions. A participant may also elect to contribute up to an additional 50% of their annual compensation, within certain limitations, to the Plan on a pre-tax or post tax basis.

In addition to the 3% Automatic Core employer contribution described above, the Company may, in its discretion, make a Regular Matching Contribution to the Plan for each Plan year up to an additional 3%, which shall be determined by the Company for each Plan year. The discretionary Regular Matching Contribution was 3% for the years ended December 31, 2013 and 2012.

Participant Accounts

Each participant's account is credited with the participant's contribution, employer contributions and an allocation of Plan earnings, losses and expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Each participant is fully vested in his or her Automatic Core Contributions and elective employee contributions immediately and becomes fully vested in his or her employer Regular Matching Contributions upon completion of three years of vesting service or upon reaching normal retirement age of 65, with no vesting during the first two years.

Benefits
On termination of service due to death, disability, retirement or otherwise leaving employment, the participant or beneficiary may elect to receive a lump sum amount equal to the value of the vested balance allocated to his account. If a participant's vested interest in his or her account does not exceed $1,000, distribution of such interest shall be made in a lump sum payment or through direct rollover.

Notes Receivable from Participants
Notes receivable from participants are permitted under the Plan and are subject to such conditions and limitations as the Retirement Plan Administrative Committee deems necessary for administrative convenience and to preserve the tax-qualified status of the Plan.

No loan to any participant or beneficiary may be made to the extent that such loan, when added to the outstanding balance of all other loans to the participant or beneficiary, would exceed the lesser of (a) $50,000 reduced by the excess (if any) of the highest outstanding balance of loans during the one-year period ending on the day before the loan is made, or (b) one-half the current value of the nonforfeitable accrued benefit of the participant. The loan terms are generally between one and five years with a term of up to twenty years for the purchase of a primary residence.

Loans shall be made available to all participants and beneficiaries on a reasonably equivalent basis. Loans shall not be made available to highly compensated employees (as defined in Section 414(q) of the IRS Code) in an amount greater than the amount made available to other employees. Loans must be adequately secured using not more than 50% of the participant's vested account balance and bear a reasonable interest rate. Interest rates ranged from 4.25%-9.5% at December 31, 2013 and 2012. Delinquent notes receivable from participants are classified as distributions. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Forfeitures
When a participant terminates employment prior to vesting in all of his or her employer contributions, such employer contributions and the net investment income thereon are forfeited. Forfeitures are used to reduce employer contributions under the Plan. During 2013, $622,320 of forfeitures were used to offset employer contributions. At December 31, 2013 and 2012, unallocated forfeitures totaled $679,035 and $670,175, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates
The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

The preparation of financial statements in conformity with GAAP in the United States of America requires management to make estimates that affect the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. As required by the guidance, the Statements of Net Assets Available for Benefits present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation in the fair value of its investments which consists of the net realized gains and the net unrealized appreciation on those investments.

Purchases and sales of securities are recorded on a trade-date basis. Income from investments is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

Risks and Uncertainties
The Plan provides for various investments in any combination of collective trusts and mutual funds. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Administrative expenses, such as legal, accounting, recordkeeping and trustee fees, are paid entirely by the Company. Loan processing fees and investment management fees are deducted from the participant's account balance.

Recent Accounting Pronouncements
In December, 2011, FASB issued ASC Update, 2011-11, *Disclosures about Offsetting Assets and Liabilities,* which provides guidance on disclosure requirements for offsetting financial assets and liabilities. The retrospective application of this guidance is effective for annual periods beginning January 1, 2013. The adoption of this guidance did not have a material effect on the Plan's financial statements.

In July 2013, FASB issued ASC Update 2013-09, Fair Value Measurement (Topic 820): Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update 2011-04. This update applies to disclosures of certain quantitative information about the significant unobservable inputs used in Level 3 fair value measurement for investments held by certain employee benefit plans. The update is effective immediately and did not have a material effect on the Plan's financial statements.

3. Plan Trustee Certification

Except as noted below, information relating to investments (including investment information in Note 4), notes receivable from participants, the net appreciation in the fair value of investments, interest income on notes receivable from participants, and dividend income was submitted to the plan administrator and certified to be complete and accurate by Vanguard Fiduciary Trust Company as of December 31, 2013 and 2012 and for the year ended December 31, 2013.

The Vanguard Retirement Savings Trust was certified at its contract value of $37,442,318 and $36,655,325 as of December 31, 2013 and 2012, respectively. The adjustment from fair value to contract value for the Plan's interest in the Vanguard Retirement Savings Trust of $(1,018,431) and $(1,873,087) as of December 31, 2013 and 2012, respectively, was not certified.

4. Investments

The following table presents investments that represent five percent or more of the Plan's net assets available for benefits:

	Fair Value at December 31,	
	2013	2012
Vanguard Retirement Savings Trust III	$ 38,460,749	$ 38,528,412
Vanguard Institutional Index Fund	39,665,584	29,640,142
Vanguard Target Retirement 2025 Fund	31,645,565	26,764,133
Vanguard Target Retirement 2020 Fund	25,259,198	21,619,967
Vanguard Target Retirement 2030 Fund	24,429,257	19,731,069
Vanguard Target Retirement 2035 Fund	20,917,930	16,521,319
Waddell & Reed Core Equity CIT; Class 2	28,418,868	23,777,819

The net appreciation in the fair value of investments for the year ended December 31, 2013 is presented below:

Mutual funds	$ 43,713,627
Collective trust	7,604,504
	$ 51,318,131

The Plan provides for investments that, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

5. Fair Value Measurements

FASB ASC 820, *Fair Value Measurement and Disclosures*, provides the framework for measuring fair value. That framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measures level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at quoted market prices that represent the net asset value ("NAV") of the shares held by the plan at year end.

Collective trusts: The fair market value of the Plan's interest in the collective trust has been determined using NAV and is used for expedience purposes. The NAV is based on the value of the underlying assets owned by the collective trust, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in a market that is not active. Participant transactions (issuances and redemptions) may occur daily. This investment allows for transfers out of the investment into a stock fund, a balanced fund, or a bond fund with an average duration of more than four years that must remain in the transferred fund for at least 90 days before it may be transferred into shorter-term bond or money market fund. There are no limitations over the amount or frequency in which money may be transferred into the trust. There are no unfunded commitments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investment holdings at fair value were comprised of the following at December 31, 2013:

	Investment Assets at Fair Value as of December 31, 2013			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds				
Index funds	$ 91,475,707	$ -	$ -	$ 91,475,707

Total investment assets at fair value	$ 291,335,057	$ 66,879,617	$ -	$ 358,214,674

Investment holdings at fair value were comprised of the following at December 31, 2012:

	Investment Assets at Fair Value as of December 31, 2012			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds				
Index funds	$ 64,645,540	$ -	$ -	$ 64,645,540

Total investment assets at fair value	$ 234,084,792	$ 62,306,231	$ -	$ 296,391,023

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. The Plan does not hold any investments requiring Level 3 measurements and there have not been any transfers of assets between the levels from 2012 to 2013.

6. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated April 7, 2009, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code. The Plan has subsequently been amended. The Company believes the Plan continues to be designed and operating in compliance with applicable requirements of the Internal Revenue Code.

The Company has analyzed the tax positions taken by the Plan, and concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is no longer subject to income tax examinations for years prior to 2010.

7. Plan Termination

While the Company has not expressed any intent to terminate the Plan, it reserves the right to do so at any time. In the event the Plan is terminated, participants will become 100% vested in their accounts, and the assets would be distributed to participants in accordance with the terms set forth in the Plan.

8. Party-In-Interest Transactions

Certain investments of the Plan are shares of mutual funds and units of a collective trust managed by the trustee. Transactions involving these investments, in addition to transactions involving notes receivable from participants are considered to be party-in-interest transactions.

9. Reconciliation to Form 5500

The 2013 and 2012 Form 5500's has been prepared using the fair value of the Plan's investment in the Vanguard Retirement Savings Trust, while the contract value of this fund has been used in the statements of net assets available for benefits. The following is a reconciliation of the amounts reported in the financial statements as of December 31, 2013 and 2012 and for the year ended December 31, 2013 to the Form 5500:

	2013	2012
Net assets available for benefits per financial statements	$ 368,202,396	$ 303,815,075
Adjustment to contract value for interest in collective trust relating to fully benefit-responsive investment contracts	1,018,431	1,873,087
Net assets available for benefits per Form 5500	$ 369,220,827	$ 305,688,162
Total investment income and loan interest per financial statements	$ 58,987,651

10. Subsequent Events

The Plan has evaluated subsequent events through September 26, 2014, which is the date these financial statements were available for issuance.

Effective July 1, 2014, the RS Partners Fund investment was replaced with the DFA US Small Cap Portfolio Institutional investment. Participant's accounts were automatically transferred between these investments unless otherwise directed.
