Notes to Financial Statements
December 31, 2013 and 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of the FFF Enterprises 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for more detailed information of the Plan's provisions.

General - The Plan is a defined contribution plan. The Plan was established effective January 1, 1994. The Plan covers all employees of FFF Enterprises (the Company) who are at least 18 years of age and have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants' contributions are made to the Plan by means of a salary deferral agreement under which the participant is entitled to defer the lesser of 100 percent of their compensation or a fixed amount determined annually by the Internal Revenue Service. The Company, at its option, may make discretionary matching contributions. For the years ended December 31, 2013 and 2012, the Company matched voluntary participant contributions at a rate of 25 percent of the participants' compensation that is deferred up to a maximum of 5 percent of the participant's compensation. For the years ended December 31, 2013 and 2012, discretionary matching contributions of $99,263 and $101,323 were allocated to the Plan. In addition, the Company, at its option, may contribute a portion of its current profits. For the years ended December 31, 2013 and 2012, no discretionary profit sharing contributions were allocated to the Plan.

Participant Accounts - Participant accounts are credited with each participant's contribution, as well as any Company contributions and an allocation of the Plan earnings or losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in their account.

Vesting - Participants are fully vested and entitled to receive their full account balance upon retirement, disability or death. Normal retirement date is the date at which the participant reaches 65 years of age. Participants who terminate employment other than by retirement, disability or death will be entitled to all of their contributions plus actual earnings thereon. Vesting in the remainder of their account is based on years of continuous service. The employer's contributions vest according to the following schedule:

Years of Service	Vested Percentage
Less than 1 year	0%
1 year	20
2 years	40
3 years	60
4 years	80
5 years	100

Notes to Financial Statements
(Continued)
December 31, 2013 and 2012

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants - The Plan allows participants to borrow up to 50 percent of their vested account balances, but not less than $1,000 and no more than $50,000. The loan repayment period must be no more than five years with the interest rate determined based on the rate a bank or professional lender would charge. Home loans can be repaid over a reasonable period of time that may exceed five years.

Forfeited Accounts - Participants terminating employment with the Company will forfeit any nonvested employer profit sharing contributions. Forfeitures will be used to reduce employer matching discretionary contributions. At December 31, 2013 and 2012, forfeited non-vested accounts totaled none and $25,443, respectively. During the years ended December 31, 2013 and 2012, forfeitures used to reduce employer contributions were $29,660 and none, respectively. The Plan applied forfeitures of $560 and $100 to plan expenses for the years ended December 31, 2013 and 2012, respectively.

Investments - Each participant directs the allocation of his or her contribution, and employer matching and discretionary contributions to one or more of 32 investment options. Participants may change their investment elections at any time by telephone or internet as allowed by the plan administrator.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The financial statements have been prepared in compliance with the Department of Labor Rules and Regulations for reporting the disclosure under ERISA.

Basis of Accounting - The financial statements have been prepared on the accrual basis of accounting.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses - Expenses incurred in the administration of the Plan are paid by both the Plan and the Company.

Risk and Uncertainties - The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level or risk associated with certain investment securities and the level of uncertainty related to changes in the value of investments securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Subsequent Events - The Plan evaluated subsequent events through September 16, 2014, the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

NOTE 4 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means.
	If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies (Mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed interest contract: Guaranteed interest contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013.

		Guaranteed interest contract
Balance, beginning of year	$	586,735
Contributions		35,913
Loan interest		1,493
Interest credited		--
Net unrealized gains		13,485
Net forfeitures		4,396
Transfers from other accounts		500,640
Net loan activity		(13,723)
Benefit payments		(251,738)
Expenses		(2,990)
Balance, end of year	$	874,211

Unrealized gains/(losses) from the guaranteed interest contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The Plan bases its determination of the fair value of its guaranteed interest contract (GIC) on the liquidation value of the contract, which is equal to the fair value of the underlying separate account. Because there is judgment involved in concluding that the fair value of the guaranteed interest contract is equal to its liquidation value, the Plan has classified the contract as a Level 3 asset.

The valuation of the underlying Separate Account held at Mass Mutual for each plan's GIC is the sole input to the Fair Value. The client holds units of participation in the underlying Separate Account, and therefore the beginning units x beginning unit value, plus net units purchased or sold, equals the ending units x ending unit value. In this respect, the Fair Value is straight forward.

NOTE 5 - INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Hartford Life Insurance Company and Mass Mutual Life Insurance Company, the custodians of the Plan, have certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012.
- Net appreciation in fair value of investments, interest and dividends, and other income reflected on the accompanying Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2013 and 2012.

Effective November 13, 2012, all Plan assets were transferred from Hartford Life Insurance Company to Mass Mutual Life Insurance Company.

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, so that each participant receives 100 percent of his or her account balance as of the date of termination.

NOTE 7 - TAX STATUS

The Plan document is a volume submitter profit sharing plan sponsored by Mass Mutual Life Insurance Company that received a favorable opinion letter from the Internal Revenue Service (IRS) on May 8, 2009, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designated and being operated in compliance with the applicable requirement of the IRC.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. With few exceptions, the Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to tax examinations for years prior to 2010.
