OHIO MEDICAL CORPORATION 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of accounting - The plan follows the accrual method of accounting wherein additions and deductions are reflected in the period earned or incurred.

Accounting estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Subsequent events - The financial statements include management's evaluation of the events and transactions occurring subsequent to December 31, 2013 through August 20, 2014, which is the date the financial statements were available to be issued.

Risks and uncertainties - The plan invests in various investments. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Key parties of the plan - Ohio Medical Corporation is the plan sponsor/employer and the plan administrator. Bank of America, N.A. is the trustee that has custody of plan assets. Merrill Lynch, Pierce, Fenner & Smith, Inc. Retirement Services is the plan's third party administrator that maintains participant records, tax counsel that performs various compliance tests and investment advisor.

Investments - The plan administrator determines the investments available to plan participants. The participants allocate their contributions and transfer existing balances among the available investment options.

The mutual fund investments are recorded at fair value based on quoted market values.

The common collective trust, Invesco Stable Value Trust, is a stable value fund that invests directly in a common trust fund that holds fully benefit-responsive investment contracts offered by insurance companies, banks and other financial institutions. The fair value of the common collective trust is determined based on the plan's pro rata ownership as certified by the trustee. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement

attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The accompanying statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statements of changes in net assets available for benefits were prepared on a contract value basis.

The net appreciation (depreciation) in the fair value of investments bought, sold and held during the years is reflected in the statements of changes in net assets available for benefits. Participants should refer to the prospectuses and annual reports of the investments for more information.

Fair value measurements - Accounting principles generally accepted in the United States of America establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical investments (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows.

- Level 1 - Valuation is based upon quoted prices in active markets for identical investments.
- Level 2 - Valuation is based upon other significant observable inputs (including quoted prices for similar investments).
- Level 3 - Valuation is based upon significant unobservable inputs (including the plan's assumptions in determining the fair value of investments).

The fair value methodology applied by the plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The plan administrator determines by level, within the fair value hierarchy, the plan's investments at fair value as of December 31, 2013 and 2012 as set forth below.

The mutual fund categories below were determined by the plan administrator based on fund objectives as published by Morningstar as of December 31, 2013 and 2012.

2. DESCRIPTION OF PLAN

The following description of the plan provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

General - The plan was established as a defined contribution plan on February 22, 1963. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent amendments.

Eligibility - Employees who have attained the age of eighteen, other than employees classified as temporary employees, are eligible to participate in the plan. Temporary employees, as defined in the plan document, are not eligible to participate in the plan. Employees can enter the plan immediately upon attaining the age eighteen or immediately following the commencement of employment.

Contributions - Contributions to the plan can be made in the following ways:

- a. Participants may contribute a percentage of their annual compensation subject to certain limitations (employee elective deferral contributions). The plan also permits Roth elective deferrals.
- b. Employee rollover contributions are accepted by the plan from other qualified plans.
- c. Employer matching and profit sharing contributions may be made at the employer's discretion. Employer matching contributions, funded bi-weekly coinciding with each payroll, were 50% of the first 4% of compensation that a participant contributes to the plan in 2013 and 2012. Effective January 2014, the employer match contributions were increased to 50% of the first 4% plus 25% of the next 1% of compensation that a participant contributes to the plan (maximum match of 2.5%). No employer profit sharing contributions were made in 2013 and 2012.

Participant accounts - Contributions are remitted to the third party administrator who invests them in accordance with the investment options selected by the participants. The values of the investments are adjusted daily to reflect the earnings plus the fair value appreciation (depreciation). Participants are allowed to transfer funds between the various investment options and change their deferral percentage at any time.

Vesting - Participants are always 100% vested in their elective deferral, rollover and discretionary employer matching contributions and related earnings. Participants begin vesting in discretionary employer profit sharing contributions and related earnings upon two years of service at which time they are 20% vested. The participant then vests at the rate of 20% for each year thereafter. Upon death, disability or qualified retirement, participants become 100% vested.

Payment of benefits - Benefit payments may commence upon termination of employment, death, disability or attainment of normal retirement age. Participants may elect their distribution to be in the form of a single lump sum or installment payments. In-service withdrawals can commence upon attaining the age of 59½. Hardship withdrawals are permitted under certain circumstances.

Administrative fees - Certain administrative fees of the plan are paid by the employer.

Notes receivable from participants - Participants can take out loans against their accounts with the approval of the plan administrator. The minimum loan amount is \$1,000 and the maximum amount is the lesser of one-half of the participant's vested account balance or \$50,000. The repayment term generally cannot exceed 5 years, the exception being when the loan is for the purchase of a primary residence. As of December 31, 2013, loans outstanding had various repayment schedules through May 2018 with interest rates at 4.25%. The notes receivable from participants are valued at their unpaid principal balances plus any accrued but unpaid interest, which approximates fair value.

3. RELATED PARTY TRANSACTIONS

Certain plan investments are shares of funds managed by Bank of America, N.A. Bank of America, N.A. is the trustee that has custody of plan assets and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for Bank of America, N.A. investment management services were \$3,700 and \$3,600 in 2013 and 2012. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

4. TERMINATION OF PLAN

Although it has not expressed any intent to do so, the employer has the right to terminate the plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their employer profit sharing contributions and related earnings.

5. INCOME TAX STATUS

The plan adopted the Merrill Lynch, Pierce, Fenner & Smith, Inc. prototype non-standardized profit sharing plan with CODA. The prototype plan received its most recent favorable determination letter on March 31, 2008 in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. As a result, the plan administrator has not obtained a separate Internal Revenue Service determination letter for the plan. The plan administrator and tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

6. INFORMATION CERTIFIED BY TRUSTEE

The trustee of the plan, Bank of America, N.A., holds the plan's investment assets and executes investment transactions. The trustee has certified the following information to be complete and accurate.

- a. Investments held by the plan and the fair values of such as of December 31, 2013 and 2012;
- b. The contract values of the Invesco Stable Value Trust as of December 31, 2013 and 2012;
- c. Interest income, dividends, capital gains distributions and the net appreciation (depreciation) of investments during 2013 and 2012;
- d. Contributions to, withdrawals from, purchases, sales and interfund transfers between accounts during 2013 and 2012; and
- e. Individual participant account statements (which include beginning account balances, contributions, investment income (loss), transfers, withdrawals and ending account balances) during 2013 and 2012.

As allowed by Department of Labor regulations, the investments and investment activity have been excluded from the scope of the independent auditors' auditing procedures. All noninvestment activity for the plan, including contributions, benefit payments and participant account activity, has been subject to the independent auditors' auditing procedures. See independent auditors' report.
