1. Description of the Plan:

The following description of the Skyline Chili, Inc. Profit Sharing and 401(k) Plan (the "Plan") is provided for general informational purposes only. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Skyline Chili, Inc. (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees who have attained the age of 19 and completed 90 days of service of not less than 246 hours are eligible to participate in the Plan.

Contributions

Each year, participants may contribute up to the maximum annual dollar limit permitted by law of annual pre-tax compensation, as defined by the Plan. In addition, the Plan allows Roth contributions using the same criteria. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company will contribute a discretionary matching contribution amount equal to 100 percent of the first 3 percent, and 50 percent of the next 2 percent of base compensation that a participant contributed to the Plan.

Participant accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as an allocation of plan earnings and losses thereon. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined by the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and discretionary matching company contributions that are deemed safe harbor contributions plus actual earnings and losses thereon. A participant is 100 percent vested after three years of credited service with respect to discretionary company contributions. Regardless of service, a participant's entire account balance becomes fully vested upon attaining normal retirement age, or termination of employment due to death or permanent disability.

Notes receivable from participants

Participants may borrow from their accounts up to the lesser of \$50,000 (reduced by the highest outstanding loan balance in their account during the prior twelve month period) or 50 percent of their vested account balance. The loan term is not to exceed five years unless the loan is for the purchase of a principal residence, in which case the term may be longer. The loans are secured by the balance in the participant's account and bear interest at the prime rate. Principal and interest are paid ratably through payroll deductions.

Benefit payments

On termination of service for death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the vested value of his or her account or installments over a period of time. Benefits are payable to designated beneficiaries in the event of a participant's death. Upon termination of employment for other reasons, participants may elect to rollover the vested balance to another qualified plan.

Forfeited accounts

Forfeited balances of terminated participants' non-vested accounts are used to reduce plan expenses and/or any future company contributions. At December 31, 2013 and 2012 forfeited accounts totaled \$3,254 and \$2,756, respectively. In 2013 no forfeitures were used to offset employer contributions.

2. Summary of Significant Accounting Policies:**Basis of accounting**

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Valuation of investments and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain professional and accounting fees incurred in connection with the operation of the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through August 21, 2014, the date on which the financial statements were available to be issued.

3. Investments Certified by Trustee:

All investment information disclosed in the accompanying financial statements and schedule, including investments held at December 31, 2013 and 2012, and net appreciation in fair value of investments, and interest and dividends, for the year ended December 31, 2013, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Reliance Trust Company.

4. Investments:

Investments that represent 5 percent or more of the fair value of the Plan's net assets are as follows:

	December 31,	
	<u>2013</u>	<u>2012</u>
Reliance Advisory Trust Inv 60	\$ 828,131	759,322
Reliance Advisory Trust Inv 80	931,498	674,126
Reliance Advisory TR International Equity	543,601	444,700
Reliance Advisory TR Fixed Income	742,013	738,823
Reliance Advisory TR Small/Mid Cap	875,804	636,249
Reliance Advisory TR Large Cap	2,358,575	1,676,958
Vanguard Balanced Index Fund	436,705	479,445
Goldman Sachs Prime Obligation Fund	710,291	570,278

During the year ended December 31, 2013, the Plan's investments (including investments bought, sold and held during the year) appreciated in value by:

Mutual funds	\$ 77,090
Common/collective trusts	<u>1,284,339</u>
	<u>\$ 1,361,429</u>

5. Fair Value Measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: 1. Quoted prices for similar assets or liabilities in active markets; 2. Quoted prices for identical or similar assets or liabilities in inactive markets; 3. Inputs other than quoted prices that are observable for the asset or liability; 4. Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual and money market funds: Valued at the quoted net asset value (NAV) of shares held by the plan at year end.

Common/Collective trusts: The common/collective trust funds are public investment vehicles valued using a NAV provided by the manager of each fund. The NAV is based on the underlying net assets owned by the fund, divided by the number of shares outstanding. The NAV's unit price is quoted on a private market that is not active. However, the NAV is based on the fair value of the underlying securities within the fund, which are traded on an active market, and valued at the closing price reported on the active market on which those individual securities are traded. The significant investment strategies of the funds are as described in the financial statements provided by each fund. There are no restrictions on redemptions from these funds.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012.

6. Plan Termination:

Although it has expressed no intention to do so, the Company has the right under the Plan to discontinue its contributions and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts, to the extent they are not already fully vested.

7. Tax Status:

The Internal Revenue Service has determined and informed the Company by a letter dated March 24, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. Party-In-Interest Transactions:

Certain Plan investments are common/collective trust funds issued by Reliance Trust Company. Reliance Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

9. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
