1. DESCRIPTION OF PLAN:

The following description of the Unifund (the "Company") 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan covers all employees of Unifund CCR Partners and Unifund CCR LLC who have completed three months of service and are age eighteen or older, other than non-resident aliens, co-op students, interns and H-1B visa holders.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may elect to defer a percentage of their gross wages up to 75% of their annual gross compensation. Participant deferral contributions are also subject to Internal Revenue Code ("IRC") limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. For 2013, the Company elected to make safe harbor matching contributions in an amount equal to 100% of the first 4% of eligible compensation that a participant contributed to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. The Company did not make profit sharing contributions during 2013. Contributions are subject to certain limitations. The Plan allows for Roth elective deferrals. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings and losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions, matching contributions, and profit sharing contributions, plus actual earnings and losses thereon.

Advance distribution for hardship

Participants may withdraw from their fund accounts in any one plan year up to the lesser of 100% of the vested interest in his or her account, or the amount necessary to satisfy the immediate and heavy financial need of the participant, if the participant has obtained all other currently available distributions and loans under the Plan.

Notes receivable from participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The notes receivable from participants are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of benefits

On termination of service due to death, disability, retirement, or other reasons, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

2. SUMMARY OF ACCOUNTING POLICIES:**Basis of accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. At December 31, 2013 and 2012, the investment contracts held by the Plan totaled \$89,855 and \$1,477, respectively. As such, the adjustment from fair value to contract value is immaterial and has not been presented on the statements of net assets available for benefits.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and payment of benefits are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Subsequent events

The Plan has evaluated subsequent events through September 19, 2014, the date the financial statements were available to be issued.

3. INVESTMENTS:

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

	<u>2013</u>	<u>2012</u>
Fidelity Advisor Freedom 2035 I	\$ 842,611	617,678
Fidelity Advisor Freedom 2040 I	751,400	484,178
Fidelity Advisor Freedom 2025 I	576,152	429,719
Fidelity Advisor Freedom 2050 I	501,387	414,543
Fidelity Advisor Freedom 2015 I	495,670	726,005
Fidelity Advisor Freedom 2030 I	481,452	437,460
BlackRock Equity Dividend I	431,194	269,579
Fidelity Advisor Freedom 2045 I	**	398,255

** Investment was less than 5% of net assets

During 2013, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$644,181.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual and money market funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee of the funds, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the funds less its liabilities. This practical expedient is not used when it is determined to be probable that the funds will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. There are no restrictions on redemptions from these funds.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

5. INCOME TAX STATUS:

The provider of the volume submitter plan document for the Plan, Fidelity Management Trust Company, obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the volume submitter plan document, as then designed, was in compliance with the applicable requirements of the IRC. The Company has elected not to apply for its own determination letter covering the Plan. Since receiving the 2008 opinion letter, the Plan has been amended. However, the plan administrator believes that the Plan is currently designed and being operated in accordance with the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years

prior to 2010.

6. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE:

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, investments and related interest, notes receivable from participants, dividend income, and net appreciation in fair value of investments presented in the financial statements and supplemental schedule are based on information certified as complete and accurate by the trustee of the Plan as of December 31, 2013 and 2012, and for the year ended December 31, 2013, and were not subjected to any auditing procedures performed by the independent auditors.

7. RELATED PARTY TRANSACTIONS:

As of December 31, 2013 and 2012, certain Plan investments are investments in mutual funds and a money market fund managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee of the Plan and, therefore, these investments qualify as party-in-interest. In 2013, \$14,787 was directly charged to the Plan by Fidelity for administrative expenses.

Several employees of the Company provide administrative services to the Plan. These services include Plan oversight and day-to-day Plan administration. The Plan is not charged by the Company for the services of the employees to the Plan.

8. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
