Note 1 - Description of the plan:

The following description of the Graphics Atlanta, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan sponsor is Graphics Atlanta, Inc. (the Company, Plan Sponsor or Plan Administrator). The Plan is a defined contribution plan covering substantially all employees of the Company who have attained the age of 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was established effective May 1, 1995, with an asset transfer from a previous defined contribution plan from which the Company's Board of Directors approved a "split-off." Its operation is overseen by the Plan Administrator and the administrative committee.

Contributions

Each year, participants may contribute from 1% to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. Profit sharing amounts may be contributed at the option of the Company's Board of Directors. An employee's share of this contribution is based on a uniform percentage of included compensation. The Company did not make a profit sharing contribution to the Plan during the year ended December 31, 2013. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Rollover provision

The Plan allows participants to rollover assets from other qualified savings plans into the Plan. During 2013, rollovers into the Plan totaled $3,475,914.

Note 1 - Description of the plan - continued:

Participant accounts

Each participant's account is credited with the participant's contributions, the Company's contributions, and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are 100% vested in their voluntary contributions, rollover contributions and the related investment income on those funds. Participants become vested in Company profit sharing contributions in accordance with Plan provisions based upon years of service and become fully vested after six years of continuous service. Participants are immediately 100% vested upon reaching the normal retirement age of 60, or upon disability or death while an employee of the Company.

Forfeited accounts

Forfeitures of discretionary Company contributions are allocated to all participants eligible to share in the allocations in the same proportion that each participant's compensation for the year bears to the compensation of all participants for such year.

Forfeited accounts were $69,468 and $304 at December 31, 2013 and 2012, respectively. No forfeitures were allocated to participants' accounts during 2013.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, repayable generally within five years, bearing a reasonable fixed interest rate between 4.25% and 6.25%. Notes for the purchase of a primary residence shall be repayable within fifteen years. Participants may only have one outstanding loan. The notes receivable are secured by the balance in the participant's account. Principal and interest is paid ratably through payroll deductions.

Note 1 - Description of the plan - continued:

Payment of benefits

The participant's vested portion of their account balance is available for distribution in the event of retirement, disability, death, or termination of employment. For payments that represent vested benefits greater than $5,000, the participant must consent to the distribution before it may be made. If the participant does not elect a payment option for balances that represent vested benefits that do not exceed $5,000 the Plan will distribute the benefits in a single lump sum at the Plan's discretion. Hardship withdrawals are permitted if Plan participants meet certain criteria.

Administrative expenses

Certain expenses of maintaining the Plan, including audit fees, are paid directly by the Company and are excluded from these financial statements. The Company reserves the right to elect to pay, or have the Plan pay, administrative costs in the future. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note 2 - Summary of significant accounting policies:

Basis of presentation

The Plan has adopted the Financial Accounting Standards Board (FASB) Codification (Codification). The Codification is the single source of authoritative generally accepted accounting principles in the United States of America (U.S. GAAP) recognized by the FASB to be applied by nongovernmental entities. All of the Codification's content carries the same level of authority.

Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with U.S. GAAP.

Note 2 - Summary of significant accounting policies - continued:

Fully benefit-responsive investment contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents the cost plus contributions made under the contracts plus interest at the contract rates less withdrawals and administrative expenses. This specifically affects the presentation of the amounts related to the Plan's participation in the collective trust fund. The statements of net assets available for benefits present the fair value of the investment in the collective trust fund as well as the adjustment from fair value to contract value for the Plan's proportionate share of fully benefit-responsive investment contracts within the collective trust fund. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Sponsor determines the Plan's valuation policies utilizing information provided by the trustee. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy under FASB Accounting Standards Codification No. 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;

Note 2 - Summary of significant accounting policies - continued:

Investment valuation and income recognition - continued

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets and liabilities measured at fair value. There have been no changes in the methodology used at December 31, 2013 and 2012.

- Money market funds are stated at cost, which approximates fair value, due to the short-term nature of these instruments.

- Mutual funds (or shares of registered investment companies) are valued at the net asset value of shares held by the Plan at year-end by obtaining quoted prices on nationally recognized securities exchanges.

- Stable value funds are valued by the fund's trustee based on the underlying investments held in the fund as of the close of each day. Generally, the fund's unit value equals the total value of each asset held by the fund, less any liabilities, divided by the number of units outstanding on the valuation date. The fund has the ability to redeem its investment in any underlying funds at net asset value per unit at the valuation date.

Note 2 - Summary of significant accounting policies - continued:

Investment valuation and income recognition - continued

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The methodology described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodology is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013

There were no significant transfers between Level 1 and Level 2, or into or out of Level 3 investments during the years ended December 31, 2013 and 2012.

Use of estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of benefits

Benefits are recorded when paid.

Note 2 - Summary of significant accounting policies - continued:

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant's loan balance is reduced and a benefit payment is recorded.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Subsequent events

The Plan has evaluated subsequent events through October 1, 2014, which is the date these financial statements were available to be issued. All subsequent events, if any, requiring recognition as of December 31, 2013, have been incorporated into these financial statements.

Note 3 - Investments and information certified by the trustee:

TD AmeriTrade Trust Company is the trustee for the Plan. The trustee holds the Plan's investment assets and executes transactions. Certain investment information disclosed in the accompanying financial statements and supplemental schedules, including investments and notes receivable from participants held at December 31, 2013 and 2012, and net appreciation in fair value of investments, interest and dividends, and interest on notes receivable from participants for the year ended December 31, 2013, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by TD AmeriTrade Trust Company.

Note 3 - Investments and information certified by the trustee - continued:

The following is a summary of investments, at fair value, that represent 5% or more of the Plan's net assets at December 31, 2013 and 2012:

During 2013, the Plan's mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $2,566,720 and the stable value fund appreciated in value by $23,885.

Note 4 - Related-party transactions:

TD AmeriTrade Trust Company performs services for the Plan, sells products to the Plan, and manages and maintains investments of the Plan for which fees are charged to the Plan. These types of transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules.

Note 5 - Plan termination:

The Company has the right under the Plan, although it has not expressed any intent to do so, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6 - Tax status:

The underlying prototype plan has received an opinion letter from the IRS dated March 31, 2008 stating that the form of the Plan is qualified under Section 401(a) of the IRC, and therefore, the related trust is tax-exempt. The Plan Administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.
