Note 1 - Description of the Plan

The following description of the Corgan Associates, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Corgan Associates, Inc. (the "Company") and its wholly-owned subsidiary. Employees are eligible to enroll in the Plan as soon as it is administratively feasible, beginning their first day of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may make contributions to the Plan by means of a salary deferral agreement. Participants may defer between 1% and 100% of their compensation (subject to certain statutory limitations), which will be contributed to their account. The Plan contains an automatic enrollment feature; automatic enrollment contributions at 3% will begin as soon as administratively feasible on or after 30 days following the participant's date of hire. The Company may make a discretionary matching contribution based on a participant's compensation. In 2013, the Company made a matching employer contribution on behalf of each participant in an amount equal to 100% of the deferral contributions made by each participant, limited to 3% of each participant's eligible compensation.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's matching contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their account begins in the second year of service. A participant is 100% vested after six years of credited service. Participants become 100% vested, regardless of years of service, when they retire, die or become permanently disabled.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in various increments in any of thirty-six investment options.

Note 1 - Description of the Plan, continued

Notes Receivable from Participants

Participants are permitted by the Plan to borrow funds up to 50% of their vested account balance or $50,000, whichever is less. Note transactions are treated as a transfer between the investment fund and the participant notes fund. Note terms range from one to five years, unless the note is for the purchase of a primary residence for which the note may be extended to ten years. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions. Interest rates on notes outstanding as of December 31, 2013 range from 3.25% to 7.25%.

Payment of Benefits

Distributions are made for separation in service upon retirement, death, disability, or termination of employment. Participants who have not separated from service and have reached age 59½ can request distributions subject to certain restrictions. Participants who have not separated from service and have reached age 70½ are required by law to receive a minimum required distribution subject to certain limitations. A participant may elect to receive a lump sum, an annuity or a combination thereof in amounts equal to the value of his or her account at the time of the payment of benefits. The Plan sponsor makes mandatory lump sum distributions to separated participants with balances less than $1,000 if the participant does not make an alternative election.

Benefits are recorded when paid to participants. At December 31, 2013, there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not yet been paid.

Participant Hardship Withdrawals

Under certain conditions of financial hardship, a participant may withdraw all or any portion of the voluntary account values during employment. Financial hardship expenses include deductible medical expenses, funds to purchase a principal residence, tuition and related educational expenses for the participant, spouse, or dependents and funds to prevent eviction or mortgage foreclosure on a participant' principal residence. Amounts withdrawn for the purpose of meeting financial hardship may not be repaid to the Plan. The minimum hardship withdrawal is $500.

Forfeited Accounts

Forfeitures are used to pay Plan expenses and reduce future employer contributions. At December 31, 2013, there were no significant forfeited non-vested accounts. In 2013, the Company utilized $43,460 of forfeitures to reduce employer discretionary matching contributions.

Plan Administration

Employer and employee contributions were held and managed by Fidelity Management Trust Company ("Fidelity"), the Trustee of the Plan assets during 2013, which invested assets in accordance with participant directives and made distributions to participants. Certain administrative functions are performed by officers or employees of the Company who receive no compensation from the Plan. Certain other administrative expenses are paid directly by the Company.

Note 2 - Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued when earned. Dividends are recorded on the ex-dividend date. The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains (losses) and the unrealized appreciation (depreciation) on those investments.

Accounting Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are treated as distributions based on the terms of the Plan document.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. There were no excess contributions at December 31, 2013. The Plan had excess contributions at December 31, 2012 which were distributed to the applicable participants prior to March 15, 2013.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Note 3 - Investments and Fair Value Estimates

The framework for measuring fair value provides for a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Money Market Accounts and Mutual Funds: Valued at the net asset value of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 - Investments and Fair Value Estimates, continued

All investments in the statements of net assets available for benefits are reported at fair value. The following tables sets forth by level within the fair value hierarchy the Plan's assets at fair value as of December 31, 2013 and 2012.

Note 4 - Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements and supplemental schedule was prepared by or derived from information provided by Fidelity and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from Fidelity that information provided to the Plan Administrator by Fidelity related to the following information is complete and accurate.

- Investment assets, transactions and income
- Schedule of assets held for investment purposes
- Notes receivable from participants

Note 5 - Party-in-Interest Transactions

The Plan invests in mutual funds managed by an affiliate of Fidelity, who acts as trustee of the Plan's assets as defined by the Plan. Transactions with Fidelity qualify as party-in-interest transactions.

Note 6 - Federal Income Tax Status

Effective January 1, 2006, the Plan adopted a non-standardized form of a prototype plan sponsored by Fidelity. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. Although the Company has made amendments to the prototype since adoption, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan Administrator has evaluated tax positions taken by the Plan and has concluded that the Plan had maintained its tax exempt status and had taken no uncertain positions that would require recognition of a liability or disclosure in the financial statements.

Note 6 - Federal Income Tax Status, continued

The Plan is subject to income tax examinations by the U.S. federal, state and local tax authorities with a statute of limitations of three to five years from the date of filing. Any potential interest and penalty associated with a tax position would be included as a component of income tax expense in the period in which the assessment arises.

Note 7 - Reconciliation of Financial Statements to Form 5500

The accompanying financial statements differ from the amounts reported in Form 5500 for the year ended December 31, 2013 and 2012. The Plan's financial statements are prepared on the accrual basis of accounting which differs from the modified accrual basis method used to prepare IRS Form 5500.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 9 - Risks and Uncertainties

The Plan invests in various mutual funds. Mutual funds are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain mutual funds, it is at least reasonably possible that changes in the values of mutual funds will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 - Subsequent Event

The Plan Administrator has reviewed events that have occurred after December 31, 2013 through September 29, 2014, the date the financial statements were available for issuance. During this period, the Plan did not have any material subsequent events.
