The Mosser Group Employee Stock Ownership Plan and Trust

We have audited the accompanying financial statements of The Mosser Group Employee Stock Ownership Plan and Trust (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2013 and the supplemental schedule H, line 4j – Schedule of Reportable Transactions for the year ended December 31, 2013 are presented for the purpose of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year), as of December 31, 2013 that accompanies the Plan's financial statements does not disclose the historical cost of certain nonparticipant-directed plan assets held by the Plan Custodian. Disclosure of this information is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements
Years Ended December 31, 2013 and 2012

Note 1 – Description of the Plan

The following description of The Mosser Group Employee Stock Ownership Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan, as amended and restated effective January 1, 2012, is a defined contribution plan covering substantially all nonunion full-time employees of WMOG, Inc. (the Plan Sponsor and administrator) and its participating subsidiaries (collectively, the Company). Participants are not required or permitted to make contributions to the Plan. A participant, who is employed by the Company on the last day of the Plan year, is entitled to share in the allocation of Company discretionary contributions and participant forfeitures for that Plan year in which the participant is credited with at least 1,000 hours of service, except as otherwise discussed in the Plan document. An employee becomes a participant upon completion of 1,000 hours of service in the first year of employment, retroactive to date of employment. If 1,000 hours of service are not completed in the first year, participation begins retroactively to January 1 in the year the requirement is met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Accounts

Participant accounts are credited with an allocation of Company contributions, as defined in the Plan document, and Plan earnings (losses). Allocation of Plan earnings (losses) is based on the individual participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the vested balance in the participant's account.

Contributions

The Company may make discretionary contributions, at the sole discretion of and as determined annually by the Board of Directors of the participating subsidiaries. Company contributions, which may be in cash or stock, are allocated to eligible participants' accounts based on the relative compensation (not to exceed \$255,000 in 2013 and 250,000 in 2012) of the participants or at an equal dollar amount per participant. In general, the annual additions to an individual participant's account in a Plan year may not exceed the lesser of 100% of the participant's compensation or \$51,000 in 2013 or \$50,000 in 2012. Company contributions are invested by the Trustee, as defined in the Plan document, in the common stock of WMOG, Inc. or in other prudent investments as the Trustee deems appropriate. None of the investments of the Plan are participant directed.

Note 1 – Description of the Plan (continued)

Payment of Benefits

Upon retirement, disability, or death the Plan provides for distributions to be made in a single distribution at an elected date.

Benefits payable to terminated participants are based on the participant's vested account balance and are payable after five consecutive one-year breaks in service, except where as defined in the Plan document, using substantially the same methods, as outlined above.

Vesting

Participant account balances relating to Company contributions, excluding the safe harbor matching Company contributions, are fully vested after three years of credited service. Participants are immediately vested in the safe harbor matching Company contribution. A participant is eligible to share in any allocation of Company contributions and participant forfeitures for the Plan year in which retirement, disability, or death occurs.

Forfeitures

Forfeitures of terminated participants' nonvested account balances are reallocated to the remaining participants after a one-year break in service. The reallocation, as added to the Company contribution, is based on the relative compensation of the remaining participants of the Company contributing during the year of the forfeiture.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, a participant may diversify up to 50% of shares not previously diversified, as discussed in the Plan document. Participants who elect to diversify have their funds transferred to The Mosser Group Employee Savings Plan and Trust for participant direction.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants' accounts become fully vested.

Note 1 – Description of the Plan (continued)

Administrative Expenses

The Company has the option to pay certain expenses necessary to operate and administer the Plan. Fees are paid by the Company for audit and other administrative expenses.

Note 2 – Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Benefit payments to participants are recorded upon distribution.

Investment Valuation and Income Recognition

The Plan's investments in mutual funds are held at the American Funds. The investments of the Plan are reported at fair value. The fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There have been no changes in the valuation methods used.

Mutual funds represent investments with various investment managers. The fair values of these investments are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are valued at the net asset value.

The appraised fair value of WMOG, Inc. stock is determined annually by an independent valuation company using a weighted average of the income approach, market approach and the asset-based approach. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and the fair value of the Company assets and liabilities. Plan management has concluded that a market participant would also recognize a slight discount for lack of marketability.

The valuation process involves the ESOP Trustee's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company and the appraiser then interviews Company management to gain a better understanding of the current business environment. The appraiser prepares a preliminary report which ESOP Trustees and Plan management review in detail, discuss and approve for final issuance in final form. The resulting final valuation is then accepted as documented in the minutes of the ESOP Trustee meetings.

Note 2 – Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

Cash and short-term investments include cash and short-term interest-bearing investments with initial maturities of three months or less. Such amounts are recorded at cost, plus accrued interest.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Most significantly, an estimate of the fair market value of WMOG, Inc. stock, which is determined annually by an independent valuation company, is used by management in the preparation of the Plan's financial statements. Actual results could differ from those estimates.

Note 3 – Investments

Investments that represent 5% or more of the fair value of the Plan's net assets available for benefits are as follows:

	December 31, 2013	2012
*WMOG, Inc. Common Stock	\$ 14,029,682	\$ 15,462,890

*Represents nonparticipant directed investment in funds sponsored by the Company.

Note 3 – Investments (continued)

The Plan's investments (including investments purchased, sold, as well as held during the year) appreciated (depreciated) in fair value as follows:

	Years Ended December 31, 2013	2012
WMOG, Inc. Common Stock	\$ (233,207)	\$ 822,978
American Funds – Mutual Funds	92,692	27,795
	<u>\$ (140,515)</u>	<u>\$ 850,773</u>

Note 4 - Fair Value Measurements

The various inputs that may be used to determine the value of the Plan's investments are summarized in three broad levels within the fair value hierarchy. The three levels are described below:

- Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;
- Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level within the fair value hierarchy the Plan's investments at fair value, as of December 31, 2013 and 2012. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Investments at Fair Value as of December 31, 2013

Total Investments at Fair Value	<u>\$ 289,977</u>	<u>\$ 15,462,890</u>	<u>\$15,752,867</u>

The following table provides a summary of changes in fair value of the Plan's Level 3 assets for the years ended December 31, 2013 and 2012.

	Level 3 Investment Asset Common Stock-WMOG, Inc. Years Ended December 31,	
	2013	2012
Balance, Beginning of Year	\$ 15,462,890	\$ 15,289,912
Shares Redeemed	(1,200,000)	(650,000)
Realized Gain (Loss) on Shares Redeemed	(98,784)	18,974
Unrealized Gain (Loss) Relating to Asset Still Held at the Reporting Date	(134,424)	804,004
Balance, End of Year	<u>\$ 14,029,682</u>	<u>\$ 15,462,890</u>

Realized and unrealized gains (losses) included in the changes in net assets for the periods above are reported in the net appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits. The gains (losses) were the result of a change in the estimated fair market value of WMOG, Inc. stock, which was determined by an independent valuation company for the years ended December 31, 2013 and 2012.

Note 5 – Restrictions on Net Assets

Certain mutual fund companies have implemented market timing restrictions designed to protect the long-term investors in the mutual fund. These restrictions limit the number of exchanges an investor can initiate within a given period of time and certain funds may charge a redemption fee.

Note 6 – Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated September 25, 2013 that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The related trust, therefore, is not subject to tax under present income tax law.

THE MOSSER GROUP
EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST

Notes to Financial Statements
Years Ended December 31, 2013 and 2012

Note 6 – Income Tax Status (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 7 – Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, as well as other investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. The investment in the common stock exposes the additional risk of valuation assumptions based on earnings, cash flows and/or such techniques. Due to the level of risk associated with the investment in common stock and certain investment securities, it is at least reasonably possible that changes in the values of the common stock and other investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8 – Subsequent Events

Management has evaluated subsequent events through September 17, 2014, the date the financial statements were available to be issued, and determined that no events have occurred that require additional disclosure.
