**R.T.I. SAVINGS AND RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012**

Note 1 - Description of Plan

The following description of the R.T.I. Savings and Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Rainsville Technology, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The trustees are responsible for oversight of the Plan.

Eligibility

Participation in the Plan is available to all eligible employees of the Company who have attained 21 years of age and who have completed three months of service for the Company, excluding nonresident aliens who do not receive any compensation from U.S. sources, leased employees, or Japanese Nationals and Employees who become employees as a result of a Code Section 410(b)(6)(c) transaction, unless and until coverage is extended to employees acquired in such transaction. Eligible temporary employees must complete one year of service for the Company.

Contributions

Participant Salary Deferral - Each year, participants may contribute up to 75% of pretax annual compensation, as defined by the Plan, up to maximum amounts established by the Internal Revenue Service (IRS). Participants 50 years old or older during the Plan year are eligible for catch-up contributions, up to maximum amounts established by the IRS. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

Participant Roth Deferral - Participants may designate some or all of the salary deferral as a Roth Deferral at the time the participant makes his or her deferral election. Once made, the election is irrevocable (that is, a Roth Deferral cannot later be re-characterized as a pretax salary reduction). The amount of the Roth Deferral is included in participants' income for tax purposes, and the income tax withholding amounts are deducted from the remainder of compensation, not from the Roth Deferral amount.

Employer Match - Each year, the Company may make discretionary matching contributions based on a percentage of the participant's pretax contributions. From January 2013 through March 2013, the Company's matching contribution was equal to 100% of the first 3% of participant deferrals. In April 2013, the Company increased the contribution to an amount equal to 100% of the first 3.5% of participant deferrals.

Employer Profit Sharing - The employer may also elect to make a discretionary profit sharing contribution based on eligible compensation. A participant must be employed on the last day of the Plan year in order to receive an employer profit sharing contribution for such Plan year. The Company did not make a profit sharing contribution for the year ended December 31, 2013.

Qualified Non-Elective - The Company may also elect to make a qualified non-elective contribution to be allocated to all participants meeting the allocation conditions for qualified non-elective contributions as defined in the Plan Agreement either as a ratio of the participant's compensation to the aggregate of all participants' compensation or as a flat dollar amount determined by the Company. The Company did not make a qualified non-elective contribution for the year ended December 31, 2013.

Note 1 - Description of Plan - Continued

Investment Options

Participants direct the investment of their contributions, as well as Company contributions into various investment options offered by the Plan. As of December 31, 2013 and 2012, the Plan offered a guaranteed interest account through a group annuity contract and separate investment accounts which invest in various combinations of stocks, bonds, and other investment securities.

Vesting

Participants are vested immediately in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of participants' accounts is based on years of continuous service. A participant is 100% vested after five years of creditable service.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of the Company's contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a fixed rate of 2.0% over prime, which is commensurate with local prevailing rates as determined by the Plan Administrator at the time of issuance. A loan is considered in default if the missed loan payment is not remitted by the end of the calendar quarter following the calendar quarter in which required payment was due but not made. Principal and interest are paid ratably through payroll deductions, with payments to be made not less frequently than quarterly. Loan terms may not be greater than five years unless the loan is used for purchase of primary residence. The maximum number of loans a participant may have outstanding at any time is one.

Payment of Benefits

Benefits commence upon one of several dates: retirement, disability, death, or termination of employment. Benefits are distributed by means of either direct rollover, lump sum distribution, or by one of various conventional annuity options.

Forfeited Accounts

As of December 31, 2013 and 2012, forfeited nonvested accounts totaled \$134,716 and \$118,121, respectively. The amount of forfeitures used to reduce employer contributions was \$1,516 for the year ended December 31, 2013.

NOTES TO FINANCIAL STATEMENTS - CONTINUED
DECEMBER 31, 2013 AND 2012

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in all of the funds, except the guaranteed interest account, are presented at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The guaranteed interest account is fully benefit-responsive and is reported at fair value and adjusted to contract value. Contract value represents the accumulated contributions plus accrued net earnings less distributions. Fair value of the investment in the guaranteed interest account is estimated using discounted cash flows. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments to participants are recorded when paid.

NOTES TO FINANCIAL STATEMENTS - CONTINUED
DECEMBER 31, 2013 AND 2012

Note 2 - Summary of Significant Accounting Policies - Continued

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Certain expenses related to the administration of the Plan are allocated to the participant's account, in accordance with the Plan document, and are included in administrative expenses. Fees related to the administration of notes receivable from participants and payment of benefits to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Date of Management's Review

Management has evaluated subsequent events through September 17, 2014, the date which the financial statements were available to be issued.

Note 3 - Certified Investments

Other than the fair value of the guaranteed interest account and the related adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2013 and 2012, and net appreciation (depreciation) in fair value of investments, interest, and dividends for the year ended December 31, 2013, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by MassMutual Retirement Services and State Street Corporation (the Custodians of the Plan). The contract value of the guaranteed interest account was certified by the Custodians.

Note 4 - Investments (Unaudited)

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the Custodians.

The following presents investments that represent 5% or more of the Plan's net assets as of December 31:

	2013
Babson Capital Premier Core Bond Fund	\$ 207,518
Fidelity Contrafund	439,406
Mass Mutual Guaranteed Interest Account, at contract value	1,311,735

Oakmark Funds Equity & Income Fund	249,941

R.T.I. SAVINGS AND RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS - CONTINUED
DECEMBER 31, 2013 AND 2012

Note 4 - Investments (Unaudited) - Continued

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by \$466,231 as follows:

Separate investment accounts	\$ 428,974
Guaranteed interest account	<u>37,257</u>
Total	<u>\$ 466,231</u>

Note 5 - Fair Value Measurements

Financial Accounting Standards Board (FASB) ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Separate investment accounts: Valued at fair value as determined by using commercial quotation services. Fair value includes reinvested dividend and interest income, received and accrued, realized gains and losses and unrealized gains and losses of the underlying assets.

Guaranteed interest accounts: Guaranteed interest accounts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2013.

	Level 3 Assets Year Ended December 31, 2013
Balance, beginning of year	\$ 1,378,655
Unrealized gains/(losses) relating to instruments still held at the reporting date	(23,962)
Purchases	126,387
Balance, end of year	<u>\$ 1,481,080</u>
The amount of total gains or losses for the period attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	<u>\$ (23,962)</u>

Unrealized gains/(losses) from the guaranteed interest account are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Note 6 - Guaranteed Interest Account with Insurance Company (Unaudited)

The Plan has a fully benefit-responsive guaranteed interest account through a group annuity contract with MassMutual Retirement Services (MMRS). MMRS maintains the contributions in a pooled account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest account issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed interest account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed interest account. The guaranteed interest account is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by MMRS, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012, was \$1,481,080 and \$1,378,655, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a semi-annual basis for resetting.

Note 6 - Guaranteed Interest Account with Insurance Company (Unaudited) - Continued

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed interest account does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the guaranteed interest account are as follows:

<u>Average yields:</u>	<u>2013</u>	<u>2012</u>
Based on annualized earnings (1)	2.61%	2.55%
Based on interest rate credited to participants (2)	2.61%	2.55%

(1) Calculated based on weighted average crediting rate of all investment contracts and short-term income at year end.

(2) Calculated based on weighted average yield to maturity of all underlying investments at year end.

Note 7 - Related-Party Transactions and Party in Interest Transactions

Certain Plan investments are shares of mutual funds managed by MassMutual Retirement Services and State Street Corporation. MassMutual Retirement Services and State Street Corporation are the Custodians as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to the third party administrator of \$14,251 which was not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the Plan's operations.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 9 - Income Tax Status

The IRS has determined and informed the Company by a letter dated May 11, 2009 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Note 9 - Income Tax Status - Continued

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 10 - Risks and Uncertainties

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 11 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 and 2012 to Form 5500:

	2013	2012

Net assets available for benefits per the Form 5500	<u>\$ 3,649,719</u>	<u>\$ 2,841,799</u>

The following is a reconciliation of net increase in net assets per the financial statements for the year ended December 31, 2013 to Form 5500:
