1. Description of the Plan

ARES Holding Corporation (Holdco) (the Company) established the ARES Holding Corporation (Holdco) 401(k) Plan (the Plan), effective January 1, 1996. The Plan, as amended, provides retirement benefits to eligible employees of the Company, ARES Security Corporation (ASC) and their wholly-owned subsidiaries (collectively, ARES). The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan under Section 401(a) and 401(k) and related provisions of the Internal Revenue Code (the Code). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company is the Plan sponsor. An administrative committee, consisting of Company employees and others appointed by the Company's Board of Directors, serves as the Plan administrator and is responsible to select investment options offered under the Plan and monitor investment performance. Fidelity Management Trust Company (Fidelity) serves as the Plan's trustee and record keeper. Fidelity holds, invests and reinvests Plan assets in the interest and direction of the participants and their beneficiaries.

Eligible Participants:

ARES employees, aged 21 years and older, are eligible to participate in the Plan on the first day of the month after being hired by the Company.

Participant Accounts:

Participant accounts are credited with participant contributions, Company contributions, rollovers and an allocation of Plan earnings or losses. Allocations are based on participant earnings or account balances, in accordance with Plan provisions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants may elect to invest their accounts in a variety of participant directed investment funds offered by the Plan that are designed to provide participants with a wide range of investment options. A participant may authorize transfers among investment options at any time.

1. Description of the Plan (continued)

Participant Accounts: (continued)

In addition, participants can choose to invest in and manage a broader range of investments through Fidelity BrokerageLink accounts. Investment choices offered to participants in these participant managed retirement accounts include most equity securities listed on major stock exchanges in the United States, additional mutual funds and over-the-counter stocks, bonds and other fixed-income securities.

Contributions:

Participants are permitted to make voluntary salary deferral contributions up to 80% of eligible compensation, as defined by the Plan. Participants that have reached the age of 50 are eligible to make additional catch-up contributions under the Code. In addition, participants may make certain tax-free transfers (rollovers) of lump sum distributions received from other tax-qualified plans, subject to Code regulations.

ARES makes non-discretionary matching contributions to the Plan. These matching contributions are computed based on participants' eligible compensation contributed to the Plan each payroll period, such that they reflect 50% of a participant's first 6% of elected salary deferral, up to 3% of salary. ARES made non-discretionary matching contributions of $1,309,968 to the Plan in 2013. ARES may also make other discretionary contributions to the Plan, as determined by ARES' Board of Directors (the Board). The Board elected to make no other discretionary contributions to the Plan during 2013.

During 2014, it was determined that $8,189 of the Company's 2013 non-discretionary matching contributions were in excess of the contributions necessary, as defined by the Plan provisions, and were then reallocated from the respective participants accounts and applied to the Plan's forfeiture account.

At ARES' discretion, any portion of any matching contribution may be designated as qualified matching contributions and allocated only to non-highly compensated participants. ARES has not made any discretionary qualified elective contributions to the Plan to date.

Contributions are subject to certain limitations under the Code.

1. Description of the Plan (continued)

Vesting:

Participants are immediately vested in their contributions, plus actual earnings (less any losses) thereon, and qualified contributions, if any, made by ARES on the participant's behalf. Participants employed prior to May 25, 2012, are also immediately vested in Company discretionary matching contributions, plus allocated earnings (less any losses) thereon. Vesting in Company discretionary matching contributions is based on years of service, for participants employed after May 25, 2012. These participants become 33.33% vested after one year of service and are fully vested after three years of service, or upon normal retirement, permanent disability or death. Vesting in Company non-discretionary matching contributions, plus earnings (less any losses) thereon, is based on years of service for all participants. Participants become 33.33% vested in non-discretionary matching contributions after one year of service and are fully vested after three years of service, or upon normal retirement, permanent disability or death.

Forfeitures:

A terminated participant's forfeited non-vested account can first be used to pay Plan administrative expenses or to restore previously forfeited accounts, and then to reduce Company contributions. As of December 31, 2013, forfeited accounts totaled $112,800 ($46,500 as of December 31, 2012). No forfeitures were used in 2013 to pay administrative expenses or reduce Company contributions.

Notes Receivable from Participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan agreement.

Participants may borrow up to one-half of their vested account balance not to exceed $50,000 for a period not to exceed five years, except for notes used to purchase a primary residence for which a term up to ten years may be granted. Participants may only have two notes outstanding at any time. Participant notes are evidenced by a written note, secured by the vested balance in the participant's account and bear interest at a rate that is commensurate with local prevailing rates, as determined by the Plan administrator under the Plan's policy. Interest rates on notes outstanding as of
December 31, 2013 range from 3.25% to 5.75%. Repayment of principal and interest is generally made through payroll deductions.

1. Description of the Plan (continued)

Payment of Benefits:

Upon termination of service, retirement, permanent disability, or death, a participant may elect to receive a lump sum payment equal to the value of the participant's vested interest in his or her account or in regular installments. The Plan may elect to distribute a participant's vested account balance if the balance is $1,000 or less. Distributions may be in cash or as payment in-kind of a participant managed Fidelity BrokerageLink Account. Benefits are recorded when paid.

Corrective Distributions Payable:

The corrective distributions payable at December 31, 2013, represents contributions made by participants during 2013 that were required to be refunded, as they were determined to be in excess of the total contributions allowed under the Code. These contributions were refunded in 2014.

Plan Expenses:

Several of the investment fund options are subject to investment fees based on a percentage of invested assets, as disclosed in the fund's prospectus. All such fees are charged directly against the fund's investment performance and thus are not separately disclosed in the accompanying financial statements. Certain account maintenance and note fees are charged to the Plan and allocated to participant accounts. All other administrative expenses related to the Plan are paid by ARES and are not reflected in the Plan's financial statements.

Risks and Uncertainties:

Participants may invest their account balances in a variety of investment options offered by the Plan. Investments are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment options offered by the Plan, it is at least reasonably possible that changes in risk in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of a partial or complete plan termination, participants will become fully vested in their accounts and distributions will be made to participants as described in the Plan agreement.

2. Summary of Accounting Policies

Basis of Accounting:

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Fair Value Measurements:

Investments consist of mutual funds, a money market fund and participant managed retirement accounts. These funds are reported at fair value and accounted for as follows:

Mutual Funds and Money Market Fund: These funds are valued at the net asset value (NAV) of shares held by the Plan at year end based on quoted prices in an active market. It is not probable that the funds will be sold at amounts that differ materially from the NAV of shares held.

Participant Managed Retirement Accounts: These accounts consist of shares in various mutual funds, money market funds, and equity securities, and are valued based on quoted prices in active markets.

The Plan uses a three-level hierarchy for fair value measurements based on the nature of inputs used in the valuation of an asset or liability as of the measurement date. The three-level hierarchy prioritizes within the measurement of fair value, the use of market-based information over entity-specific information. Fair value focuses on an exit price and is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

2. Summary of Accounting Policies (continued)

Fair Value Measurements: (continued)

The three-level hierarchy for fair value measurements is defined as follows:

Level I – Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level II – Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level III – Inputs to the valuation methodology, which are significant to the fair value measurement, are unobservable.

An investment's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Income Recognition:

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought, sold or held during the year.

Subsequent Events:

Subsequent events have been evaluated through the date of the independent auditors' report, which is the date the financial statements were approved by the Plan and available to be issued.

6. Tax Status

The Plan is a volume submitter plan offered by Fidelity. The Internal Revenue Service (IRS) has informed Fidelity by a letter dated March 31, 2008, that the Plan submitted for review qualifies under applicable provisions of the Code. The Plan and the Plan sponsor believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and related state statutes and is therefore qualified, and that the trust, which forms a part of the Plan, is exempt from federal and state income taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.
