DECEMBER 31, 2013 AND 2012

A. Description of Plan

The following description of the Incite 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

1. **General.** The Plan is a defined contribution plan, covering full-time employees of Incite Rehab, LLC ("the Company") who have one month of service and are 21 or older. The Plan is subject to the provisions of the Employees Retirement Income Security Act of 1974 (ERISA).

2. **Contributions.** Each year, participant contributions may be made to the Plan on a pre-tax basis or an after-tax basis and are subject to annual maximum limits equal to the lesser of 25% of the participant's annual compensation or a prescribed dollar amount, indexed for inflation. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants direct the investment of their account balances and future contributions. The Plan currently offers a variety of investment options for its participants. Employees are allowed to make rollover contributions to the Plan. Such employees are not required to be participants in the salary reduction portion of the Plan until such time as such employees elect participation.

   The Plan also permits the Company to make matching contributions on a discretionary basis. For the plan year ended December 31, 2013, the Company did not make a matching contribution.

3. **Participant Accounts.** Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. **Vesting.** Participants are vested immediately in their contributions and rollover contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. The vesting schedule ranges from 20% to 100% from year 1 through year 5.

5. **Forfeitures.** Forfeitures of non-vested Company contributions are used to reduce future Company contributions. During both 2013 and 2012, none of the forfeited participant accounts were used to reduce the Company's contributions. At December 31, 2013 and 2012, there were $10,823 and $33,215, respectively, of forfeitures that have not yet been applied to reduce the Company's contributions.

6. **Administrative Expenses.** Certain expenses incurred in the administration of the Plan are paid directly by the Company.

7. **Participant Loans.** Participant loans are permitted under this plan beginning in January of 2013. Loans are made to participants in amounts not to exceed the vested balance and are charged a reasonable rate of interest. Outstanding participant loans at December 31, 2013 are $34,622. Interest income related to loans is $332 for the year ended December 31, 2013.

A. Description of Plan (continued)

8. **Payment of Benefits.** Participants may request either an in-service or hardship withdrawal of their account assets that are 100% vested. Participants may withdraw authorized pre-tax salary reduction contributions or after-tax salary reduction contributions after attaining age 59 1/2, or on a hardship basis prior to attaining age 59 1/2. Company matching contributions and investment earnings thereon are not eligible for in-service withdrawal or hardship withdrawal.

   A participant's vested account is distributable at the time a participant terminates employment with the Company, suffers a total and permanent disability, death, or retirement.

B. Summary of Accounting Policies

1. **Basis of Accounting.** The financial statements of the Plan are prepared on the accrual basis of accounting.

2. **Use of Estimates.** The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. **Investment Valuation and Income Recognition.** The investments in all of the funds, except the Fixed Income Fund, are presented at fair value, based on the quoted market prices of the underlying securities within each fund at December 31, 2013 and 2012. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Fixed Income Fund is fully benefit-responsive and is reported at fair value and adjusted to contract value. Contract value represents the accumulated contributions plus accrued net earnings less distributions. Fair value of the investment in the Fixed Income Fund is estimated using a market value adjustment factor formula, which contains variable components, as provided by Mass Mutual.

   Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

   Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

B. Summary of Accounting Policies (Continued)

4. **Payment of Benefits.** Benefits are recorded when paid.

5. **Operating Expenses.** All expenses of maintaining the Plan are paid by the Company.

6. **Reclassifications.** Certain reclassifications have been made to the 2012 financial statements to conform to the presentation of the 2013 financial statements. These reclassifications had no effect on the net assets available for benefits.

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $528,156 as follows:

Mutual Funds	$ 497,831
Fixed Income Fund (Contract Value)	6,158
Common Collective Trust	24,167
	$ 528,156

D. Fair Value Measurements (continued)

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Assets at Fair Values as of December 31, 2013			
	Level 1	Level 2	Level 3	Total

E. Investment Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with Mass Mutual Financial Group (Mass Mutual). The Mass Mutual maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by Mass Mutual. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

E. Investment Contract with Insurance Company (Continued)

The contract has certain restrictions that impact the ability to collect the full contract value. If the Plan was to terminate or discontinue, a market value adjustment may apply as receiving full contract value may not be available. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. The Hartford may not terminate the contract at any amount less than contract value.

Mass Mutual is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3%. Such interest rates are reviewed on a quarterly basis for resetting.

The average yield and crediting interest rate was 3% during both 2013 and 2012.

F. Related Party Transactions

Certain plan investments are shares of mutual funds managed by Proequities, Inc. Fees paid by the plan sponsor for the investment management services to Proequities, Inc. amounted to $15,624 and $12,667 for the years ended December 31, 2013 and 2012, respectively.

The Company provides certain accounting, administrative, and investment management services to the Plan for which no fees are charged.

G. Amendment or Termination of the Plan

Although the Company expects to continue the Plan indefinitely, the Company, at its discretion, reserves the right to amend, modify, suspend, or terminate the Plan, provided that no such action shall deprive any person of any rights to contributions made under the Plan. If the Plan is terminated or contributions thereto have been completely discontinued, the rights of all participants to the amounts credited to their accounts shall be nonforfeitable and the interest of each participant in the funds will be distributed to such participant or his or her beneficiary in accordance with the Plan terms and ERISA.

H. Tax Status of the Plan

The Internal Revenue Service has determined and informed the Company by a letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

I. Risks and Uncertainties

The Plan invests in various investment securities. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.
