Baker Concrete Construction, Inc. Retirement Savings Plan

Notes to Financial Statements

December 31, 2013 and 2012

Note 1: Description of the Plan

The following description of Baker Concrete Construction, Inc. Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

The Plan is a defined contribution plan sponsored by Baker Concrete Construction, Inc. for the benefit of its employees who have met certain age and service requirements and are not represented by a collective bargaining agreement. Related employers who also participate in the Plan include Titan Reinforcing, LLC, Baker DC, LLC and Baker Construction Enterprise, Inc. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). State Street Bank and Trust Company is the trustee of the Plan.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to the maximum permitted by law ($17,500 for 2013 and $17,000 for 2012). Employee rollover contributions are also permitted. In 2012, the Company made matching contributions of 100% of employees' salary deferral amounts of the first 3%, plus 50% of the next 2% (no matching contributions were made in 2013). Company profit-sharing contributions are discretionary as determined by the Company's Board of Directors. No such discretionary contributions were made for years ended December 31, 2013 and 2012. Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and plan earnings and is charged with an allocation of administrative expenses.

Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and the Company's safe harbor and discretionary matching contributions plus earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is fully vested in the Company's discretionary contributions after 5 years of continuous service. The nonvested balance is forfeited upon termination of service.

Payment of Benefits

Upon termination of service due to death, disability or retirement, an employee may elect to receive either a lump-sum amount equal to the value of his or her account or annual installments over a 5-to-15 year period. For termination of services for other reasons, a participant will receive the value of the vested interest in his or her account as a lump sum.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited nonvested accounts totaled $5,683 and $5,942, respectively. These accounts will be used to reduce future employer contributions or pay administrative expenses.

Notes Receivable from Participants

The Plan Document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the Plan Administrator.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. The Statement of Net Assets Available for Benefits presents the fair value of the investment in the collective trust, as well as the adjustment of the investment in the collective trust from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the plan at year end.

The Diversified Investment Advisors Stable Pooled Fund ("Stable Pooled Fund") is solely invested in the Wells Fargo Stable Return Fund G. This fund is a stable value fund, which is a commingled pool of the Wells Fargo Trust for Employee Benefit Plans. The fund may invest in fixed-interest insurance investment contracts, money market funds, corporate and government bonds, mortgage-backed securities, bond funds, and other fixed-income securities. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The Stable Pooled Fund imposes certain restrictions on the Plan, and the Stable Pooled Fund itself may be subject to circumstances that impact its ability to transact at contract value. Plan management believes that the occurrence of events that would cause the Stable Pooled Fund to transact at less than contract value is not probable.

The Plan's interest in the Stable Pooled Fund is valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Plan Tax Status

The Plan obtained its latest determination letter on September 27, 2013, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. With a few exceptions, the Plan is no longer subject to U.S. federal income tax examinations for years before 2010.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 4: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Plan invests in certain funds of the Plan record keeper and affiliated companies and maintains a cash reserve account with State Street Bank & Trust. These transactions qualify as party-in-interest transactions. The Plan paid $21,558 and $7,662 of record keeping fees to Transamerica Retirement Solutions during 2013 and 2012. The Company provides certain administrative services at no cost to the Plan.

Note 5: Fair Value of Plan Assets

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2013 and 2012:

	2013 Fair Value Measurements Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds:				
Domestic stock funds	$ 24,142,360	$ 24,142,360	$ -	$ -

	$ 54,823,377	$ 40,725,173	$ 14,098,204	$ -

	2012 Fair Value Measurements Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds:				
Domestic stock funds	$ 17,640,033	$ 17,640,033	$ -	$ -
Balanced funds	6,379,814	6,379,814	-	-

Fixed income funds	8,464,613	8,464,613	-	-
Stable value fund	16,342,399	-	16,342,399	-
	$ 52,051,255	$ 35,708,856	$ 16,342,399	$ -

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2013. The plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include mutual funds. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include the Stable Pooled Fund, which is valued based upon the quoted market prices of the underlying investments.

Note 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

The Plan changed record-keepers in 2014. In addition, the Plan was amended in 2014 to allow participants to designate some or all of their deferrals as Roth deferrals.
