RIM LOGISTICS, LTD 401(k) PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

Note 1 - Description of the Plan

The following description of the Rim Logistics, Ltd (Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of Rim Logistics, Ltd and International Packing & Crating, LLC if they have completed 2 months of service and attained eighteen years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Contributions - Each year, participants decide whether to make contributions on a pre-tax basis when participants enroll in the plan. The IRS limits the maximum amounts that can be contributed as salary deferral. The limits are $17,500 in 2013 and $17,000 in 2012. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, which are limited to $5,500 for both 2013 and 2012. In addition to participants' salary deferrals, the Company may make discretionary contributions to the Plan. All newly eligible employees and current employees who did not make an election will automatically have 3% of their compensation deducted and invested in the default fund of the Plan on their behalf. Employees may opt out of this automatic enrollment by completing a form provided by the Company.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. A participant is 100 percent vested after four years of credited service. Those employees eligible to share in the allocation of the Company's matching contribution for the Plan must complete more than 500 hours of service during the Plan year or, be employed as of the last day of the Plan year. The Company's contributions vest according to the following schedule:

Years of Vesting Service	Percent Vested
Less than 1	0%
1 but less than 2	25%
2 but less than 3	50%
3 but less than 4	75%
4 or more	100%

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of 50 percent of their account balance or $50,000, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate of 3.25 percent, which is commensurate with the local prevailing rate as determined quarterly by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

NOTES TO THE FINANCIAL STATEMENTS
(Continued)
DECEMBER 31, 2013 AND 2012

Note 1 - Description of the Plan (Continued)

Payment of Benefits - On termination of service due to death, disability or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts - At December 31, 2013 and 2012, forfeited non-vested accounts totaled $2,402 and $2,174, respectively. These accounts will be used to pay plan expenses.

Administrative Expenses - Certain expenses incurred in the administration of the Plan are paid directly by the Company.

Note 2 - Significant Accounting Policies

Basis of Accounting - The Plan's financial statements are presented on the accrual basis of accounting.

Investment Valuation and Income Recognition - Investments are stated at fair market value using, where available, quoted market prices of a national securities exchange. Net unrealized appreciation or depreciation for the period is included in the Statement of Changes in Net Assets. See Note 8 for discussion of fair value measurements. Purchases and sales of securities are reflected on a settlement date basis. Interest earned is recognized as it accrues.

Notes Receivable from Participants - Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events - The Plan has evaluated subsequent events through September 26, 2014, the date the financial statements were available to be issued.

Also, see Note 9 for information certified by the trustee (unaudited).

Note 4 - Related in Interest and Related Party

Certain Plan investment management fees and insurance expenses are paid for by the Company. These transactions qualify as exempt party-in-interest transactions.

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become vested 100% in their accounts, and the net assets of the Plan must be allocated among the participants and beneficiaries of the Plan in the order provided for by ERISA.

Note 6 - Reconciliation of Financial Statements to Schedule H of Form 5500

The net assets available for benefits and benefits paid to participants per the financial statements at December 31, 2013 and 2012 are the same as Schedule H of Form 5500.

Note 7 - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated August 7, 2001, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and that the Plan is qualified and the related trust is tax-exempt.

RIM LOGISTICS, LTD 401(k) PLAN
NOTES TO THE FINANCIAL STATEMENTS
(Continued)
DECEMBER 31, 2013 AND 2012

Note 7 - Tax Status (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 8 - Fair Value Measurements

FASB ASC 820 provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds: Valued at the quoted net asset value of shares held by the plan at year end.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

Note 8 - Fair Value Measurements (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's fair value measurements at December 31, 2013 and 2012:
