L.N. CURTIS & SONS 401(K) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013

NOTE A Description of Plan

The following description of the L.N. Curtis & Sons (Company) 401(k) Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full time employees of the Company who have one month of service, are age twenty-one or older and are not represented by a collective bargaining unit. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Eligible employees can defer any percentage of their compensation as defined in the Plan, subject to certain limitations under the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a group annuity contract as investment options for the participants.

Participants Accounts

Each participant's account is credited with the participant's contribution and Plan earnings. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and the earnings thereon.

The Plan also has non-elective contributions from a pension plan that was merged into the 401(k) plan in 2008. The participants will continue to vest in these balances according to the vesting schedule in the 401(k) Plan, which is a modified vesting schedule under which they will be fully vested in 6 years.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50 percent of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 7.25 percent, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through semi-monthly payroll deductions.

NOTE A **Description of Plan - Continued**

Payment of Benefits

On termination of service due to death, disability, retirement, or for other reasons, a participant may elect to receive benefits equal to the value of the participant's vested interest in his or her account in (1) a lump-sum amount, (2) installments over a period not to exceed the participant's life expectancy, or (3) an annuity. However, if a participant's vested benefit has never exceeded $5,000, the participant will receive the value of the vested interest in his or her account as a lump-sum distribution or under certain conditions will automatically be rolled into an individual retirement account. In addition, hardship distributions are permitted if certain criteria are met. Please refer to the Plan document for additional details.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited non-vested accounts totaled $0 and $0, respectively.

NOTE B **Summary of Significant Accounting Policies**

Date of Management's Review

Subsequent events were evaluated through September 23, 2014, which is the date the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Notes Receivable from Participants

Loans to participants are measured at their unpaid principal balances plus any accrued but unpaid interest.

Investment Valuation

Mutual funds are reported at fair value as determined by quoted market prices, which represents the net asset value of shares held by the Plan at year end. Group annuity contracts are valued at their outstanding balances, which approximates fair market value.

Payments of Benefits

Benefits are recorded when paid.

NOTE B **Summary of Significant Accounting Policies - Continued**

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the plan administrator to make estimates and assumption that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Administrative Expenses

All basic and administrative expenses are paid by the Company. The amounts paid by the company for the years ended December 31, 2013 and 2012 were $37,492 and $37,030, respectively. Participants are individually charged for loan fees, distribution fees, annuity fees and surrender charges.

NOTE C **Description of Information Certified by the Trustee**

The plan administrator elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the record keepers of the Plan, as agents for the trustees, have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

The volume submission was approved by the Internal Revenue Service on March 31, 2008. The Plan has not requested a determination letter. The Plan has been amended since it was approved. NOTE H Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Following is a description of the valuation methodologies used for assets measured at fair value:

Level 1 – Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 – Fair Value Measurements

The plan does not have any investments valued at level 2 inputs.

Level 3 – Fair Value Measurements

The fair value of annuity contracts are not actively traded and significant other observable inputs are not available, thus the fair value of the annuity contracts are approximated by their ending balances.

NOTE H **Fair Value Measurements – Continued**

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
