1. DESCRIPTION OF PLAN

The following description of JSI Store Fixtures Employees Savings Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of JSI Store Fixtures (the "Company" or "Plan Sponsor"). The Plan was established on January 1, 2006, to provide a systematic savings plan for eligible employees. Employees become eligible for participation in the Plan upon the completion of one year of service, which is defined as 1,000 hours in a consecutive twelve month period commencing with the employee's date of hire. Eligible employees may enter the Plan on the next entry date, the first day of each quarter. Under the terms of the Plan, the following employees are considered excluded and may not participate in the Plan: non-resident aliens and leased employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code of 1986, as amended ("IRC").

Contributions

Each year, participants may contribute to the Plan an amount up to 85% of their pretax annual compensation as defined by the Plan, subject to certain IRC limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover contributions) provided such contribution does not impact the tax status of the Plan. The Plan provides that participants who are projected to be age 50 or older by the end of the calendar year are permitted to make additional catch-up contributions subject to IRC limitations.

In addition, the Plan Sponsor may also make a discretionary matching, profit sharing, or qualified nonelective contribution. Company contributions are subject to certain limitations. For the year ended December 31, 2013, the Company made no such contributions.

Participant Accounts

Individual accounts are maintained for each participant. Each participant's account is credited with the participant's contributions and any Company discretionary matching contributions, allocations of any discretionary profit sharing contributions and discretionary qualified nonelective contributions and Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All investments in participant accounts are participant-directed.

Participants' Investment Options

Participants may direct all contributions to selected investments as made available and determined by the plan administrator. The Plan currently offers mutual funds and a money market fund as investment options for participants. Participants may change their investment options daily.

1. DESCRIPTION OF PLAN...continued

Vesting

Participants are vested immediately in their contributions, Company qualified nonelective contributions plus actual earnings thereon. Participants are vested in the Company's discretionary matching and discretionary profit sharing contributions plus actual earnings thereon based on years of continuous service as follows:

<u>Years of Service</u>	<u>Percentage</u>
2	20%
3	40%
4	60%
5	80%
6	100%

A participant becomes fully vested in the event of normal retirement, total and permanent disability, or death while still employed.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive either a lump-sum amount equal to the value of his or her vested account or a portion of their vested account. If no election is made and the participant's vested account balance is less than \$5,000, it will be distributed in the form of lump-sum payment. Participants whose account balances exceed \$5,000 may elect to receive a lump sum distribution or leave their vested balance in the Plan. Participants may elect to receive an in-service withdrawal of all or a portion of their vested account balance upon attainment of the early retirement age of 59 ½. Participants may also withdraw, upon substantial financial hardship as defined in the plan documents, a portion of the vested balance of his or her account. Employee participants whose accounts balance exceeds \$5,000 may elect to defer required minimum distributions upon the attainment of age 70 ½ until they terminate employment. All distributions are subject to the applicable provisions of the plan agreement.

Forfeitures

Forfeitures represent the non-vested portion of terminated Participants' account balances. These amounts will be used to reduce future Company contributions. There were no forfeited non-vested accounts at December 31, 2013 and 2012. During 2013, there were no forfeited non-vested amounts.

Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses, including fees and expenses connected with the providing of administrative services by external service providers, are paid by the Company. Certain fees are paid directly by the participants based on the terms of the plan document, including but not limited to, distribution processing. Investment related expenses are included in net appreciation of fair value of investments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"), and are presented on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See below for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid to the participants.

Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes to Financial Statements
December 31, 2013 and 2012

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES...continued

Fair Value Measurements...continued

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds and Money Market Fund

Mutual funds and the money market fund are valued at the quoted market prices. These securities are categorized in Level 1 as they are actively traded and no valuation adjustments have been applied.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Income Taxes

GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Plan management has evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2010.

Recent Accounting Pronouncements

In October 2012, the FASB issued ASU 2012-04, "Technical Corrections and Improvements". The amendments in this update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The impact of adopting ASU 2012-04 on subsequent periods has not yet been determined.

The plan administrator has obtained a certification from the custodian that information provided to the plan administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets:

6. PARTY-IN-INTEREST TRANSACTIONS

The Plan Sponsor paid certain administrative expenses of the Plan.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. INCOME TAX STATUS

The Plan obtained its latest prototype opinion letter on March 31, 2008, in which the Internal Revenue Service stated the Plan, as then designed is qualified under Section 401(a) of the Code and that any employer adopting this plan will be considered to have a plan qualified under Section 401(a) of the Code. The Plan has been amended since receiving the opinion letter; however, the plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and is tax exempt.

Notes to Financial Statements
December 31, 2013 and 2012

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 30, 2014, the date the financial statements were available to be issued.
