NOTE 1 – THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General – The following description of the Caremark International, Inc. Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a non-contributory defined benefit pension plan covering all eligible employees of Caremark International, L.L.C., formerly known as Caremark International, Inc. Caremark International, L.L.C. is a subsidiary of Caremark Rx, L.L.C. (the Company). Effective March 22, 2007, the Company merged with CVS Corporation. Effective September 24, 2008, sponsorship of the Plan transferred from Caremark International, L.L.C. to CVS Caremark Corporation (CVS). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Pension benefits – Participants with five or more years of service are entitled to monthly pension benefits beginning at age 65 equal to the ratio of current years of service over years of service projected to age 65 multiplied by the difference of: (a) 1.75% multiplied by average monthly compensation (based on the five highest consecutive years of compensation out of the last ten years of participation) multiplied by years of service projected to age 65; minus (b) 1.75% multiplied by years of service projected to age 65 (the product not to exceed 60%) multiplied by primary social security benefit.

Early retirement benefits are payable to participants whose years of service plus age upon retirement equal at least 65. Participants became 100% vested in their accrued benefits as of February 28, 1997. Employees receive the value of their benefits as a straight-life annuity payable monthly from retirement or, if married, receive their benefits as a reduced 50% or 75% joint and survivor annuity. Death benefits are paid to spouses of employees if the participant has completed five years of service prior to death.

Effective February 28, 1997, the Plan was frozen. In no event shall any individual's accrued benefit under the Plan be greater than his accrued benefit under the Plan as of February 28, 1997. No new employees are eligible to enter the Plan. All active participants as of February 28, 1997 became fully vested. Any inactive participants who subsequently return to work prior to attaining the age of 65 will have pension benefit payments discontinued during the period of reemployment and will have all vesting service and benefit service at the time of previous termination of employment reinstated. An inactive participant who subsequently resumes employment after attaining the age of 65 will have pension benefit payments discontinued during their period of reemployment. The participant must be employed at least 40 hours per month and will continue to accrue further benefits based on the previous election form of payment. Furthermore, a participant who continued employment after attaining the age of 65 will not begin benefit payments during the period of continued employment. The participant will continue to accrue further benefits under the Plan.

Administration – CVS has appointed a Benefit Plans Committee (the Committee) to manage the operation and administration of the Plan. Effective January 2009, the Committee further named an Administrative Subcommittee and an Investment Subcommittee, and delegated certain fiduciary duties to each of these committees. A third-party administrator, Aon Hewitt Associates, processes and maintains the records of participant data. A master trust was established for all CVS defined benefit pension plans and JPMorgan Chase Bank, N.A. (JPMorgan) was contracted to act as the Trustee. Administrative expenses are paid by the Plan.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, the disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

CAREMARK INTERNATIONAL, INC. PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

Basis of accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America. Benefits, withdrawals, and distributions are recorded when paid.

Investment valuation and income recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Certain assets of the Plan are pooled in two master trust investment accounts. Investment income of each master trust is allocated to the Plan based upon the Plan's interest in the net assets in the master trusts throughout the year.

Income taxes – The Plan has received a favorable determination letter dated November 8, 2011. CVS believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Internal Revenue Code, as amended, and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Risks and uncertainties – The Plan holds interest in investment securities. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates, or other factors in the near term could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Subsequent events – The Plan has evaluated subsequent events through September 24, 2014, which is the date the financial statements were available to be issued. No events, except as noted in Note 9, require disclosure.

NOTE 2 – FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

What follows is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2013 and 2012.

Interest-bearing cash: Valued using the market approach at the net asset value of shares held by the Plan at year end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

CAREMARK INTERNATIONAL, INC. PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

The following tables set forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2013			Total
	Level 1	Level 2	Level 3	
Interest-bearing cash	\$ 564,327	\$ -	\$ -	\$ 564,327

	Level 1	Level 2	Level 3	
Interest-bearing cash	\$ 1,264,531	\$ -	\$ -	\$ 1,264,531

NOTE 3 - MASTER TRUST

Effective January 1, 2011, a Master Trust was created for the CVS Caremark Defined Benefit Plans. As part of this Master Trust arrangement, JPMorgan holds certain investments of the Plan in two Master Trust Investment Accounts (MTIAs) and executes all investment transactions on behalf of the Plan. All investment information disclosed in the accompanying financial statements, including Plan investments held in the MTIAs at December 31, 2013 and 2012, and Plan interest in investment gain of the MTIAs for the years ended December 31, 2013 and 2012, was obtained from information supplied to the Plan Administrator and certified as complete and accurate by JPMorgan.

The MTIAs were established to achieve certain economies in the management of investments and to maximize the return on investments of participating plans. Each participating plan has a proportional interest in the MTIAs, as more fully described below. Assets of the MTIAs are invested by investment managers in accordance with guidelines established by the Investment Subcommittee.

What follows is a description of the valuation methodologies used for assets measured at fair value in the MTIAs.

Interest-bearing cash, mutual funds, and common/collective trusts: Valued using the market approach at the net asset value of shares held by the MTIAs at year end.

Common stocks: Valued using the quoted market price of shares held by the MTIAs at year end.

Government obligations: Valued using the market approach based on a compilation of primary observable market information or a broker quote in a non-active market. Observable inputs that are used to value may include treasury feeds, yield to maturity (YTM), broker feeds, the Consumer Price Index (CPI), and reported trades.

Government agency obligations: Valued using the market approach based using the market approach on a compilation of primary observable market information or a broker quote in a non-active market. Observable inputs that are used to value may include to-be-announced forward market (TBA), treasury or floating index benchmarks, spreads to TBA levels, weight average maturity (WAM), prepayment speeds, cash flows, and reported trades.

CAREMARK INTERNATIONAL, INC. PENSION PLAN

The following sets forth additional disclosures for the fair value measurement of significant investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2013:

The Equities MTIA invests in the Mellon EB Stock Index Common/Collective Trust Fund. The objective of the Fund is to track the performance of the S&P 500 Index. In meeting this objective, the assets of the Fund may be invested in securities and a combination of other collective funds (each an affiliate of the Fund and collectively referred herein as the "EB Collective Investment Funds") that together are designed to track the performance of the S&P 500 Index.

Investors may purchase or redeem units of the Fund for cash or securities (in-kind transactions at the sole discretion of JPMorgan) based on the unit value determined as of the valuation date. Unit value is generally determined on a daily basis. All investors in the Fund have a proportionate undivided interest in the net assets of the Fund.

CAREMARK INTERNATIONAL, INC. PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

The Equities MTIA also invests in the Dimensional Funds U.S. Small Cap Common/Collective Trust Fund. The Fund is designed to achieve long-term capital appreciation. The portfolio seeks to purchase a broad and diverse group of readily marketable common stock of U.S. small companies using a market cap weighted approach. The portfolio invests in securities of U.S. companies with market capitalizations within the smallest 10% of the market universe or smaller than the 1,000th largest U.S. company, whichever results in a higher market capitalization break.

These Common/Collective trust funds have daily redemption frequency and a daily redemption notice period.

The Equities MTIA also invests in the Progress Investment Management 21st Century Equity Fund to provide participating plans and trusts the benefit of managed investments which seek to achieve a favorable, risk-adjusted performance to the total assets of the Fund as a result of the investment in equity securities. This Fund may be redeemed at the beginning of each month and requires a 30-day notice.

Fixed Income Master Trust Investment Account

The Plan's allocated interest in the net assets of the Fixed Income MTIA at December 31, 2013 and 2012 were \$53,411,105 (approximately 12%) and \$33,871,075 (approximately 13%), respectively.

The following sets forth additional disclosures for the fair value measurement of significant investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2013:

The PIMCO Long Duration Total Return Portfolio – A separate account fixed income portfolio that seeks exposure predominantly to high-quality and longer-duration fixed income securities. Duration, i.e. sensitivity to interest rates, will typically be managed to remain within a +/- 2 year band around its Barclay's Long-Term U.S. Government/Credit benchmark. A variety of strategies are employed to maximize return potential and manage overall portfolio risk, including investment across a wide variety of sectors and fixed-income issuers. The portfolio has a daily redemption frequency and a five day redemption notice requirement.

NOTE 4 – RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by JPMorgan, the Trustee of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 5 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits represent the estimated future periodic payments, including lump sum distributions, under the Plan's provisions that are attributable to services rendered by employees through the valuation date. Accumulated Plan benefits include benefits expected to be paid to:

- a) retired or terminated employees or their beneficiaries,
- b) beneficiaries of employees who have died and
- c) present employees or their beneficiaries.

Benefits under the Plan are based on years of service and benefit credit rates. The accumulated Plan benefits for active employees are based on years of service and benefit credit rates on the date at which the benefit information is presented (valuation date). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by the Plan's actuary, Aon Hewitt Associates, and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2013 (beginning of the Plan year) are as follows:

Actuarial cost method:	Standard Unit Credit Cost Method
Interest rate:	7.25%
Mortality rates:	RP-2000 mortality tables for annuitants and non-annuitants
Retirement age:	Age 65 for terminated vested participants, varying ages assuming 100% retirement at age 70 for active participants

The actuarial present value of accumulated Plan benefits as of January 1, 2013 is as follows:

Actuarial present value of accumulated Plan benefits:

Vested benefits:

Participants currently receiving payments	\$ 21,719,481
Other participants	<u>37,527,527</u>
	59,247,008

Nonvested benefits	<u>116,418</u>
--------------------	----------------

Total actuarial present value of accumulated Plan benefits	<u><u>\$ 59,363,426</u></u>
--	-----------------------------

CAREMARK INTERNATIONAL, INC. PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

The change in the actuarial present value of accumulated Plan benefits as of January 1, 2013 is as follows:

Actuarial present value of Plan benefits, beginning of year	<u>\$ 57,271,269</u>
Increase (decrease) during the year attributable to:	
Interest accumulation	4,064,452
Benefit payments	(2,462,823)
Other changes (1)	<u>490,528</u>
Net change	<u>2,092,157</u>
Actuarial present value of accumulated Plan benefits, end of year	<u><u>\$ 59,363,426</u></u>

- (1) Other changes represent the normal operation of the Plan. They consist primarily of the increase due to ongoing benefit accruals, if any, and those items of Plan experience that are not associated with Plan asset performance.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

NOTE 6 – FUNDING POLICY

CVS' funding policy is to make annual contributions at least equal to the minimum funding requirements of ERISA. This funding standard is such that, based on certain assumptions, annual contributions will provide adequate funding to meet benefit claims as they come due. CVS has met these minimum funding requirements in 2013 and 2012.

NOTE 7 – CERTIFIED INFORMATION

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2013 and 2012, and net appreciation, interest, and dividends for the years ended December 31, 2013 and 2012, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by JPMorgan in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 8 – PLAN TERMINATION OR MODIFICATION

CVS intends to continue the Plan indefinitely for the benefit of its employees; however, it reserves the right to discontinue its contributions and terminate or modify the Plan at any time by resolution of its Committee and subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- To retired employees receiving benefits and participants having reached the normal retirement date as of the beginning of the three year period ending on the termination date based on the provisions of the Plan in effect five years prior to the termination date
- To provide all other income guaranteed by Title IV of ERISA
- To provide all other nonforfeitable benefits under the Plan
- To provide all other benefits under the Plan

Certain benefits under the Plan are insured by the Pension Benefit Guarantee Corporation (the PBGC). Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of termination. There is a statutory ceiling, which is adjusted periodically, on the amount of a participant's monthly benefit that the PBGC guarantees. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan's sponsor and the level of benefits guaranteed by the PBGC.

NOTE 9 – SUBSEQUENT EVENT

Effective January 1, 2014, any participant previously terminated from CVS and where benefit payments have commenced, who is then rehired, will not have their benefit payments discontinued or suspended. The participants will continue to be paid in the same form and receive the same form of payment during the period of reemployment.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, Part V—Summary of Plan Provisions

History of the Plan

The Plan was established November 30, 1992, as a spin-off of active participants from the Baxter International Inc. and Subsidiaries Pension Plan. Caremark International Inc. accepted past service liabilities for the active participants. No terminated or retired participants were spun-off. Assets deemed sufficient to cover the qualified plan accumulated benefit obligation (ABO) for Caremark participants at the time of the spin-off were transferred in 1993. Adjustments to assets and liabilities during a transition period in 1993 were made for participants who terminated from Baxter and were hired by Caremark and vice versa.

Effective December 31, 1993, the Caremark Puerto Rico Plan was merged into the Caremark Pension Plan.

Effective January 1, 1994, when pay allowable for calculation of benefits decreased to \$150,000, the “wear-away” transition alternative was elected. The December 31, 1993, benefit using prior pay limits and service through 1993 will be a minimum to all future benefit calculations.

Effective March 1, 1995, the Plan was amended to incorporate the interest rates for lump sum purposes permitted by The Retirement Protection Act of 1994.

During 1995, the following three divisions covering plan participants were divested:

- CMS on March 31, 1995
- Clorazil on June 2, 1995
- Orthopedic Services on December 31, 1995

Clorazil and Orthopedic Services participants were granted immediate vesting.

Effective January 1, 1996, the Plan was amended and restated including a deemed cash-out provision.

Effective December 31, 1996, a minimum benefit of \$10 times Benefit Service was added to the benefit formula.

Effective February 28, 1997, the benefit formula and participation in the plan were frozen. All active participants as of that date became fully vested. Inactive participants as of that date who subsequently return to work must earn five years of vesting service to become fully vested.

In March of 1998 the Puerto Rico group was divested. Frozen benefits for all active and inactive employees remained in the Plan.

A more detailed summary of the current plan provisions is on the following pages.
