Anomatic Corporation Employee Retirement Savings Plan

NOTES TO FINANCIAL STATEMENTS

NOTE A - DESCRIPTION OF PLAN

The following description of the Anomatic Corporation (Company) Employee Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees who have six months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may make matching contributions based on a participant's elective deferral. This amount is discretionary and is determined by the Company's management. Contributions are subject to certain limitations.

Investment Options

Participants direct the investment of their contributions and employer matching contributions into any of the 27 investment options offered by the Plan. Participants may change their investment options upon notice to Principal Life Insurance Company.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, if applicable, and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Anomatic Corporation Employee Retirement Savings Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE A - DESCRIPTION OF PLAN - CONTINUED

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 6.25%, which are commensurate with local prevailing rates as determined periodically by the Plan administrator. Loan terms may not exceed five years. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a certain period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account, less applicable surrender charges in accordance with Plan provisions, as a lump-sum distribution. In addition, a participant may withdraw any part of his or her vested account in the event of undue financial hardship.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$20,785 and \$8,302, respectively. Forfeited nonvested accounts are used to reduce future employer contributions. During 2013, employer contributions were reduced by \$20,103 from forfeited nonvested accounts.

NOTE B – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants and the measurement date. See Note E for discussion of fair value measurements.

Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Interest income is accrued as it is earned.

Anomatic Corporation Employee Retirement Savings Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE B – SUMMARY OF ACCOUNTING POLICIES - CONTINUED

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based on the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

NOTE C - INVESTMENTS

NOTE E – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Certification (ASC) 820, Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access;

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability, and;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the assets or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Anomatic Corporation Employee Retirement Savings Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE E – FAIR VALUE MEASUREMENTS – CONTINUED

The following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in methodologies used at December 31, 2013 and 2012.

Separate accounts

Investments in separate accounts are made by the Plan in various investments with Principal Life Insurance Company. The values of the separate accounts are based on the underlying investments held in each separate account and are determined by Principal Life Insurance Company. The separate accounts are classified within level 2 of the valuation hierarchy.

Investment Contract

This investment is made by the Plan in an unallocated Flexible Investment Annuity Group Contract which is invested in a guaranteed interest account with Principal Life Insurance Company Life who guarantees a fixed interest rate. The investment contract is classified within level 3 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value at:

NOTE E – FAIR VALUE MEASUREMENTS – CONTINUED

The amount of total losses for the guaranteed interest account for the period included in changes in net assets attributable to the change in unrealized gains or losses related to assets still held at the reporting date was \$6,349 for the year ended December 31, 2013. Gains and losses (realized and unrealized) included in the changes in net assets for the period above are reported in net appreciation in guaranteed interest account in the statement of changes in net assets available for benefits.

NOTE F– PLAN TERMINATION

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

NOTE G– TAX STATUS

The Company adopted a Prototype Non-Standardized Profit Sharing Plan with a cash or deferred arrangement which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008. The letter stated that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE H– PLAN ADMINISTRATION

Employees of the Company perform certain administrative functions. No such employee receives compensation from the Plan. A general administration expense charge, rendered by Principal Life Insurance Company, is applied in a uniform manner to all contracts.

Anomatic Corporation Employee Retirement Savings Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE I-TRANSACTIONS WITH PARTIES IN INTEREST

Certain Plan investments include separate and guaranteed investments with Principal Life Insurance Company (Principal). Principal is the custodian, as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Principal also manages plan assets at the direction of participants. Fees paid by the Plan for these services amounted to \$13,218 for the year ended December 31, 2013.

NOTE J- RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE K – EXCESS CONTRIBUTIONS

Benefit distributions of \$253,950 for the plan year ended December 31, 2013 include payments of \$29,795 made to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan for the prior year.

Payments in the amount of \$25,932 were made February 2014 to certain active participants to return to them 2013 excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan.

NOTE L – SUBSEQUENT EVENT

Management has evaluated subsequent events through September 3, 2014, the date the financial statements were available to be issued.
