The 401(k) Retirement Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description

The following description of The 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan designed to comply with the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is intended to assist employees of Prestolite Wire, LLC, Liberty Lane Partners, LLC, Proveer USA LLC (f/k/a Sign Supply International, LLC), Emerson Ecologics, LLC, Granite State Aviation, LLC, Elmet Technologies, Inc., NBE of Colorado, LLC (d/b/a IntelliTec Medical Institute), Terrace International Distributors, Inc., ETI Precision Corp., ACCEL Performance Group, LLC (f/k/a Prestolite Performance LLC), Vestar Technologies, LLC, and other entities under common control (collectively, the "Company") in a long-range program of savings, to aid in meeting financial emergencies which may arise, and to be used as a means of adding to their retirement income. The administration committee of the Plan and the plan administrator manage the operation and administration of the Plan. Liberty Lane Service Company LLC (f/k/a Latona Associates LLC) is the sponsor of the Plan.

Effective June 30, 2013, ETI Precision Corp. (ETI) ceased operations and no longer had employees. Participants were permitted to maintain their existing accounts within the Plan in accordance with the plan provisions disclosed below.

Effective June 1, 2012, Proveer USA LLC (f/k/a Sign Supply International, LLC) was sold to a third party. Accordingly, the entity and its employees ceased their active participation in the Plan; however, participants were permitted to maintain their existing accounts within the Plan in accordance with the plan provisions disclosed below.

Effective June 29, 2012, Liberty Lane Advisors LLC (LLA) consented to cease the entity and its employees' active participation in the Plan. Participants were permitted to maintain their existing accounts within the Plan or transfer their account balances to a newly formed tax-qualified savings plan sponsored by LLA. During 2012, employees of LLA transferred approximately \$69,000 out of the Plan. There were no transfers in 2013.

Effective November 2, 2012, Prestolite Wire, LLC was sold to a third party. Accordingly, the entity and its employees ceased their active participation in the Plan; however, participants were permitted to maintain their existing accounts within the Plan in accordance with the plan provisions disclosed below.

Contributions - The Plan provides for employees to contribute before-tax earnings from 1 percent to 50 percent of base pay including bonus and overtime, as defined in the Plan, subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan, provided the amount is not less than \$500.

The 401(k) Retirement Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description (Continued)

The Plan allows for fixed matching contributions at the discretion of each participating company. There were no fixed matching contributions made to the Plan in 2013. The Plan also allows for discretionary matching contributions to be determined by each participating company on an annual basis, and additional discretionary company contributions also to be determined by each participating company. Several participating companies elected to make discretionary matching contributions in 2013. There was approximately \$417,000 of discretionary matching contributions net of forfeitures made to the Plan in 2013. There were no discretionary company contributions made to the Plan in 2013.

Participant Accounts - Each participant's account is credited with the participant's contributions and withdrawals, as applicable, and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Participant Notes Receivable - Participants may borrow from their fund accounts a minimum of \$1,000 up to the lesser of \$50,000 or 50 percent of their account balances. Notes receivable terms may not exceed five years. The participant notes receivable are secured by the balance in the participant's before-tax account and bear interest at a rate commensurate with the return provided by the prime interest rate charged for notes receivable made under similar circumstances. Principal and interest are paid ratably through payroll deductions.

Vesting - Participants are immediately 100 percent vested in before-tax contributions, employer fixed matching contributions, discretionary contributions, rollover contributions, and any income or loss thereon. The Plan also previously permitted retirement contributions by a participating employer. Participants fully vest in any previous retirement contributions upon completing three years of service. As a result of a Plan amendment, the retirement contributions were eliminated from the Plan effective January 1, 2009.

Benefit Payments - Upon termination of service due to retirement, disability, or reduction in workforce, a participant may elect to have the total of his or her vested account balance distributed in a single lump-sum payment or may elect to have the account distributed over a period specified by the participant not to exceed 25 years. In the event of termination due to death, payments of benefits will be made in a single lump sum to the participant's beneficiary.

The 401(k) Retirement Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain plan assets are in investment funds managed by T. Rowe Price Trust Company. T. Rowe Price Trust Company is the trustee of the Plan and therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. The Company also pays certain administrative fees on behalf of the Plan.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company contributions or to pay administrative expenses of the Plan.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except for its common collective trust fund investment (commonly referred to as a stable value fund), which is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the stable value fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the stable value fund is based on its proportionate ownership interest in the fair value of the stable value fund. The stable value fund primarily holds synthetic investment contracts, guaranteed investment contracts, separate account contracts, and short-term investments. The fair value of the synthetic investment contracts, guaranteed investment contracts, and separate account contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer. The short-term investments are valued based on quoted market prices. The other common collective trust fund is valued at net asset value per share (or its equivalent) of the fund, which is based on the fair value of the fund's underlying net assets.

All other investments are valued based on quoted market prices. See Note 4 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The 401(k) Retirement Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 2 - Summary of Significant Accounting Policies (Continued)

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 17, 2014, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

T. Rowe Price Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013 and 2012.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 4 - Fair Value Measurements (Continued)

- (2) This class represents an investment in a common collective trust fund that invests primarily in synthetic investment contracts, guaranteed investment contracts, separate account contracts, and short-term investments. As of December 31, 2013 and 2012, a limitation was in effect which delays redemption or withdrawal requests of the stable value investments for either a 12- or 30-month period by the Plan in its entirety. The delay period may be shortened or waived by the Trustee in its sole discretion. There is no such limitation on a participant-level basis. The stable value investments impose a 90-day "equity wash" provision on exchanges to competing funds. These investments are interest rate-sensitive; therefore, direct exchanges from the stable value investments to money market funds and certain short-term bond funds are not permitted. Permissible investment options include most common stock funds and any fixed-income fund with a duration that is equal to or greater than three years. Exchanges from the stable value investments must remain invested in permissible investment options for at least 90 days before exchanging into a competing fund. There are no unfunded commitments or other redemption notice requirements for this investment.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2013.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.
