NOTE 1 DESCRIPTION OF PLAN

The following description of Rissman, Barrett, Hurt, Donahue & McLain, P.A. (the Company) Employees' Savings Trust (the Plan) provides general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan originally effective January 1, 1987. The Plan has been amended throughout the years to comply with tax legislation and was most recently amended effective January 1, 2013. The Plan covers all full-time employees of the Company who have six months of service and are age twenty and one-half or older. It is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Contributions

The Plan includes a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code. Eligible participants are permitted to elect to have a percentage, limited by Plan provisions, of their compensation contributed as pre-tax 401(k) or Roth 401(k) contributions to the Plan. Participants age 50 or older are allowed to make catch-up contributions

The Employer may, at its discretion, elect to make a matching contribution or profit sharing contribution to the Plan. For the year ended December 31, 2013, the employer match was calculated as 16.32% of the lessor of the participant's 2013 deferral or 4% of total wages. For the year ended December 31, 2012, the employer match was calculated as 18.78% of the lessor of the participant's 2012 deferral or 4% of total wages. Total wages was capped at $170,000 for both years ended. The Company's match contribution was $68,000 and $67,431 for the years ended December 31, 2013 and 2012, respectively.

The discretionary profit sharing contributions are allocated among the designated classes of participants, as defined in the Plan, in accordance with certain testing principles pursuant to the Internal Revenue Code. The Company's profit sharing contribution was $153,751 and $165,441 for the years ended December 31, 2013 and 2012, respectively.

Participants direct the investment of contributions into various investment options offered by the Plan. Contributions are subject to limitations.

Participants may also rollover amounts representing distributions from other qualified defined benefit or contribution plans or conduit IRA's.

Participant Accounts

Each participant's account is credited with the participant's salary deferral, the Company's matching contribution, an allocation of the Company's profit sharing contribution, and an allocation of Plan earnings or losses. Allocations are based on participant earnings or account balances as defined. Income is allocated daily based on the shares in the participant's account.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's matching and profit sharing contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. Vesting is based upon six full years of credited service allowing for various severance periods as follows:

Vesting (Continued)

Years of Service	Vesting Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A participant is 100% vested upon termination by reason of retirement, death or disability. Upon termination, any amount in which the participant is not vested shall be forfeited.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The Plan allows participants to borrow funds from the Plan based on certain conditions. Notes are repaid through payroll deductions. Note terms are up to five years, except for loans to fund the purchase of a principal residence, for which the note may be repaid over a reasonable period that may exceed five years. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. At December 31, 2013, interest rates ranged from 4.25% to 8.75%. Principal and interest is paid ratably through payroll deductions.

Forfeited Accounts

Forfeited non-vested accounts are used to reduce future Employer contributions. Forfeited non-vested accounts as of December 31, 2013 and 2012 totaled $4,304 and $10,319, respectively. There were $2,795 and $10,198 of forfeitures used to reduce Employer contributions for the years ended December 31, 2013 and 2012, respectively.

Benefit Payments

The benefit to which a participant is entitled is the benefit that can be provided by the participant's account. Upon termination of employment, death, disability, or retirement, the participant will receive the value of the vested interest in his or her account in the form of a lump sum distribution or in installments as elected by the participant. The Plan allows for in-service distributions if a participant reaches age 59½ and hardship distributions subject to Plan provisions. If a participant terminates employment and the participant's vested account balance does not exceed $5,000, the Plan Administrator will authorize the benefit payment without the participant's consent.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value of Financial Instruments (Continued)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. During the years ended December 31, 2013 and 2012, there were no changes in the valuation methodologies used.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds and the self-directed brokerage accounts represent investments with various investment managers. The fair values of mutual funds and the self-directed brokerage accounts are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds and the self-directed brokerage accounts are traded on national securities exchanges are valued at the net asset value. The collective funds represent investments with various investment managers. The respective fair values of these investments are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Units held in the collective funds are valued based on the Net Asset Value (NAV) of the underlying investments in the funds at year-end. The money market fund is valued at fair value which approximates cost.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

For the years ended December 31, 2013 and 2012, certain administrative service expenses were paid by the Plan Sponsor and by the Plan.

Benefit Payments

Benefit payments are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the plan documents.

Subsequent Events

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through October 1, 2014, the date the financial statements were available to be issued.

NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION

SunTrust Bank, the custodian of the Plan, has supplied the Plan Administrator with a certification as to the completeness and accuracy of all investment information and the notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012 (except for the adjustment from fair value to contract value for fully benefit responsive investment contracts), the statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2013.

NOTE 4 FAIR VALUE MEASUREMENT (CONTINUED)

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31:

	2013			
Investment Type	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Fund:				
Federated Capital Preservation Fund	$1,653,593	$ -	Daily	Daily

	2012			
Investment Type	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Fund:				
Federated Capital Preservation Fund	$1,737,541	$ -	Daily	Daily

The federated capital preservation fund's objective is to protect principal and provide a higher rate of return as compared to traditional money market funds. To achieve this, the Fund invests in instruments which are not expected to experience significant price fluctuation in most economic or interest rate environments.

NOTE 5 INVESTMENTS

The following investments represent 5 percent or more of the Plan's net assets available for benefits as of December 31:

	2013	2012
Federated Capital Preservation Fund	$ 1,653,593	$ 1,737,541
T. Rowe Price Retirement 2030 Fund	1,257,485	879,118

Vanguard Developed Market Index INV	1,041,237	*
MFS Research Bond Fund A	*	957,565

** Does not exceed 5% of net assets available for benefits*

NOTE 5 INVESTMENTS (CONTINUED)

During 2013 and 2012, the Plan's investments (including investments bought, sold and held during the year) appreciated by the following:

	2013	2012
Mutual Funds	$ 2,863,078	$ 1,639,188
Collective Funds	-	33
Total Appreciation	$ 2,863,078	$ 1,639,221

NOTE 6 RISKS AND UNCERTAINTIES

The Plan provides for investment in a variety of investment funds. In general, investments are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants will become 100 percent vested in their accounts.

NOTE 8 PLAN TAX STATUS

The Plan is operating under a volume submitter plan. The Company has received a determination letter from the Internal Revenue Service dated July 6, 2010, which indicates that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 9 PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by SunTrust Bank, the custodian and, therefore, these transactions qualify as party-in-interest. Total fees paid in 2013 and 2012 to the custodian were $16,559 and $10,161, respectively.

NOTE 10 EXCESS CONTRIBUTIONS PAYABLE

For the year ended December 31, 2012, the Plan failed to comply with the Actual Deferral Percentage and Actual Contribution Percentage discrimination test under sections 401(k) and 401(m) of the Internal Revenue Code. This test is to determine whether contributions are discriminating in favor of the highly compensated group of employees as compared to the non-highly compensated group of employees. A corrective measure to be taken, in order to continue as a qualified plan under section 401(a) of the Internal Revenue Code, is to refund the excess contributions and any corresponding employer matching contributions to the highly compensated employees (the "corrective disbursement"). A Corrective disbursement of $126,498 was necessary for contributions made in 2012 and is included in excess contributions payable.
