INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
Galata Chemicals, LLC 401(k) Plan
New Orleans, LA

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Galata Chemicals, LLC 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2013 and 2012, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of and for the year ended December 31, 2013 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

GALATA CHEMICALS, LLC 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
For the Years Ended December 31, 2013 and 2012

1) Description of plan

The following description of Galata Chemicals, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

a) General

The Plan is a defined contribution plan available to substantially all employees of Galata Chemicals, LLC, excluding certain employee classes, as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b) Contributions

Employees can elect to contribute to the Plan with payroll deductions up to 90% of total compensation. The amount of employee contributions is not to exceed the maximum deferral amount indicated by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions. Employees are automatically enrolled to contribute 3%, unless the employee affirmatively elects otherwise. The Company will make non-discretionary matching contributions to the Plan for 100% of an employee's contribution up to 6% of the employee's compensation. The employee and Company contributions are allocated to the respective investment funds based on the employee's election.

The Company may make contributions for a plan year designated as "qualified nonelective employer contributions" as defined by the Plan documents.

c) Participant accounts

Each participant's account is credited with the participant's and employer contributions and plan earnings, and charged with any distributions made to the participant. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d) Notes receivable - participant loans

Participants may borrow from their fund accounts up to a maximum of 50 percent of their vested account balance or \$50,000 minus the highest outstanding loan balance in the participants' account during the last 12 months. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through biweekly payroll deductions over a period established at the time the loan is made. Interest rates were 4.25 % for loans outstanding at December 31, 2013 and 2012.

e) Vesting

Participants are fully vested in the portion of their account representing their contributions plus actual earnings thereon at all times. The portion of each participant's account representing Company matching contributions vests immediately.

GALATA CHEMICALS, LLC 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
For the Years Ended December 31, 2013 and 2012

1) Description of plan (continued)

f) Payments of benefits

On termination of employment, death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested balance in his or her account. A participant may withdraw all or part of their rollover contributions at any time. Withdrawals from the tax-deferred contributions may only be made after attaining age 59 ½ or due to financial hardship, as defined by the Plan. Balances under \$1,000 may be paid out at the discretion of the Company, as defined in the Plan documents. Benefit payments to participants are recorded upon distribution.

2) Summary of significant accounting policies

a) Basis of accounting

The financials statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The financial statements reflect the adoption of Financial Accounting Standards Board Accounting Standards Codification (ASC) 962. The Plan invests in investment contracts through a common collective trust. As required by ASC 962, the Statement of Net Assets Available for Benefits presents the fair value of the investments in the common collective trust as well as the adjustment of the investment in the common collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

b) Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

c) Payment of benefits

Benefits are recorded when paid.

d) Investment valuation and income recognition

Investments are stated at fair market value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 12 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

GALATA CHEMICALS, LLC 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
For the Years Ended December 31, 2013 and 2012

2) Summary of significant accounting policies (continued)

e) Notes receivable - participant loans

Notes receivable from participants are measured at the unpaid principal balance plus unpaid accrued interest. Defaulted loans, as defined by the Plan, are deemed distributed and recorded as benefits paid to participants in the statement of changes in net assets available for benefits. During 2013 and 2012, no deemed distributions were recorded.

f) Plan expenses

Except for loan origination fees and overnight fees associated with notes receivables from participants, all administrative expenses of the Plan are paid by the Company.

3) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, participants are 100% vested in their account balance.

4) Risks and uncertainties

The Plan invests in for various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

5) Information certified by the Plan's trustee (unaudited)

The following is a summary of the investment information regarding the Plan as of December 31, 2013 and 2012, and for the years then ended, included in the Plan's financial statements and supplementary schedules, that was prepared by or derived from information prepared by Fidelity Management Trust Company, the trustee of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that such information is complete and accurate.

6) Investments

The Plan's investments are held by Fidelity Management Trust Company.

The following table presents individual investments that represent 5% or more of the Plan's net assets at December 31, 2013 and 2012:

	<u>2013</u>	<u>2012</u>

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$1,007,041 and \$445,519 in 2013 and 2012, respectively, as follows:

	<u>2013</u>	<u>2012</u>
Mutual funds	\$ 996,806	\$ 434,442
Common/collective trust	10,235	11,077
Total	<u>\$ 1,007,041</u>	<u>\$ 445,519</u>

7) Common/collective trusts (managed income portfolio)

The Plan has entered into a managed income portfolio (the "Portfolio") with Fidelity Management Trust Company (FMTC). The Portfolio invests in assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enters into "wrapper" contracts issued by third parties and invests in cash equivalents represented by shares in a money market fund. FMTC seeks to minimize the exposure of the Portfolio to wrap credit risk through, among other means, diversification of the wrap contracts across an approved group of issuers.

The Portfolio calculates its net asset value per unit as of the close of business of the New York Stock Exchange. It is the policy of the Portfolio to use its best efforts to maintain a stable net asset value of \$1.00 per unit; although there is no guarantee that the Portfolio will be able to maintain this value. Investments in wrap contracts are fair valued using a discounted cash flow model that considers recent fee bids as determined by recognized dealers, discount rate, and the duration of the underlying portfolio securities. The dealers may consider the following in the bid process: size of the portfolio, performance of the underlying portfolio, plan cash flow, and the fair value to contract value ratio. For purposes of benefit responsive withdrawals, investments in wrap contracts are valued at contract value, which could be more or less than fair value. An investment contract is generally permitted to be valued at contract value, rather than fair value, to the extent it is fully benefit-responsive and held by a trust offered only to qualified employer-sponsored defined-contribution plans.

GALATA CHEMICALS, LLC 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
For the Years Ended December 31, 2013 and 2012

7) Common/collective trusts (managed income portfolio) (continued)

An investment contract is considered fully benefit-responsive if: 1) it is effected directly between the Portfolio and the issuer and may not be transferred without the consent of the issuer, 2) the issuer of the wrap contract provides assurance that the contract crediting rate will not be adjusted to less than zero, 3) the contract requires all permitted unit holder-initiated transactions with the Portfolio to occur at contract value without limitation, 4) it is improbable that an event will occur that would limit the ability of the Portfolio to transact at contract value with both the issuer and unitholders, 5) the Portfolio allows unit holders reasonable access to their funds. Investment contracts that do not meet the criteria for valuation at contract value will be valued at fair value as determined by the trustee. These investment contracts provide for benefit responsive withdrawals at contract value.

As described in Note 2, because the common/collective trust (managed income portfolio) is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the common/collective trust. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The crediting interest rate of the investment contracts held by the common/collective trusts at December 31, 2013 and 2012 was 0.89% and 1.05%, respectively. For the years ended December 31, 2013 and 2012, the average return for the stable value fund was 1.54% and 1.70%, respectively. Interest rates are established quarterly.

8) Reconciliation of plan financial statements to the Form 5500

The following is a reconciliation of net assets per the Form 5500 to financial statements as of December 31, 2013 and 2012:

	<u>2013</u>	<u>2012</u>
Net assets, reflected on Form 5500	\$ 8,839,545	\$ 6,835,592
Add: Adjustment from fair value to contract value for fully benefit-responsive investment	<u>(16,721)</u>	<u>(29,437)</u>
Net assets, reflected on financial statement	<u>\$ 8,822,824</u>	<u>\$ 6,806,155</u>

The following is a reconciliation of the net increase per the Form 5500 to the financial statements for the year ended December 31, 2013:

8) Reconciliation of plan financial statements to the Form 5500 (continued)

The following is a reconciliation of the net increase per the Form 5500 to the financial statements for the year ended December 31, 2012:

	<u>2012</u>
Net income, reflected on Form 5500	\$ 1,756,444
Less: 2012 adjustment from fair value to contract value for fully benefit-responsive investment	(29,437)
Add: 2011 adjustment from fair value to contract value for fully benefit-responsive investment	<u>19,277</u>
Net increase, reflected in the financial statements	<u>\$ 1,746,284</u>

9) Related party transactions

The Plan invests in mutual funds and common/collective trust accounts offered and managed by Fidelity Management Trust Company. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

10) Excess contributions

For the Plan year ending December 31, 2013, the plan passed the nondiscrimination tests, and for the Plan year ending December 31, 2012, the plan failed the performed in accordance with the applicable provisions of Section 401(k) and 401(m) of the Internal Revenue Code. Consequently, contributions in the amount of \$430 at December 31, 2012 have been deferred for reimbursement in the subsequent year.

11) Income tax status

The plan received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the letter, including amendments made to comply with recent law changes, the Plan administrator believes the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor and Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

12) Fair Value Measurement

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for measuring assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Common/collective trusts: Valued at fair value by discounting the related cash flows as described in Note 7.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different measurement at the reporting date.

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
Galata Chemicals, LLC 401(k) Plan
New Orleans, LA

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Galata Chemicals, LLC 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2013 and 2012, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of and for the year ended December 31, 2013 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

GALATA CHEMICALS, LLC 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
For the Years Ended December 31, 2013 and 2012

1) Description of plan

The following description of Galata Chemicals, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

a) General

The Plan is a defined contribution plan available to substantially all employees of Galata Chemicals, LLC, excluding certain employee classes, as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b) Contributions

Employees can elect to contribute to the Plan with payroll deductions up to 90% of total compensation. The amount of employee contributions is not to exceed the maximum deferral amount indicated by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions. Employees are automatically enrolled to contribute 3%, unless the employee affirmatively elects otherwise. The Company will make non-discretionary matching contributions to the Plan for 100% of an employee's contribution up to 6% of the employee's compensation. The employee and Company contributions are allocated to the respective investment funds based on the employee's election.

The Company may make contributions for a plan year designated as "qualified nonelective employer contributions" as defined by the Plan documents.

c) Participant accounts

Each participant's account is credited with the participant's and employer contributions and plan earnings, and charged with any distributions made to the participant. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d) Notes receivable - participant loans

Participants may borrow from their fund accounts up to a maximum of 50 percent of their vested account balance or \$50,000 minus the highest outstanding loan balance in the participants' account during the last 12 months. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through biweekly payroll deductions over a period established at the time the loan is made. Interest rates were 4.25 % for loans outstanding at December 31, 2013 and 2012.

e) Vesting

Participants are fully vested in the portion of their account representing their contributions plus actual earnings thereon at all times. The portion of each participant's account representing Company matching contributions vests immediately.

GALATA CHEMICALS, LLC 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
For the Years Ended December 31, 2013 and 2012

1) Description of plan (continued)

f) Payments of benefits

On termination of employment, death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested balance in his or her account. A participant may withdraw all or part of their rollover contributions at any time. Withdrawals from the tax-deferred contributions may only be made after attaining age 59 ½ or due to financial hardship, as defined by the Plan. Balances under \$1,000 may be paid out at the discretion of the Company, as defined in the Plan documents. Benefit payments to participants are recorded upon distribution.

2) Summary of significant accounting policies

a) Basis of accounting

The financials statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The financial statements reflect the adoption of Financial Accounting Standards Board Accounting Standards Codification (ASC) 962. The Plan invests in investment contracts through a common collective trust. As required by ASC 962, the Statement of Net Assets Available for Benefits presents the fair value of the investments in the common collective trust as well as the adjustment of the investment in the common collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

b) Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

c) Payment of benefits

Benefits are recorded when paid.

d) Investment valuation and income recognition

Investments are stated at fair market value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 12 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

GALATA CHEMICALS, LLC 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
For the Years Ended December 31, 2013 and 2012

2) Summary of significant accounting policies (continued)

e) Notes receivable - participant loans

Notes receivable from participants are measured at the unpaid principal balance plus unpaid accrued interest. Defaulted loans, as defined by the Plan, are deemed distributed and recorded as benefits paid to participants in the statement of changes in net assets available for benefits. During 2013 and 2012, no deemed distributions were recorded.

f) Plan expenses

Except for loan origination fees and overnight fees associated with notes receivables from participants, all administrative expenses of the Plan are paid by the Company.

3) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, participants are 100% vested in their account balance.

4) Risks and uncertainties

The Plan invests in for various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

5) Information certified by the Plan's trustee (unaudited)

The following is a summary of the investment information regarding the Plan as of December 31, 2013 and 2012, and for the years then ended, included in the Plan's financial statements and supplementary schedules, that was prepared by or derived from information prepared by Fidelity Management Trust Company, the trustee of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that such information is complete and accurate.

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$1,007,041 and \$445,519 in 2013 and 2012, respectively, as follows:

	<u>2013</u>	<u>2012</u>
Mutual funds	\$ 996,806	\$ 434,442
Common/collective trust	10,235	11,077
Total	<u>\$ 1,007,041</u>	<u>\$ 445,519</u>

7) Common/collective trusts (managed income portfolio)

The Plan has entered into a managed income portfolio (the "Portfolio") with Fidelity Management Trust Company (FMTC). The Portfolio invests in assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enters into "wrapper" contracts issued by third parties and invests in cash equivalents represented by shares in a money market fund. FMTC seeks to minimize the exposure of the Portfolio to wrap credit risk through, among other means, diversification of the wrap contracts across an approved group of issuers.

The Portfolio calculates its net asset value per unit as of the close of business of the New York Stock Exchange. It is the policy of the Portfolio to use its best efforts to maintain a stable net asset value of \$1.00 per unit; although there is no guarantee that the Portfolio will be able to maintain this value. Investments in wrap contracts are fair valued using a discounted cash flow model that considers recent fee bids as determined by recognized dealers, discount rate, and the duration of the underlying portfolio securities. The dealers may consider the following in the bid process: size of the portfolio, performance of the underlying portfolio, plan cash flow, and the fair value to contract value ratio. For purposes of benefit responsive withdrawals, investments in wrap contracts are valued at contract value, which could be more or less than fair value. An investment contract is generally permitted to be valued at contract value, rather than fair value, to the extent it is fully benefit-responsive and held by a trust offered only to qualified employer-sponsored defined-contribution plans.

7) Common/collective trusts (managed income portfolio) (continued)

An investment contract is considered fully benefit-responsive if: 1) it is effected directly between the Portfolio and the issuer and may not be transferred without the consent of the issuer, 2) the issuer of the wrap contract provides assurance that the contract crediting rate will not be adjusted to less than zero, 3) the contract requires all permitted unit holder-initiated transactions with the Portfolio to occur at contract value without limitation, 4) it is improbable that an event will occur that would limit the ability of the Portfolio to transact at contract value with both the issuer and unitholders, 5) the Portfolio allows unit holders reasonable access to their funds. Investment contracts that do not meet the criteria for valuation at contract value will be valued at fair value as determined by the trustee. These investment contracts provide for benefit responsive withdrawals at contract value.

As described in Note 2, because the common/collective trust (managed income portfolio) is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the common/collective trust. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The crediting interest rate of the investment contracts held by the common/collective trusts at December 31, 2013 and 2012 was 0.89% and 1.05%, respectively. For the years ended December 31, 2013 and 2012, the average return for the stable value fund was 1.54% and 1.70%, respectively. Interest rates are established quarterly.

8) Reconciliation of plan financial statements to the Form 5500

The following is a reconciliation of net assets per the Form 5500 to financial statements as of December 31, 2013 and 2012:

	<u>2013</u>	<u>2012</u>
Net assets, reflected on Form 5500	\$ 8,839,545	\$ 6,835,592
Add: Adjustment from fair value to contract value for fully benefit-responsive investment	<u>(16,721)</u>	<u>(29,437)</u>
Net assets, reflected on financial statement	<u>\$ 8,822,824</u>	<u>\$ 6,806,155</u>

The following is a reconciliation of the net increase per the Form 5500 to the financial statements for the year ended December 31, 2013:

	<u>2013</u>
Net income, reflected on Form 5500	\$ 2,003,953
Less: 2013 adjustment from fair value to contract value for fully benefit-responsive investment	<u>(16,721)</u>
Add: 2012 adjustment from fair value to contract value for fully benefit-responsive investment	<u>29,437</u>
Net increase, reflected in the financial statements	<u>\$ 2,016,669</u>

8) Reconciliation of plan financial statements to the Form 5500 (continued)

The following is a reconciliation of the net increase per the Form 5500 to the financial statements for the year ended December 31, 2012:

	<u>2012</u>
Net income, reflected on Form 5500	\$ 1,756,444
Less: 2012 adjustment from fair value to contract value for fully benefit-responsive investment	(29,437)
Add: 2011 adjustment from fair value to contract value for fully benefit-responsive investment	<u>19,277</u>
Net increase, reflected in the financial statements	<u>\$ 1,746,284</u>

9) Related party transactions

The Plan invests in mutual funds and common/collective trust accounts offered and managed by Fidelity Management Trust Company. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

10) Excess contributions

For the Plan year ending December 31, 2013, the plan passed the nondiscrimination tests, and for the Plan year ending December 31, 2012, the plan failed the performed in accordance with the applicable provisions of Section 401(k) and 401(m) of the Internal Revenue Code. Consequently, contributions in the amount of \$430 at December 31, 2012 have been deferred for reimbursement in the subsequent year.

11) Income tax status

The plan received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the letter, including amendments made to comply with recent law changes, the Plan administrator believes the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor and Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

12) Fair Value Measurement

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for measuring assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Common/collective trusts: Valued at fair value by discounting the related cash flows as described in Note 7.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different measurement at the reporting date.
