The changes in net assets of the Plan are included in the accompanying statement of changes in net assets available for benefits from December 31, 2013. A summary of the transferred net assets follows:

Investment contract	\$1,213,823
Mutual funds	1,859,941
Participants' notes receivable	<u>35,341</u>
	<u><u>\$3,109,105</u></u>

General

The Plan is a contributory profit sharing plan for eligible employees of Composites Horizons, Inc. The Plan was originally established on January 1, 1988 by Composites Horizons, Inc. and was amended and restated effective January 1, 2010. The Plan's investments are held by ING Life Insurance and Annuity Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility and Participation

All employees of the Company who are age 20.5 or older and have completed 6 months of service, with respect to making salary reduction contributions, are generally eligible to participate in the Plan on the Plan Entry Date. The following classes of employees are not eligible; employees whose compensation and conditions of employment are established under a collective bargaining agreement; employees who are non-resident aliens who receive no earned income from services rendered within the United States; employees who are leased. The Plan Entry date is the first day of each Plan Year and the first day of the seventh month of each Plan Year following the date an employee satisfies the age and service requirements, thereby becoming an "Eligible Employee". All "Eligible Employees" shall receive (1) matching contributions, and (2) discretionary profit sharing contributions, with the latter being credited in accordance with allocation procedures set forth in the Plan.

Note A - Description of the Plan (continued)

Contributions

Eligible participants are allowed to make contributions from their pre-tax compensation. The Company may also make matching contributions of participants' pre-tax contribution up to 30% of such participant's pre-tax compensation. In addition, the Company may make discretionary profit sharing plan contributions in amounts as determined by its Board of Directors.

There were no profit sharing plan contributions made to the Plan by the Company during the years ended December 31, 2013 and 2012.

The maximum permissible amount that may be contributed to a participant's account each year shall not exceed the lesser of:

- (1) The total of:
 - The employee elective deferral, as prescribed by the Internal Revenue Code, currently at \$17,500 for the year 2013, and \$17,000 for the year 2012, plus
 - The employee "catch-up" contribution for participants who are age 50 by the end of the Plan year, as prescribed by the Internal Revenue Code, currently at \$5,500 for the years 2013 and 2012, plus
 - Company matching contributions, plus
 - Company discretionary profit sharing plan contributions, or
- (2) The *Defined Contribution Dollar Limit* currently at \$51,000 and \$50,000 for years 2013 and 2012, respectively.
- (3) 100% of a participant's annual gross compensation (not exceeding \$255,000 and \$250,000) for the years 2013 and 2012, respectively.

Participants' Notes Receivable

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. Loan terms cannot extend beyond five years, unless used for the purchase of a primary residence. Specific rate of interest, security and repayment are determined at the time the loan is executed.

Note A - Description of the Plan (concluded)

Investment Options

Under the ING Life Insurance and Annuity Company contract, upon enrollment in the Plan, a participant may direct employee contributions in % multiples or a fixed dollar amount among the guaranteed or separate pooled accounts.

Except for participants' notes receivable, the Plan's assets were invested and held by ING Life Insurance and Annuity Company, the custodian of the Plan. The custodian of the Plan invests all monies in guaranteed accounts and mutual accounts for the employee. The employee chooses from different types of investment securities offered and contributes periodically via payroll deductions.

Participant Accounts & Vesting

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions portion of participant accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service. For purposes of vesting, employees will have completed a Year of Service if they have been credited with at least 1000 hours of Service.

Distributions to Participants

Upon termination for any reason, including total disability or death, a participant with vested benefits equal to or less than \$5,000, will be distributed in a single lump-sum payment. A participant with vested benefits greater than \$5,000 must consent to the distribution before it may be made. A participant's rollover account will not be considered as part of the benefit.

Forfeitures

Forfeitures may be used to reduce employer contributions. At December 31, 2013, forfeited non-vested accounts used totaled \$4,979. At December 31, 2012, forfeited non-vested accounts used totaled \$1,042.

Note B - Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan.

Date of Management's Review

Subsequent events were evaluated through [September 19, 2014](#), which is the date the financial statements were available to be issued.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustments of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All significant expenses of maintaining the Plan are paid by the Company.

Note E – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments.

COMPOSITES HORIZONS, INC
PROFIT SHARING & SALARY REDUCTION PLAN
Notes to Financial Statements
December 31, 2013 and December 31, 2012

Note E – Fair Value Measurements (continued)

When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded. Level 1 inputs are quoted prices in active markets for identical assets that the plan has the ability to access at the measurement date (for example, prices derived from NYSE, NASDAQ and the Chicago Board of Trade). If a Level 1 input is available for a particular investment, it typically must be used to value that investment.

Level 2 Fair Value Measurements

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Observable inputs are those that reflect the assumptions market participants would use in pricing the asset developed on market data obtained from sources independent of the plan.

Level 3 Fair Value Measurements

Level 3 inputs are unobservable inputs for the asset or liability. Unobservable inputs are those that reflect the plan's own assumptions about the assumptions that market participants would use in pricing the asset, developed based on the best information available in the circumstances.

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3):

The following tables reconcile the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) for the investment contract with insurance company for the years ended December 31, 2013 and 2012.

2013	<u>Level 3</u>

Total gains or losses included in changes in net assets available for benefits	29,936

Ending balance	<u>\$ 1,085,059</u>

Unrealized gains (losses) included in changes in net assets available for benefits for the years ended December 31, 2013 and 2012, are reported in net appreciation in fair value of investments.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2013, all Level 3 Assets were transferred out as a result of the merger discussed in Note A. For the year ended December 31, 2012, there were no significant transfers into or out of Level 3.

Note F - Plan Termination

As a result of the merger of the Composite Horizons, Inc., Profit Sharing and Salary Reduction Plan into the AIP Aerospace Holdings, LLC 401(k) Plan, effective as of the close of business on December 31, 2013, the Composite Horizons, Inc., Profit Sharing and Salary Reduction Plan terminated on the close of business on December 31, 2013 and the participants will become 100% vested in their accounts.

Note G - Tax Status

On March 31, 2008, the Internal Revenue Service issued a favorable opinion letter with respect to the qualified status of the Plan's prototype form under §401 of the Code. Although the Plan has been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note H - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
