NOTE 1 - GENERAL DESCRIPTION OF THE PLAN

General

The Sentinel Computer Services, Inc. Retirement Plan and Trust Plan (Plan) established January 1, 1989, is a defined contribution plan in which employees of Sentinel Technologies (Company) may participate after meeting certain age and service requirements. The Plan is intended to qualify as a salary reduction plan under Section 401(k) of the Internal Revenue Code (Code). Effective October 1, 1993, the Plan's name was changed to Sentinel Technologies Retirement Plan and Trust. Effective April 1, 2002, employees become eligible for participation in the Plan on the first entry date on which the employee has attained the age of 21 and is a covered employee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended by subsequent legislation.

Contributions and Eligibility

On the first day of each month, the Plan's participants have the option to enter into a written salary reduction agreement whereby any whole percentage up to 50% of the participant's earnings will be withheld and contributed to the "Basic Contribution Accounts" in the Plan. In the absence of an election made by a participant to the contrary, a participant shall be deemed to have elected 2% of his or her compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers 15 mutual funds and 1 Collective/Common Trust Fund as investment options for the participants.

The Company changed the Plan to make the matching contribution discretionary. As of December 1, 2004, the Company may make a discretionary matching contribution in an amount up to 25% of the first $20,000 of each participant's basic contributions made during the plan year. The Company’s discretionary matching contribution before reduction for forfeitures of $19,005 was $319,005 for the year ended December 31, 2013. In addition, the Company may elect to make profit-sharing contributions according to the Plan agreement. There were no profit-sharing contributions for the year ended December 31, 2013.

Participants’ Accounts

Each participant's account is credited with the participant's contribution, and allocations of (a) the Company's matching or profit-sharing contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - GENERAL DESCRIPTION OF THE PLAN, CONTINUED

Vesting

Participants are immediately 100% vested in their voluntary contributions to the Plan plus earnings thereon. Vesting in the Company's profit sharing and matching contributions of their accounts plus actual earnings thereon is based on continuous years of service. The following table sets forth the Plan's vesting schedule:

Matching Contributions	Profit Sharing Contributions	
0%	0%	Immediately upon participation
25%	0%	After 1 year of vesting service
50%	20%	After 2 years of vesting service
75%	40%	After 3 years of vesting service
100%	60%	After 4 years of vesting service
100%	80%	After 5 years of vesting service
100%	100%	After 6 years of vesting service

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest is paid ratably through regular payroll deductions.

Payment of Benefits

Upon termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's account balance or annual installments over a defined period.

Forfeitures

Participants forfeit the nonvested portion of their accounts in the Plan upon termination of employment with Sentinel Technologies, Inc. As described in the Plan Document, forfeitures are first used to reduce future employer matching contributions. Any remaining forfeitures will be used to offset Plan administration expenses. Finally, any remaining forfeitures will be allocated to participants. Forfeitures used to offset employer matching contributions amounted to $19,005 for the year ended December 31, 2013.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accounting records of the Plan are maintained on the accrued basis method of accounting.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Contributions

Contributions from the Company are accrued as of the end of the year in which the Company resolves to make such contributions.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. See Note 10 for discussion of fair value measurements.

Purchases and sales of securities are recorded as of their trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses of the Plan

The Plan Sponsor pays all administrative and investment expenses of the Plan except for loan and fund fees.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Subsequent Events

Subsequent events have been evaluated through September 30, 2014, the date that the financial statements were available for issue.

NOTE 3 - RISK AND UNCERTAINTIES

The Plan, as directed by its participants, invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 4 - RELATED PARTY TRANSACTIONS

Certain Plan investments are shares in mutual funds and common collective trust funds managed and held by Bank of America, N.A., or its affiliates Merrill Lynch or BlackRock. Bank of America, N.A. is the trustee and custodian as defined by the Plan and, therefore, transactions with these companies qualify as party-in-interest transactions. Fees paid by the Plan for recordkeeping services amounted to $27,027 for the year ended December 31, 2013.

NOTE 5 - INVESTMENTS

As described in the accounting guidance issued by the Financial Accounting Standards Board, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. Contract value for those collective trusts is based on net asset value as reported by the fund advisor. As required by the accounting guidance, the statements of net assets available for benefits presents the fair value of the investment as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the fully benefit-responsive investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTE 5 - INVESTMENTS, CONTINUED

The following table presents investments that represent 5% or more of the Plan's net assets. The fair values of investments in this Plan were certified by Bank of America, N.A. for the years ended December 31, 2013 and 2012.

NOTE 6 - INFORMATION CERTIFIED BY THE CUSTODIAN, CONTINUED

For the year ended December 31, 2013, the Plan Administrator elected the method of annual reporting compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following is a summary of information included in the Plan's 2013 financial statements and supplemental schedule, which was provided and certified by Bank of America, N.A. The Plan Administrator has obtained certifications from the trustee that such information is complete and accurate.

- Investments, at fair value, as reported on the statements of net assets available for benefits as of December 31, 2013 and 2012.

- Investment income (loss) and the related investment activity as reported on the statement of changes in net assets available for benefits for the year ended December 31, 2013.

- Investments as reported on the supplemental schedule of assets (held at end of year) at December 31, 2013.

NOTE 7 - PLAN TERMINATION

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of any termination of the Plan, or upon complete or partial discontinuance of contributions, participants shall become fully vested in their account balances.

NOTE 8 - TAX STATUS OF PLAN

The Plan received a favorable determination letter from the Internal Revenue Service (IRS), dated July 8, 2010.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon elimination by the Internal Revenue Service. The Plan administration has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administration believes it is no longer subject to income tax examination for years prior to 2010. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 9 - NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants outstanding at December 31, 2013 and 2012 amounted to $446,849 and $473,941, respectively, with interest rates ranging between 4.25% and 7.00%.

NOTE 10 - FAIR VALUE MEASUREMENTS

Accounting principles generally accepted in the United States of America establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

NOTE 10 - FAIR VALUE MEASUREMENTS, CONTINUED

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end. The NAV is a quoted price in an active market.

Collective/Common Trust Fund: The fair value of Wells Fargo Stable Value Fund CL K is based on the underlying unit value reported by Wells Fargo Stable Return Fund G (Fund G). Fund G invests in the investment contract issued or sponsored by various insurance companies, commercial banks, and investment funds.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:
