NOTE 1. PLAN DESCRIPTION

The following description of the SP Fiber Technologies LLC Hourly Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

SP Fiber Technologies LLC (the "Company") acquired certain assets and assumed certain liabilities of a Smurfit Newsprint Corporation newsprint mill in Newberg, Oregon. In conjunction with this acquisition, the Company created the Plan for the Newberg Mill's union employees. The Plan is a defined contribution plan covering all union employees at the Company's Newberg, Oregon Plant. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute 1% to 50% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a money market fund, mutual funds and a stable value collect trust fund as investment options for participants. The Company contributes the lesser of 50% of base compensation that a participant contributes to the Plan or $1700. The Company may also make a discretionary profit sharing contribution. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested and have a non-forfeitable interest in their basic and rollover contributions and subsequent investment growth in their contributions. Vesting in the Company's matching and discretionary profit sharing contributions are based on years of service in accordance with the following schedule:

Years of Service	Vested Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Notes Receivable from Participants

Participants may borrow from their participant account a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of the participant's vested interest in the Plan. The loans are secured by the balance in the participant's account and bear reasonable interest rates, currently 5.25%. Loan terms currently range from 1 to 5 years. Principal and interest are paid through payroll deductions. Loan transactions are treated as transfers from the investment fund to the participants' loan fund.

NOTE 1. DESCRIPTION OF THE PLAN (continued)

Payment of Benefits
On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or monthly, quarterly or annual installments over a period not exceeding 20 years. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts
At December 31, 2013 and 2012, forfeited nonvested accounts totaled $4,859 and $11,185, respectively. These accounts will be used to reduce future employer contributions.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Reclassification
Certain prior year balances have been reclassified to conform with the current year presentation.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. (See Note 6 for discussion of fair value measurements.)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Administrative Costs
The Plan's administrative expenses are paid by the Plan and reduce net assets available for benefits unless the Company elects to pay such expenses.

NOTE 3. CERTIFICATION OF ASSETS

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Vanguard Fiduciary Trust Company ("Vanguard"), the trustee of the Plan, as complete and accurate to the best of their knowledge, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

Collective trust	-	23,583
Money market fund	-	186
	$ 1,644,266	$ 458,630

NOTE 4. INVESTMENTS

The fair value of individual investments that represent 5% or more of the Plan's net assets at December 31, are as follows:

	2013	2012
John Hancock Disciplined Value Fund; Class I	$ 1,677,854	$ **
Vanguard 500 Index Fund Investor Shares	4,849,761	3,961,867
Vanguard PRIMECAP Fund Investor Shares	4,269,032	3,598,812
Vanguard Wellington Fund Investor Shares	2,350,880	1,789,101
Vanguard Windsor II Fund Investor Shares	**	1,438,027
MassMutual Diversified SAGIC II*	1,660,229	**
Vanguard Retirement Savings Trust*	**	1,036,501
Vanguard Wellesley Income Fund Investor Shares	**	923,361

*This amount represents contract value.
**Represents less than 5% of the Plan's net assets.

The Plan's investments in mutual fund accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $3,403,452 and $1,644,266 for the years ended December 31, 2013 and 2012, respectively.

NOTE 5. COLLECTIVE TRUST FUND

The Plan entered into a benefit-responsive investment contract with MassMutual Diversified SAGIC II ("MassMutual") in 2013 and Vanguard Retirement Savings Trust ("Vanguard") in 2012 through a collective trust. MassMutual maintains and Vanguard maintained the contributions in a separate account. MassMutual will guarantee and Vanguard did guarantee principal and accrued interest, based on credited interest rates, for participant-initiated withdrawals as long as the contract remains active. Interest is credited to the contract at interest rates that reflect the performance of the underlying portfolio. MassMutual guarantees and Vanguard guaranteed that no interest rate will ever be less than 0%. Participants will receive the principal and accrued earnings credited to their accounts upon withdrawal for allowed events. These events include transfers to other Plan investment options, and payments due to retirement, termination of employment, disability, death, and in-service withdrawals as permitted by the Plan.

Because the guaranteed investment contract is fully-benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully-benefit responsive investment contracts. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by MassMutual and Vanguard, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Average Yields	2013	2012
Based on actual earnings	1.04%	2.37%
Based on interest rate credited to participants	1.04%	0.97%

NOTE 6. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012:

Money market fund: Valued at the net asset value of shares held by the Plan at year end.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

Collective trust: Valued daily, using a mil rate which is a blend of the contracts' rate of return and the liquidity components daily mil rate. The contracts' rate of return is typically reset on a quarterly basis. The assets daily value is calculated based on the contract value which is based on the provisions of the contract.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6. FAIR VALUE MEASUREMENTS (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

	Assets at Fair Value as of December 31, 2013

Total assets at fair value	$ 16,686,684	$ 1,091,447	$ -	$ 17,778,131

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2013 and 2012, there were no transfers in or out of levels 1, 2, or 3.

NOTE 6. FAIR VALUE MEASUREMENTS (continued)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value ("NAV") per share (or its equivalent) as of:

	Fair Value Estimated Using Net Asset Value Per Share			
	December 31, 2013			
Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Collective trust (a)	$ 1,660,258	$ -	Daily	None

	Fair Value Estimated Using Net Asset Value Per Share			
	December 31, 2012			
Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Collective trust (a)	$ 1,091,447	$ -	Daily	None

(a) The fund seeks to preserve your principal investment while earning a level of interest income that is consistent with principal preservation. The fund seeks to maintain a stable net asset value ("NAV") of $1 per share, but it cannot guarantee that it will be able to do so. The yield of the fund will fluctuate.

NOTE 7. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds and investment contracts, which are managed by Vanguard. Vanguard is the trustee and therefore, transactions with Vanguard qualify as party-in-interest transactions.

Notes receivable from participants, with interest rates of 5.25%, totaled $302,329 and $0 at December 31, 2013 and 2012, respectively, and qualify as party-in-interest transactions.

Administrative fees of the Plan were paid on behalf of the Plan by the Company.

NOTE 8. PLAN TERMINATION

The Company anticipates and believes that the Plan will continue without interruption but has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their account balances and the Plan assets would be distributed to participants on the basis of their prorated values at the termination date.

NOTE 9. TAX STATUS

The Company has adopted a Prototype Standardized Profit Sharing Plan with a cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service ("IRS") on April 16, 2002, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

FASB ASC requires the Plan Administrator to annually evaluate the Plan's tax positions, including accounting and measurement of uncertain tax positions. For the years ending December 31, 2013 and 2012, the Plan Administrator concluded that no uncertain tax positions had been taken that would require adjustment to or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by federal, state, or local tax authorities for years before 2010.

NOTE 10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11. SUBSEQUENT EVENT

The Plan subsequent events have been evaluated for potential recognition and/or disclosure through September 30, 2014. This represents the date the financial statements were available to be issued.
