WEAVERTOWN TRANSPORT LEASING, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Weavertown Transport Leasing, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

Plan Organization and General Provisions - The Plan is a defined contribution plan covering all employees of Weavertown Transport Leasing, Inc. and D. Fuchs Holdings, L.P. (collectively, the Company). The Plan was adopted by the Company effective March 1, 1994, and was restated effective January 1, 2009. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility - All employees of the Company who have completed six consecutive months of service from their employment date are eligible to participate in the Plan. A participant's entry date into the Plan will be the first day of the following quarter in which the eligibility requirements were satisfied. On January 1, 2014, the Plan was amended to allow for automatic enrollment. All employees will be enrolled in the Plan at 2% upon reaching the eligibility requirements, unless they have elected not to participate.

Contributions - Contributions to the Plan consist of participant and employer discretionary contributions that are participant-directed. The employer contributions could consist of both a profit-sharing contribution and a matching contribution (collectively, the Company contributions). During 2013, the Company elected to match employee contributions up to 2.5% of gross salary in which employee contributions are being deferred from. Participants can elect to defer up to 50%, subject to statutory limitations, of their annual compensation, less payroll withholdings and insurance premium payments. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants may direct the investments among several investment options. A participant's elective contribution was limited to \$17,500 for 2013.

A participant may also make catch-up contributions in excess of the above limit for any year in which the participant is age 50 or older by the last day of the Plan year. For the year ended December 31, 2013, the maximum amount permitted was \$5,500.

Participant's Accounts - Each participant's account is credited with the participant's contribution and allocations of a) the Company's contributions and b) Plan earnings, less any administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the participant's vested account balance.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of participants' accounts is based on years of continuous service. A participant is 20% vested after two years of credited service and 100% vested after three year of credited service. For participants hired subsequent to July 1, 2014, the vesting requirements are as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Forfeitures - Forfeitures may first be used to pay any administrative expenses or to reduce future employer contributions. As of December 31, 2013 and 2012, the Company had unallocated forfeitures of approximately \$2,885 and \$60, respectively.

Payment of Benefits - Upon retirement, attaining age 59-1/2, permanent disability, death, or other termination of employment, a participant is entitled to the fair market value of his or her vested account balance as of the day of his or her separation or termination.

Hardship Benefits - The Plan administrator may authorize the distribution up to 100% of a participant's employee contributions and rollover amounts in the event of immediate financial need. Withdrawals will be authorized only if the distribution is for the payment of medical care expenses, costs directly related to the purchase of the participant's principal residence, tuition payments, payment to prevent eviction from his or her principal residence, payments for burial or funeral expenses for a deceased parent, spouse, children or other dependents, or payments for expenses for repair of damage to a participant's principal residence that would qualify for the casualty deduction under the Internal Revenue Code (IRC). Any hardship distribution will reduce the value of the participant's benefits to be received at normal retirement.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant policies consistently applied by the Plan administrator in the preparation of the accompanying financial statements follows:

Basis of Accounting - The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the term of the plan. As required within the guidance, the statements of net assets available for benefits present the fair value of the investment contracts. No adjustment was deemed necessary to adjust fair value to contract value, since fair market value approximated contract value.

Use of Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities that are exposed to interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition - Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodian and insurance company. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are reflected on a trade-date basis. Interest and dividend income is recorded as earned on an accrual basis. The net appreciation in the fair value of investments consists of the realized gains and losses and the unrealized appreciation on these investments during the year. Dividends are recorded on the ex-dividend date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Administrative expenses of the Plan are paid by the Plan to the extent not paid by the Plan sponsor

Subsequent Events - The Plan has evaluated subsequent events through July 28, 2014, the date on which the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

Investments that represent 5% or more of the Plan's net assets at December 31 are as follows:

	<u>2013</u>	<u>2012</u>
AUL Fixed Account	\$ 703,227	\$ 541,430
Fidelity VIP Contrafund	292,171	215,182
MFS Value	162,621	103,784
AmCent Heritage	138,208	113,817
Alger Capital App Institutional	119,529*	105,443

* This asset was not greater than 5% of the Plan's net assets at year-end.

Appreciation in the fair value of the investments relates solely to the pooled separate accounts.

NOTE 4 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

WEAVERTOWN TRANSPORT LEASING, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies at December 31, 2013 and 2012.

Guaranteed Investment Contract - Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. (See Note 5.) Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Pension Committee evaluates a variety of factors, including review of existing contracts, economic conditions, industry and market developments and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

Shares of Pooled Separate Accounts - Valued based on net asset values reported on the active market and shares held by the Plan at year-end. The pooled separate accounts held by the Plan are deemed to be actively traded, have no unfunded commitments and do not have redemption periods.

The valuations of the Plan's investments according to the fair value hierarchy at December 31 are summarized as follows:

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

The changes in those items measured at fair value for which the Plan has used Level 3 inputs to determine fair value for the year ended December 31, 2013 are as follows:

Purchases	47,786
Sales	(6,678)
Transfers from other assets	96,005
Interest and dividends	<u>24,684</u>
Balance, December 31, 2013	\$ <u>703,227</u>

NOTE 5 - GUARANTEED INVESTMENT CONTRACT

The Plan entered into a fully benefit-responsive investment contract with American United Life Insurance Company (AUL). AUL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administration expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The contract is included in the financial statements at fair value as reported to the Plan by AUL. The Plan administrator believes contract value is an appropriate determination of fair value.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at contract value, which approximates fair value, in arriving at net assets available for benefits. Contract value, as reported to the Plan by AUL at December 31, 2013, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment contract value.

There are no reserves against fair value for credit risk, for the contract issuer or otherwise. The average yield for the years ended December 31, 2013 and 2012 was 3.7%. The crediting interest rate was approximately 4% for the years ended December 31, 2013 and 2012. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 4%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with AUL. Such events include the following: a) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, c) bankruptcy of the Plan sponsor or other Plan sponsor events (for significant withdrawal from the Plan, or d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable or occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

WEAVERTOWN TRANSPORT LEASING, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

NOTE 6 - INFORMATION CERTIFIED BY THE PLAN CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2013 and 2012, and investment income for the year ended December 31, 2013, including investment information related to the AUL Fixed Account (See Notes 4 and 5), that is disclosed in the accompanying financial statements and supplemental schedules, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by American United Life Insurance Company, the custodian of the Plan.

NOTE 7 - RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

The Company provides certain accounting, administrative and investment management services to the Plan for which no fees are charged.

Certain Plan investments are managed by an affiliate of AUL, the custodian, and therefore qualify as party-in-interest transactions. Such transactions, while considered party-in-interest transactions, are specifically exempt as prohibited transactions under ERISA.

NOTE 8 - TAX STATUS

The Plan is a Prototype Standardized Profit Sharing Plan (Prototype) with a cash or deferral arrangement. The Prototype received an opinion letter from the Internal Revenue Service (IRS) on March 31, 2008 that stated that the Plan and related Trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 9 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
