NOTE A - DESCRIPTION OF THE PLAN

The following description of the Crate and Barrel Retirement Savings Plan (the "Plan") provides only general information. Interested parties should refer to the plan document for a more complete description of the Plan's provisions.

1. General

   The Plan is a defined contribution 401(k) plan covering eligible employees of Euromarket Designs, Inc. and Meadowbrook LLC (collectively, the "Company"). Employees are eligible to participate upon hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

2. Contributions

   The Plan is funded by voluntary contributions of participants. Participants may contribute to the Plan, through regular payroll deductions, an amount equal to 1% to 75% of compensation, subject to limitations imposed by the Internal Revenue Code. Participants may also roll over amounts representing distributions from other qualified employee benefit plans. Effective October 1, 2012, the Plan was amended and restated to allow for discretionary employer profit sharing contributions, allow for discretionary employer match contributions for employees of Meadowbrook LLC, add a Roth contribution option, and to add an automatic enrollment and automatic increase feature for certain employees (see Note H). There were no discretionary employer profit sharing or employer match contributions made for the year ended December 31, 2013.

3. Investment Options

   Participants must direct their salary deferral contributions and the Company's contributions into a variety of investment funds made available and determined by the Plan Administrator. Participants may change their investment options at any time.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

4. Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's discretionary profit sharing and matching contributions, and an allocation of plan earnings. The Company's discretionary profit sharing contributions are allocated based on each participant's eligible compensation to total eligible compensation weighted by years of service. The amount of compensation of each participant is weighted for years of service as follows:

Years of Service	Weighting
5 or less	1.0
6 - 10	1.5
11 or more	2.0

The Company's discretionary matching contributions for employees of Meadowbrook LLC are allocated based on a percentage of the participants' contributions. Plan earnings are allocated to participants' accounts in direct proportion to their respective account balances, based on the performance of participants' investment selections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

5. Vesting

Participants are immediately fully vested in participant and rollover contributions plus the actual earnings thereon. The portion of the participants' accounts attributable to the Company's contributions becomes 33% vested after one year of service, 66% vested after two years of service, and 100% vested after three years of service. In the event of death, disability, or retirement at designated ages, participants become fully vested.

6. Payment of Benefits

On termination of service, a participant may elect to receive a single, lump-sum payment equal to the value of his or her vested account balance or a direct rollover distribution. Hardship withdrawals are also permitted by the Plan.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

7. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Participants are permitted to take loans from the Plan up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The loans are collateralized by the borrowers' respective vested account balances and bear interest at the prime rate in effect at the loan's inception (3.25% to 8.25%). Principal and interest are paid through payroll deductions over a period not to exceed five years, unless for the purchase of a primary residence. Related interest income totaled $155,036 for the year ended December 31, 2013.

8. Accrued Investment Consulting Fees

Accrued investment consulting fees represent fees payable for certain investment services. Accrued investment consulting fees totaled $60,000 and $109,410 at December 31, 2013 and 2012, respectively.

9. Administrative Expenses

Administrative expenses of the Plan are paid by the Company and the Plan. Administrative expenses paid by the Company were not significant for the year ended December 31, 2013.

10. Forfeitures

At December 31, 2013 and 2012, unallocated plan assets resulting from forfeited nonvested accounts totaled $27,364 and $60,565, respectively. These accounts will be used to pay plan expenses or reduce future Company discretionary profit sharing contributions. Subsequent to year-end, forfeitures of $27,364 were used to pay investment consulting fees.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Current accounting standards require investment contracts held by a defined contribution plan to be reported at fair value.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1. Basis of Accounting (Continued)

However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on the contract value basis.

2. Fair Value Measurements

Current accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include the following:

* Quoted prices for similar assets or liabilities in active markets;
* Quoted prices for identical or similar assets or liabilities in inactive markets;
* Inputs other than quoted prices that are observable for the asset or liability;
* Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's investments measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds and money market funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust: Valued based on the NAV of units of the common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Pooled investment funds: Valued at the NAV, as determined by the issuer, or, if not available, accounted for on the equity method, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan held shares of interests in a common collective trust fund at December 31, 2013 and 2012, which is considered a fully benefit-responsive investment contract. There were no unfunded commitments and no redemption limitations or notice periods. The common collective trust fund invests primarily in U.S. government and government agency obligations and nonconvertible bonds.

The following tables set forth additional disclosures of the Plan's Level 3 investments whose fair value is estimated using NAV (or its equivalent) as of December 31, 2013 and 2012.

2. Fair Value Measurements (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 investments for the year ended December 31, 2013.

	Pooled Investment Funds
Balance, beginning of year	$ 7,318,428
Realized and unrealized gains on investments	82,334
Sales	(6,417,342)
Balance, end of year	$ 983,420

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values

TA Realty Associates	565,433	NAV	Illiquid	Various

In estimating fair value of the investments in Level 3, the Board of Trustees may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the Board of Trustees evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3. Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Unrealized gains or losses from appreciation or depreciation of investments are recognized as increases or decreases in net assets available for benefits.

4. Use of Estimates

In preparing the Plan's financial statements, management is required to make estimates and assumptions that affect the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

5. Payment of Benefits

Benefits are recorded when paid.

6. Accounting for Uncertainty in Income Taxes

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE C - INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Investments and notes receivable from participants held at December 31, 2013 and 2012, net appreciation in the value of investments, and interest and dividends for the year ended December 31, 2013, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the trustee.

NOTE C - INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS (Continued)

The following table presents the fair value of the investments and notes receivable from participants in the Plan. Individual amounts representing more than 5% of the Plan's net assets as of December 31, 2013 and/or 2012, are separately identified.

Mutual funds	$ 20,716,546
Pooled investments funds	82,334
	$ 20,798,880

NOTE D - INCOME TAX STATUS

Effective October 1, 2012, the Plan adopted a non-standardized form of a prototype plan sponsored by Fidelity Management Trust Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants become fully vested in their respective account balances.

NOTE F - MARKET RISK

The value of the Plan's investments is subject to market risk associated with potential fluctuations in the values of the underlying securities. Fluctuations in the market value of the Plan's investments could be material to the financial statements.

NOTE G - PARTY-IN-INTEREST TRANSACTIONS

Plan investments are managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each investment.

NOTE H - PLAN AMENDMENT AND RESTATEMENT

Effective October 1, 2012, the Plan was amended and restated to allow for discretionary employer profit sharing contributions, allow for discretionary employer matching contributions for employees of Meadowbrook LLC, add a Roth contribution option, and to add an automatic enrollment and automatic increase feature for certain employees (see Note A-2). Also, the Plan name was changed from Crate and Barrel 401(k) Plan to Crate and Barrel Retirement Savings Plan. Effective January 1, 2013, the Plan was amended to not allow the automatic deferral increase for participants who are employed by Meadowbrook LLC. Interested parties should refer to the new adoption agreement and plan amendment for a complete description of the changes.

NOTE I - RECLASSIFICATIONS

Certain reclassifications have been made to the 2012 financial statements to conform to the 2013 presentation. These reclassifications had no effect on the net assets available for benefits as previously stated.

NOTE J - RECONCILIATION OF AUDITED FINANCIAL STATEMENTS TO FORM 5500

The following are reconciliations of net assets available for benefits, participant contributions, income, and benefits paid to participants from these financial statements to the Form 5500. The reconciliation items are a result of the fact that the 2013 Form 5500 was prepared on the cash basis rather than the accrual basis, as required by accounting principles generally accepted in the United States of America, and as a result of the fact that the 2013 and 2012 Form 5500 reports fully benefit-responsive investment contracts at fair value, rather than contract value, as required by accounting principles generally accepted in the United States of America.

	2013	2012
Net assets available for benefits - financial statements	$ 145,028,826	$ 134,055,022

NOTE K - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through September 30, 2014, the date that these financial statements were available to be issued. Plan management has determined that no events or transactions, other than described in Note A-10, have occurred subsequent to the statement of net assets available for benefits date that require disclosure in the financial statements.

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Crate and Barrel Retirement Savings Plan (the "Plan") provides only general information. Interested parties should refer to the plan document for a more complete description of the Plan's provisions.

1. General

   The Plan is a defined contribution 401(k) plan covering eligible employees of Euromarket Designs, Inc. and Meadowbrook LLC (collectively, the "Company"). Employees are eligible to participate upon hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

2. Contributions

   The Plan is funded by voluntary contributions of participants. Participants may contribute to the Plan, through regular payroll deductions, an amount equal to 1% to 75% of compensation, subject to limitations imposed by the Internal Revenue Code. Participants may also roll over amounts representing distributions from other qualified employee benefit plans. Effective October 1, 2012, the Plan was amended and restated to allow for discretionary employer profit sharing contributions, allow for discretionary employer match contributions for employees of Meadowbrook LLC, add a Roth contribution option, and to add an automatic enrollment and automatic increase feature for certain employees (see Note H). There were no discretionary employer profit sharing or employer match contributions made for the year ended December 31, 2013.

3. Investment Options

   Participants must direct their salary deferral contributions and the Company's contributions into a variety of investment funds made available and determined by the Plan Administrator. Participants may change their investment options at any time.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

4. Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's discretionary profit sharing and matching contributions, and an allocation of plan earnings. The Company's discretionary profit sharing contributions are allocated based on each participant's eligible compensation to total eligible compensation weighted by years of service. The amount of compensation of each participant is weighted for years of service as follows:

Years of Service	Weighting
5 or less	1.0
6 - 10	1.5
11 or more	2.0

The Company's discretionary matching contributions for employees of Meadowbrook LLC are allocated based on a percentage of the participants' contributions. Plan earnings are allocated to participants' accounts in direct proportion to their respective account balances, based on the performance of participants' investment selections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

5. Vesting

Participants are immediately fully vested in participant and rollover contributions plus the actual earnings thereon. The portion of the participants' accounts attributable to the Company's contributions becomes 33% vested after one year of service, 66% vested after two years of service, and 100% vested after three years of service. In the event of death, disability, or retirement at designated ages, participants become fully vested.

6. Payment of Benefits

On termination of service, a participant may elect to receive a single, lump-sum payment equal to the value of his or her vested account balance or a direct rollover distribution. Hardship withdrawals are also permitted by the Plan.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

7. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Participants are permitted to take loans from the Plan up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The loans are collateralized by the borrowers' respective vested account balances and bear interest at the prime rate in effect at the loan's inception (3.25% to 8.25%). Principal and interest are paid through payroll deductions over a period not to exceed five years, unless for the purchase of a primary residence. Related interest income totaled $155,036 for the year ended December 31, 2013.

8. Accrued Investment Consulting Fees

Accrued investment consulting fees represent fees payable for certain investment services. Accrued investment consulting fees totaled $60,000 and $109,410 at December 31, 2013 and 2012, respectively.

9. Administrative Expenses

Administrative expenses of the Plan are paid by the Company and the Plan. Administrative expenses paid by the Company were not significant for the year ended December 31, 2013.

10. Forfeitures

At December 31, 2013 and 2012, unallocated plan assets resulting from forfeited nonvested accounts totaled $27,364 and $60,565, respectively. These accounts will be used to pay plan expenses or reduce future Company discretionary profit sharing contributions. Subsequent to year-end, forfeitures of $27,364 were used to pay investment consulting fees.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Current accounting standards require investment contracts held by a defined contribution plan to be reported at fair value.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1. Basis of Accounting (Continued)

However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on the contract value basis.

2. Fair Value Measurements

Current accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include the following:

* Quoted prices for similar assets or liabilities in active markets;
* Quoted prices for identical or similar assets or liabilities in inactive markets;
* Inputs other than quoted prices that are observable for the asset or liability;
* Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's investments measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds and money market funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust: Valued based on the NAV of units of the common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Pooled investment funds: Valued at the NAV, as determined by the issuer, or, if not available, accounted for on the equity method, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no unfunded commitments and no redemption limitations or notice periods. The common collective trust fund invests primarily in U.S. government and government agency obligations and nonconvertible bonds.

The following tables set forth additional disclosures of the Plan's Level 3 investments whose fair value is estimated using NAV (or its equivalent) as of December 31, 2013 and 2012.

(a) Invests in global long/short hedge funds and equities, purchasing the debt of distressed and bankrupt companies, and market neutral investments.

(b) Invests in real estate portfolios and mezzanine funding emphasizing office, industrial, retail, multi-family, hotel, and mixed-use projects focusing on higher quality, current return segment of the real estate marketplace.

(c) Invests in high-yield fixed income funds with below average volatility. These investments are typically complex, under-followed, and misunderstood credits.

2. Fair Value Measurements (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 investments for the year ended December 31, 2013.

	Pooled Investment Funds
Balance, beginning of year	$ 7,318,428
Realized and unrealized gains on investments	82,334
Sales	(6,417,342)
Balance, end of year	$ 983,420

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Eton Park Overseas Fund	$ 417,987	NAV	Payout date	1/1/14-12/31/14
TA Realty Associates	565,433	NAV	Illiquid	Various
	$ 983,420			

In estimating fair value of the investments in Level 3, the Board of Trustees may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the Board of Trustees evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3. Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Unrealized gains or losses from appreciation or depreciation of investments are recognized as increases or decreases in net assets available for benefits.

4. Use of Estimates

In preparing the Plan's financial statements, management is required to make estimates and assumptions that affect the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

5. Payment of Benefits

Benefits are recorded when paid.

6. Accounting for Uncertainty in Income Taxes

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE C - INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Investments and notes receivable from participants held at December 31, 2013 and 2012, net appreciation in the value of investments, and interest and dividends for the year ended December 31, 2013, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the trustee.

NOTE C - INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS (Continued)

The following table presents the fair value of the investments and notes receivable from participants in the Plan. Individual amounts representing more than 5% of the Plan's net assets as of December 31, 2013 and/or 2012, are separately identified.

Mutual funds	$ 20,716,546
Pooled investments funds	82,334
	$ 20,798,880

NOTE D - INCOME TAX STATUS

Effective October 1, 2012, the Plan adopted a non-standardized form of a prototype plan sponsored by Fidelity Management Trust Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants become fully vested in their respective account balances.

NOTE F - MARKET RISK

The value of the Plan's investments is subject to market risk associated with potential fluctuations in the values of the underlying securities. Fluctuations in the market value of the Plan's investments could be material to the financial statements.

NOTE G - PARTY-IN-INTEREST TRANSACTIONS

Plan investments are managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each investment.

NOTE H - PLAN AMENDMENT AND RESTATEMENT

Effective October 1, 2012, the Plan was amended and restated to allow for discretionary employer profit sharing contributions, allow for discretionary employer matching contributions for employees of Meadowbrook LLC, add a Roth contribution option, and to add an automatic enrollment and automatic increase feature for certain employees (see Note A-2). Also, the Plan name was changed from Crate and Barrel 401(k) Plan to Crate and Barrel Retirement Savings Plan. Effective January 1, 2013, the Plan was amended to not allow the automatic deferral increase for participants who are employed by Meadowbrook LLC. Interested parties should refer to the new adoption agreement and plan amendment for a complete description of the changes.

NOTE I - RECLASSIFICATIONS

Certain reclassifications have been made to the 2012 financial statements to conform to the 2013 presentation. These reclassifications had no effect on the net assets available for benefits as previously stated.

NOTE J - RECONCILIATION OF AUDITED FINANCIAL STATEMENTS TO FORM 5500

The following are reconciliations of net assets available for benefits, participant contributions, income, and benefits paid to participants from these financial statements to the Form 5500. The reconciliation items are a result of the fact that the 2013 Form 5500 was prepared on the cash basis rather than the accrual basis, as required by accounting principles generally accepted in the United States of America, and as a result of the fact that the 2013 and 2012 Form 5500 reports fully benefit-responsive investment contracts at fair value, rather than contract value, as required by accounting principles generally accepted in the United States of America.

NOTE K - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through September 30, 2014, the date that these financial statements were available to be issued. Plan management has determined that no events or transactions, other than described in Note A-10, have occurred subsequent to the statement of net assets available for benefits date that require disclosure in the financial statements.
