Five Star Custom Foods, Ltd. 401(k) Plan
Fort Worth, Texas

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Five Star Custom Foods, Ltd. 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal), the custodians of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodians hold the Plan's assets and execute transactions. The Plan Administrator has obtained certifications from the custodians as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the Plan Administrator by the custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2013, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Five Star Custom Foods, Ltd. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Five Star Custom Foods, Ltd. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan whereby eligible employees of Five Star Custom Foods, Ltd. (the Company) are permitted to make pretax contributions that are tax-deferred under Section 401(k) of the Internal Revenue Code (the Code). The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company appointed Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal) as the custodians of the Plan, and authorized Principal to invest and manage the assets of the Plan and to provide administrative services.

Eligibility: Employees become eligible for participation at the age of 21 and upon completing one year of service, as defined by the Plan. Employees are eligible to enter the Plan on the first day of each month immediately after meeting the eligibility requirements described above. Employees excluded from the Plan include employees covered by a collective bargaining agreement, nonresident aliens or leased employees.

Contributions: Under the Plan, employees are permitted to contribute up to 100% of their pretax compensation to the Plan, subject to certain maximum limitations imposed by the Internal Revenue Code. Employees who are eligible to make elective deferrals under the Plan and who have attained the age of fifty before the close of the plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the Internal Revenue Code. Employees contribute each period through authorized payroll deductions.

The Plan requires a safe harbor matching contribution equal to 100% of participant's contributions that do not exceed 3% of the compensation plus 50% of the salary deferrals between 3% and 5% of the participant contribution. This safe harbor matching contribution is 100% vested.

The Company may also make additional discretionary matching contributions and discretionary profit sharing contributions. These contributions are determined annually by the Employer. There were no additional discretionary contributions for the year ended December 31, 2013.

Participants may also contribute amounts representing distributions from other qualified benefit plans.

Vesting: Participant contributions plus actual earnings are immediately fully vested and nonforfeitable. The participant is 100% vested in accounts attributable to rollover contributions and safe matching harbor contributions. Participants become 20% vested for discretionary profit sharing contributions and discretionary matching contributions and earnings thereon after two years of service and vest an additional 20% for each year of service thereafter until they are fully vested after completion of six years of service. In addition, a participant is 100% vested, regardless of years of service, upon disability, death or attaining normal retirement age.

Participant accounts: Each participant's account is credited with the participant's contribution and allocation of (a) the Company's safe harbor matching contributions and discretionary contributions and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investment options: Participants are allowed to invest in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options any time throughout the year via internet or direct phone access to Principal Life Insurance Company.

Five Star Custom Foods, Ltd. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Earnings derived from investment funds are reinvested in the fund to which they relate. Participants may elect to transfer all or any portion of the value of their individual accounts among investment funds.

Forfeitures: Forfeitures represent the portion of nonvested employer discretionary contributions remaining in the Plan for terminated employees. The balance of forfeited employer contributions is used first to reduce administrative expenses and then to reduce employer contributions. At both December 31, 2013 and 2012, there were no unallocated forfeitures in Plan assets. No forfeitures were used to pay administrative expenses or reduce employer contributions in 2013.

Benefits paid to participants: Upon termination of service due to death, disability or retirement, a participant or a designated beneficiary can receive their vested account balance in one lump-sum payment or, in certain cases, the participant can defer withdrawals. For termination of service due to other reasons, a participant may receive their vested account balance in one lump sum payment. If a participant's vested balance is \$5,000 or less, the participant will receive a single distribution of their entire vested account balance. In-service distributions are permitted for participants that attain age 59 ½, or in situations of hardship or disability.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans must be repaid within five years unless for the purchase of a primary residence, in which case a longer repayment term may be permitted. Loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. The interest rate on outstanding loans was 4.25% at December 31, 2013. Principal and interest is collected through payroll deductions, and loans are due in various amounts through August 2022. A participant may have only one note outstanding at a time.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contract which approximates contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis for fully-benefit responsive investment contracts.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Committee determines the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note 4 for discussion of fair value measurements.

Five Star Custom Foods, Ltd. 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Benefits paid to participants: Benefits paid to participants are recorded when paid.

Risks and uncertainties: The Plan provides for various investment options in any combination of collective investment trusts, investment contract, mutual funds and pooled separate accounts offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 2, 2014, the date on which the financial statements were available to be issued.

Note 3. Information Certified and Provided by Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the assets listed in the table below:

Note 3. Information Certified and Provided by Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Continued)

The custodians also certified to the completeness and accuracy of \$470,764 of net appreciation in fair value of investments, and \$5,673 of dividends related to mutual funds for the year ended December 31, 2013.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated from by observable market data by correlation or other means

If the assets or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Collective investment trusts: Valued based on the net asset value (NAV) of shares held by the Plan based on the market value of its underlying investments as determined by the custodian.

Mutual funds: Valued based upon quoted market prices in the active market in which they are traded.

Pooled separate accounts: Valued based on the net asset value (NAV) of shares held by the Plan based on the market value of its underlying investments as determined by the custodian.

Investment contract: Valued based on the aggregation of contributions, plus interest, less withdrawals, if any. Fair value of the investment contract approximates contract value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Small/mid U.S. equity	-	313	-	313
Total investments at fair value	\$ 55,055	\$ 2,945,271	\$ 223,921	\$ 3,224,247

Changes in fair value: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no transfers in or out of Level 3.

Note 4. Fair Value Measurements (Continued)

Level 3 gains and losses: The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

	Investment Contract
Balance at beginning of year	\$ 223,921
Realized gains	2,136
Purchases	39,024
Sales	(113,030)
Balance, end of year	\$ 152,051

Quantitative information about significant unobservable inputs used in Level 3 Fair Value

Measurements: The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Contract Type	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range of Net Crediting Interest Rates
Principal Fixed Income Guaranteed Option	\$ 152,051	Discontinuation value	Composite crediting rate	2.00% - 2.10%

In estimating fair value of the investments in Level 3, Plan management may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, Plan management evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

The following table sets forth additional disclosures of the Plan's investments, whose fair value is estimated using NAV per share as of December 31, 2013 and 2012:

Investment	Fair Value as of December 31		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2013	2012			
Collective investment trusts:					
Balanced/asset allocation (a)	\$ 2,815,039	\$ 2,941,009	\$ -	Daily	None
Pooled separate accounts:					
Fixed income (b)	24,782	2,495	-	Daily	None
Large U.S. equity (c)	7,044	1,364	-	Daily	None
Small/mid U.S. equity (d)	3,488	313	-	Daily	None

(a) The collective investment trusts in this category are primarily "target date funds" that seek a total return consisting of long-term growth and current income. Selected funds within this category may invest in domestic and foreign equity, real assets and alternative investments, and fixed income funds. Investments in this category can be transferred once every 30 days at the current net asset value per share based on the fair value of the underlying assets. Participants are not allowed to transfer back into this category until the 30-day period has expired. New contributions are allowed during this time period.

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

(b) The pooled separate accounts in this category primarily invest in intermediate-term, fixed-income investments such as public and private corporate bonds, commercial and residential mortgages, asset-backed securities, and US government and agency-backed securities. Investments in this category can be transferred once every 30 days at the current net asset value per share based on the fair value of the underlying assets. Participants are not allowed to transfer back into this category until the 30-day period has expired. New contributions are allowed during this time period.

(c) The pooled separate accounts in this category primarily invest in equity securities of U.S. companies with large market capitalization. Selected funds within this category may invest in stocks of foreign companies, convertible debt securities, and real estate investment trusts. Investments in this category can be transferred once every 30 days at the current net asset value per share based on the fair value of the underlying assets. Participants are not allowed to transfer back into this category until the 30-day period has expired. New contributions are allowed during this time period.

(d) The pooled separate accounts in this category seek long-term growth by primarily investing in U.S. equity securities of companies with small to mid-size market capitalization. Selected funds within this category may invest in stocks of foreign companies, U.S. and foreign preferred stocks, convertible debt securities, equity-equivalent securities, non-leveraged stock index futures contracts and options, notes, bonds, and other debt securities. Investments in this category can be transferred once every 30 days at the current net asset value per share based on the fair value of the underlying assets. Participants are not allowed to transfer back into this category until the 30-day period has expired. New contributions are allowed during this time period.

Note 5. Plan Administration and Expenses

The Plan is administered by 401(k) committee as appointed by the Company. The Plan's investment funds are held by Principal, as custodian for the Plan. Certain administrative functions are performed by officers or employees of the Company. However, such employees receive no compensation from the Plan. The Company and the Plan share in the Plan expenses. Additionally, certain expenses, such as transaction fees from receiving a loan, withdrawal, or distribution from the Plan, are deducted from participants' accounts.

Note 6. Related Party Transactions

Certain Plan investments are shares of collective investment trusts, investment contracts, mutual funds, and pooled separate accounts managed by Principal. Principal is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are netted against investment income. In addition, other administrative expenses paid to Principal were \$2,864 for the year ended December 31, 2013.

Note 7. Income Tax Status

The Internal Revenue Service has determined and informed the sponsor, by a letter dated September 26, 2014, that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2010.

Notes to Financial Statements

Note 8. Plan Termination

While there is no intention to do so, the Company reserves the right to terminate the Plan. In the event of termination of the Plan, the participants become fully vested in their employer discretionary contribution balances, and the net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

Note 9. Investment Contract with Principal Life Insurance Company

The Plan has entered into a fully benefit-responsive investment contract with Principal Life Insurance Company. Principal Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value as reported to the plan by Principal Life Insurance Company. Fair value approximates contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

As described in Note 2, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the plan by Principal Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012, was \$152,051 and \$223,921, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.45%. Such interest rates are reviewed on a semiannual basis for resetting.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

Both the average yield based on actual earnings and based on the interest rate credited to participants was 2.05% and 2.48% for the years ended December 31, 2013 and 2012 respectively.
