VALDES ENGINEERING COMPANY RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following description of the Valdes Engineering Company (the Company) Retirement Plan (the Plan) provides only general information. The plan agreement, which governs the Plan's provisions, should be referred to by participants for a more complete description.

General – The Plan is a defined contribution plan covering all employees of the Company, who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended by subsequent legislation.

Ascensus, as agent for Frontier Trust Company, is trustee of the Plan under a contractual agreement with the Company and manages all investments. Ascensus is the recordkeeper. The recordkeeping agreement provides that the recordkeeper shall keep account of all receipts and disbursements, benefit payments and other transactions, and shall provide annually a report setting forth such transactions and the status of the fund at the end of the period.

Contributions – Participants may elect to make pre-tax contributions ranging from 1% to 25% of their eligible compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make discretionary matching contributions up to 6% of eligible compensation. Contributions can be made on a before-tax basis only and cannot exceed $17,500 in 2013. Age 50 and over participants can contribute an additional $5,500 in 2013.

Participant Accounts and Allocations – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of Plan expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their pre-tax contributions and in amounts representing distributions from other qualified defined benefit or contribution plans plus actual earnings thereon. Additionally, participants who attain normal retirement age of 65 or who terminate employment due to death or disability are 100% vested in their entire account balance. Vesting in the Company's discretionary matching contributions, plus actual earnings thereon, is based on years of cumulative service as follows:

Years of Service	Account Vested
Less than two years	None
Two years but less than three years	50%
Three years but less than four years	75%
Four years or more	100%

A year of service is defined as at least 1,000 hours of service during any Plan year. Participants are credited with 190 hours of service for each calendar month the participant works at least one hour of service.

1. Description of the Plan (Cont.)

Investment Options – Upon enrollment in the Plan, participants may direct their participant and employer-match contributions, plus actual earnings thereon, into a variety of investment options as more fully described in the Plan's literature. Participants may change their investment options daily.

Payment of Benefits – Upon termination of service due to death, disability, or retirement, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may elect to receive the value of the vested interest in his or her account as a lump-sum distribution. A participant may also leave the value of their vested interest in the Plan.

Forfeited Accounts – Forfeitures are used to reduce current year employer contributions. At December 31, 2013 and 2012, there were $28,945 and $29,112 of forfeitures, respectively, available to reduce future employer contributions. During 2013, the Plan used $46,953 of forfeited nonvested funds to reduce employer contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Investments in registered investment companies represent shares of mutual funds which are stated at quoted market prices. Money market funds are stated at cost which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses – Certain administrative fees are paid by the Company on behalf of the Plan. Administrative expenses of $2,460 paid by the Plan during 2013 are expensed as incurred. Certain investment fees are netted and reported in the net appreciation in fair value of investments.

Payment of Benefits – Benefits are recorded when paid.

3. Investments

The fair value of the following investments represent 5% or more of net assets available for benefits at December 31, 2013 and 2012:

	2013	2012
Investments at fair value:		
Money market account:		
American Funds Money Market Fund	$ *	$ 811,045
Shares of registered investment companies:		
AMCAP Fund	970,390	*

The Income Fund of America	*	628,386
Washington Mutual Investors Fund	1,201,084	845,531

*Investment less than 5%.

During 2013, the Plan's investments in registered investment companies (including investments bought, sold and held during the year) appreciated in value by $2,604,377.

During 2013, the Plan reinvested interest and dividends of $208,192.

4. Fair Value Measurements

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted market prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

4. Fair Value Measurements (Cont.)

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

The fair value of shares of registered investment companies is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Money market funds are stated at cost which approximates fair value based upon Level 2 inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

5. Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Ascensus, as agent for Frontier Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, at fair value, as shown in the statements of net assets available for benefits as of December 31, 2013 and 2012.
- Interest and dividend income and net appreciation in fair value of investments, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2013.
- The information included in the supplemental schedule of assets (held at end of year) as of December 31, 2013.

6. Party-in-Interest

Fees paid by the plan sponsor for services rendered by the trustee and other parties-in-interest were for reasonable services required by the Plan.

7. Plan Termination

Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA as amended by subsequent legislation. In the event of Plan termination, participants will become 100% vested in their Company contribution accounts.

8. Income Tax Status

The Company adopted a Prototype Non-Standardized 401(k)/Profit Sharing Plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Subsequent Events

Management has evaluated subsequent events through September 16, 2014, the date which the financial statements were available to be issued.
