NOTES TO FINANCIAL STATEMENTS

December 31, 2013

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Rosen Hotels and Resorts, Inc. Employee Savings Trust ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Rosen Hotels and Resorts, Inc. and its affiliates (the Company) adopted, effective February 1, 1990, a defined contribution salary savings plan (a 401(k)) with an August 31 plan year-end. Effective September 1, 1994 the plan year end was changed to December 31. Effective March 1, 2009 the Plan was amended and restated.

Participation in the Plan is by voluntary election of eligible employees. Substantially all employees of the Company who attain age 18 and complete six consecutive months of service are eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administrative

The Company and the Plan Committee (the Committee) manage the operation and administration of the Plan. A third-party administrator process and maintain the records of participant data. From April 1, 2008 through December 31, 2013, State Street Bank and Trust Company (State Street) acted as the trustee and custodian. Substantially all costs and expenses incurred with regards to the purchase or disposal of investments are generally paid by the Plan.

Contributions

Employee

Upon written election to participate in the Plan, participants can save a portion of their compensation by a deferral amount not to exceed 20 percent of compensation per week. Employee contributions (salary deferrals) under the 401(k) plan are limited to a maximum deferral of $17,500 and $17,000 for calendar years 2013 and 2012, respectively. This maximum may increase annually based on a cost-of-living adjustment determined by the Internal Revenue Service. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Contributions withheld are invested in accordance with the participant's direction.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified employer sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Employer

The Company may make matching contributions as defined in the Plan and as approved by the Board of Directors. During calendar year 2013 and 2012, the company matched 0% and 3%, respectively, of each participant's salary deferral contribution.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution, and an allocation of Plan earnings and administrative expenses. Allocations are based on participant account balances and contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Forfeited balances of terminated participant's non-vested accounts are used to reduce future Company contributions.

Vesting

Participants are immediately vested in their voluntary contributions and rollover contributions plus actual earnings thereon. Vesting in the employer matching contribution plus earnings is based on years of continuous service. A participant is 100% vested after five years of credited service.

Participant Notes Receivable

Participants may borrow one loan from their fund accounts; a minimum of $500 up to a maximum equal to 50% of their account balance vested interest. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. All loans are required to be repaid within 5 years of the loan. The loans are secured by the balance in the participant's vested interest in the Plan. Until otherwise determined by the Trustee, the interest rate will be the prime rate of interest as of the date of the loan, plus 1 percent. Interest rates range from 4.25% to 9.25%. Principal and interest is paid ratably through salary reduction each pay period.

Payment of Benefits

Upon termination of service, each participant (or beneficiary) may elect to leave his or her account balance in the Plan until age 70 1/2., or may elect to receive his or her total benefits in a lump-sum amount equal to the value of the participant's account.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited non-vested accounts totaled $3,699 and $10,113, respectively. These accounts were used to reduce future employer contributions during the subsequent years.

Excess Contributions

As of December 31, 2012, the Plan had excess deferral contributions in the amount of $18,415 due to failing to satisfy the relevant nondiscrimination provisions of the Plan. The 2012 excess contributions and related earnings were not refunded within 2½ months after year-end to certain active participants. The 2012 excess contributions will be treated as distributions in the subsequent year the refund is made.

There were no excess contributions in 2013.

Date of Management Review

September 10, 2013 is the date through which subsequent events were evaluated and the date the financial statements were available to be issued.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principals generally accepted in the United States of America. The Plan's Form 5500 was prepared on the cash basis of accounting. Accordingly, differences between accrual and cash are reflected in Note 7 of these financial statements.

Investment valuation and income recognition

Investments of the Plan are held by State Street from April 1, 2008 through December 31, 2013, and are invested based solely upon instructions received from participants. Upon written election, participants may direct 100% of existing account balances, current deferrals, rollover contributions, and matching contributions in any combination of investment options. During both 2013 and 2012 a participant may change their investment options daily.

Purchases and sales of securities are recorded on a trade-date basis. The change in the current value and cost of marketable securities is reflected in the statements of changes in net assets available for plan benefits as "net appreciation (depreciation) in fair value of investments." The realized gain or loss on investments, which is the difference between the proceeds received and the cost of investments sold, is also included in the caption "net appreciation (depreciation) in fair value of investments." Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable

ASU 2012-25 requires participant loans to be classified as notes receivable from participants and to be measured at their unpaid principal balances plus any accrued but unpaid interest. The classification of participant loans required by GAAP differs from that on Schedule H of Form 5500. The DOL requires participant loans to be reported as investments on the supplemental schedule of assets held at year end required by Schedule H of Form 5500. Further, those loans are required to be measured at their unpaid principal balance plus any accrued but unpaid interest. Accordingly, while participant loans are classified differently for GAAP and Form 5500 reporting purposes, the measurement of participant loans is the same for GAAP and Form 5500 reporting.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

FASB 157 Disclosure - Fair Value Measurements

Effective January 1, 2008 the Plan adopted the provisions of FASB Statement No. 157, "Fair Value Measurements" (FASB No. 157), which defines fair value, establishes a framework for measuring fair value in accordance with U.S. GAAP, and expends disclosure about fair value. Under FASB No. 157, fair value is defined as the exchange price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. FASB No. 157 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB No. 157 are described below:

Level 1 - Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access. Since valuations are based on quoted prices that are readily and regularly available in the active market, valuation of these securities does not entail a significant degree of judgment.

Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observed, either directly or indirectly.

Level 3 - Valuations based on inputs that are unobserved and significant to the overall fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Guaranteed investment contract: Valued at fair value by discounting that related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

SAGIC Investment Option:

MassMutual Retirement Services ("MMRS") SAGIC is a market value separate account investment option with a general investment account guarantee that provides a stated rate of return and insulates participants' accounts from daily fluctuations in the market. Under the terms of the SAGIC group annuity contract, participants may direct permitted withdrawals and/or transfer transactions of all or a portion of their balance in the SAGIC investment option at Contract Value. Contract Value represents contributions plus credited interest less participant withdrawals and fees. Contract Value is also often referred to as "Book Value".

The fair value presented below represents the liquidation value as documented within the SAGIC contract and assumes that the intrinsic value of the general investment account guarantee is immaterial. Liquidation value is the market value of the asset in the separate account. MMRS considers the SAGIC to be fully benefit responsive not withstanding the liquidation value events under the contract that limit the ability of the plan to transact at Contract Value.

NOTE 3 — INVESTMENTS (CONTINUED):

The tables below sets forth a summary of changes in the fair value of the Plan's level 3 investment asset for the year ended December 31, 2013 and 2012:

Fair Value to Contract Value	December 31, 2013	December 31, 2012
Total Assets in the SAGIC Investment Option at Fair Value	$ 4,443,955	$ 4,005,131
Adjustments from Fair Value to Contract Value to Contract Value for fully benefit-responsive investment contracts	(183,693)	(397,567)
Total Assets in the SAGIC Investment Option at Contract Value	$ 4,260,262	$ 3,607,564

Fair Value Rollforward	December 31, 2013	December 31, 2012
Beginning Balance at Fair Value	$ 4,005,131	$ 3,721,588
Change in Unrealized Appreciation/ (Depreciation)	(213,874)	59,259
Net Cash Flow Activity at Contract Value	652,698	224,284
Ending Balance at Fair Value	$ 4,443,955	$ 4,005,131

Interest Crediting Rates	December 31, 2013	December 31, 2012
Average Yield Earned by the Plan (a)	2.95%	3.48%
Average Interest Rate Credited to Participants (b)	2.95%	3.48%
Average Yield Earned Less Average Interest Rate Credited (a) - (b)	0.00%	0.00%

NOTE 3 — INVESTMENTS (CONTINUED):

(a) The average yield earned is calculated by dividing the annual interest credited to the plan during the plan year by the average annual fair value (applicable for those plans that have been in-force with MMRS for more than one year).

(b) The average interest rate credited to participants is calculated by dividing the annual interest credited to the participants during the plan year by the average annual fair value (applicable for those plans that have been in-force with MMRS for more than one year).

(a-b) The average yield earned by the plan and the average interest rate credited to participants is the same, therefore, no adjustment is needed. However, the average yield earned by the plan and the average interest rate credited to participants reported above may differ from the guaranteed crediting rate on participant balances due to interest being credited based on contract values, timing of cash flows, the process by which rates may be reset during the plan year and simplified assumptions used in the calculations noted above.

Liquidation Value Events

Certain events may limit the ability of the Plan to transact at Contract Value. Such events include but may be limited to the following: (1) the complete or partial termination of the Plan; (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration of operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs. Consult the Plan's group annuity contract for further information.

All other investments are valued using the methods more fully described in Note 2.

NOTE 4 - PLAN TERMINATIONS

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the Provisions of ERISA. In the event of the Plan termination, participants will become 100% vested in their non-contributory account balance.

NOTE 5 - TRANSACTIONS WITH PARTIES-IN-INTEREST

There were no Employee or Employer contributions due to the Plan at year ended December 31, 2013 or 2012.

During 2013 and 2012, the Plan paid certain contract administrator fees to MassMutual in the amounts of $39,717 and $35,944, respectively.

During 2013 and 2012, the Plan investments are managed by State Street, the trustee of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 6 - INCOME TAX STATUS

The Plan obtained its latest determination letter on May 11, 2009, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Service. Therefor, no provision for income taxes has been included in the Plan's Financial Statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administer has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 7 - RECONCILIATION BETWEEN THE FINANCIAL STATEMENTS AND FORM 5500

There are no reconciling differences between the net assets available for benefits per the financial statements as of December 31, 2013 to the Form 5500.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
