Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditors' Report

Plan Administrator
GE Pension Plan:

Report on the Financial Statements

We have audited the accompanying financial statements of the GE Pension Plan (the Plan) which comprise the statements of net assets available for plan benefits and of accumulated plan benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for plan benefits and of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U. S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the Plan's financial statements referred to above present fairly, in all material respects, the financial status of the Plan as of December 31, 2013 and 2012, and the changes in its financial status for the years then ended, in accordance with U.S generally accepted accounting principles.

GE PENSION PLAN
Notes to Financial Statements
December 31, 2013 and 2012

(1) Description of the Plan

GE Pension Plan (the "Plan") is a contributory defined benefit pension plan for the benefit of eligible employees of General Electric Company (the "Company") and its participating affiliated companies. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan provides benefits to certain U.S. employees of the Company and such affiliates based on the greater of two formulas recognizing: a) a regular pension based on career earnings; or b) a minimum guaranteed pension based on length of service and final average earnings. Benefit provisions are subject to collective bargaining.

Salaried employees who commenced service on or after January 1, 2011, and any employee who commenced service on or after January 1, 2012 will not be eligible to participate in the GE Pension Plan, but will participate in a defined contribution retirement plan.

Participating qualified employees are generally entitled to pension benefits (paid monthly) beginning at normal retirement age (65) consisting of a regular pension, and if applicable, an additional pension to provide the minimum guaranteed pension, a Personal Pension Account Annuity, and a Voluntary Pension Account Annuity. The Plan permits early retirement at age 60.

For 2013 and 2012, participating employees were required to contribute to the Plan 3% of their annual compensation in excess of \$80,000, if applicable. Employees were also able to voluntarily contribute to the Plan 3% of their first \$80,000 of compensation during 2013 and 2012. Required and voluntary contributions of participating employees are 100% vested. Company provided benefits for participating employees are 100% vested upon completion of five years of Pension Qualification Service as defined in the Plan document.

This description of the Plan is provided for general information purposes only. The complete terms of the Plan are provided in the GE Pension Plan document. Information concerning the Plan, including benefits and vesting provisions, is also included in the Plan handbooks.

The Plan invests its funds in the GE Pension Trust (the "Trust"). The Trustees of the Trust are officers of GE Asset Management Incorporated ("GEAM"), a wholly owned subsidiary of General Electric Company. GEAM is the investment advisor to the Trust and provides investment management and other services. State Street Corporation is the primary custodian for Trust assets.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

(b) Accounting Changes

On January 1, 2013, the Trust adopted the Financial Accounting Standards Board ("FASB") Accounting Standards Updated ASU 2011-11, *Balance Sheet – Disclosures about Offsetting Assets and Liabilities*. The amendments require that minimum disclosure be provided by all entities that have financial instruments and derivative instruments which have rights of offset or are subject to an enforceable master netting agreement or similar agreement. See note 3.

(c) Investments

All Plan investment assets are held in the Trust. The Trust's investments are carried at fair value. See notes 3 and 4 for additional information.

GE PENSION PLAN
Notes to Financial Statements
December 31, 2013 and 2012

Investment transactions are recorded by the Trust on a trade date basis. Interest income is earned from settlement date and is recognized on an accrual basis. Dividend income is recorded on the ex-dividend date.

Securities for which exchange quotations are readily available are valued at the last sale price, or if no sales occurred on that day, at the quoted bid price. Short-term investments generally maturing within 60 days or less at the time of purchase are valued on the basis of amortized cost, which approximates fair value. Non-publicly traded investments are principally investments in real estate, alternative investment funds and private equity securities. The fair value estimates for these non-publicly traded investments involve subjective judgments and the actual selling price of these investments can only be determined by negotiations between independent third parties in a sales transaction.

Off-balance-sheet financial instruments and commitments are valued at current market prices and rates, are included in due from brokers and due to brokers, as applicable on the statements of net assets of the Trust. The net realized and unrealized gains or losses are included in net appreciation (depreciation) in value of investments in the statements of changes in net assets of the Trust. Future contracts are valued at the settlement price established each day by the board of trade or exchange on which they principally trade. Forward foreign currency contracts are valued at the closing market price.

Investment income and related expenses, including interest and dividend income, net realized gains (losses) on sale and unrealized appreciation (depreciation) in value of investments, is allocated by the Trust to the Plan based upon the Plan's percentage of Trust net assets at the beginning of each month.

(d) Fair Value Measurements

For financial assets and liabilities, fair value is the price the Trust would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. In the absence of active markets for the identical assets or liabilities, such measurements involve developing assumptions based on market observable data and, in the absence of such data, internal information that is consistent with what market participants would use in a hypothetical transaction that occurs at the measurement date.

Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. Preference is given to observable inputs. These two types of inputs create the following fair value hierarchy:

Level 1 - Quoted prices for identical investments in active markets.

Level 2 - Quoted prices for similar investments in active markets; quoted prices for identical or similar investments in markets that are not active; and model-derived valuations whose significant value drivers are observable.

Level 3 - Significant inputs to the valuation model are unobservable.

The Company maintains policies and procedures to value investments using the best and most relevant data available. Independent pricing vendors are used to assist in valuing certain investments. In addition, the Company performs reviews through assessment of the inputs in the determination of valuation for a representative sample of direct investments in private equity securities and real estate investments to assess reasonableness of the valuations.

The following section describes the valuation methodologies used to measure investments at fair value.

GE PENSION PLAN
Notes to Financial Statements
December 31, 2013 and 2012

When available, quoted market prices are used to determine fair value of investment securities, and they are included in Level 1. Level 1 securities primarily include publicly traded equity securities.

When quoted market prices are unobservable, pricing information is obtained from independent pricing vendors. The pricing vendors use various pricing models for each asset class that are consistent with what other market participants would use. The inputs and assumptions to the model of the pricing vendors are derived from market observable sources including: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, benchmark securities, bids, offers, and other market-related data. Since many fixed income securities do not trade on a daily basis, the methodology of the pricing vendors use available information as applicable such as benchmark curves, benchmarking of like securities, sector groupings, and matrix pricing. The pricing vendors consider available market observable inputs in determining the evaluation for a security. Thus, certain securities may not be priced using quoted prices, but rather determined from market observable information. These investments are included in Level 2 and primarily comprise the portfolio of corporate fixed income, and government, mortgage and asset-backed securities. In infrequent circumstances, pricing vendors may provide valuations that are based on significant unobservable inputs, and in those circumstances the investment securities are classified in Level 3.

Private equity security valuations are reviewed at the end of each reporting period utilizing available market data to determine whether or not any fair value adjustments are necessary. The market data includes recent transactions in the same or similar instruments, completed or pending third-party transactions in the underlying investment or comparable issuers. Unobservable inputs include company specific fundamentals and other third party transactions in that security.

Real estate investments are valued using discounted cash flow techniques on estimated future cash flows generated by the property, market analysis and sales comparison information. Cash flow estimates are based on current market estimates that reflect current and projected lease profiles and available industry information about expected trends in rental, occupancy, and capitalization rates.

Private equity and real estate partnerships are valued using the net asset values provided by the general partners and updated, if necessary, using analytical procedures and/or inquiry of general partners. The net asset values are determined based upon the fair values of the underlying investments in the funds. Investments in private equity and real estate funds are generally included in Level 3 because they are not redeemable at the measurement date.

The valuation methodology for private equity security and real estate investments is applied consistently, and is included in Level 3.

Closing prices for derivatives, which are traded either on exchanges or liquid over-the-counter markets are included in Level 1.

Trust securities that are valued using techniques other than market quotations, particularly securities that are "fair valued," are subject to valuation risk. The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

Annually, the Company conducts a review of the primary pricing vendor to validate that the inputs used in that vendor's pricing process are deemed to be market observable as defined in the standard. While the Company is not provided access to proprietary models of the vendor, the Company's review has included on-site walkthroughs of pricing processes, methodologies and control procedures for each asset class for which prices were provided. The Company's review also includes an examination of the underlying inputs and assumptions for a sample of individual securities across asset classes, credit rating levels and various durations. The Company believes that the prices received from the pricing vendor are representative of prices that would be received to sell the assets at the measurement date (exit price).

GE PENSION PLAN
Notes to Financial Statements
December 31, 2013 and 2012

The Trust may use non-binding broker quotes as its primary basis for valuation when there is limited, or no, relevant market activity for a specific instrument or for other instruments that share similar characteristics. The Company has not adjusted the prices obtained from the brokers. Investment securities priced using non-binding broker quotes are included in Level 3. As is the case with the primary pricing vendor, third-party brokers do not provide access to their proprietary valuation models, inputs and assumptions.

(e) Management Estimates and Assumptions

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, the actuarial present value of accumulated plan benefits and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(f) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that will be required under the Plan's provisions based on the employees' contributions, compensation and service through year-end. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits payable as a result of retirement, death, disability and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by independent actuaries and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, and retirement) between the valuation date and the expected date of payment. The more significant actuarial assumptions used in the valuations as of December 31, 2013 and 2012 were: (a) expected mortality rates of participants based on mortality tables adjusted for the demographic characteristics of the participants; (b) average assumed retirement age of approximately age 63; and (c) interest discount assumption of 7.5% and 8.0%, respectively. The assumptions changes as of December 31, 2013 are primarily due to the decrease in the interest rate.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue indefinitely. If the Plan was expected to be completely terminated, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

(g) Benefit Payments

Benefit payments to participants are recorded when paid.

(3) Summary of Trust Financial Information

- (a) The Plan's net assets are invested solely in the irrevocable Trust which has been established to receive employer and employee contributions, invest or reinvest such sums, and pay benefits in accordance with specific provisions for participating plans.
- (b) The Plan's net investment in the Trust represented 99.15% and 99.20% of Trust net assets as of December 31, 2013 and 2012, respectively. The net assets and changes in net assets of the Trust follow.

(c) Investments

The Trust invests in U.S. equities, international equities, fixed income securities, private equity securities, real estate, partnerships, and certain other assets. Due to risks associated with certain investments, it is reasonable to expect that changes in the value of investments will occur (including in the near term) and that such changes could materially affect the Trust investments.

According to the statute, the aggregate holdings of all qualifying employer securities (e.g. General Electric Company common stock) and qualifying employer real property may not exceed 10% of the fair value of trust assets at the time of purchase. General Electric Company securities represented 4.5% and 4.2% of Trust net assets at December 31, 2013 and 2012, respectively.

(d) Financial Instruments with Off-Balance-Sheet Risk

In the normal course of business, the Trust enters into transactions in various financial instruments with off-balance-sheet risk. These financial instruments involve varying degrees and types of risks, including credit and market risks, which may be in excess of the amounts recognized in the net assets of the Trust.

Credit risk represents the potential loss to the Trust due to possible nonperformance by obligors and counterparties of the terms of their contracts. Market risk represents the potential loss to the Trust due to the decrease in the value of an off-balance-sheet financial instrument caused primarily by changes in interest rates, foreign exchange rates, or a combination thereof.

Forward contracts and futures represent commitments to purchase or sell securities, money market instruments or foreign currencies at a future date and at a specified price. Short sells represent commitments to purchase securities at a future date. Options give the holder the right, but not the obligation, to purchase or sell securities at a future date and at a specified price. Both credit and market risks exist with respect to forward contracts. Market risk exists with respect to futures, short sells and options. These positions are carried at current market value, and the unrealized gain or loss is included in due from brokers and due to brokers in the net assets of the Trust. Financial futures are marked to market and settled with the broker on a daily basis. The Trust does not anticipate that losses, if any, as a result of credit or market risk would materially affect the net asset position of the Trust. The Trust, to a limited extent, enters into transactions involving other financial instruments and commitments as an integral part of the overall management of the investment portfolio. The Trust has elected to offset the fair value amounts recognized for receivables and payables for derivative positions executed with the same counter party under the same master netting agreement.

The Trust had unfunded commitments of \$2,207 million and \$1,898 million as of December 31, 2013 and 2012, respectively, related to investments in private equity and real estate partnerships.

(5) Related Party Transactions (Parties-in-Interest)

As described in Note 7, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions may be transactions with parties in interest under ERISA. KPMG LLP, the auditor of the Plan's financial statements, is also a party in interest.

(6) Tax Status

The Internal Revenue Service has notified the Company by a letter dated March 14, 2014 that the Plan continues to be qualified under the appropriate sections of the Internal Revenue Code. The Plan has not been amended and restated since that letter was issued. The Plan satisfies the non-discrimination requirements of Code sections 401(a)(4) and 410(b). To the extent the Trust recognizes any "unrelated business taxable income" as defined in Section 512 of the Code, the Trust is required to pay tax on any such income. For the year ended December 31, 2013, the Trust recorded a current income tax provision of \$7.4 million and deferred income tax benefit of \$0.2 million. For the year ended December 31, 2012, the Trust recorded a current income tax provision of \$25.1 million and deferred income tax benefit of \$6.0 million. For the years ended December 31, 2013 and December 31, 2012, the Trust recorded deferred tax liabilities of \$0.0 million and \$0.2 million, respectively, related to the differences between book and tax bases in its' underlying real estate investments.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions and its' administrator believes it is no longer subject to income tax examinations for years prior to 2010. On July 11, 2014, the Internal Revenue Service notified an investment subsidiary of the Trust of its intent to conduct an examination for tax years ending December 31, 2011 and December 31, 2010.

(7) Expenses

Pursuant to the Plan document, the Plan incurs certain administrative expenses and the Plan's proportionate share of other Trust expenses. Administrative expenses consist primarily of direct recordkeeping and transaction processing costs. The Plan's proportionate share of the other Trust expenses is primarily associated with investment management fees.

Expenses for the Plan for the years ended December 31, 2013 and 2012 follow.

(8) Funding

It is the Company's policy to contribute amounts sufficient to meet minimum funding requirements as set forth in employee benefit and tax laws plus such additional amounts as the Company may determine to be appropriate. No Company contributions were made in 2013. In 2012, the Company contributed \$433 million for Plan Year 2011.

Present employees accumulated contributions at December 31, 2013 and 2012 were \$1,974 million and \$1,984 million, respectively, including interest credited at rates provided under the Plan.

(9) Plan Termination

Although the Company has not expressed any intent to do so, it has the right to terminate the Plan in accordance with the Plan provisions and the provisions set forth in ERISA.

In the event of complete Plan termination, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide benefits in a prescribed order starting with benefits attributable to employee contributions.

Additionally, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC"), a U.S. government agency, if the Plan so terminates. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants will receive their benefits should the Plan so terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and level of benefits guaranteed by the PBGC. There is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2014, that ceiling, which is adjusted periodically, is \$4,943 per month.

Mortality

For non-disabled participants: The prescribed mortality assumption under Section 430(h)(3)(A) of the Internal Revenue Code using static tables with separate mortality rates for annuitants and non-annuitants.

For ASC 960:

Active, Terminated Vested and Retired Participants: Rates varying by age, sex, and wage class. (Hourly Males: RP-2000 Male Table set forward three years and projected to 2024. Hourly Females: RP-2000 Female Table set forward two years and projected to 2024. Salaried Males: RP-2000 Male Table projected to 2024. Salaried Females: RP-2000 Female Table set forward one year and projected to 2024. The mortality tables are projected to 2024 using scale AA).

Beneficiaries: Rates varying by age and sex. (Males: RP-2000 Male Table set forward two years and projected to 2024. Females: RP-2000 Female Table set forward two years and projected to 2024. The mortality tables are projected to 2024 using scale AA).

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

a. Legacy Participants

Age Nearest Birthday	Assumed Annual Retirement Rate
59	.100
60	.240

70	1.000

The rate for employees eligible to receive supplemental retirement benefits for retiring by June 30, 2015 is increased to .50 in the first year of eligibility for these benefits. The rates are multiplied by .50 for each age between 59 and 64 at which an employee is projected to have less than 10 years of service.

0.75% of employees meeting the required age and service are assumed to be affected by a qualifying job loss which would make such employees eligible for certain GEPP benefits under the plan's long-service security provisions.

75% of terminated vested participants are assumed to retire at age 60 and 25% are assumed to retire at age 62.

For those who became disabled before 1995, the disabled life mortality tables required by the IRS are used. For those who become disabled after 1994, the same mortality tables for non-disabled individuals are used.

For ASC 960: Rates varying by sex and age. (Males: 85% of male rates from DP-85 Table. Females: 85% of female rates from DP-85 Table.)

Unpredictable Contingent Event Benefits

The Funding Target includes \$21,000,000 of additional liability for anticipated early retirements under the SERO plan provisions available for eligible retirements on or before July 1, 2015, based on the information available as of the valuation date.

Compensation Increases

For purposes of determining the target normal cost and the additional funding target for maximum deductible contribution purposes, compensation is assumed to increase by 2.80% in 2012, 3.00% in 2013 and 2014, and by 3.75% per annum thereafter.

Future Increases in Social Security

For purposes of determining target normal cost and the additional funding target for maximum deductible contribution purposes, the National Average Wage Index is assumed to increase by 3.00% per annum.

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC Section 415. Plan compensation is limited to the maximum presently allowed under IRC Section 401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Spouse Assumptions

Where spouse date of birth not in data, female spouse is assumed to be two years younger than male. In addition, the following assumptions are made for active and terminated vested employees.

	Male	Female
% Married	85%	45%
% Electing Spouse Option	70%	50%

Actuarial value of assets – Asset Method

Average of the fair market value of assets on the valuation date and the dates 12 and 24 months before the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2012 plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Participant Data

Towers Watson Delaware Inc. processed and valued the data files of active employees, terminated vested employees, and retired employees received from GE and the other providers of data. Towers Watson made some checks of the data for general reasonableness but relied on the data provided as being accurate and appropriate for valuation purposes. Assets were valued by the Company.

Funding Target

Present value of accrued benefits.

Target Normal Cost

Present value of benefits expected to accrue during plan year plus plan related expenses expected to be paid from plan assets during plan year.

Tax Policy

The actuarial valuation performed for the plan year ending December 31, 2013 is used to determine the maximum deductible contribution for the tax year ending December 31, 2013.

Changes in Assumptions and Methods Since Last Actuarial Valuation

The following changes in assumptions were made as part of this valuation:

The mortality table used for the Funding Target was changed to the prescribed static mortality table in effect for the current year under Section 430(h)(3)(A), as elected by General Electric.

The 3-segment rates were changed to reflect the rates in effect for the applicable month for the current valuation year, in accordance with 430(h), as elected by General Electric, and to reflect the interest rate corridors of MAP-21. These rates reflect the passing of the Highway and Transportation Funding Act as of August 8, 2014, which extends the highway trust fund through May of 2015 and delays the widening of the interest rate corridors under MAP-21 until 2017.

Plan

GE Pension Plan

1. Effective Date and Most Recent Amendment

- a. The plan was originally effective April 12, 1912. The valuation reflects all amendments adopted on or before January 1, 2013. The most recent amendment reflected in the valuation was effective in December 2011.
- b. Plan Year - The twelve-month period ending December 31, 2013.

2. Coverage and Participation

January 1 following date of hire by GE or a GE affiliate that participated in the GE Pension Plan, unless:

- i. Covered by a collective bargaining agreement that does not provide for participation in the plan;
- ii. Employed by a non-participating affiliate;
- iii. Hired on a temporary basis (though certain temporary employees working over 180 days are included);
- iv. A leased employee or independent contractor;
- or
- v. In any special classifications that are not eligible, as determined by GE.

Effective January 1, 2001, an automatic enrollment feature became effective for eligible employees; those not wishing to participate may opt out.

Employees with a first day of work on or after January 1, 2011 who would otherwise become New Plan Participants are not eligible to participate in the GE Pension Plan. Employees with a first day of work on or after January 1, 2012 who would otherwise become Legacy Participants are not eligible to participate in the GE Pension Plan.

b. Early -

First day of month following age 60

The Plan allows retirement prior to age 60 under limited conditions; some of the key conditions are summarized below.

Special Early Retirement Option (SERO): Legacy Participants terminating on or after July 1, 2011 and before July 1, 2015, whose termination is due to an eligible permanent job loss event, may be eligible for early retirement if:

- they are at least age 55 and less than age 60 with at least 25 years of Pension Qualification Service (PQS) on the date of the permanent job loss event
- or for hourly and nonexempt salaried participants only, if they are directly impacted by a permanent job loss event or a pay rate reduction of at least 18% resulting from one or more job loss events in a rolling 12-month period and they are under age 55 with at least 30 years of PQS on the date of the permanent job loss event.

Retirement under SERO must occur in the first month eligible for this option.

Plant Closing Pension Option (PCPO): Legacy Participants terminating on or after July 1, 2011 and before July 1, 2015, whose termination is connected with an eligible plant closing, may be eligible for early retirement at the ages shown if their service and age at the end of the calendar year of the plant closing are at least equal to that shown below and retirement occurs in the first month eligible for this option:

Age	Years of PQS
Less than 50	30
50	25
51	22
52	19
53	16
54	13
Greater than 54	10

Accelerated Payment Option (APO): Legacy and New Plan Participants with at least 25 years of PQS who terminate due to an eligible plant closing, transfer to a successor employer under specific eligibility conditions or after one year on layoff with protected service may be eligible to retire as early as age 55. This option is not available to participants who retire under SERO or PCPO or who withdraw their pre-1989 contributions.

- c. Deferred - Anytime after normal retirement date; payments begin not later than the March 1 following the year the participant attains age 70½.
- d. Disability - Fifteen or more years of PQS and permanently disabled while an active employee participating in the GE Pension Plan. For New Plan Participants, no disability pension is available for retirements that occur on or after age 60. Permanently disabled means permanently impaired and unable to perform present job or any other available GE job for which employee is reasonably suited by education, training, or experience, as determined by the benefits administrator. For eligible recipients, payments generally begin six months after permanent disablement and may be discontinued if employee regains work capacity.

4. Normal Retirement Benefit

- a. Normal - Benefit of (1), updated by (2), plus (3), but no less than (4). In addition, benefit provided by the Personal and Voluntary Pension Accounts described in (5), as a lump sum or as an annuity.

(1) Future Service Annuity -

Annual benefit equal to the sum of:

- i. 40.0% of the employee's total contributions during the period September 1, 1946 to August 14, 1955.
- ii. 0.8% of the employee's compensation earned each year from August 15, 1955 to December 31, 1966 up to an amount equal to the Social Security Wage Base plus 2.0% of remaining compensation.
- iii. 1.0% of first \$6,600 of employee's compensation earned in each calendar year from January 1, 1967 to December 31, 1979, plus 2.1% of remaining compensation.
- iv. 1.2% of first \$9,000 of employee's compensation earned in each calendar year from January 1, 1980 to December 31, 1982, plus 2.2% of remaining compensation.
- v. 1.3% of first \$12,000 of employee's compensation earned in each calendar year from January 1, 1983 to December 31, 1985, plus 2.4% of remaining compensation.
- vi. 1.3% of first \$14,000 of employee's compensation earned in each calendar year from January 1, 1986 to December 31, 1988, plus 2.4% of remaining compensation.

year, plus 1.90% of remaining compensation (1.45% of all compensation earned in each calendar year after Pension Benefit Service (PBS) as of January 1 exceeds 34 years).

- viii. 1.45% of employee's compensation earned in each calendar year after December 31, 1990, up to Plan Covered Compensation, plus 1.90% of remaining compensation. (Through 2000, 1.45% of all compensation earned in each calendar year after PBS as of January 1 exceeds 34 years). Plan Covered Compensation is defined to be:

- (1) Social Security Covered Compensation for 1991,
- (2) \$18,000 for 1992,
- (3) Social Security Covered Compensation less \$3,192 for 1993 and 1994,
- (4) Social Security Covered Compensation less \$4,500 for 1995, 1996 and 1997,
- (5) \$26,000 for 1998, 1999 and 2000,
- (6) \$30,000 for 2001, 2002 and 2003, and
- (7) \$35,000 for 2004, 2005, 2006, and 2007, and
- (8) \$40,000 for 2008, 2009, 2010, and 2011, and
- (9) \$45,000 for 2012, 2013, 2014, and 2015; Social Security Covered Compensation less \$20,000 for 2016 and subsequent years.

Covered Compensation is determined each year based on the covered compensation for someone age 65 in the year. If an employee works beyond age 65, that employee's Plan Covered Compensation for all years after age 65 is frozen at the level in effect at age 65.

(2) Updates of (1) -

Active Employees who participated in the plan on the effective dates below received updates of (1) as follows:

- i. Effective September 30, 1963, an additional benefit of 15% of the pension earned from September 1, 1946 through December 31, 1950.
- ii. Effective January 1, 1967, an additional benefit of 0.30% of average compensation during 1955, 1956, and 1957 (minimum of \$12) times full years of credited service as of December 31, 1956.

- xii. Effective December 1, 1997, for employees with at least 25 years of PQS or who are at least age 55 with at least 20 years of PQS as of December 31, 1996:

a. For Exempt Salaried Participants:

The future service annuity as of December 31, 1996 (including all updates through December 31, 1996) shall not be less than 60% of average normal straight time annual earnings (NSTAE) from 1994 through 1996, less \$10,000, prorated for PBS at December 31, 1996 of less than 35 years, less a deemed PPA annuity. The deemed PPA annuity is the PPA Account Balance at December 31, 1996 increased with interest at 7% to age 60 and converted to a life annuity with 5 year certain payable at age 60 (or current age on December 31, 1996, if greater). For this purpose only, the conversion basis for the PPA annuity is 4.5% interest and UP-1984 mortality.

The increase in regular pension for those eligible for an update is subject to a minimum of \$250.

b. For Nonexempt Salaried and Hourly Participants:

The future service annuity as of December 31, 1996 (including all updates through December 31, 1996), shall be increased by 0.03% of average compensation from 1994 through 1996 times PBS through December 31, 1996.

- xiii. Effective December 1, 2000, for employees with at least 25 years of PQS or who are at least age 55 with at least 20 years of PQS as of December 31, 1999, the future service annuity as of December 31, 1999 (including all updates through December 31, 1999) shall not be less than:

- a. 1.0% of average compensation up to \$36,000 times PBS as of December 31, 1999, plus
- b. 1.4% of average compensation in excess of \$36,000 times PBS as of December 31, 1999.

For purposes of applying the above formula set forth in 4.a.(2)xiii., average compensation shall mean the average compensation during the three consecutive calendar years of the six year period 1994 through 1999 that produces the highest average.

The increase in regular pension in 4.a.(2)xiii. for those eligible for an update is subject to a minimum of \$250.

(3) Past Service Annuity -

Formula based on service prior to September 1, 1946, and subsequent updates to the past service annuity.

(4) Guaranteed Pension -

Eligible employees shall receive an additional pension, if any, which would be necessary to provide the minimum guaranteed pension described below.

- i. If Average Annual Compensation is \$38,000 or less, minimum guaranteed pension payable per year of PBS is \$35.00 per month.
- ii. For each full \$1,000 by which Average Annual Compensation exceeds \$37,001, the minimum guaranteed pension payable per year of PBS is increased by \$1.00 per month, up to a maximum benefit unit of \$80.00 for Average Annual Compensation exceeding \$82,000.
- iii. Effective December 1, 1997, for participants with at least 25 years of PQS or who are at least age 55 with at least 20 years of PQS as of December 31, 1996, the guaranteed minimum pension shall be increased by the following:
 - a. For Exempt Salaried Participants:
\$250.
 - b. For Nonexempt Salaried and Hourly Participants:
0.03% of average compensation from 1994 through 1996 times PBS through December 31, 1996.

(5) Personal Pension Account -

Employee contributions (as described in Item 5.a.) in each calendar year after December 31, 1988, plus voluntary contributions (as described in Item 5.b.) in each calendar year after December 31, 1990, are credited with interest at a prescribed rate.

Unless waived by the employee (with spouse consent, if married), the Personal Pension Account (regular and voluntary) is converted to an annuity under the same normal form rules as apply for the pension benefit. If not converted to an annuity, the Personal Pension Account may be withdrawn in installments at the employee's election, but not in amounts less than \$500 and not more than once a year, unless the entire balance is withdrawn. The account continues to earn interest if the annuity, lump sum, or installments are deferred.

The assumptions used in converting the Personal Pension Account to an annuity, before adjustment for a 50%, 75% (after 2007), or 100% spouse option if appropriate, are the UP-1984 Mortality Table and the PBGC interest rates in effect on the date of conversion or mortality and Corporate Bond Rates as specified in the Pension Protection Act of 2006 for annuity starting dates on and after January 1, 2008, whichever produces the larger annuity.

b. Early -

(1) Legacy Participants

Unreduced pension payable as early as age 60, or upon SERO or PCPO if applicable, as determined in 4.a. above. If hourly or nonexempt salaried and eligible for APO, pension payable (as determined in 4.a.(1) through 4.a.(4) above) as early as age 55, reduced 5% per year that payments begin prior to age 60, plus 100% of benefit in 4.a.(5) above. If exempt salaried and eligible for APO, pension payable (as determined in 4.a.(1) through 4.a.(4) above) as early as age 55, reduced 9.5% per year for the first two years and 7.0% per year for the next three years that payments begin prior to age 60, plus, 100% of benefits in 4.a.(5) above.

- i. For employees with at least 5 years of PQS, a supplement of \$20.00 per month per year of PBS is payable up to the age at which the participant is eligible for 80% of his Social Security benefits. This extension of supplements beyond age 62 only applies for eligible retirements after June 1, 2011 and on or before July 1, 2015. For eligible retirements at later dates, this supplement is payable until age 62. This supplement is also payable to those who retire under SERO or PCPO; those who retire under the long-service security provisions may not receive this supplement before age 60.
- ii. If an employee with 25 years of PQS retires after June 1, 2011 and on or before July 1, 2015 in accordance with special eligibility rules, he receives an additional \$400 monthly supplement from retirement until the age at which he is eligible for 80% of his Social Security benefits. This supplement is also payable to those who retire under SERO or PCPO; it does not apply for those who retire under the long-service security provisions.

In certain limited situations, employees affected by an eligible job loss who have at least 25 years of PQS are eligible for certain supplements for limited periods. Supplements are not available to those electing SERO by voluntary substitution for another employee. In no case is the \$400 monthly supplement available for a job loss that occurs after June 30, 2015.

(2) New Plan Participants

Reduced pension payable as early as age 60, with a reduction applicable to the benefit as determined in 4.a. above (other than 4.a.(5)) equal to 5/12% for each month the participant's early retirement date precedes his normal retirement date.

This reduction will not be imposed, however, if the participant terminates from service on or after (a) attainment of at least age 62 and (b) completion of at least 25 years of PQS. If eligible for APO, pension payable (as determined in 4.a.(1) through 4.a.(4) above) as early as age 55, reduced 25% plus 7.5% per year for the first two years and 5.0% per year for the next three years that payments begin prior to age 60, plus, 100% of benefits in 4.a.(5) above.

New Plan Participants are not eligible for supplements, SERO, PCPO, or Voluntary Windows.

c. Deferred -

Determined as in 4.a. above.

d. Disability -

(1) Legacy Participants

Eligible disabled employees may receive a benefit determined as in 4.a.(1) through 4.a.(5) above, plus certain temporary supplements under certain conditions.

(2) New Plan Participants

Eligible disabled employees may receive a benefit determined as in 4.a.(1) through 4.a.(5) above, reduced for commencement prior to age 60 by 25%, plus 100% of benefit in 4.a.(5) above.

New Plan Participants are not eligible for supplements.

5. Employee Contributions

a. Personal Pension Account (PPA) -

Required contributions of 3% of compensation in excess of contribution breakpoint per year (contribution breakpoint: \$25,000 for 1989 through 1997; \$30,000 for 1998 through 2000; \$37,500 for 2001 through 2003; \$50,000 for 2004 through 2005; \$60,000 for 2006 through 2007; \$70,000 for 2008 through 2011; and \$80,000 starting in 2012); provides PPA benefit in 4.a.(5). Interest is credited on the PPA based on a rate that is determined at the beginning of each year. The rate up to December 31, 2000, was based on the lesser of the average of the annual 10-year constant maturity yield on U.S. Treasury Securities for the preceding three years and the rate specified in section 411(c) of the Internal Revenue Code (i.e., 120% of the Federal Midterm Rate in effect on January 1). On and after January 1, 2001, interest is credited on the PPA at 120% of the Federal Midterm Rate in effect on January 1.

- b. Voluntary Pension Account (VPA) - Voluntary contributions of 3% of compensation up to contribution breakpoint (contribution breakpoint: \$25,000 for 1991 through 1997; \$30,000 for 1998 through 2000; \$37,500 for 2001 through 2003; \$50,000 for 2004 through 2005; \$60,000 for 2006 through 2007; \$70,000 for 2008 through 2011; and \$80,000 starting in 2012); provides VPA benefit in 4.a.(5). Interest is credited on the VPA based on a rate that is determined at the beginning of each year. The rate is the greater of the average of the annual 10-year constant maturity yield on U.S. Treasury Securities for the preceding three years and the rate specified in section 411(c) of the Internal Revenue Code (i.e., 120% of the Federal Midterm Rate in effect on January 1).
- c. Employee Contributions Prior to 1989 - Required contributions; provides part of benefit in 4.a.(1).

6. Vested Benefits Upon Termination of Benefits

Annual benefit determined as in 4.a. payable at retirement at or after age 60 if employee has five years of PQS at termination. For New Plan participants, benefit is reduced 5/12% for each month the participant's early retirement date precedes his normal retirement date [Note: Unreduced retirement at 62/25 is not available to deferred vested]. Before retirement, a vested terminated employee may withdraw his pre-1989 contributions plus interest plus his Personal Pension Account (regular and voluntary) and retain his right to the Company provided portion of his vested benefit. Alternatively, vested terminated employee may elect to withdraw his Personal Pension Account (regular and voluntary) and leave his pre-1989 contributions plus interest in the plan and retain his right to his vested benefit that is not attributable to PPA or VPA contributions.

Employees are vested in their contributions to the Plan.

7. Death Benefits for Participants in Active Service

- a. Before Retirement - Benefits vary with age, service, marital status and employment status at time of death, as described in the table below. Benefits described are for active participants only; benefits for vested terminations may be different. For those married at time of death (defined as married at least one full year prior to date of death), the 50% spouse benefits (see 7.b.(2)) are available and PPA/VPA will be paid as an annuity unless the spouse elects a lump sum. For single employees and those married for less than 12 months, only the lump sum benefits are available. Early commencement factors for death benefits are based on the age the employee would have attained upon commencement of the pre-retirement death benefit.
- Death benefits in 7.a. and 7.b. do not include any early retirement supplements. Lump sum values of annual pension payable for five years, if applicable, include any additional benefits added to make up a guaranteed pension benefit in 4.a.(4).

excess of two years by which the spouse is younger (older) than the employee and increased by 0.2% for each full year the employee's age at benefit commencement is less than age 60; the factor applied will not be less than 90% or more than 100%.

If the Spouse predeceases the participant within the first five years after retirement, a fraction of the pension reduction for the spouse option is discontinued. The fraction discontinued depends upon the anniversary of effective date of survivorship option; 100% of reduction is discontinued if spouse dies within one year of effective date, reducing by 20% each year thereafter.

The minimum total payment is five times the employee's pension under the five-year certain form of payment in 7.b.(2)i.

Alternatively, with spouse consent, the employee may elect one of the following forms:

- i. Five-year certain and life annuity, or
- ii. 75% spouse option (available beginning January 1, 2008), which provides a reduced amount to the employee of 90% of the benefit otherwise payable but with 75% of the reduced amount continued to the surviving spouse for life after the employee's death. The 90% factor is reduced (increased) by 0.5% for each full year by which the spouse is younger (older) than the employee and reduced (increased) by 0.3% for each full year the employee's age at benefit commencement is greater (less) than age 60. The factor applied will not be more than 98.5% but will not be less than the factor that pertains under the 100% spouse option. 8. Definitions

- a. Compensation - Salary or wages, plus overtime, vacation pay, night shift bonus, cost-of-living adjustment, deferrals under I.R.C. Sections 125 or 401(k) and a portion of eligible commissions and other approved compensation. Compensation is limited as prescribed by IRS rules.
- b. Average Annual Compensation - For purposes of determining the guaranteed pension benefit in 4.a.(4) above, average annual compensation is the average of compensation in the three full consecutive calendar years that are the highest during the last 10 completed calendar years before the employee's retirement. The calendar year of termination is not included unless termination date is December 31.
- c. PQS - Service for purposes of determining eligibility for pension benefits. For a full-time employee, one year of PQS is credited for each year in which the employee is credited with at least 1,000 hours of service while a participant in the GE Pension Plan.
- d. PBS - Service for purposes of determining the amount of an employee's benefit. In simplified terms, it is equivalent to the employee's full and partial years of service while participating in the GE Pension Plan.
- e. New Plan Participant - Generally, a participant hired after 2004 and before 2011 who is: a) an exempt employee, b) a nonexempt employee who is not in a Manufacture-Store-Deliver-Service (MSDS) position, or c) certain other employees, to the extent elected by a Company participating in the GE Pension Plan.

10. Limitations

The Internal Revenue Code places certain limitations on the Plan. In addition to the Compensation limit referenced in 8.a., there are limits on the annual benefit payable and on the amount of contributions that may be made by an employee to this and other qualified plans. These limits are determined each year by the IRS. In addition, supplements provided by the Plan cannot exceed an employee's unreduced Social Security Retirement benefit.

11. Plan Summary

This description of the Plan is provided for general information purposes only. It summarizes key features of the Plan as it applies to active employees on the valuation date and does not reflect Plan amendments adopted after January 1, 2013. The complete terms of the Plan are provided in the GE Pension Plan document which is controlling to the extent of any conflict with this plan summary. Information concerning the Plan, including benefits and vesting provisions, is also included in Plan handbooks.

12. Changes in Plan Provisions since Last Actuarial Valuation
