NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

1. PLAN DESCRIPTION

The following is a brief description of the Northtown Automotive Companies, Inc. 401(k) Retirement Plan, (the Plan), provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General Information – The Northtown Automotive Companies, Inc. 401(k) Retirement Plan is a defined contribution plan as permitted under Section 401(k) of the Internal Revenue Code (IRC). The Plan is funded by participant and employer contributions and covers all employees of Northtown Automotive Companies, Inc. and Subsidiaries (the Plan Sponsor) who have attained 21 years of age and achieved at least six months of continuous credited service, as defined by the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Principal Life Insurance Company (Principal) is the custodian of the Plan's investments (the Custodian).

Contributions – Contributions to the Plan are made by the participants through salary deferrals and by the employer through matching and additional discretionary contributions. Participants may authorize an elective deferred contribution rate up to the maximum annual limitations as provided by the IRC. The employer contribution is based on one-half of 1% of the first 4% of participants' contributions. The employer may also elect to make an additional matching contribution and an additional discretionary contribution. No additional matching contributions or discretionary contributions were made for the years ended December 31, 2013 or 2012.

Contributions received from participants for 2013 and 2012 are net of payments of $43,151 and $49,335, made in February 2014 and January 2013, respectively, to certain active participants to return excess contributions, to satisfy the relevant nondiscrimination provisions of the Plan. These amounts are also included in the statements of net assets available for benefits as excess contributions payable for the years ended December 31, 2013 and 2012.

Vesting – Participants are immediately fully vested in their contributions and the employer matching contributions. Participants become fully vested in any discretionary employer contributions after seven years of service. Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Forfeitures – Forfeitures of employer discretionary contributions not vested in participants' account balances because of participant terminations are allocated to the remaining participants. No forfeitures occurred for the years ended December 31, 2013 or 2012.

Participant Accounts – Each participant's account is credited with the participant's contribution and an allocation of the employer contribution and Plan earnings, and charged with an allocation of administrative expenses. Allocations of earnings are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. PLAN DESCRIPTION (continued)

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to (a) the lesser of $50,000 reduced by their highest outstanding note receivable balance during the one year period ending on the day before the date of such note or (b) 50% of their vested account balance. The notes are secured by the participant's account and bear interest at a rate of prime plus 2%. Principal and interest are paid ratably through payroll deductions. Note terms range from one to five years.

Payment of Benefits – Participants are eligible for retirement benefits upon reaching age 65. Benefits are determined by the final value of the participant's account at the time of termination, retirement or death. Early retirement is permitted at age 55. Various payment options are available upon retirement including life income, lump sum cash, and periodic payments.

Administrative Expenses – A significant portion of the costs of administering the Plan are borne by the Plan Sponsor. Fees related to the administration of notes received from participants are charged directly to the participant's account and are included in administrative expenses.

Benefits Due to Terminated Participants – Net assets available for benefits included benefits of approximately $1,444,000 and $1,028,000 due to participants who have terminated employment with the Plan Sponsor as of December 31, 2013 and 2012, respectively.

Withdrawals and Distributions – Unless a participant elects otherwise, distributions will be made as soon as practical after a participant's normal retirement date or actual retirement date. Participants may receive their accumulated vested benefits held by the Plan's custodian upon termination of employment, or elect to keep their vested balance in the Plan until the earlier of normal retirement age, death or disability if their account balance is in excess of $5,000. If the participant elects to keep their vested interest in the Plan, a participant's account will continue to receive its share of earnings and losses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan prepares its financial statements using the accrual basis of accounting.

Investment Valuation and Income Recognition – The Plan has established standards for determining the fair value of assets and liabilities which are subject to reporting at fair value in accordance with accounting principles generally accepted in the United States of America. These standards establish a hierarchy for the determination of fair value, as well as disclosure requirements relative to those assets and liabilities. The hierarchy identifies three levels of input. Level 1 inputs are generally quoted market prices for identical assets or liabilities, which are actively traded on an exchange. Level 2 inputs generally consist of market prices for identical assets which are not actively traded or market prices of similar assets or liabilities which are actively traded, on an exchange. Level 3 inputs are referred to as unobservable inputs and consist primarily of information derived by management where Level 1 and Level 2 inputs are not available.

An investment's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value at December 31, 2013 and 2012.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Pooled separate investment accounts: Valued based on the net asset values (NAV) of units held by the Plan at year end. The fair values of the underlying assets in the pooled separate accounts are based on the fair values of publicly traded securities.

Mutual funds: Valued based on the quoted market price available on an active market, which represents net asset values of shares held by the Plan at year end are based on the fair values of publicly traded securities.

Guaranteed interest accounts: The guaranteed interest account is not fully benefit-responsive and is accordingly stated at fair value. Fair values of the guaranteed interest accounts are the amounts Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination, or retirement. The fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed contract crediting rates. Contract value represents contributions made under the contract, plus interest at the contract rate, less funds used to pay Plan benefits and the insurance company's administrative expenses.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan presents in the Statements of Changes in Net Assets Available for Benefits the net appreciation in fair value of investments, which includes unrealized and realized gains and losses on investments that were held or sold during the year.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividend income is recognized on the ex-dividend date and is included in net appreciation in fair value of investments in the accompanying Statement of Changes in Net Assets Available for Benefits.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Subsequent Events – Management of the Plan has evaluated the effects of all subsequent events through June 27, 2014, the date which the financial statements were available to be issued, to determine if events or transactions occurring through that date require potential adjustment or disclosure in the financial statements.

3. INVESTMENTS

The fair value of investments that represent 5% or more of net assets are as follows at December 31:

5. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Plan Sponsor by a letter dated October 1992, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

6. LIFE INSURANCE

The Plan pays the cost of premiums to provide life insurance to participants. The cash value of these policies in addition to Plan assets are used to provide retirement benefits. Since these represent allocated contracts, the cash value is excluded from Plan assets. Premiums paid on life insurance policies amounted to $8,129 for each of the years ended December 31, 2013 and 2012.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. PARTY-IN-INTEREST TRANSACTIONS

Certain investments of the Plan are units of pooled separate accounts and guaranteed interest accounts managed by Principal. As Principal is the Plan custodian, as defined in the Plan document, these transactions qualify as party-in-interest transactions.

9. SUMMARY OF CUSTODIAN INFORMATION
