1. DESCRIPTION OF PLAN

The following description of the Southwire Company Hourly 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

A. General

The Plan is a defined contribution plan covering substantially all employees of Southwire Company (the Plan Sponsor, Plan administrator, Employer, or the Company) who are compensated on an hourly basis, classified as a non-exempt salaried worker employed at the Company's Heflin, Alabama facility, and the Company's most highly compensated salaried employees with the following exceptions:

- Leased employees within the meaning of Code Sections 414(n)(2) and 414(o)(2).
- Employees who are nonresident aliens who receive no U.S. source income.
- Employees of affiliated employers unless such affiliated employers have specifically adopted this Plan in writing.

If a participant's employment status (hourly or salaried) changes during the plan year, the participant's account balance is transferred to the Company Plan covering that appropriate class of employees. The Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

B. Contributions - Employees

Each participant may defer up to 75% of his or her annual compensation, not to exceed the limitations imposed under the Internal Revenue Code (IRC) in effect at the beginning of the tax year. Contributions may be made on a pre-tax or after-tax Roth basis. Participants age 50 and older are permitted to make catch-up contributions. Participants may also contribute (rollover) amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company auto enrolls new employees who do not make an election. During the years ended 2013 and 2012, the auto enroll contribution percentage was 6%. Effective July 1, 2013, participants who were hired prior to January 1, 2012 and were auto enrolled at 2% will begin having automatic increases of 1% each year up to a maximum contribution of 6%.

C. Contributions - Employer

The Company makes a non-discretionary matching contribution equal to 25% of each participant's pre-tax contributions up to 6% of the participant's eligible salary as defined in the Plan document, except for highly compensated salaried employees participating in the Plan. Non-discretionary matching contributions have a three-year graded vesting requirement.

1. DESCRIPTION OF PLAN (continued)

C. Contributions - Employer (continued)

Additionally, the Company makes special matching contributions as incentives to increase participation in the Plan. Such contributions include a one-time lump sum match equal to $100 that is available to all newly hired employees after completion of their probationary period. Other special matching contributions are related to performance awards. The Company makes a matching contribution equal to 25% of each participant's performance award contribution up to 6% of the participant's eligible salary if the participant elects to contribute less than 100%. However, if a participant elects to contribute 100% of his or her performance award, the Company will match the entire amount. Special matching contributions have a three-year graded vesting schedule.

D. Participant Accounts

Separate accounts are maintained for each participant and reflect his or her contributions (pre-tax and after-tax), allocations of Plan earnings, transfers, employer contributions, and administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. Details of participant directed investments for each fund are maintained as well. The benefit available to each participant is the participant's vested balance.

E. Vesting

A participant is immediately 100% vested in his or her contributions plus actual earnings thereon. Vesting in Company contributions and earnings thereon is based on years of continuous service as described in Note 1.C. above. A participant will become fully vested if termination occurs as a result of retirement, death, or disability.

F. Payments of Benefits

Upon termination of service, death, disability, or retirement, a participant (or beneficiary) may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of fifteen years.

A terminating participant's account must be equal to or greater than $5,000 to request installment payments in-lieu of a lump sum payment. In-service withdrawals can be made by participants not more than once per year from all portions of his or her account except the pre-tax portion. Withdrawals of participants' pre-tax contributions are permitted annually upon attainment of age fifty-nine and one-half or in the event of proven financial hardship as permitted by the Internal Revenue Service. If a participant makes a hardship withdrawal, the right to make pre-tax and after-tax contributions is suspended for a period of six months following the hardship withdrawal.

1. DESCRIPTION OF PLAN (continued)

G. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Note terms are for a period not exceeding five years. The notes are secured by the balance in the participant's account and bear interest at prime plus 2% at the time the note is issued. Principal and interest is paid ratably through payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The Plan has adopted the Financial Accounting Standards Board (FASB) Codification (Codification). The Codification is the single source of authoritative generally accepted accounting principles in the United States (U.S. GAAP) recognized by the FASB to be applied by nongovernmental entities. All of the Codification's content carries the same level of authority.

B. Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with U.S. GAAP.

C. Fully Benefit-Responsive Investment Contract

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents cost plus contributions made under the contract plus interest at the contract rates less withdrawals and administrative expenses. This specifically affects the presentation of the amounts related to the Plan's participation in the collective trust fund. The statements of net assets available for benefits present the fair value of the investment in the collective trust fund, as well as the adjustment from fair value to contract value for the Plan's proportionate share of fully benefit-responsive investment contracts within the collective trust fund. The statement of changes in net assets available for benefits is prepared on a contract value basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

E. Investments Valuation and Income Recognition

The Plan's investments are reported at fair value (Note 3).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments in the statement of changes in net assets available for benefits represents realized and unrealized gains and losses.

F. Payment of Benefits

Benefit payments are recorded when paid by the Plan.

G. Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances, plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

H. Administrative Costs

Certain expenses of maintaining the Plan, including audit fees, are paid directly by the Company and are excluded from these financial statements. The Company reserves the right to elect to pay, or have the Plan pay, administrative costs in the future. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

I. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk and credit risk.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

I. Risks and Uncertainties (Continued)

Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participant account balances and the amounts reported in the accompanying statements of net assets available for benefits and statement of changes in net assets available for benefits.

J. Subsequent Events

The Plan has evaluated subsequent events through September 16, 2014, which is the date the financial statements were available to be issued. All subsequent events, if any, requiring recognition as of December 31, 2013, have been incorporated into these financial statements.

3. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. The framework for measuring fair value under authoritative guidance issued by the FASB provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

3. FAIR VALUE MEASUREMENTS (Continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the net asset value of shares held by the plan at year end by obtaining quoted prices on nationally recognized securities exchanges.

Collective trust funds: Units of participation in the stable value fund are valued based on the underlying unit value reported by Wells Fargo Stable Value Return Fund G (SVRFG). The SVRFG invests in guaranteed investment contracts (GICs). The fair value of a GIC is based on the present value of the future cash flows using the current discount rate. GICs include security-backed contracts, which include a wrapper contract. The fair value of the security-backed contracts includes the value of the underlying securities and the value of the wrapper contract. The fair value of the wrapper contract is the present value of the difference between the current wrapper fee and the contracted wrapper fee.

The methodologies described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013

Total	$ 113,385,977	$ 17,638,899	$ -	$ 131,024,876

3. FAIR VALUE MEASUREMENTS (Continued)

There were no significant transfers between Level 1 and Level 2, nor into or out of Level 3 investments during the years ended December 31, 2013 and 2012.

4. RELATED PARTY TRANSACTIONS

Fidelity Management Trust Company (Fidelity) performs services for the Plan, sells products to the Plan, and manages and maintains investments of the Plan for which fees are charged to the Plan. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

5. FORFEITED ACCOUNTS

At December 31, 2013 and 2012, forfeited non-vested account balances totaled $453,605 and $385,516, respectively. These amounts must be used to reinstate the account balances of former participants re-employed before five consecutive 1-year breaks in service who repay to the Plan any distributions previously taken and can be used to pay administrative expenses of the Plan and/or to reduce future employer contributions. During 2013, $101,911 of forfeitures were used to reduce administrative expenses.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

7. TAX STATUS

The IRS has determined and informed the Company by a letter dated January 20, 2012, that the plan is qualified and the trust established under the plan is tax-exempt, under the appropriate sections of the Internal Revenue Code (IRC). The plan has been amended since receiving the determination letter. However, the plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan is qualified and the related trust is tax-exempt.

7. TAX STATUS (Continued)

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. FINANCIAL INFORMATION CERTIFIED BY TRUSTEE (Unaudited)

Fidelity is the trustee for the Plan. The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.
