NOTE 1 DESCRIPTION OF PLAN

The following description of The Brigantine 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

The Brigantine 401(k) Plan is a single-employer, defined contribution plan covering all employees of the Company who have completed at least one year of service with a minimum of 1,000 hours of service and are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan began on August 1, 1993 and was amended on November 7, 2005.

CONTRIBUTIONS

Contributions to the Plan are as follows:

1) Participants may contribute up to 15% of their gross wages to the Plan or may rollover or transfer from other plans. The maximum deductible participant contribution allowable by the IRS is $17,500 and $17,000 ($5,500 additional for participants age 50 or older) for 2013 and 2012, respectively.

2) The employer may match a discretionary percent, set prior to the end of the Plan year, of an employee’s deferral not to exceed $250 annually.

3) The employer may also make additional contributions and allocations at its discretion.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution, and an allocation of the Company's contributions and the Plan earnings. Allocations are based on participant earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

NOTE 1 DESCRIPTION OF PLAN (Continued)

VESTING

Participants are immediately vested in their voluntary contributions and do not vest in the employer contributions until three or more years of service, at which time they are fully vested.

INVESTMENT OPTIONS

Upon enrollment into the Plan, participants may direct their account balances in any investment alternatives approved by the trustee, including but not limited to savings and/or money market funds and mutual funds. All earnings and losses on the directed investments are credited directly to the participants' accounts.

PAYMENT OF BENEFITS

Vested benefits are payable in one lump-sum distribution of the entire account balance or in a single sum payment of a portion of the account balance.

For purposes of determining whether or not a withdrawal is being used to provide benefits in accordance with the Plan document, the term "benefits" is limited to amounts becoming payable to the participant due to:

(A) Termination of Employment
(B) Retirement
(C) Disability
(D) Death
(E) Hardship

as defined in the plan document.

Withdrawals for reasons other than those listed above are allowed but may be subject to certain charges and adjustments.

NOTE 1 DESCRIPTION OF PLAN (Continued)

PAYMENT OF BENEFITS (Continued)

In the event of a mandatory distribution greater than $1,000, but no more than $5,000, in accordance with the payment provisions of the Plan, if the Participant does not elect to have such distributions paid directly to an eligible retirement plan specified by the Participant in a direct rollover or to receive the distribution directly under any form of payment allowed under the Plan, then the distribution will be paid in a direct rollover to an individual retirement plan designated by the plan administrator. Mandatory distributions of $1,000 or less will be paid in cash as directed by the plan administrator, unless the Participant elects a direct rollover or elects to receive the distribution under another form permitted by the Plan.

NOTES RECEIVABLE FROM PARTICIPANTS

The participants may borrow money from the Plan provided it is adequately secured. They may use up to one-half of their vested account balance as security for the loan. All loans must bear a reasonable rate of interest. Participants can borrow no more than the lesser of $50,000 or one-half of the present value of their no forfeitable accrued benefit. In addition, no loan in an amount less than $1,000 will be made.

FORFEITED ACCOUNTS

At December 31, 2013 and 2012, forfeited vested accounts totaled $0. In the event that non vested accounts are forfeited, such accounts are used to reduce current year employer contributions and administrative fees. Forfeitures reallocated towards administrative fees totaled $156 and $692 for the years ended December 31, 2013 and 2012, respectively.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared using the accrual method in conformity with generally accepted accounting principles.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments Valuation and Income Recognition - Investments are maintained in pooled separate accounts, a money market fund and in an investment contract and are stated at values certified by the institution that holds the Plan's assets as an investment manager and are under the custody of the Plan's trustee. Quoted market prices are used to value investments at fair value. Shares of mutual funds in pooled separate accounts and the money market fund are valued at the net asset value of shares held by the Plan at year end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Contract with Insurance Company - Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. During the year ended December 31, 2013, an investment contract was entered into. The Statements of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

Fair Value Measurement - The Plan follows accounting standards consistent with the FASB Codification which defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measurements for all financial assets and liabilities.

Notes Receivable form Participants - Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Management regularly reviews the collectability of the delinquent loan balances and records an allowance based on circumstances of the individual's underlying loan. Uncollectible loans are written off against the participant's balance at the time the participant leaves the Plan. Notes Receivable from Participants are reported net of an allowance of $0 as of December 31, 2013 and 2012.

Benefits - Benefits are recorded when paid.

Income Taxes - The pension plan is tax exempt under the Internal Revenue Code Section 401(a) and consequently pays no income tax.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the plan's financial statements.

The Plan follows accounting standards for uncertainty in income taxes recognized in the Plan's financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. It also provides guidance on derecognition and measurement of a tax position taken or to be taken in a tax return. As of December 31, 2013 and 2012, the Plan has not accrued interest or penalties related to uncertain tax positions. The Plan files tax returns in the U.S. Federal jurisdiction and is not subject to examination by U.S. tax authorities for the tax years prior to 2010.

NOTE 3 ADMINISTRATIVE EXPENSES

Substantially all of the administrative expenses of the Plan were paid by the employer for the years ended December 31, 2013 and 2012. Amounts totaling $3,221 and $900 were paid directly by the plan for participant distribution and loan fees in 2013 and 2012, respectively.

NOTE 4 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the rights of all employees to account balances accrued to the date of the termination are fully vested and non-forfeitable.

NOTE 6 INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has an investment in a stable value fund that is operated as a guaranteed income fund. The underlying investments held by the stable value fund are guaranteed investment contracts and security-backed contracts. All guaranteed investment contracts and security-backed contracts held by the stable value fund are fully benefit-responsive, which means withdrawals from these investment contracts may be made at contract value for qualifying benefit payments, including participant-directed transfers. The stable value fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

The stable value fund holds contracts whereby the issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the stable value fund holds fully benefit-responsive contracts, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value fund. The stable value fund is presented on the face of the Statement of Net Assets Available for Benefits at fair value with an adjustment to contract value in arriving at Net Assets Available for Benefits. Contract value, as reported to the Plan by Prudential Bank and Trust, F.S.B., represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE 6 INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 was $541,542. The average yield of the portfolio was approximately 1.00% during the year ended December 31, 2013. The crediting interest rate was 1.00% at December 31, 2013. The crediting interest rate is based on the rate in effect when money is deposited in the account.

NOTE 6 FAIR VALUE MEASUREMENT

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets; or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

The fair value of the interest in the pooled separate accounts and the money market fund are based on the closing price reported in the active market where the individual securities are traded, when available and are classified as Level 1 investments.

NOTE 7 FAIR VALUE MEASUREMENT (Continued)

The investment contract is reported at fair value and provided by the Trustee. The realized and unrealized gains on this contract are included in Net Change in Fair Value of Investments on the Statements of Changes in Net Assets Available for Plan Benefits and are classified as Level 3 investments.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available.

Financial assets carried at fair value at December 31, 2013 are classified below in one of the three categories described above. The table below presents the balances of assets measured at fair value on a recurring basis:

	Level 1	Level 2	Level 3	Total
Assets				
Pooled Separate Accounts	$ 2,882,961	$ -	$ -	$ 2,882,961
Guaranteed Income Fund	-	541,542	-	541,542
	$ 2,882,961	$ 541,542	$ -	$ 3,424,503

Financial assets carried at fair value at December 31, 2012 are classified below in one of the three categories described above. The table below presents the balances of assets measured at fair value on a recurring basis:

	Level 1	Level 2	Level 3	Total
Assets				
Pooled Separate Accounts	$ 2,499,315	$ -	$ -	$ 2,499,315
Money Market Account	310,823	-	-	310,823
	$ 2,810,138	$ -	$ -	$ 2,810,138

NOTE 8 EXCESS CONTRIBUTIONS PAYABLE

Contributions received from participants for 2013 are net of payments of $11,265 and made in March 2014, to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the Statement of Net Assets Available for Plan Benefits.

NOTE 10 PARTY-IN-INTEREST

Certain Plan investments are managed by the custodian which qualifies these transactions as party-in-interest transactions. Administrative fees incurred by the Plan totaled $3,221 and $900 for the years ended December 31, 2013 and 2013, respectively. The Company also pays certain administrative fees of the Plan, which are not reimbursed. In addition the Company provides administrative services to the Plan at no cost to the Plan.

NOTE 1 DESCRIPTION OF PLAN

The following description of The Brigantine 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

The Brigantine 401(k) Plan is a single-employer, defined contribution plan covering all employees of the Company who have completed at least one year of service with a minimum of 1,000 hours of service and are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan began on August 1, 1993 and was amended on November 7, 2005.

CONTRIBUTIONS

Contributions to the Plan are as follows:

1) Participants may contribute up to 15% of their gross wages to the Plan or may rollover or transfer from other plans. The maximum deductible participant contribution allowable by the IRS is $17,500 and $17,000 ($5,500 additional for participants age 50 or older) for 2013 and 2012, respectively.

2) The employer may match a discretionary percent, set prior to the end of the Plan year, of an employee’s deferral not to exceed $250 annually.

3) The employer may also make additional contributions and allocations at its discretion.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution, and an allocation of the Company's contributions and the Plan earnings. Allocations are based on participant earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

NOTE 1 DESCRIPTION OF PLAN (Continued)

VESTING

Participants are immediately vested in their voluntary contributions and do not vest in the employer contributions until three or more years of service, at which time they are fully vested.

INVESTMENT OPTIONS

Upon enrollment into the Plan, participants may direct their account balances in any investment alternatives approved by the trustee, including but not limited to savings and/or money market funds and mutual funds. All earnings and losses on the directed investments are credited directly to the participants' accounts.

PAYMENT OF BENEFITS

Vested benefits are payable in one lump-sum distribution of the entire account balance or in a single sum payment of a portion of the account balance.

For purposes of determining whether or not a withdrawal is being used to provide benefits in accordance with the Plan document, the term "benefits" is limited to amounts becoming payable to the participant due to:

(A) Termination of Employment
(B) Retirement
(C) Disability
(D) Death
(E) Hardship

as defined in the plan document.

Withdrawals for reasons other than those listed above are allowed but may be subject to certain charges and adjustments.

NOTE 1 DESCRIPTION OF PLAN (Continued)

PAYMENT OF BENEFITS (Continued)

In the event of a mandatory distribution greater than $1,000, but no more than $5,000, in accordance with the payment provisions of the Plan, if the Participant does not elect to have such distributions paid directly to an eligible retirement plan specified by the Participant in a direct rollover or to receive the distribution directly under any form of payment allowed under the Plan, then the distribution will be paid in a direct rollover to an individual retirement plan designated by the plan administrator. Mandatory distributions of $1,000 or less will be paid in cash as directed by the plan administrator, unless the Participant elects a direct rollover or elects to receive the distribution under another form permitted by the Plan.

NOTES RECEIVABLE FROM PARTICIPANTS

The participants may borrow money from the Plan provided it is adequately secured. They may use up to one-half of their vested account balance as security for the loan. All loans must bear a reasonable rate of interest. Participants can borrow no more than the lesser of $50,000 or one-half of the present value of their no forfeitable accrued benefit. In addition, no loan in an amount less than $1,000 will be made.

FORFEITED ACCOUNTS

At December 31, 2013 and 2012, forfeited vested accounts totaled $0. In the event that non vested accounts are forfeited, such accounts are used to reduce current year employer contributions and administrative fees. Forfeitures reallocated towards administrative fees totaled $156 and $692 for the years ended December 31, 2013 and 2012, respectively.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared using the accrual method in conformity with generally accepted accounting principles.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments Valuation and Income Recognition - Investments are maintained in pooled separate accounts, a money market fund and in an investment contract and are stated at values certified by the institution that holds the Plan's assets as an investment manager and are under the custody of the Plan's trustee. Quoted market prices are used to value investments at fair value. Shares of mutual funds in pooled separate accounts and the money market fund are valued at the net asset value of shares held by the Plan at year end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Contract with Insurance Company - Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. During the year ended December 31, 2013, an investment contract was entered into. The Statements of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

Fair Value Measurement - The Plan follows accounting standards consistent with the FASB Codification which defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measurements for all financial assets and liabilities.

Notes Receivable form Participants - Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Management regularly reviews the collectability of the delinquent loan balances and records an allowance based on circumstances of the individual's underlying loan. Uncollectible loans are written off against the participant's balance at the time the participant leaves the Plan. Notes Receivable from Participants are reported net of an allowance of $0 as of December 31, 2013 and 2012.

Benefits - Benefits are recorded when paid.

Income Taxes - The pension plan is tax exempt under the Internal Revenue Code Section 401(a) and consequently pays no income tax.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the plan's financial statements.

The Plan follows accounting standards for uncertainty in income taxes recognized in the Plan's financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. It also provides guidance on derecognition and measurement of a tax position taken or to be taken in a tax return. As of December 31, 2013 and 2012, the Plan has not accrued interest or penalties related to uncertain tax positions. The Plan files tax returns in the U.S. Federal jurisdiction and is not subject to examination by U.S. tax authorities for the tax years prior to 2010.

NOTE 3 ADMINISTRATIVE EXPENSES

Substantially all of the administrative expenses of the Plan were paid by the employer for the years ended December 31, 2013 and 2012. Amounts totaling $3,221 and $900 were paid directly by the plan for participant distribution and loan fees in 2013 and 2012, respectively.

NOTE 4 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the rights of all employees to account balances accrued to the date of the termination are fully vested and non-forfeitable.

NOTE 6 INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has an investment in a stable value fund that is operated as a guaranteed income fund. The underlying investments held by the stable value fund are guaranteed investment contracts and security-backed contracts. All guaranteed investment contracts and security-backed contracts held by the stable value fund are fully benefit-responsive, which means withdrawals from these investment contracts may be made at contract value for qualifying benefit payments, including participant-directed transfers. The stable value fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

The stable value fund holds contracts whereby the issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the stable value fund holds fully benefit-responsive contracts, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value fund. The stable value fund is presented on the face of the Statement of Net Assets Available for Benefits at fair value with an adjustment to contract value in arriving at Net Assets Available for Benefits. Contract value, as reported to the Plan by Prudential Bank and Trust, F.S.B., represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE 6 INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 was $541,542. The average yield of the portfolio was approximately 1.00% during the year ended December 31, 2013. The crediting interest rate was 1.00% at December 31, 2013. The crediting interest rate is based on the rate in effect when money is deposited in the account.

NOTE 6 FAIR VALUE MEASUREMENT

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets; or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

The fair value of the interest in the pooled separate accounts and the money market fund are based on the closing price reported in the active market where the individual securities are traded, when available and are classified as Level 1 investments.

NOTE 7 FAIR VALUE MEASUREMENT (Continued)

The investment contract is reported at fair value and provided by the Trustee. The realized and unrealized gains on this contract are included in Net Change in Fair Value of Investments on the Statements of Changes in Net Assets Available for Plan Benefits and are classified as Level 3 investments.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available.

Financial assets carried at fair value at December 31, 2013 are classified below in one of the three categories described above. The table below presents the balances of assets measured at fair value on a recurring basis:

	Level 1	Level 2	Level 3	Total
Assets				
Pooled Separate Accounts	$ 2,882,961	$ -	$ -	$ 2,882,961
Guaranteed Income Fund	-	541,542	-	541,542
	$ 2,882,961	$ 541,542	$ -	$ 3,424,503

Financial assets carried at fair value at December 31, 2012 are classified below in one of the three categories described above. The table below presents the balances of assets measured at fair value on a recurring basis:

	Level 1	Level 2	Level 3	Total
Assets				
Pooled Separate Accounts	$ 2,499,315	$ -	$ -	$ 2,499,315
Money Market Account	310,823	-	-	310,823
	$ 2,810,138	$ -	$ -	$ 2,810,138

NOTE 8 EXCESS CONTRIBUTIONS PAYABLE

Contributions received from participants for 2013 are net of payments of $11,265 and made in March 2014, to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the Statement of Net Assets Available for Plan Benefits.

NOTE 10 PARTY-IN-INTEREST

Certain Plan investments are managed by the custodian which qualifies these transactions as party-in-interest transactions. Administrative fees incurred by the Plan totaled $3,221 and $900 for the years ended December 31, 2013 and 2013, respectively. The Company also pays certain administrative fees of the Plan, which are not reimbursed. In addition the Company provides administrative services to the Plan at no cost to the Plan.

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

NOTE 1 DESCRIPTION OF PLAN

The following description of The Brigantine 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

The Brigantine 401(k) Plan is a single-employer, defined contribution plan covering all employees of the Company who have completed at least one year of service with a minimum of 1,000 hours of service and are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan began on August 1, 1993 and was amended on November 7, 2005.

CONTRIBUTIONS

Contributions to the Plan are as follows:

1) Participants may contribute up to 15% of their gross wages to the Plan or may rollover or transfer from other plans. The maximum deductible participant contribution allowable by the IRS is $17,500 and $17,000 ($5,500 additional for participants age 50 or older) for 2013 and 2012, respectively.

2) The employer may match a discretionary percent, set prior to the end of the Plan year, of an employee’s deferral not to exceed $250 annually.

3) The employer may also make additional contributions and allocations at its discretion.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution, and an allocation of the Company's contributions and the Plan earnings. Allocations are based on participant earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

NOTE 1 DESCRIPTION OF PLAN (Continued)

VESTING

Participants are immediately vested in their voluntary contributions and do not vest in the employer contributions until three or more years of service, at which time they are fully vested.

INVESTMENT OPTIONS

Upon enrollment into the Plan, participants may direct their account balances in any investment alternatives approved by the trustee, including but not limited to savings and/or money market funds and mutual funds. All earnings and losses on the directed investments are credited directly to the participants' accounts.

PAYMENT OF BENEFITS

Vested benefits are payable in one lump-sum distribution of the entire account balance or in a single sum payment of a portion of the account balance.

For purposes of determining whether or not a withdrawal is being used to provide benefits in accordance with the Plan document, the term "benefits" is limited to amounts becoming payable to the participant due to:

(A) Termination of Employment
(B) Retirement
(C) Disability
(D) Death
(E) Hardship

as defined in the plan document.

Withdrawals for reasons other than those listed above are allowed but may be subject to certain charges and adjustments.

NOTE 1 DESCRIPTION OF PLAN (Continued)

PAYMENT OF BENEFITS (Continued)

In the event of a mandatory distribution greater than $1,000, but no more than $5,000, in accordance with the payment provisions of the Plan, if the Participant does not elect to have such distributions paid directly to an eligible retirement plan specified by the Participant in a direct rollover or to receive the distribution directly under any form of payment allowed under the Plan, then the distribution will be paid in a direct rollover to an individual retirement plan designated by the plan administrator. Mandatory distributions of $1,000 or less will be paid in cash as directed by the plan administrator, unless the Participant elects a direct rollover or elects to receive the distribution under another form permitted by the Plan.

NOTES RECEIVABLE FROM PARTICIPANTS

The participants may borrow money from the Plan provided it is adequately secured. They may use up to one-half of their vested account balance as security for the loan. All loans must bear a reasonable rate of interest. Participants can borrow no more than the lesser of $50,000 or one-half of the present value of their no forfeitable accrued benefit. In addition, no loan in an amount less than $1,000 will be made.

FORFEITED ACCOUNTS

At December 31, 2013 and 2012, forfeited vested accounts totaled $0. In the event that non vested accounts are forfeited, such accounts are used to reduce current year employer contributions and administrative fees. Forfeitures reallocated towards administrative fees totaled $156 and $692 for the years ended December 31, 2013 and 2012, respectively.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared using the accrual method in conformity with generally accepted accounting principles.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments Valuation and Income Recognition - Investments are maintained in pooled separate accounts, a money market fund and in an investment contract and are stated at values certified by the institution that holds the Plan's assets as an investment manager and are under the custody of the Plan's trustee. Quoted market prices are used to value investments at fair value. Shares of mutual funds in pooled separate accounts and the money market fund are valued at the net asset value of shares held by the Plan at year end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Contract with Insurance Company - Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. During the year ended December 31, 2013, an investment contract was entered into. The Statements of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

Fair Value Measurement - The Plan follows accounting standards consistent with the FASB Codification which defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measurements for all financial assets and liabilities.

Notes Receivable form Participants - Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Management regularly reviews the collectability of the delinquent loan balances and records an allowance based on circumstances of the individual's underlying loan. Uncollectible loans are written off against the participant's balance at the time the participant leaves the Plan. Notes Receivable from Participants are reported net of an allowance of $0 as of December 31, 2013 and 2012.

Benefits - Benefits are recorded when paid.

Income Taxes - The pension plan is tax exempt under the Internal Revenue Code Section 401(a) and consequently pays no income tax.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the plan's financial statements.

The Plan follows accounting standards for uncertainty in income taxes recognized in the Plan's financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. It also provides guidance on derecognition and measurement of a tax position taken or to be taken in a tax return. As of December 31, 2013 and 2012, the Plan has not accrued interest or penalties related to uncertain tax positions. The Plan files tax returns in the U.S. Federal jurisdiction and is not subject to examination by U.S. tax authorities for the tax years prior to 2010.

NOTE 3 ADMINISTRATIVE EXPENSES

Substantially all of the administrative expenses of the Plan were paid by the employer for the years ended December 31, 2013 and 2012. Amounts totaling $3,221 and $900 were paid directly by the plan for participant distribution and loan fees in 2013 and 2012, respectively.

NOTE 4 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the rights of all employees to account balances accrued to the date of the termination are fully vested and non-forfeitable.

NOTE 6 INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has an investment in a stable value fund that is operated as a guaranteed income fund. The underlying investments held by the stable value fund are guaranteed investment contracts and security-backed contracts. All guaranteed investment contracts and security-backed contracts held by the stable value fund are fully benefit-responsive, which means withdrawals from these investment contracts may be made at contract value for qualifying benefit payments, including participant-directed transfers. The stable value fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

The stable value fund holds contracts whereby the issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the stable value fund holds fully benefit-responsive contracts, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value fund. The stable value fund is presented on the face of the Statement of Net Assets Available for Benefits at fair value with an adjustment to contract value in arriving at Net Assets Available for Benefits. Contract value, as reported to the Plan by Prudential Bank and Trust, F.S.B., represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE 6 INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 was $541,542. The average yield of the portfolio was approximately 1.00% during the year ended December 31, 2013. The crediting interest rate was 1.00% at December 31, 2013. The crediting interest rate is based on the rate in effect when money is deposited in the account.

NOTE 6 FAIR VALUE MEASUREMENT

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets; or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

The fair value of the interest in the pooled separate accounts and the money market fund are based on the closing price reported in the active market where the individual securities are traded, when available and are classified as Level 1 investments.

NOTE 7 FAIR VALUE MEASUREMENT (Continued)

The investment contract is reported at fair value and provided by the Trustee. The realized and unrealized gains on this contract are included in Net Change in Fair Value of Investments on the Statements of Changes in Net Assets Available for Plan Benefits and are classified as Level 3 investments.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available.

Financial assets carried at fair value at December 31, 2013 are classified below in one of the three categories described above. The table below presents the balances of assets measured at fair value on a recurring basis:

NOTE 8 EXCESS CONTRIBUTIONS PAYABLE

Contributions received from participants for 2013 are net of payments of $11,265 and made in March 2014, to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the Statement of Net Assets Available for Plan Benefits.

NOTE 10 PARTY-IN-INTEREST

Certain Plan investments are managed by the custodian which qualifies these transactions as party-in-interest transactions. Administrative fees incurred by the Plan totaled $3,221 and $900 for the years ended December 31, 2013 and 2013, respectively. The Company also pays certain administrative fees of the Plan, which are not reimbursed. In addition the Company provides administrative services to the Plan at no cost to the Plan.
