NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the Republic Finance, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Republic Finance, LLC (the Company or the Employer) who have completed three months of service and are eighteen years of age or older. The entry date into the Plan will be the first day of the month coinciding with or next following the date on which an employee meets the eligibility requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may defer a percentage of their compensation each year (designated as salary reduction contributions), and these deferrals are contributed to the Plan on the participant's behalf. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company matches 100% of the participant's contribution up to 3% of the participant's compensation following one year of service by the participant. The Company can also make profit sharing contributions based on the discretion of its Board of Directors. The Company did not make a profit sharing contribution for the year ended December 31, 2013. Contributions are subject to certain limitations.

Participant accounts

Each participant's account is credited with (1) the participant's salary reduction contribution, (2) the Employer matching contribution, (3) the Employer profit sharing contribution, if any, and (4) an allocation of the Plan's earnings, and charged with an allocation of administrative expenses. The allocation of earnings is based on the actual performance of the fund in which the participant chose to invest their money less any applicable fees. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are one hundred percent vested in their salary reduction accounts at all times. Vesting in the Employer's contribution, plus earnings thereon, is based on the number of completed years of service as follows:

Less than 1 year	0%
1 year	30%
2 years	60%
3 or more years	100%

Payment of benefits

After termination of service due to death, disability, retirement, or other reasons, a participant will receive a lump sum amount equal to the value of the participant's vested interest in his or her account upon request. Participants who have attained age 59 ½ are allowed to make in-service withdrawals.

NOTES TO FINANCIAL STATEMENTS

1. Description of Plan (continued)

Forfeitures

At December 31, 2013 and 2012, forfeited non-vested accounts totaled $5,760 and $707, respectively. These accounts will be used to reduce future Employer contributions. During the year ended December 31, 2013, Employer contributions were reduced by $707 from forfeited non-vested accounts.

Notes receivable from participants

Participants may borrow from their fund accounts up to a maximum amount equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from 1 - 5 years except for loans used for the purchase of a primary residence. The loans are secured by the balance in the participant's vested account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Interest rates ranged from 4.25% to 9.25% at December 31, 2013.

2. Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment valuation and income recognition

Investments are reported at estimated fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as investments held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant's loan balance is reduced and a benefit payment is recorded.

NOTES TO FINANCIAL STATEMENTS

2. Summary of accounting policies (continued)

Payment of benefits

Benefits are recorded when paid.

Plan expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account. Investment related expenses are included in net appreciation of fair value of investments.

3. Investments (unaudited)

The estimated fair value of investments that represented 5% or more of the Plan's net assets available for benefits at December 31, 2013 and 2012, were as follows:

	2013	2012
Fidelity Institutional US Treasury Port III	$ 1,165,587	$ 1,073,168
Alger Capital Appreciation Fund A	1,914,407	1,478,176
T. Rowe Price Retirement 2040 Fund – R	396,080	*
Federated Intercontinental Fund A	*	341,789
Federated Mid Cap Index Svc	511,359	360,949
	$ 3,987,433	$ 3,254,082

* Does not represent 5% of the Plan's net assets at the end of the Plan year.

During 2013, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $862,072.

4. Fair value measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC), *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under the framework are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

4. Fair value measurements (continued)

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds and money market fund: valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Level 1	Level 2	Level 3

5. Income tax status

The Plan is a qualified cash or deferred arrangement established under Section 401(k) of the Internal Revenue Code. It is exempt from income taxes under Section 401(a) of the Internal Revenue Code. The Plan has executed an adoption agreement using the Capital One, N.A. Standardized Prototype Cash or Deferred Profit Sharing Plan and Trust and relies on the determination letter issued for the prototype plan dated January 31, 2008. Effective January 1, 2011, the Plan was amended and restated. The Plan administrator believes the Plan continues to operate in accordance with applicable rules and, therefore, remains tax exempt.

Accounting principles generally accepted in the United States of America requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

6. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If terminated, all participants would be 100% vested in their accounts.

NOTES TO FINANCIAL STATEMENTS

7. Related party and party-in-interest transactions

The Plan may invest in a money market fund and mutual funds offered and managed by affiliates of the trustee. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of investments.

8. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that the changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Information prepared and certified by the trustee

Pursuant to 29 CFR 2520.103-8, the Plan qualified for a limited scope audit. Information relating to notes receivable from participants, investment assets, investment transactions, investment earnings, and the schedule of assets held for investment purposes was certified as complete and accurate by the trustee, EMJAY Corporation, as of December 31, 2013 and 2012, and for the year ended December 31, 2013.

10. Subsequent event
