401(k) Savings and Profit Sharing Plan

Notes to Financial Statements

1. Description of Plan

The following description of Daiohs U.S.A., Inc. 401(k) Savings and Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was adopted effective January 1, 1987 by Daiohs U.S.A., Inc. ("Company") for the benefit of the Company's employees. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year participants may contribute up to 100% of pretax annual compensation, as defined in the Plan limited to the maximum amount allowed by law for the Plan year. Participants may also contribute amounts representing distributions from other qualified defined benefits or contribution plans. The Company matches 30% of participant's contribution up to 10% of participant's eligible compensation. The Company may also make a discretionary profit sharing contribution.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations of the Company contributions are based on participant contributions or eligible employee compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching contributions plus earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

1. Description of Plan (Continued)

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to the lesser of 50% of their vested account balance or $50,000. The loans are secured by the vested balance in the participants' accounts and bear interest at rates commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions. Loan terms are limited to a maximum of 5 years or longer for the purchase of a primary residence.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, participants may elect to receive the vested interest of their accounts in the form of a single sum of cash payment, or a direct rollover to an individual retirement account or another employer plan. Hardship withdrawals are also available.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited nonvested accounts totaled $196,353 and $176,197 respectively. These accounts will be used to restore forfeitures of rehired employees, reduce employer contributions, and to pay plan expenses. Also, in 2013, plan expenses were reduced by $921 from forfeited nonvested accounts.

Plan Administration

The Plan is administered by the Company. PlanMember Services Corporation ("PlanMember") is the contract administrator.

Frontier Trust Company ("Frontier") is the trustee and Ascensus, Inc., the parent of Frontier, is the record keeper.

Eligibility

The Plan covers substantially all full-time employees of the Company who have completed six months of service and are 21 years of age or older. Employees may enter the Plan on January 1 or July 1 coinciding with or following their meeting the eligibility requirements.

1. Description of Plan (Continued)

Investments Options

Participants may direct both employee and employer contributions to be invested amongst various investment options as made available and determined by the plan administrator which are more fully described in the plan literature.

2. Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through September 29, 2014, which is the date the financial statements were available to be issued.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2013 and 2012 no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an

2. Summary of Significant Accounting Policies (Continued)

orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for its investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for applicable investments.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Certain expenses of maintaining the Plan are paid by the Company (see Note 5).

Net Appreciation (Depreciation) in Fair Value of Investments

Net appreciation (depreciation) in fair value of investments is based on the fair value of the assets at the beginning of the Plan year, or at the time of purchase during the Plan year, and the related fair value on the day investment are sold with respect to realized appreciation (depreciation), or on the last day of the year with respect to unrealized appreciation (depreciation).

Realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments.

Recent Accounting Pronouncements

In May 2011, the FASB issued ASU No. 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs, which requires additional disclosures about fair value measurements categorized within Level 3

2. Summary of Significant Accounting Policies (Continued)

of the fair value hierarchy. The additional disclosures include quantitative information about the significant unobservable inputs used in Level 3 fair value measurements, the valuation processes used by the Plan, and the Plan's policy for determining when transfers into or out of Level 3 are deemed to have occurred. This update is effective for reporting periods beginning after December 15, 2011. Early adoption is generally prohibited. The adoption of this guidance had no material impact on the financial statements.

3. Fair Value Measurement

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs were only used when Level 1 inputs were not available.

Level 1 Fair Value Measurements

Cash equivalents are priced at par based on publicly traded prices.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed

3. Fair Value Measurement (Continued)

to be actively traded. Professionally managed portfolios are valued based on the NAV of the mutual funds held by the Plan at year end.

Level 2 Fair Value Measurements

The fair value of the investment with the insurance company is based on the cash surrender value.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,496,818. All appreciation is attributed to mutual funds.

5. Related Party Transactions

Certain Plan investments are portfolios that are professionally managed by PlanMember who is the contract administrator as defined by the Plan and, therefore, these transactions qualify as party-in-interest transaction. Administrative fees paid by the Plan to PlanMember amounted to $57,295.

Additionally, the Company provides to the Plan certain accounting and administrative services for which no fees are charged. As the Company is the Plan sponsor, these transactions qualify as party-in-interest transactions.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of

Plan termination, participants would become 100% vested in their employer contributions.

7. Excess Contributions

Contributions received from participants for 2013 and 2012 are net of payments of $5,084 and $15,763 made in 2014 and 2013 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. Those amounts are also included in the plan's statement of net assets available for benefits as excess contributions payable at December 31, 2013 and 2012.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 as of December 31, 2013 and 2012:

As of December 31,	**2013**	2012

Add: Difference in value of insurance contract	**658**	632
Net assets available for benefits per Form 5500	**$ 10,331,172**	$ 8,171,067

The following is a reconciliation of increase in net assets per the financial statements to increase in net assets per Form 5500.

Increase in net assets per the financial statements	**$ 2,170,758**
Add: 2013 Excess contributions	**5,084**
Deduct: 2012 Excess contributions	**(15,763)**
Add: Difference in earnings of insurance contract	**26**
Increase in net assets available for benefits per the Form 5500	**$ 2,160,105**

For the years ended December 31, 2013 and 2012 excess contributions to be refunded were not reflected on Form 5500 and investments with National Western Life Insurance Company were stated at fair value on the financial statements, and at contract value on the Form 5500.

Certain balances included on Schedule H Part I and II on the Annual Return/Report of Employee Benefits Plan (Form 5500) have been reclassified for purposes of presentation in the financial statements.

9. Tax Status

The Plan currently operates under a Prototype Non-standardized Profit Sharing Plan with Cash or Deferred Arrangement offered by PlanMember. The plan administrator and legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan is required to disclose significant concentrations of credit risk regardless of the degree of such risk. At December 31, 2013 and 2012, the financial instruments, which potentially subject the Plan to a concentration of credit risk, consisted principally of investments and notes receivable from participants.

11. Trustee Certification

With the exception of the investment with National Western Life Insurance Company, the investment balance and related investment information included in the financial statements, accompanying notes and supplemental schedules are derived from statements which have been certified by Ascensus, Inc. as agent for Frontier as complete and accurate in accordance with 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
