NOTE A - DESCRIPTION OF PLAN

The following description of the Gibson Sales, L.P., Profit Sharing / 401(k) Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all eligible employees of Gibson Sales, L.P. All employees are eligible who have six months of service and are age twenty-one or older. The original Plan was adopted with an effective date of January 1, 1998. On February 1, 2001, the Fidelity 401(k) Plan (Prototype Plan) was adopted to replace the original Fidelity U.S. Chamber Plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). On April 20, 2003, June 24, 2008, and July 15, 2011 the plan was amended.

Contributions. The Plan allows deferral contributions, discretionary employer contributions, and employer discretionary match contributions. The Plan has no required matching contribution feature. Each year, participants may elect to contribute up to 60% of pretax eligible compensation, as defined in the Plan. Participants who have met certain requirements are eligible to make catch-up contributions. Employees may also contribute amounts representing distributions from other qualified defined benefit or contribution plans, even if they have not met the requirements to be a participant. For 2013, the Company board of directors elected to make a discretionary matching contribution to the Plan. Contributions are subject to certain limitations.

Participant Accounts. Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) plan earnings. Allocations are based on participant earnings or account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's profit sharing discretionary contributions is based on years of continuous service and generally begins at 20% after two years of credited service and increases to 100% after six years of credited service. Vesting in employer discretionary match contributions is immediate.

Investment Options. Upon enrollment in the Plan, a participant may direct employee contributions into any of the investment options with the Fidelity Management Trust Company (a registered investment company). The investment options include a money market interest account, stock funds, and government bond funds. Participants may change their investment options by accessing their personal accounts through the Internet.

Payments of Benefits. On termination of service, a participant may elect to receive a lump-sum distribution equal to the value of their account, or may elect to have the distribution rolled over to another qualifying plan.

Forfeited Accounts. Forfeitures of non-vested amounts attributable to the Company's discretionary contributions are first used to pay administrative expenses and any remaining amounts will be used to reduce future employer contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management Review. Subsequent events were evaluated through September 26, 2014, which is the date the financial statements were available to be issued.

Basis of Accounting. The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition. The Plan's investments are stated at fair value. Shares of pooled separate accounts and registered investment companies are valued at quoted market prices that represent the net asset value of shares held by the Plan at year-end.

SFAS No. 157, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Since Level 1 inputs were available for all investments, only Level 1 inputs were used.
