FB Bancorp 401(k) Plan
San Antonio, Texas

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of FB Bancorp 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by John Hancock Life Insurance Company (U.S.A.), the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2013 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for purposes of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following brief description of the FB Bancorp 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of FB Bancorp (the Company), except employees who are members of a collective bargaining unit and non-resident aliens, who have attained the age of 21 and who have completed six months of service. Entry dates are the first day of each calendar month of the plan year, coincident with or next following the satisfaction of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to a maximum amount determined the by Federal Government, which for the years 2013 and 2012 was $17,500 and $17,000, respectively. Also participants who have obtained the age of 50 before the close of the Plan year are eligible to make catch-up contributions, which for the years 2013 and 2012 was an additional $5,500. The Company may, at its discretion, match a portion of participant contributions, make a non-elective discretionary contribution known as a profit sharing contribution, or make a safe harbor contribution to satisfy certain compliance requirements. Contributions are subject to certain limitations. The Company made a 4% safe harbor matching contribution for eligible employees during the year 2013.

Participant Accounts

Participants may direct their contributions to selected investments as made available by the Plan administrator. Participants may change their investment options throughout the year via direct telephone or website access with John Hancock Life Insurance Company (U.S.A.) (John Hancock).

Each participant's account is credited with the participant's contribution, the Company's contributions (if any), and an allocation of Plan earnings. The Company's matching contributions, if any, depend on the amount of the each participant's elective deferral contribution and is based upon a matching percentage set by the Company. Plan earnings are

1. Description of Plan (continued)

credited to each participant's account based upon the performance of the investments selected at each valuation date. The benefit to which a participant is entitled is the benefit that can be derived from the participant's vested account.

Payment of benefits

On termination of service, a lump-sum amount will be distributed equal to the value of the participant's vested interest in his or her account.

Vesting

Participants are 100% vested at all times in the accrued benefits from their elective contributions and the Company's safe harbor contributions. Participants become 20% vested after two years of service and increasing 20% per year until 100% vested after the completion of six years of service in all matching and non-elective discretionary contributions made by the Company and the earnings thereon.

Forfeitures

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeited amounts from nonvested accounts may be used by the Plan for several purposes including reducing the Company's matching and non-elective contributions or applied to reduce administrative expenses of the Plan. There were no unallocated forfeitures at December 31, 2013 and 2012.

Notes Receivable from Participants

Loans are available to all participants. The amount that may be borrowed is the lesser of $50,000 or 50% of the participant's vested interest in the Plan. The $50,000 maximum amount will be reduced by the participant's highest outstanding loan balance in the previous 12 months, even if amounts have been repaid. A participant may have no more than one (1) loan outstanding at any one time. The interest rate charged will be a reasonable rate of interest as determined by the Administrator. Until otherwise determined by the Administrator, the interest rate will be prime rate of interest on the date the loan originates. The interest rate remains constant throughout the term of the loan. The loans are secured by the balance in the participant's account. All loans must be repaid within five years except for the purchase of a primary residence, which have a

maximum repayment period of twenty (20) years. Principal and interest are paid ratably through payroll deductions each pay period.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the contract. If applicable the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The John Hancock Stable Value fund is a group annuity contract and does not meet the basic criteria to be considered fully benefit-responsive. Specifically, the criteria that all distributions from the contract be at contract (or "book") value is not met. Therefore, the Statement of Net Assets Available for Benefits presents the fair value of the investment contract and an adjustment from fair value to contract value is not required.

Investment Valuation and Income Recognition

Investments in pooled separate accounts are reported at the value reported to the Plan by John Hancock, which represents approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan management to make estimates and assumptions that affect the reported amounts assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of participant initiated transactions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. Information Certified By John Hancock

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information certified by John Hancock, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

On December 31, 2013 plan participants' investment account balances totaling $4,557,883 were liquidated to cash and placed into a non-interest bearing suspense account to allow for the transfer of account balances to new a custodian. See note 10 for additional information related to this transfer of account balances

John Hancock certified the completeness and accuracy of the net appreciation in fair value of investments of $487,951 for the year ended December 31, 2013.

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $487,951 as follows:

Group Annuity Contract	$	1,312
Pooled separate accounts		486,639
	$	487,951

The following table presents the fair value of participant directed investments in this Plan that were certified by John Hancock as of December 31, 2012. Individual investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2012 are separately identified below:

John Hancock Retirement Choices at 2010	$	214,691
John Hancock Retirement Choices at 2020		227,089
John Hancock Retirement Choices at 2025		458,256

Other investments certified by John Hancock Life Insurance Company (U.S.A.)	1,905,489

4. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States of America. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, Level 2 input must be observable for substantially the full term of the asset or liability.

4. Fair Value Measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for major categories of investments measured at fair value:

Level 2 Fair Value Measurements

The fair values of pooled separate accounts reported by the insurance company are measured based upon data provided by outside valuation service providers who in turn generally use the mean of bid and asked prices but may also use alternative observable pricing inputs for certain securities.

Level 3 Fair Value Measurements

The group annuity contract is a guaranteed investment contract with an insurance company and is not actively traded and significant other observable inputs are not available. Thus, the fair value of contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations.

The Plan's investments, measured at fair value by the three levels of the fair value hierarchy as described above are as follows at December 31, 2013:

	Level 1	Level 2	Level 3	Fair Value
Pooled separate accounts	$ -	$ -	$ -	$ -
Group annuity contract	-	-	-	-
	$ -	$ -	$ -	$ -

4. Fair Value Measurements (continued)

The Plan's investments, measured at fair value by the three levels of the fair value hierarchy as described above are as follows at December 31, 2012:

	Level 1	Level 2	Level 3	Fair Value
Pooled separate accounts	$ -	$ 3,656,028	$ -	$ 3,656,028
Group annuity contract	-	-	105,528	105,528
	$ -	$ 3,656,028	$ 105,528	$ 3,761,556

The following tables reconcile the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) of the group annuity contract with the insurance company for the years ended December 31, 2013 and 2012:

Year Ended December 31, 2013	
Beginning balance	$ 105,528
Realized gains (losses)	1,312
Unrealized gains (losses) relating to instruments still held at the reporting date	-
Purchases	19,897
Sales	(126,737)
Transfers in and/ or out of level 3	-
	-
Ending balance	$ -
Year Ended December 31, 2012	
Beginning balance	$ 10,240
Realized gains (losses)	1,385
Unrealized gains (losses) relating to instruments still held at the reporting date	-
Purchases	167,657
Sales	(73,754)
Transfers in and/ or out of level 3	-
	-
Ending balance	$ 105,528

5. Investment Contract with Insurance Company

As described in Note 2, the John Hancock Stable Value Fund is a group annuity contract that is not a benefit-responsive investment contract and therefore fair value is the relevant measurement basis. Fair value as reported by John Hancock, represents contributions made under the contract, plus earnings, less participant withdrawals and processing fees. Participants may ordinarily direct withdrawal or transfer of all or a portion of their investment at contract value or market value depending on the reason for the withdrawal. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $0 and $105,528, respectively. The average yield and crediting interest rates for the year 2013 were 1.91% and 2.27%, respectively. The average yield and crediting interest rates for the year 2012 were 1.57% and 2.61%, respectively.

6. Tax Status

The Internal Revenue Service has provided an opinion and informed the Plan's sponsors by a letter dated March 31, 2008 that the Plan is qualified and not subject to tax under present income tax law. Once qualified, the Plan is required to operate in conformity with the Internal Revenue Code to maintain its qualification. The Plan administrator is not aware of any course of action or series of events, including amendments that have occurred that might adversely affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, no uncertain positions taken or expected to be taken would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax years in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

7. Related Party Transactions

Certain Plan investments are investments managed by John Hancock. John Hancock is the custodian of Plan assets and they provide participant accounting and, therefore these transactions qualify as party-in-interest transactions. Total fees paid by the Plan for investment management and other services amounted to $2,066 for the year ended December 31, 2013.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Plan Termination

Although it has not expressed intent to do so, the employer has the right under the Plan to terminate the Plan subject to the provisions of ERISA. Upon termination, all participants would become fully vested in their account balances.

10. Subsequent Event

The plan has evaluated subsequent events through September 19, 2014, the date the financial statements were available to be issued.

On December 31, 2013 plan participants' investment account balances totaling $4,557,883 were liquidated, and the cash and participant loans were transferred to a new custodian, ING Life Insurance and Annuity Company (ING), on January 2, 2014. Additionally, effective January 1, 2014 the plan sponsor adopted the ING non-standardized 401(k) profit sharing plan document.
