TRAFFIC SOLUTIONS CORPORATION 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF PLAN

The following description of the Traffic Solutions Corporation 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Traffic Solutions Corporation and its subsidiaries (collectively, the Company). The Company's subsidiaries participating in the Plan include Safety Systems and Signs Hawaii, Inc. and Statewide Traffic Safety and Signs, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Employees are eligible to participate in the Plan on the first day of the month following completion of 2 months of service.

Administration

The Plan is administered by the Company.

Contributions

Participants may elect to contribute an amount up to 100% of eligible pre-tax or post-tax compensation, not to exceed the limits of the Internal Revenue Code (IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

During 2013, the Company made discretionary employer matching contributions to the Safety Systems and Signs Hawaii, Inc. employees of 50% of the participant's deferral, up to the first 6% of a participant's eligible compensation. The Company may also make discretionary profit sharing contributions. For the year ended December 31, 2013, the Company made no discretionary profit sharing contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, deferrals and/or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN – (Continued)

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances exceeding $1,000, but not exceeding $5,000, may be rolled into an Individual Retirement Account. All vested account balances not exceeding $1,000 may be immediately distributed in a lump-sum payment. With the plan administrator's approval, participants may withdraw all or part of their aggregate contributions in the event of financial hardship.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contributions, plus actual earnings thereon, is based on years of service according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	25%
3	50%
4	75%
5	100%

Forfeitures

The unvested portion of a terminated participant's account will be forfeited and used to pay for Plan expenses or to reduce future Company contributions. During 2013, employer contributions were reduced by $1,319 from forfeited non-vested accounts. As of December 31, 2013 and 2012, the amount of available forfeitures totaled $6,594 and $1,996, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Basis of Accounting – (Continued)

As described in guidance issued by the Financial Accounting Standards Board (FASB) for reporting of fully benefit-responsive investment contracts held by certain investment companies, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the guidance, the statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses are generally paid by the Plan, unless paid by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditors' report, which is the date the accompanying financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

The FASB provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this framework are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

3. FAIR VALUE MEASUREMENTS – (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: These investments are valued at the net asset value (NAV) of shares held by the Plan at year end. The NAV is based upon a combination of the net asset value of the underlying investments and contract charges. The NAV is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Common / collective trust: Valued at the NAV based upon the market value of its underlying investments. The investment contains fully benefit responsive investment contracts comprised of both underlying investment and contractual components which have observable level 1 or level 2 pricing inputs, including quoted prices for similar assets in active or non-active markets. The asset is classified within level 2 of the valuation hierarchy based on the lowest level of pricing inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Description	Total	Level 1	Level 2	Level 3
December 31, 2013				
Pooled separate accounts:				
Conservative	$ 32,654	$ -	$ 32,654	$ -
Growth	1,452,473	-	1,452,473	-
Income	543,389	-	543,389	-

Common / collective trust	86,535	-	86,535	-
Total investments at fair value	$ 4,062,465	$ -	$ 4,062,465	$ -

3. FAIR VALUE MEASUREMENTS – (Continued)

Description	Total	Level 1	Level 2	Level 3
December 31, 2012				
Pooled separate accounts:				
Conservative	$ 20,350	$ -	$ 20,350	$ -
Growth	1,598,410	-	1,598,410	-
Income	457,246	-	457,246	-
Growth & income	1,080,660	-	1,080,660	-
Aggressive growth	599,653	-	599,653	-
Total pooled separate accounts	3,756,319	-	3,756,319	-
Common / collective trust	134,951	-	134,951	-
Total investments at fair value	$ 3,891,270	$ -	$ 3,891,270	$ -

In regards to the classification of investment options offered by the Plan, there were no reclassifications between levels 1, 2 or 3 during the year ended December 31, 2013. The nature, risks and investment objectives of the level 2 investment categories described above, for which fair value is estimated at NAV, can be found in the Plan's enrollment literature. These investments can be redeemed immediately and without a redemption notification period. As of December 31, 2013, there were no unfunded commitments associated with any of these investments.

4. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

5. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company (John Hancock), the custodian of the Plan, has certified to the completeness and accuracy of the following information which is included in the financial statements and supplemental schedule of assets (held at end of year) as of December 31, 2013 and 2012, and for the year ended December 31, 2013.

	2013	2012
Pooled separate accounts	$ 3,975,930	$ 3,756,319
Common / collective trust	85,755	130,136
Non-interest bearing cash	6,594	1,996
Net appreciation in fair value of investments	657,500	n/a

6. TAX STATUS

The Company adopted a Non-Standardized Prototype Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 1, 2009, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. The Plan has since been amended. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY

At December 31, 2013 and 2012, the Plan held assets of $85,755 and $130,136, respectively, in a common / collective trust that invests in a benefit-responsive investment contract with John Hancock. John Hancock maintains the contract in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by John Hancock, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY – (Continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other Company events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2013	2012
Based on actual earnings	1.56%	1.87%
Based on interest rate credited to participants	1.32%	1.40%
