Notes to Financial Statements
December 31, 2013 and 2012

NOTE 1 - Description of Plan

The following description of the MG, LLC 401(K) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Document, as amended, for a more complete description of the Plan's provisions.

A. General - The Plan is a defined contribution plan with an I.R.C. Sec 401(k) provision covering all employees of the Company who meet the eligibility requirements of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Management is responsible for oversight of the Plan including monitoring of investment performance and determining appropriate investment offerings.

B. Eligibility Requirements - Each employee who is not a non-resident alien, covered by a collective bargaining agreement, or considered an intern or seasonal employee is eligible to participate in the Plan when they have completed sixty days of service and attained the age of twenty-one.

C. Employee Contributions - Eligible employees may make a voluntary tax deferred contribution of 1% to 100% of their pre tax annual compensation up to $17,500 and $17,000, which is the maximum dollar limit set by law for the years ending December 31, 2013 and 2012, respectively.

Participants who have attained age 50 before the end of the Plan year are eligible to make "catch-up contributions." For the years ending December 31, 2013 and 2012, the maximum catch-up contributions were $5,500.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

D. Employer Contributions - The employer may make a discretionary matching contribution of the participants' elective deferral. For the years ending December 31, 2013 and 2012, the employer elected not to make matching contributions. Additional profit sharing amounts may be contributed at the option of the Company's management. For the years ending December 31, 2013 and 2012, the employer elected not to make profit sharing contributions.

E. Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the employer's contribution, plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances or specified participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

F. Payment of Benefits - A participant will receive a lump sum amount equal to the value of the individual's account upon termination of service due to death, disability, or upon attaining a Normal Retirement age or an early Retirement benefit if certain age and service requirements are met. Participants with vested balances less than $5,000

401(K) SAVINGS PLAN
Notes to Financial Statements
December 31, 2013 and 2012

NOTE 1 - Description of Plan (Continued)

F. Payment of Benefits (Continued) - will receive a lump sum payment as soon as administratively feasible following termination of employment. If total vested benefits exceed $5,000, no distribution is made from the Plan without consent.

G. Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Participants become fully (100%) vested in the employer contribution upon the occurrence of death and total or permanent disability.

Other than as stated above, employer contributions vest based upon the following:

Years of Service	Percentage
1	20%
2	40%
3	60%
4	80%
5	100%

A year of vesting service is a vesting service period in which an employee has at least 1,000 hours of service, and is based on the plan year.

H. Income Tax Status - The Plan obtained its latest determination letter on April 23, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (the "IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

I. Forfeited Accounts - Any participant who terminates employment without being fully vested (100%) in their employer contribution account forfeits their unvested portion of the employer contribution. At December 31, 2013 and 2012 there were no balances in the forfeited nonvested accounts. These accounts are used to reduce future employer contributions and offset Plan expenses. During 2013 and 2012, Plan expenses were reduced by $501 and $394, respectively, from forfeited nonvested accounts.

NOTE 2 - Summary of Significant Accounting Policies

This summary of significant accounting policies of the Plan is presented to assist in understanding the Plan's financial statements. The financial statements and notes are a representation of the Plan's management, who is responsible for their integrity and objectivity. The accounting policies described below conform to accounting principles generally accepted in the United States of America and have been applied consistently in the preparation of the financial statements.

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis for fully benefit-responsive investment contracts.

Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment Benefits - Benefits are recorded when paid.

Excess Contributions Payable - Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2012 excess contributions to the applicable participants prior to March 15, 2013. There were no 2013 excess contributions.

Administrative Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of participant's accounts, notes receivable from participants and benefits paid to participants are charged directly to the participant's account and are included in administrative expenses. Certain investment related expenses are included in net appreciation of fair value of investments.

NOTE 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events - The Plan has evaluated subsequent events though September 17, 2014, which is the date the financial statements were available to be issued.

NOTE 3 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled Separate Accounts: Valued at the NAV of the units of a pooled separate account. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the pooled separate account, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

NOTE 3 - Fair Value Measurements (Continued)

Investment Contract with Insurance Company: Valued at the fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 6). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposed only. In determining the reasonableness of the methodology, the trustee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others substantiated utilizing available market data (for example, swap curve rate).

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

NOTE 6 - Investment Contract with Insurance Company

During 2013 and 2012, the Plan maintained a benefit-responsive guaranteed investment contract with Mass Mutual Financial Group. Mass Mutual Financial Group maintains the contributions in a general account. The account is credited with earnings on the underlying investment and charged for participant withdrawals and administration expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Mass Mutual Financial Group, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE 6 - Investment Contract with Insurance Company (Continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $887,027 and $877,661, respectively. The crediting interest rate is based on a formula agreed upon with the issuer on an annual basis.

Certain events limit the Plan's ability to transact at contract value with Mass Mutual Life Insurance Company. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields based on actual earnings and the interest rate credited to participants for the years ended December 31, 2013 and 2012 was 2.54% and 2.50%, respectively.

NOTE 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their employer contributions.

NOTE 8 - Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their nonforfeitable account balance, which ever is less. Loan transactions are treated as transfers between the investment fund and the Participant Loan Fund. Loan terms range from one to five years, except for loans for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at 3.25%, which are commensurate with local prevailing rates as determined by the Plan's administrator. Principal and interest is paid ratably through payroll deductions. Balances outstanding at December 31, 2013 and 2012 were $51,436 and $47,227, respectively.

NOTE 9 - Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 10 - Related Party Transactions

The investment contract with an insurance company is managed by Mass Mutual Financial Group. Mass Mutual Financial Group is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than direct payment.
