INDEPENDENT AUDITORS' REPORT

To the 401(k) Profit Sharing Plan Committee
Quest Software, Inc. 401(k) Profit Sharing Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Quest Software, Inc. 401(k) Profit Sharing Plan (the "Plan"), which comprise the statements of net assets available for plan benefits (modified-cash basis) as of December 31, 2013 and 2012, and the related statement of changes in net assets available for plan benefits (modified-cash basis) for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified-cash basis of accounting described in Note 2; this includes determining that the modified-cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the 401(k) Profit Sharing Plan Committee instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 4 and 5, which was certified by Fidelity Management Trust Company, the trustee and asset custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the 401(k) Profit Sharing Plan Committee that the trustee and asset custodian holds the Plan's investment assets and executes investment transactions. The 401(k) Profit Sharing Plan Committee has obtained certifications from the trustee and asset custodian as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the 401(k) Profit Sharing Plan Committee by the trustee and asset custodian is complete and accurate.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matters

The supplemental schedule, Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year), is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

As described in Note 2 to the accompanying financial statements, the Plan's financial statements were prepared on a modified-cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

As described in Note 1 to the accompanying financial statements, Quest Software, Inc., the Plan's sponsor, was acquired in September 2012, and as a result, is in the process of terminating the Plan. The Plan received a favorable determination letter from the Internal Revenue Service in May 2014 regarding its termination. In August 2014, the Plan transferred all of its net assets to another defined contribution plan.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee and asset custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

QUEST SOFTWARE, INC.
401(K) PROFIT SHARING PLAN

Notes to Financial Statements
For the Year Ended December 31, 2013

1. Plan Description

The following description of the Quest Software, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan's agreement for a complete description of the Plan's provisions.

General

The Plan commenced activity on January 1, 1995, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is a defined contribution plan covering substantially all employees of Quest Software, Inc., the Plan's sponsor (the "Company"), who are age 21 or older. There is no minimum service requirement.

The Company was acquired in September 2012 by Dell, Inc. (the "Acquisition") and as a result, is in the process of terminating the Plan in compliance with the requirements of ERISA. In May 2014, the Plan received a favorable determination letter from the Internal Revenue Service with respect to its termination, and in August 2014, the Plan transferred all of its assets to another defined contribution plan.

Subsequent to the Acquisition, the Plan entered a blackout period. Eligible participants of the Company were eligible to enroll in the acquirer's defined contribution plan.

Participant Contributions

Prior to the Acquisition, participants could elect to contribute up to 100% of annual compensation, not to exceed the maximum allowed under the Internal Revenue Code (the "IRC"). Participants are fully vested in their contributions to the Plan, and as a result of the Acquisition, participants were not allowed to contribute any additional amounts to the Plan.

Effective January 2, 2009, automatic enrollment in the Plan was implemented for all new hires in the United States who meet eligibility requirements.

Company Contributions

Prior to the Acquisition, the Company made matching contributions up to 50% of the participants' contributions, up to a maximum of $3,000. Company contributions fully vest and are non-forfeitable after the participant has completed three years of service pursuant to the terms of the Plan. As a result of the Acquisition, participants became fully vested in the Company's contributions. There were no contributions made to the Plan by the Company in 2013.

1. Plan Description (continued)

Participant Accounts and Forfeitures

Each participant's account is credited with the participant's contributions and allocations of (a) Company contributions and (b) individual investment earnings, less withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The Plan provides that forfeited balances of terminated participants' nonvested accounts may be used to reduce Company contributions. Total forfeited balances included in investments in the accompanying financial statements at December 31, 2013 and 2012 are $66,141 and $81,461, respectively.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Prior to the Acquisition, Company contributions and related earnings vest after three years at the rate of 50% after the second year and 100% after the third year in the Plan. If a participant's employment is terminated before full vesting of Company contributions and related earnings are attained, the amount not vested is forfeited and may be used to reduce future Company contributions. Company contributions and related earnings also become fully vested if the participant reaches age 65, dies, or becomes disabled. All participants became fully vested in Company contributions as a result of the Acquisition.

Benefits Paid to Participants

Participants may withdraw all or a portion of their contributions for reason of retirement, death, disability or financial hardship (as defined by the Plan's agreement), or if they terminate employment with the Company. Participants generally receive withdrawals in a lump-sum payment. Any withdrawals by participants prior to terminating employment with the Company and prior to age 59½ are subject to ordinary personal income taxes and penalty. Additionally, withdrawals by terminated participants, prior to the attainment of age 59½, which are not rolled over into another qualified investment vehicle, are also subject to ordinary income taxes. As a result of the Acquisition, participants were not permitted to withdraw funds, except as required by law.

Notes Receivable from Participants

Participants may borrow the lesser of a cumulative $50,000 or 50% of the value of their total vested benefits.

1. Plan Description (continued)

Notes Receivable from Participants (continued)

Loans bear interest at prime plus 1%, have scheduled repayment terms, and are collateralized by the participant's vested balance in the Plan. As a result of the Acquisition, there were no loans made during the year ended December 31, 2013. The interest rates for loans outstanding as of December 31, 2013 and 2012 ranged from 4.25% to 10.25%. Under the terms of the Plan agreement, when an employee is terminated, all outstanding loan balances become payable upon demand.

Plan Termination Provisions

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA. In the event of any termination of the Plan or upon complete or partial discontinuance of contributions, the accounts of each affected participant shall become fully vested. As described above, the Company is in the process of terminating the Plan as a result of the Acquisition.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions into any of 30 investment options. Participants may change their investment options any time, but may change their contribution amount only at the start of each payroll period.

Plan Administration

The Plan is administered by the 401(k) Profit Sharing Plan Committee of the Company. The trustee and asset custodian for the Plan was Fidelity Management Trust Company ("Fidelity") for each of the years ended December 31, 2013 and 2012.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan prepares its financial statements on a modified-cash basis of accounting; consequently, certain investment income and contributions and related assets are recognized when received, rather than when earned and certain expenses are recognized when paid, rather than when obligations are incurred. Investments, however, are stated at fair value. Because of these differences, the accompanying financial statements are not intended to be presented in conformity with accounting principles generally accepted in the United States of America.

Although the Plan is in the process of being terminated as a result of the Acquisition, the accompanying financial statements have not been prepared on the liquidation basis of accounting, as there are no significant differences between the liquidation basis of accounting and the modified-cash basis of accounting.

Use of Estimates

In preparing financial statements in conformity with the modified-cash basis of accounting described above, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Valuation of Investments

Investments are stated at fair value. Investment gains and losses (realized and unrealized) are included in net appreciation in fair value of investments in the accompanying financial statements.

Shares of registered investment companies are valued at the underlying net asset value of shares held by the Plan at year-end. The Fidelity Stable Value Fund primarily invests in benefit-responsive investment contracts. These investment contracts are entered into with insurance companies, banks and other financial institutions and they represent investments that have fixed income securities paired with benefit-responsive wrap contracts. Wrap contracts are issued by high-quality financial institutions and they provide a fixed rate of interest for a specified period of time and enable the fund to pay participant-initiated withdrawals at book value.

2. Summary of Significant Accounting Policies (continued)

Valuation of Investments (continued)

The statements of net assets available for plan benefits present investment contracts at fair value, as well as an additional line showing an adjustment of the fully benefit-responsive investment contract from fair value to contract value. The fair value of the Fidelity Stable Value Fund represents the Plan's share of the fair value of the underlying net assets of the fund. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses for the fund's investments in insurance contracts and fair value for the fund investments in externally managed affiliated collective investment funds and other investments (primarily debt obligations).

The adjustment from fair value to contact value for fully benefit-responsive investment contracts was $(232,106) and $(407,120) as of December 31, 2013 and 2012, respectively.

In certain circumstances, the amount withdrawn from the fully benefit-responsive investment contracts may be payable at fair value rather than at contract value. These events include certain terminations of the Plan, a material adverse change to the provisions of the Plan, if the employer elects to withdraw from a contract in order to switch to a different investment provider, or if the terms of a successor plan (in the event of the spin-off or sale of a division) do not meet the contract issuer's underwriting criteria for issuance of a similar contract.

Benefit Payments

Benefit payments are recognized when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest.

Administrative Expenses

The Plan's expenses are paid by the Company or the Plan, as provided by the Plan's agreement. The Plan incurred $44,942 of investment and administrative expenses during the year ended December 31, 2013.

2. Summary of Significant Accounting Policies (continued)

Subsequent Events

The Company evaluated events occurring between the end of the most recent fiscal year and September 24, 2014.

During January 2014, the Stable Value Fund was liquidated at contract value and participant balances were reallocated to the Fidelity US Government Reserves Fund.

Recent Accounting Pronouncements

There are no recent accounting pronouncements that the Company expects to materially impact the Plan's financial reporting.

3. Income Taxes

The Plan was established using a prototype 401(k) plan designed by Fidelity. The Internal Revenue Service determined, and informed Fidelity by letter dated December 5, 2001, that the prototype 401(k) plan was designed in accordance with applicable sections of the IRC. Subsequently, the Plan has been amended and restated several times, including an amendment and restatement onto Fidelity's Volume Submitter Defined Contribution Plan effective April 15, 2010. The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the accompanying financial statements.

In connection with the preparation of the Plan's financial statements, management is required to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on technical merit, to be sustained upon examination by the IRS. The Company's management has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, management believes the Plan is no longer subject to income tax examinations for years prior to 2010.

4. Information Certified by the Trustee and Asset Custodian (unaudited)

In accordance with the 401(k) Profit Sharing Plan Committee's instructions, and as permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, certain investment information, which the trustee and asset custodian of the Plan has certified as complete and accurate, was not audited. Information certified as complete and accurate and not audited consists of the following:

a. Statements of Net Assets Available for Plan Benefits as of December 31, 2013 and 2012.

b. Investment activities per the Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2013.

c. Supplemental Schedule of Assets as of December 31, 2013.

5. Investments (unaudited)

Fair value is defined as the price that the Plan would receive to sell an asset, or pay to transfer a liability, in an orderly transaction between market participants at the measurement date. It also establishes a framework for measuring fair value and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available under the circumstances.

The Plan's investments are assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-tier hierarchy of inputs is summarized below.

Level 1: Valuation for assets and liabilities traded in active exchange markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2: Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or comparable assets or liabilities.

5. Investments (unaudited)

Level 3: Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models, and similar techniques, and not based on market exchange, dealer, or broker traded transactions. These valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

Investments in the Plan are measured and reported at fair value on a recurring basis using the Market Approach, which uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

The following table represents the fair value hierarchy for investments measured at fair value on a recurring basis as of December 31, 2013 and 2012.

	December 31, 2013

The following summary of the Plan's individual investments, whose fair value exceeded 5% of net assets available for Plan benefits as of December 31, 2013 and 2012, was derived from unaudited information certified by the Plan's trustee and asset custodian and furnished to the 401(k) Profit Sharing Plan Committee.

* Investment did not represent at least 5% of net assets for the related period.

6. Risks and Uncertainties

The Plan provides for various investment options offering various allocations of stocks, bonds, fixed income securities and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying financial statements.

The Plan did not perform nondiscrimination testing during the 2013 Plan year, as contributions to the Plan during the year ended December 31, 2013 were not significant.

While the outcome of any future litigation or regulatory matter cannot be predicted, management of the Company does not believe that any future litigation or regulatory matter will have a material adverse effect on the Plan's net assets available for plan benefits. The outcome of such matters is always uncertain, and unforeseen results can occur. It is possible that such outcomes could materially affect net assets available for plan benefits in a particular year.

7. Party-In-Interest Transactions

Certain Plan investments held during 2013 and 2012 are held in investments managed by the Plan's trustee and asset custodian, and therefore, these transactions qualify as permitted party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of investment returns on the related investment. In addition, certain administrative functions are performed by officers and employees of the Company. No such officer or employee receives compensation from the Plan, nor does the Company allocate any costs to the Plan for such services.

8. Reconciliation of Form 5500 to the Audited Financial Statements

The Plan's IRS Form 5500 for 2013 includes assets of $8,201 and liabilities of $6,313 that have been presented in the Plan's investment in interests in common/collective trust in the accompanying statement of net assets available for plan benefits as of December 31, 2013.

INDEPENDENT AUDITORS' REPORT

To the 401(k) Profit Sharing Plan Committee
Quest Software, Inc. 401(k) Profit Sharing Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Quest Software, Inc. 401(k) Profit Sharing Plan (the "Plan"), which comprise the statements of net assets available for plan benefits (modified-cash basis) as of December 31, 2013 and 2012, and the related statement of changes in net assets available for plan benefits (modified-cash basis) for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified-cash basis of accounting described in Note 2; this includes determining that the modified-cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the 401(k) Profit Sharing Plan Committee instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 4 and 5, which was certified by Fidelity Management Trust Company, the trustee and asset custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the 401(k) Profit Sharing Plan Committee that the trustee and asset custodian holds the Plan's investment assets and executes investment transactions. The 401(k) Profit Sharing Plan Committee has obtained certifications from the trustee and asset custodian as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the 401(k) Profit Sharing Plan Committee by the trustee and asset custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matters

The supplemental schedule, Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year), is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

As described in Note 2 to the accompanying financial statements, the Plan's financial statements were prepared on a modified-cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

As described in Note 1 to the accompanying financial statements, Quest Software, Inc., the Plan's sponsor, was acquired in September 2012, and as a result, is in the process of terminating the Plan. The Plan received a favorable determination letter from the Internal Revenue Service in May 2014 regarding its termination. In August 2014, the Plan transferred all of its net assets to another defined contribution plan.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee and asset custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

QUEST SOFTWARE, INC.
401(K) PROFIT SHARING PLAN

Notes to Financial Statements
For the Year Ended December 31, 2013

1. Plan Description

The following description of the Quest Software, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan's agreement for a complete description of the Plan's provisions.

General

The Plan commenced activity on January 1, 1995, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is a defined contribution plan covering substantially all employees of Quest Software, Inc., the Plan's sponsor (the "Company"), who are age 21 or older. There is no minimum service requirement.

The Company was acquired in September 2012 by Dell, Inc. (the "Acquisition") and as a result, is in the process of terminating the Plan in compliance with the requirements of ERISA. In May 2014, the Plan received a favorable determination letter from the Internal Revenue Service with respect to its termination, and in August 2014, the Plan transferred all of its assets to another defined contribution plan.

Subsequent to the Acquisition, the Plan entered a blackout period. Eligible participants of the Company were eligible to enroll in the acquirer's defined contribution plan.

Participant Contributions

Prior to the Acquisition, participants could elect to contribute up to 100% of annual compensation, not to exceed the maximum allowed under the Internal Revenue Code (the "IRC"). Participants are fully vested in their contributions to the Plan, and as a result of the Acquisition, participants were not allowed to contribute any additional amounts to the Plan.

Effective January 2, 2009, automatic enrollment in the Plan was implemented for all new hires in the United States who meet eligibility requirements.

Company Contributions

Prior to the Acquisition, the Company made matching contributions up to 50% of the participants' contributions, up to a maximum of $3,000. Company contributions fully vest and are non-forfeitable after the participant has completed three years of service pursuant to the terms of the Plan. As a result of the Acquisition, participants became fully vested in the Company's contributions. There were no contributions made to the Plan by the Company in 2013.

1. Plan Description (continued)

Participant Accounts and Forfeitures

Each participant's account is credited with the participant's contributions and allocations of (a) Company contributions and (b) individual investment earnings, less withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The Plan provides that forfeited balances of terminated participants' nonvested accounts may be used to reduce Company contributions. Total forfeited balances included in investments in the accompanying financial statements at December 31, 2013 and 2012 are $66,141 and $81,461, respectively.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Prior to the Acquisition, Company contributions and related earnings vest after three years at the rate of 50% after the second year and 100% after the third year in the Plan. If a participant's employment is terminated before full vesting of Company contributions and related earnings are attained, the amount not vested is forfeited and may be used to reduce future Company contributions. Company contributions and related earnings also become fully vested if the participant reaches age 65, dies, or becomes disabled. All participants became fully vested in Company contributions as a result of the Acquisition.

Benefits Paid to Participants

Participants may withdraw all or a portion of their contributions for reason of retirement, death, disability or financial hardship (as defined by the Plan's agreement), or if they terminate employment with the Company. Participants generally receive withdrawals in a lump-sum payment. Any withdrawals by participants prior to terminating employment with the Company and prior to age 59½ are subject to ordinary personal income taxes and penalty. Additionally, withdrawals by terminated participants, prior to the attainment of age 59½, which are not rolled over into another qualified investment vehicle, are also subject to ordinary income taxes. As a result of the Acquisition, participants were not permitted to withdraw funds, except as required by law.

Notes Receivable from Participants

Participants may borrow the lesser of a cumulative $50,000 or 50% of the value of their total vested benefits.

1. Plan Description (continued)

Notes Receivable from Participants (continued)

Loans bear interest at prime plus 1%, have scheduled repayment terms, and are collateralized by the participant's vested balance in the Plan. As a result of the Acquisition, there were no loans made during the year ended December 31, 2013. The interest rates for loans outstanding as of December 31, 2013 and 2012 ranged from 4.25% to 10.25%. Under the terms of the Plan agreement, when an employee is terminated, all outstanding loan balances become payable upon demand.

Plan Termination Provisions

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA. In the event of any termination of the Plan or upon complete or partial discontinuance of contributions, the accounts of each affected participant shall become fully vested. As described above, the Company is in the process of terminating the Plan as a result of the Acquisition.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions into any of 30 investment options. Participants may change their investment options any time, but may change their contribution amount only at the start of each payroll period.

Plan Administration

The Plan is administered by the 401(k) Profit Sharing Plan Committee of the Company. The trustee and asset custodian for the Plan was Fidelity Management Trust Company ("Fidelity") for each of the years ended December 31, 2013 and 2012.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan prepares its financial statements on a modified-cash basis of accounting; consequently, certain investment income and contributions and related assets are recognized when received, rather than when earned and certain expenses are recognized when paid, rather than when obligations are incurred. Investments, however, are stated at fair value. Because of these differences, the accompanying financial statements are not intended to be presented in conformity with accounting principles generally accepted in the United States of America.

Although the Plan is in the process of being terminated as a result of the Acquisition, the accompanying financial statements have not been prepared on the liquidation basis of accounting, as there are no significant differences between the liquidation basis of accounting and the modified-cash basis of accounting.

Use of Estimates

In preparing financial statements in conformity with the modified-cash basis of accounting described above, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Valuation of Investments

Investments are stated at fair value. Investment gains and losses (realized and unrealized) are included in net appreciation in fair value of investments in the accompanying financial statements.

Shares of registered investment companies are valued at the underlying net asset value of shares held by the Plan at year-end. The Fidelity Stable Value Fund primarily invests in benefit-responsive investment contracts. These investment contracts are entered into with insurance companies, banks and other financial institutions and they represent investments that have fixed income securities paired with benefit-responsive wrap contracts. Wrap contracts are issued by high-quality financial institutions and they provide a fixed rate of interest for a specified period of time and enable the fund to pay participant-initiated withdrawals at book value.

2. Summary of Significant Accounting Policies (continued)

Valuation of Investments (continued)

The statements of net assets available for plan benefits present investment contracts at fair value, as well as an additional line showing an adjustment of the fully benefit-responsive investment contract from fair value to contract value. The fair value of the Fidelity Stable Value Fund represents the Plan's share of the fair value of the underlying net assets of the fund. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses for the fund's investments in insurance contracts and fair value for the fund investments in externally managed affiliated collective investment funds and other investments (primarily debt obligations).

The adjustment from fair value to contact value for fully benefit-responsive investment contracts was $(232,106) and $(407,120) as of December 31, 2013 and 2012, respectively.

In certain circumstances, the amount withdrawn from the fully benefit-responsive investment contracts may be payable at fair value rather than at contract value. These events include certain terminations of the Plan, a material adverse change to the provisions of the Plan, if the employer elects to withdraw from a contract in order to switch to a different investment provider, or if the terms of a successor plan (in the event of the spin-off or sale of a division) do not meet the contract issuer's underwriting criteria for issuance of a similar contract.

Benefit Payments

Benefit payments are recognized when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest.

Administrative Expenses

The Plan's expenses are paid by the Company or the Plan, as provided by the Plan's agreement. The Plan incurred $44,942 of investment and administrative expenses during the year ended December 31, 2013.

2. Summary of Significant Accounting Policies (continued)

Subsequent Events

The Company evaluated events occurring between the end of the most recent fiscal year and September 24, 2014.

During January 2014, the Stable Value Fund was liquidated at contract value and participant balances were reallocated to the Fidelity US Government Reserves Fund.

Recent Accounting Pronouncements

There are no recent accounting pronouncements that the Company expects to materially impact the Plan's financial reporting.

3. Income Taxes

The Plan was established using a prototype 401(k) plan designed by Fidelity. The Internal Revenue Service determined, and informed Fidelity by letter dated December 5, 2001, that the prototype 401(k) plan was designed in accordance with applicable sections of the IRC. Subsequently, the Plan has been amended and restated several times, including an amendment and restatement onto Fidelity's Volume Submitter Defined Contribution Plan effective April 15, 2010. The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the accompanying financial statements.

In connection with the preparation of the Plan's financial statements, management is required to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on technical merit, to be sustained upon examination by the IRS. The Company's management has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, management believes the Plan is no longer subject to income tax examinations for years prior to 2010.

4. Information Certified by the Trustee and Asset Custodian (unaudited)

In accordance with the 401(k) Profit Sharing Plan Committee's instructions, and as permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, certain investment information, which the trustee and asset custodian of the Plan has certified as complete and accurate, was not audited. Information certified as complete and accurate and not audited consists of the following:

a. Statements of Net Assets Available for Plan Benefits as of December 31, 2013 and 2012.

b. Investment activities per the Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2013.

c. Supplemental Schedule of Assets as of December 31, 2013.

5. Investments (unaudited)

Fair value is defined as the price that the Plan would receive to sell an asset, or pay to transfer a liability, in an orderly transaction between market participants at the measurement date. It also establishes a framework for measuring fair value and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available under the circumstances.

The Plan's investments are assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-tier hierarchy of inputs is summarized below.

Level 1: Valuation for assets and liabilities traded in active exchange markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2: Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or comparable assets or liabilities.

5. Investments (unaudited)

Level 3: Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models, and similar techniques, and not based on market exchange, dealer, or broker traded transactions. These valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

Investments in the Plan are measured and reported at fair value on a recurring basis using the Market Approach, which uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

The following table represents the fair value hierarchy for investments measured at fair value on a recurring basis as of December 31, 2013 and 2012.

The following summary of the Plan's individual investments, whose fair value exceeded 5% of net assets available for Plan benefits as of December 31, 2013 and 2012, was derived from unaudited information certified by the Plan's trustee and asset custodian and furnished to the 401(k) Profit Sharing Plan Committee.

6. Risks and Uncertainties

The Plan provides for various investment options offering various allocations of stocks, bonds, fixed income securities and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying financial statements.

The Plan did not perform nondiscrimination testing during the 2013 Plan year, as contributions to the Plan during the year ended December 31, 2013 were not significant.

While the outcome of any future litigation or regulatory matter cannot be predicted, management of the Company does not believe that any future litigation or regulatory matter will have a material adverse effect on the Plan's net assets available for plan benefits. The outcome of such matters is always uncertain, and unforeseen results can occur. It is possible that such outcomes could materially affect net assets available for plan benefits in a particular year.

7. Party-In-Interest Transactions

Certain Plan investments held during 2013 and 2012 are held in investments managed by the Plan's trustee and asset custodian, and therefore, these transactions qualify as permitted party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of investment returns on the related investment. In addition, certain administrative functions are performed by officers and employees of the Company. No such officer or employee receives compensation from the Plan, nor does the Company allocate any costs to the Plan for such services.

8. Reconciliation of Form 5500 to the Audited Financial Statements

The Plan's IRS Form 5500 for 2013 includes assets of $8,201 and liabilities of $6,313 that have been presented in the Plan's investment in interests in common/collective trust in the accompanying statement of net assets available for plan benefits as of December 31, 2013.
