Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the National Starch LLC Pension Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 2012 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of December 31, 2013 and 2012 and for the years then ended that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) and the supplemental Schedule H, Line 4j - Schedule of Reportable Transactions as of and for the year ended December 31, 2013 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for purposes of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NATIONAL STARCH LLC PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the National Starch LLC Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General: The Plan, which became effective April 1, 2008, is a noncontributory defined benefit pension plan covering eligible employees of National Starch LLC (the "Company"), as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On June 21, 2010, Akzo Nobel announced the sale of the Company to Corn Products International, Inc. The transaction was completed on October 1, 2010. Corn Products International, Inc. (now Ingredion Incorporated, effective June 4, 2012) became the plan sponsor and has assumed certain pension and employee benefits liabilities.

Effective April 30, 2010, benefit accruals for employees of the North Kansas City Union were frozen from future benefit accrual. Effective December 31, 2010, benefit accruals for salaried employees covered by the Plan were frozen from future benefit accrual, and the Plan was closed to any new participants. Effective December 31, 2011, benefit accruals for employees of the Indianapolis Union were frozen from future benefit accrual. This represented the last group in the Plan which was accruing benefits, therefore as of December 31, 2011, all benefit accruals under the Plan were frozen.

Pension, Death and Disability Benefits: A vested participant who retires at the normal retirement date (the first day of the month following his/her 65th birthday) and has completed 5 years of service is entitled to normal retirement benefits in the form of a joint and survivor annuity, or if the participant waives the joint and survivor annuity option, a single life annuity, or equal installments over the assumed life expectancy of the participant, or over the assumed joint life expectancy of the participant and his/her beneficiary with a certain period option. The monthly amount of the annuity is determined by a formula times years of credited service, as defined by the Plan. A lump-sum distribution is required for participants whose present value of benefits is less than \$1,000. Salaried and non-union hourly employees may elect, with spouse consent, to receive the actuarial equivalent of their benefit as a lump-sum following termination of employment.

A participant who has attained the age of 55 and has completed at least 5 years of eligible service may elect early retirement. The annual amount of early retirement benefits is determined as described above for normal benefits but is reduced by 4% for each month by which the date the retirement income commences precedes age 60. Certain groups are eligible for an unreduced retirement once they are over age 55 and their age plus years of vesting equals or exceeds 85.

The spouse of a vested participant, upon the death of the vested participant, is entitled to 50% of the benefits which would have been payable to the vested participant. For a participant who is not married, upon the death of the vested participant, a retirement benefit will be paid to the beneficiary in the form of monthly installments or a lump-sum. If there is no surviving spouse or named beneficiary, a benefit may be payable to the employee's estate.

Vesting: Participants of the Plan vest in the benefits of the Plan according to the specific vesting schedules by plant location.

Administrative Expenses: The Company generally pays administrative expenses of the Plan. However, the Company is not obligated to pay these administrative expenses and any expenses not paid by the Company will be paid from the assets of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of the actuarial present value of accumulated plan benefits.

Risks and Uncertainties: Investments are exposed to various risks such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain Plan investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics, all of which are subject to change. Due to the uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these assumptions will occur in the near term, and the effect of such changes could be material to the financial statements.

Investment Valuation and Income Recognition: The Plan's investments are reported at estimated fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

NOTE 3 - FUNDING POLICY

The Plan is funded in accordance with the contribution requirements of ERISA. Participants are not permitted to make contributions to the Plan. The Company contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits paid to the Plan participants. The minimum funding requirements of ERISA were met for 2013 and 2012.

NOTE 5 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

(Continued)

NATIONAL STARCH LLC PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following are descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments held directly by the Plan.

Collective Trust Funds: The fair values of investments in collective trusts are determined by the custodian based on their net asset values and supported by the value of underlying securities and by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date (Level 2 inputs).

The international index fund as of December 31, 2013 and 2012 is the Northern Trust Global Investments Collective Daily EAFE Index Fund Lending. The primary objective of the fund is to approximate the risk and return characterized by the Morgan Stanley Europe, Australasia, and Far East (MSCI EAFE) Index. The fund invests in foreign common stock and a short-term investment fund.

The equity index fund as of December 31, 2013 is the Northern Trust Global Investments Collective Russell 1000 Equity Index Fund Lending. The primary objective of the fund is to approximate the risk and return characterized by the Russell 1000 Index. The fund invests primarily in other Northern Trust collective trust funds.

The fixed income funds as of December 31, 2013 are the Northern Trust Global Investments Collective Daily Long Term Credit Bond Index Fund Lending, Northern Trust Global Investments Collective Daily Aggregate Bond Index Fund Lending, and the Northern Trust Global Investments Collective Short Term Investment Fund. The primary objective of the Collective Daily Long Term Credit Bond Index Fund is to provide investment results that approximate the overall performance of the Barclay's Capital Long Term Credit Bond Index. The fund invests in corporate bonds, foreign issuer bonds, municipal bonds, US Government notes, and a short-term investment fund. The primary objective of the Collective Daily Aggregate Bond Index Fund is to provide investment results that approximate the overall performance of the Barclay's Capital Aggregate Bond Index. The fund invests primarily in other Northern Trust collective trust funds. The Northern Trust Global Investments Collective Short Term Investment Fund seeks to maximize current income on cash reserves to the extent consistent with principal preservation and maintenance of liquidity. The fund invests primarily in high grade money market instruments with short maturities.

The domestic large cap equity collective trusts as of December 31, 2012 held a diversified portfolio of large cap domestic stocks. The fixed income collective trusts as of December 31, 2012 held short-term and/or medium-term corporate, government and government agency bonds, and high-grade money market instruments with short maturities.

Each collective trust provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per share or per unit, as applicable.

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

NOTE 6 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated benefits are those future periodic payments, including lump sum distributions, attributable under the Plan's provisions to the services employees have rendered. Accumulated benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of the employees who have died, and (c) present employees or their beneficiaries. All benefits payable are included to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2012 are (a) the annual investment return on plan assets is 7.25% compounded annually (which is net of expenses paid from the Plan including an assumed 0.20% for administrative expenses), (b) the life expectancy of participants is based on the gender-specific RP2000 tables, (c) the retirement age assumptions are graded rates from age 55 to 65, and (d) the assumed form of payment is lump sum for salaried participants, a 50% joint and survivor annuity for Indianapolis union participants, and single life annuity for all other participants. Changes in actuarial assumptions increased the actuarial present value of accumulated benefits by \$4,969,675 for plan year 2012 as a result of a change in the lump sum interest rates from September 2011 417(e) segment rates (1.98% for the first 5 years, 4.49% for the next 15 years, and 5.80% thereafter) to the September 2012 417(e) segment rates (1.02% for the first 5 years, 3.71% for the next 15 years, and 4.67% thereafter), and updated mortality rates from 2012 to 2013 in accordance with the Pension Protection Act.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial valuation as of December 31, 2013 has not yet been completed.

NOTE 7 - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter issued February 3, 2014 that the Plan is qualified and the trust established under the Plan is tax exempt, under the appropriate section of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits of participants to whom retirement payments commenced or could have commenced had the participant retired at least three years preceding the date of termination, based on the Plan provisions in effect five years prior to termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 9 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined by the Department of Labor's regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan's investment assets include shares of certain collective trust funds managed by The Northern Trust Company. Northern Trust is the Trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest. Fees paid by the Plan to parties-in-interest amounted to \$338,349 and \$214,616 for the years ended December 31, 2013 and 2012, respectively.

NOTE 10 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 3, 2014, which is the date the financial statements were available to be issued.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Methods for Funding*****Asset methods***

The asset valuation method is an average of the adjusted market value for each month during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of Major Plan Provisions*****National Starch & Chemical Salaried***

Effective date and fiscal year	The plan was originally established effective April 1, 2008. . The plan was last amended and restated on January 1, 2013. Plan year: The plan year is the 12-calendar month period beginning each January 1 and ending December 31
Most recent amendment	As of December 31, 2010, the National Starch LLC Pension Plan was frozen to both new entrants and benefit accruals for Salaried employees.

Definitions

- Covered Employees National Starch & Chemical Salaried and Group Services employees. Plan closed to new entrants on March 1, 2001 and rehires on April 1, 2002. Identified participants were spun-off into the National Starch LLC plan effective April 1, 2008.
- Participation Upon completion of one year of vesting service
- Vesting service Continuous service from date of hire. Part-time granted on year for each plan year of 1,000 hours.
- Credited service Continuous service as a covered employee. Part-time granted one year for each plan year of 1,000 hours as a covered employee.
- Pensionable pay All pay subject to income tax withholding (to include salary, wages, overtime, shift differential, short term disability, bonus and commissions) including any elective deferrals for the defined contribution plan and any cafeteria plan deferrals. Excludes deferred compensation.
- Covered Compensation The average of the Social Security taxable wage bases for the 35-year period ending in the year participant attains Social Security retirement age.
- Normal Retirement Date First day of the calendar month coincident with or next following a participant's 65th birthday with five years of vesting service.
- Accrued Benefit Main Retirement Benefit equals: (i) One-twelfth of 1.25% of final average earnings up to and including covered compensation plus, (ii) 1.50% of average earnings in excess of covered compensation, all multiplied by credited service; offset by any applicable prior plan benefit.

Group Services employees from Former ICI Americas Inc. are entitled to the greater of the Main Retirement Benefit described above and the sum of (i) the prior plan benefit as of December 31, 2004, plus (ii) the Main Retirement Benefit determined only with credited service from January 1, 2005.
- Monthly preretirement death benefit 50% of the monthly accrued benefit as of the date of death, reduced according to the 50% joint and survivor option unless otherwise noted.

Normal retirement

- Eligibility Retirement on NRD.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	Monthly accrued benefit determined as of NRD
Early retirement	
• Eligibility	An employee may retire early if he has attained age 55 and has completed 5 years of vesting service. Group Services employees from Former ICI Americas Inc. may retire early upon attainment of age 50 and age plus vesting service of 70 or more (70 points).
• Benefit	Monthly accrued benefit determined as of early retirement date, reduced 4% for each year of payment before age 60. Pension benefit will be unreduced if participant is at least age 55 with 85 points (age plus vesting service) at early retirement date.
Late retirement	
• Eligibility	Retirement after NRD.
• Benefit	Monthly accrued benefit determined as of actual retirement date.
Deferred vested	
• Eligibility	Termination for reasons other than death or retirement after completing five years of vesting service.
• Benefit	Monthly accrued benefit determined as of termination date payable at participant's NRD. Upon attainment of age 62 if termination occurred after 10 years of credited service may elect pension benefit, reduced 8% for each year of payment before age 62.
Disability	
• Eligibility	Eligibility for benefits under the Company's long term disability insurance plan prior to NRD.
• Benefit	Monthly accrued benefit determined as of date of NRD with average earnings and covered compensation determined as of date of disability. Deemed to continue to accrue credited service during disability until NRD or disability benefits cease.
Pre-retirement death	
• Eligibility	Death after completing five years of vesting service prior to commencement of benefits.
• Benefit	<p>If participant attained age 55 as of date of death, monthly preretirement death benefit payable at ERD. In lieu of the reduction for the 50% joint and survivor option, the reduction is 2% for each full year the spouse is more than 10 years younger than the participant.</p> <p>If participant had not attained age 55 as of date of death, monthly preretirement death benefit payable at NRD actuarially reduced for payments prior to NRD but no earlier than earliest retirement age.</p>

Schedule SB, Part V — Summary of Plan Provisions***Benefits Included or Excluded***

Unless noted below, all benefits provided by the plan, as restated and amended, are included in this valuation.

- **Most recent plan amendments included:** On March 28, 2013, the following amendment was adopted for North Kansas City participants: Effective March 7, 2013, the pre age 62 supplemental benefits to the unreduced early retirement benefit was increased from \$450 to \$550 per month through the month the participant attains age 62. Ingredion Incorporated elected under Code Section 412(d)(2) and ERISA Section 302(d)(2) to reflect this amendment in the actuarial valuation as of January 1, 2013 for minimum funding purposes.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* Current active participants over normal retirement age are valued including the late retirement actuarial increase.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
