A. Description of Plan

The following description of the Falcon Farms, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the plan document summary for a more complete description of the Plan's conditions.

1. *General.* The Plan is a discretionary, 401(k), defined contribution retirement and profit sharing plan, covering all full time employees of Falcon Farms, Inc. (Company) who have met the age and service requirements. The Plan is subject to the provisions of the Employee Retirement Income and Security Act of 1974, (ERISA).

2. *Contributions*. Participants may contribute up to the lesser of 90 percent of annual compensation or to the maximum annual dollar limitation of $17,500 and $17,000 for 2013 and 2012, respectively (with an additional $5,500 deferral available for participants over 50 years of age). They may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct their contributions into various investment alternatives offered by the Plan which consist of mutual funds and insurance investment contracts. During the current plan year, the Company matched fifty percent of employee deferrals contributed to the Plan.

3. *Participant Accounts*. Each participant's account is credited with the participant's contribution, as applicable and allocations of (*a*) the Company's contributions (Company match or Employer discretionary) and (*b*) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, based on their specific investment choices, while allocations of Employer discretionary contributions are based on the ratio of each participant's elective deferral for the plan year to the total elective deferrals of all participants for the plan year.

4. *Vesting.* Participants are fully vested at all times in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service, using a six year graduated, vesting schedule.

5. *Notes Receivable, Participants.* Participants may borrow from their accounts, a minimum of $1,000 up to a maximum, equal to the lesser of $50,000 or 50 percent of their account totals. The loans are secured by the balance in the participant's account, with the term not to exceed five years,

and interest rates at one percent over prime rate. Principal and interest is paid ratably, through periodic payroll deductions, over the life of the loan.

6. *Distribution Provisions.* Upon termination of service due to death, disability, or retirement, a participant (or beneficiary) may elect to receive either a lump-sum amount, equal to the value of the participant's vested interest, a partial lump-sum distribution or installments over a period not to exceed the life expectancy of the participant. In the case of termination of service for other reasons, a participant may receive the value of the vested account as a lump-sum distribution.

7. *Forfeited Accounts.* At December 31, 2013 and 2012, forfeited nonvested accounts totaled $1,935 and $7,995, respectfully. This account will be used to reduce Employer contributions.

B. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Participant contributions are recorded when wages and salaries are paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion of fair value measurements.

Purchases and sales of investment securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable, Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued interest. Delinquent notes receivable from participants are recorded as a distribution, based upon the terms of the plan document.

Distributions and Withdrawals

Distributions and withdrawals are recorded when paid.

Administrative Expenses

The Company may, at its discretion, pay some or all of the expenses of the Plan. Certain of these expenses are paid, as contracted or provided in the plan document. Investment advisory, management, recordkeeping and maintenance fees for plan investments and transactions, can be included as a reduction of the investment return and not reflected separately in the statement of changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through July 31, 2014, the date the financial statements were available to be issued.

C. Investments & Certification

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated by $261,720 and $207,476 in 2013 & 2012, respectively.

Investments which represent 5 percent or more of the Plan's invested assets of $2,130,984 and $1,784,047 for December 31, 2013 & 2012, respectively, are presented below:

Fund	***2013***	***2012***
Lifestyle Balanced	$610,679	$487,982
Lifestyle Growth	554,305	452,703
Lifestyle Conservative	284,079	280,023
Lifestyle Moderate	317,512	259,560
John Hancock Stable Value	187,890	163,120

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance, the custodian of the Plan's assets, has certified, that the data on the preceding page, for December 31, 2013 & 2012, and included in the accompanying financial statements (with respect to investments) and supplementary schedule (exclusive of participant loans), is complete and accurate.

D. Fair Value Measurements

FASB ASC 820 outlines the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (*level 1 measurements*) and the lowest priority to unobservable inputs (*level 3 measurements*). The three levels of the fair value hierarchy under FASB ASC 820 are described as listed below and on the following page:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; and • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used, need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Below is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 from the prior year.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed Investment for Life component: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described, may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2013 and 2012:

Fair Value Measurements at December 31, 2013

	Quoted Prices in Active Markets for Identical Assets (Level 1)	*Significant Other Observable Inputs (Level 2)*	*Significant Unobservable Inputs (Level 3)*	*Total*
Mutual Funds	$1,778,334	-	-	$1,778,334
G.I.F.L. component	-	-	352,650	352,650
Fair Value	$1,778,334	-	$352,650	$2,30,984

	Fair Value Measurements at December 31, 2012			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	*Significant Other Observable Inputs (Level 2)*	*Significant Unobservable Inputs (Level 3)*	*Total*
Mutual Funds	$1,518,747	-	-	$1,518,747

Fair Value	$1,518,747	-	$265,300	$1,784,047

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2013 and 2012:

	Year Ended December 31, 2013 & 2012	
G.I.F.L. component	***2013***	***2012***
Beginning Balance	$ 265,300	202,133
Realized gains/(losses)	-	-
Unrealized gains/(losses)	-	-
Purchases, sales, issuances, settlements, (net)	87,350	63,167
	$ 352,650	$ 265,300

E. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

F. Tax Status

The IRS has determined and informed the Company by a letter, that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore continues to be qualified and tax-exempt.

G. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

H. Related Parties

The Plan was formed to offer retirement benefits to employees of the plan sponsor which is a closely held company, owned and operated by its founders, who also participate in the Plan.

I. Reconciliation of Financial Statements to Form 5500

The financial statements at December 31, 2013 report an adjustment of $11,655 in excess contributions (reflected as a liability) and reduced deferrals by the same amount while recognizing a post year-end Employer matching contribution also reflected in receivables (timing difference receivable as well), which were not reported on the Form 5500.
