HUNTSMAN MONEY PURCHASE PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Huntsman Money Purchase Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined contribution money purchase pension plan covering all employees of Huntsman International LLC (the "Company"), except those covered by certain collective bargaining agreements. Participating employers are Huntsman Purchasing Ltd., Huntsman Petrochemical Corporation, Huntsman Polymers Corporation, Tioxide Americas Inc., Huntsman Propylene Oxide Ltd., and Huntsman Advanced Materials Americas LLC (collectively, the "Employer"). Employees are eligible to participate in the Plan on the first day of the month following the completion of two years of service. Effective January 1, 2004, the Plan was amended to freeze eligibility. No employees hired subsequent to January 1, 2004 are eligible for participation in the Plan. The Plan is administered by a committee appointed by the Board of Directors of the Company and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Fidelity Management Trust Company is the trustee for the Plan.

Contributions

Employer contributions are made for all plan participants based on their years of service and eligible compensation. Employer contributions are as follows:

Years of Service	Employer Contribution
6 and less	0.5% of eligible compensation
7 - 9	3.0% of eligible compensation
10 or more	8.0% of eligible compensation

The Plan is participant directed and participants may change their investment options at any time.

Participant Accounts

Each participant's account is credited with the Employer's contributions as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Vesting

Participants are at all times fully vested in their Employer contributions and the appreciation or depreciation thereon.

Payment of Benefits

Benefits are payable upon retirement, disability, death, or termination of service with the Employer. Normal retirement age under the Plan is 65. Participants may receive their distributions in a lump-sum or an annuity payment.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are held within the Huntsman International LLC Master Trust (the "Master Trust"). Investments held within the Master Trust are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. The Plan's proportionate interest in the investments of the Master Trust is shown in the statements of net assets available for benefits as Plan interest in Huntsman International LLC Master Trust (see Note 3).

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through the Master Trust. As required, the statements of net assets available for benefits present the fair value of the investment contracts in the Master Trust as well as the adjustment of the fully benefit-responsive investment contracts in the Master Trust from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to withdrawals, recordkeeping, and certain investment transaction fees are charged directly to the participant's account and are included in administrative expenses. Other investment related expenses are included in net appreciation in fair value of investments within the Master Fund.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Federal Income Taxes

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated May 1, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 3 - INTEREST IN MASTER TRUST

The Plan's investment assets are held in the Master Trust at Fidelity Management Trust Company ("Fidelity"). The Master Trust was established by the Company and is administered by Fidelity. Use of the Master Trust permits the commingling of trust assets with the assets of the Plan and the Huntsman Salary Deferral Plan sponsored by the Company, all of which are under common control, for investment and administrative purposes. Although assets of the participating plans are commingled in the Master Trust, the trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income of the investment assets is allocated by the trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

NOTE 3 - INTEREST IN MASTER TRUST (CONTINUED)

Investments that represent 5% or more of the Master Trust's net assets at December 31, 2013 and 2012 are separately identified below:

Identity of Party Involved	Description	2013	2012
Mutual Funds:			
Vanguard	Institutional Index	$85,168,504	$63,699,081
PIMCO	Total Return	30,357,375	41,149,739

Vanguard	Target Retirement 2020	43,166,640	-
Common Collective Trust Fund:			
*Vanguard	Retirement Savings Trust II	77,952,665	78,664,523

*Includes adjustment of $(2,172,386) and $(4,170,099) from fair value to contract value for fully benefit-responsive investment contracts for 2013 and 2012, respectively.

The Plan invests in investment contracts through the Vanguard Retirement Savings Trust II, a common collective trust fund. At December 31, 2013 and 2012, all of the Vanguard Retirement Savings Trust II's investments were in the Vanguard Retirement Savings Master Trust (the "Vanguard Trust").

The Vanguard Trust provides for the collective investment of assets of tax-exempt pension and profit-sharing plans, primarily in a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by bond trusts that are selected by the Trustee, Vanguard Fiduciary Trust Company. The issuers' ability to meet these obligations may be affected by economic developments in their respective companies and industries.

Traditional investment contracts issued by insurance companies and banks are nontransferable, but provide for benefit-responsive withdrawals by plan participants at contract value. For traditional investment contracts, fair value comprises the expected future cash flows for each contract discounted to present value. Contract value represents contributions made plus interest accrued at the contract rate, less withdrawals. The crediting rate on traditional contracts is typically fixed for the life of the investment.

The average yield earned by the Vanguard Trust was 1.98% and 2.22% for the years ended December 31, 2013 and 2012, respectively. The average yield earned by the Vanguard Trust with an adjustment to reflect the actual interest rate credited to participants in the Vanguard Trust was 1.56% and 1.82% for the years ended December 31, 2013 and 2012, respectively.

The existence of certain conditions can limit the Vanguard Trust's ability to transact at contract value with issuers of its investment contracts. Specifically, any event outside the normal operation of the Vanguard Trust that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to the withdrawal. As of December 31, 2013, the occurrence of an event is not considered to be probable.

NOTE 4 - FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosure about the use of fair value measurements in an effort to make the measurement of fair value more consistent and comparable.

Various inputs are used in determining the fair value of the Plan's investments in the Master Trust. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of investments in the Master Trust that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Mutual Funds: Valued at net asset value (NAV) of shares held by the Master Trust at year-end. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Common Stock and Other: Valued at fair value using a market approach based on quotations from national securities exchanges.

Cash Reserves: Represents interest-bearing cash.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Common Collective Trust Fund: Value based on information reported by the investment advisor. Investments are primarily in a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by bond trusts.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e. projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. There have been no changes in the methodologies used for valuing securities at December 31, 2013 or 2012.

NOTE 5 - INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected in the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2013.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments in the Master Trust are in shares of mutual funds and in a participant directed brokerage account managed by entities related to Fidelity. Fidelity is the Plan's trustee, as defined by the Plan. Therefore, these investments qualify as party-in-interest transactions. These transactions are covered by an exemption from the prohibited transaction provisions.

NOTE 7 - RISKS AND UNCERTAINTIES

The Plan provides for various investments. In general, such investments are exposed to various risks, such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 8 - SUBSEQUENT EVENTS

Effective September 1, 2014, the Plan was amended to freeze participation with respect to all employees other than those covered by a collective bargaining agreement, which provides for participation in the Plan and to cease Employer contributions to the Plan for all non-union participants. In addition, effective September 1, 2014, all non-union participants shall be fully vested in their Employer contributions. As soon as administratively practicable after September 1, 2014, the accounts of all non-union participants will be transferred into the Huntsman Salary Deferral Plan.

The Plan has evaluated subsequent events through September 11, 2014, the date the financial statements were available to be issued.
