Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Omnicare General Pension Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2013 and 2012 and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by U.S. Bank, N.A. (the "Trustee"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes related transactions. The plan administrator has obtained certifications from the Trustee as of and for the years ended December 31, 2013 and 2012 that the information provided to the plan administrator by the Trustee is complete and accurate.

To the Plan Administrator
Omnicare General Pension Plan

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets held at end of year as of December 31, 2013 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Omnicare General Pension Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description

The following description of Omnicare General Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - Omnicare General Pension Plan is a defined benefit pension plan which, prior to the Plan curtailment on December 31, 1993, covered substantially all employees of Omnicare, Inc. and its participating subsidiaries (Omnicare or the "Company") who completed six months of service, except those employees covered by a collective bargaining agreement. The Plan commenced January 1, 1986 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

As of December 31, 1993, the Plan was frozen to new employees and future benefit accruals ceased.

Pension Benefits - Eligible employees with five or more years of service are entitled to annual pension benefits upon retirement. Benefits due to participants employed by certain divested subsidiaries became fully vested upon the sale of those subsidiaries. Upon retirement, a participant's monthly retirement income is equal to the lesser of (a) 1.5 percent of the highest consecutive 60-month average compensation of the last 120 months prior to December 31, 1993, as defined, multiplied by years of credited service or (b) 50 percent of average monthly compensation (prior to December 31, 1993) reduced by the appropriate Social Security benefit. This benefit is offset by the benefit accrued under the Plan's predecessor, as applicable. Benefit payments begin on the first day of the month that coincides with or immediately follows the participant's normal retirement date.

Death and Disability Benefits - If an active or former participant dies before age 65 and has five years of service, a death benefit equal to the actuarial equivalent of the monthly retirement income, adjusted for the participant's age at the time of death and the status of benefits paid prior to the participant's death, is paid to the employee's beneficiary as an annuity for their lifetime or in a lump sum. Active employees who become totally disabled may elect to receive reduced annual disability benefits that are equal to the actuarial equivalent of the monthly retirement income determined as of the employee's disability retirement date.

Funding - Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA.

Contributions - All contributions to the Plan are made by the Company. The Company contributes such amounts, as determined on an actuarial basis, to provide the Plan with assets sufficient to meet the projected benefits to be paid to plan participants. No participant contributions are permitted.

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain plan assets are in investment funds managed by U.S. Bank, N.A. or its affiliates. U.S. Bank, N.A. is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to:

- a. Retired or terminated employees or their beneficiaries
- b. Beneficiaries of employees who have died
- c. Present employees or their beneficiaries

Benefits are calculated based on active employees' credited years of service multiplied by a specified percentage of their average monthly compensation plus a specified percentage of their average monthly compensation in excess of the Social Security integration level.

Benefits provided via annuity contracts are deducted from plan assets and from accumulated plan benefits.

Actuarial Assumptions - The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

Note 2 - Summary of Significant Accounting Policies (Continued)

The significant actuarial assumptions used in the valuation of the Plan at December 31, 2012 are summarized as follows:

Life expectancy of participants - IRS 2013 Combined Static Mortality Table

Interest rate - 6.00%

<u>Retirement Age</u>	<u>Annual Number of Retirements Per 1,000 Participants</u>
55	19
56	24
57	28
58	33
59	38
60	142
61	147
62	200
63	250
64	250
65	1,000

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the statement of net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including August 7, 2014, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

U.S. Bank, N.A. (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Significant investments included in end of year net assets are as follows:

	<u>2013</u>	<u>2012</u>
Mutual fund - Vanguard Intermediate Term Treasury Fund	\$ 4,282,206	\$ 4,414,213

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013 and 2012.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Omnicare General Pension Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 4 - Fair Value Measurements (Continued)

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds - Mutual funds are valued at closing quoted prices reported in active markets.

Money Market Fund - The money market fund is valued at the outstanding balance, which is the best estimate of fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2013

	Level 1	Level 2	Level 3	Balance at December 31, 2013
Mutual fund - Fixed-income investment	\$ 4,282,206	\$ -	\$ -	\$ 4,282,206
Money market fund - Short-term investment	-	114,851	-	114,851
Total	<u>\$ 4,282,206</u>	<u>\$ 114,851</u>	<u>\$ -</u>	<u>\$ 4,397,057</u>

Assets Measured at Fair Value on a Recurring Basis at December 31, 2012

	Level 1	Level 2	Level 3	Balance at December 31, 2012
Mutual fund - Fixed-income investment	\$ 4,414,213	\$ -	\$ -	\$ 4,414,213
Money market fund - Short-term investment	-	109,912	-	109,912
Total	<u>\$ 4,414,213</u>	<u>\$ 109,912</u>	<u>\$ -</u>	<u>\$ 4,524,125</u>

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying statements.

Omnicare General Pension Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 5 - Tax Status (Continued)

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.

Note 6 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuary Ernst & Young. The calculations of the estimated present value of accumulated plan benefits attributable to participants in the Plan, which were made as of and for the year ended December 31, 2012, the most recent actuarial valuation, are as follows:

Actuarial present value of accumulated plan benefits -

Vested benefits:

Participants currently receiving benefit payments	\$ 2,545,319
Inactive or disabled participants	2,716,902
Active participants	<u>1,407</u>

Total actuarial present value of accumulated plan benefits	<u>\$ 5,263,628</u>
--	---------------------

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended December 31, 2012 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 5,183,074
--	--------------

(Decrease) increase during the year attributable to:

Benefits accumulated	(43,858)
Increase for interest due to the decrease in the discount period	305,376
Change in actuarial assumption	8,667
Benefits paid	<u>(189,631)</u>

Net increase	<u>80,554</u>
--------------	---------------

Actuarial present value of accumulated plan benefits - End of year	<u>\$ 5,263,628</u>
--	---------------------

The change in assumption in 2012 is the result of a change in the mortality table used from the IRS 2011 Combined Static Mortality Table to the IRS 2013 Combined Static Mortality Table in 2012.

Omnicare General Pension Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 7 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Provide benefits for all participants or beneficiaries whose benefits have been, or could have been, in pay status for the entire three-year period prior to termination, based on the Plan's provisions in effect during the five-year period ending on such date under which such benefit would be the least
2. Provide all other benefits guaranteed under Title IV of the Employee Retirement Income Security Act of 1974 (without regard to the limitation of Section 4022(b)(3) or the limitation on benefits payable to "substantial owners" of Section 4022(b)(5))
3. Provide all other vested benefits other than those becoming nonforfeitable solely on account of the termination of the Plan
4. Provide all other benefits under the Plan

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

HATFA

The Highway and Transportation Funding Act of 2014 (HATFA) was enacted on August 8, 2014, and contains a number of pension provisions, including a provision in section 2003 that changes the way prescribed segment rates under IRC §430(h)(2)(C) are determined. Plan sponsors can elect to defer application of the amendments made by section 2003 of the HATFA until the first plan year beginning on or after January 1, 2014. Omnicare, Inc. made this election for all purposes for which such amendments apply.

Economic Assumptions

Funding effective interest rate 6.35% per year

The effective funding interest rate is the single equivalent rate based on the January 2013 IRS mandated segment rates and expected future benefit payments.

IRS mandated segment rates	<u>January 2013 24-month Average Segment</u>	<u>85% of the 24-Month Average Segment Rates Averaged Over 25 Years</u>
1st segment rate	1.62% per year	4.94% per year

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Actuarial Methods

Actuarial Cost Method	Unit Credit Cost Method--This is the prescribed method under PPA. Under this method a projected benefit is determined at every age at which a participant could receive a benefit. This benefit is based on accrued service and current pay. Different benefits will be calculated in accordance with the plan provisions for the different decrements. The accrued liability is determined by discounting the benefits to which the employee is expected to become eligible with interest from the valuation date to the payment date. The normal cost is the difference between the accrued liability determined as if the participant had an additional year of service and the otherwise calculated accrued liability.
Asset Method	Plan Assets are set equal to the Market Value of Assets which includes contributions receivable.
Mandated Interest Rates for Funding Target	Segment rates representing the 24-month average of yields on corporate bonds, adjusting using 25-year average segment rate corridors. The Applicable Month for the determination of the segment rates is January.
Employees Valued	All active and inactive participants are included in this valuation.
Benefits Valued	To the best of our knowledge, all benefits have been included in the liabilities, in accordance with the actuarial assumptions.
Section 415 Limits	Benefits were limited in accordance with section 415(b).
Events and Trends Not Included	We are not aware of any event or trend which has occurred that would have a material impact on this valuation.
