Notes to Financial Statements

1. Description of the Plan

The following description of the American Safety Insurance Holdings, Ltd. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 1990 covering all employees of American Safety Insurance Services, Inc. (the "Company") who have completed 30 days of service. Employees of two related entities, American Safety Administrative Services, Inc. and American Safety Claim Services, Inc., are covered by the Plan. There is no minimum age requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Investment Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

On July 2, 2012, the Company acquired Bluestone Agency, Inc. and effective January 1, 2013, Bluestone Agency, Inc. 401(k) Plan was merged into the Plan. Consequently, the employees of Bluestone Agency, Inc. became eligible to participate in the Plan.

Contributions

Each year, participants may contribute up to 92 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company makes a safe harbor matching contribution to the account of each eligible participant in an amount equal to 100 percent of the amount of the participant's elective deferrals up to 3 percent of the participant's compensation plus an additional 50 percent of the participant's elective deferrals in excess of 3 percent of the participant's compensation up to 5 percent. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocation of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on the participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and safe harbor matching contributions plus actual earnings thereon.

American Safety Insurance Holdings, Ltd. 401(k) Profit Sharing Plan

Notes to Financial Statements

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. The interest rate is commensurate with local prevailing rates as determined by the Plan administrator. Interest rates ranged between 3.25 percent to 5.25 percent in 2013. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with provisions specified in the Plan. All vested balances less than \$1,000 may be automatically distributed after termination of employment. Balances between \$1,000 and \$5,000 can be rolled over to an individual retirement plan designated by the Plan Administrator.

Forfeited Accounts

Forfeitures by non-vested participants may be used to pay for plan expenses. At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$227 and \$210, respectively.

2. Summary of Accounting Policies

Basis of Presentation

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

American Safety Insurance Holdings, Ltd. 401(k) Profit Sharing Plan

Notes to Financial Statements

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. The notes receivable from participants is classified as in default where no repayments have been made by the last day of the calendar quarter after the calendar quarter in which the payment is due. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. Defaulted notes receivable from participants are deemed distributed and recorded as benefits paid to participants in the Statement of Changes in Net Assets Available for Benefits.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to distribution and administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments on the Statement of Changes in Net Assets Available for Benefits.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 280 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

American Safety Insurance Holdings, Ltd. 401(k) Profit Sharing Plan

Notes to Financial Statements

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common or Collective Trust (CCT): Valued using the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The objective of the CCT is to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit-responsive payments. The CCT seeks to achieve this objective by investing primarily in a variety of high quality stable value investment contracts (the performance of which may be predicated on underlying fixed income securities), as well as cash and cash equivalents. There were no unfunded commitments as of December 31, 2013 and 2012.

Plan level redemptions of the Fidelity Managed Income Portfolio, the CCT held by the Plan, directed by the Company require twelve months advance notice.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Assets at Fair Value as of December 31, 2013

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no transfers within the fair value hierarchy.

5. Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

December 31,	2013	2012
Mutual Funds	\$ 14,909,090	\$ 11,731,537
Common or collective trust, at fair value	\$ 147,961	\$ 131,886
Notes receivable from participants	\$ 235,267	\$ 182,262
Adjustment from fair value to contract value for fully benefit-responsive investment contract	\$ (2,230)	\$ (3,774)

American Safety Insurance Holdings, Ltd. 401(k) Profit Sharing Plan

Notes to Financial Statements

<i>Year Ended December 31,</i>	<i>2013</i>
Interest income from common or collective trust	\$ 1,294
Dividend income from mutual funds	\$ 687,760
Net appreciation in fair value of mutual funds	\$ 2,129,975
Interest income on notes receivable from participants	\$ 8,227

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

6. Related Party Transactions

Certain Plan investments are shares of mutual funds and common or collective trust managed by Fidelity Management Trust Company, the trustee. Therefore, these transactions qualify as party in interest transactions. Administrative expenses paid by the Plan to the trustee were \$4,298 for the year ended December 31, 2013. Fees paid by the Plan for investment management services are included in net appreciation of fair value of investments. Notes receivable from participants also qualify as exempt party in interest transactions.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, no contributions would thereafter be made to the Plan and participants would become 100 percent vested in their discretionary employer contributions.

8. Tax Status

The Plan is a non-standardized prototype and the Plan prototype has received an opinion letter from the IRS dated March 31, 2008, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related Trust is exempt from taxation. In accordance with Revenue Procedure 2002-6 and Announcement 2001-77, the Plan Sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

American Safety Insurance Holdings, Ltd. 401(k) Profit Sharing Plan

Notes to Financial Statements

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

10. Reconciliation of Financial Statement to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

<i>December 31,</i>	2013	2012
Net assets available for benefits per the financial statements	\$ 16,007,464	\$ 12,726,639
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	2,230	3,774
Net assets available for benefits per the Form 5500	\$ 16,009,694	\$ 12,730,413

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to Form 5500:

<i>Year Ended December 31,</i>	2013
Net increase per the financial statements	\$ 3,173,876
Net adjustment from fair value to contract value for fully benefit-responsive investment contracts - 2013 and 2012	(1,544)
Net increase per the Form 5500	\$ 3,172,332

11. Subsequent Events

The Plan has evaluated subsequent events from the date of the Statement of Net Assets Available for Benefit through September 30, 2014, the date the financial statements were available to be issued. Except for the item discussed below, there were no material recognizable subsequent events.

Due to the sale of American Safety Insurance Holdings, Ltd in October 2013 and the transition of the majority of the employees to the purchasing entities, the Company transferred the majority of the assets and participants to three different plans in March 2014. Contributions in 2014 will continue for the remaining participants through October 30, 2014. The Company will be transferring all the assets in November 2014 to the RiverStone Resources, LLC Plan. Consequently, the Plan will be terminated at that time.
