Note 1 – Description of Plan

The following description of Malca-Amit North America, Inc. ("Company") 401K Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering substantially all employees of Malca Amit North America, Inc. and all of its affiliates. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Trustees oversees governance of the Plan. Mass Mutual Retirement Services a division of Massachusetts Mutual Life Insurance Company determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's trustee.

Eligibility. All employees who are full-time employees, have six months of service and are twenty-one or older are eligible to participate in the Plan. Eligible employees may begin participating in the Plan on January 1 and July 1.

Contributions. Each year, participants may contribute up to 15% of pretax annual compensation, as defined in the Plan. An Internal Revenue Service ("IRS") dollar limitation, adjusted annually for inflation applies. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

In 2009 the Company amended the Plan for Company Matching Contributions to be made by the Company, and currently provides for no matching contributions. Prior to 2009, the Plan provided for Company Matching Contributions in an amount equal to 50% of the first 6% of the employee's deferred salary contributions, up to the IRS dollar limitation.

Participant Accounts. Each participant account is credited with the participant's contribution and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion (prior to 2009) of the participant's accounts is based on years of continuous service as follows: 20% vested after 2 years of service, plus 20% for each of the following 4 years. A participant is 100% vested after completing 6 years of credited service.

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in their account, or annual installments over a ten year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in their account as a lump sum distribution.

Investment Options. Participants direct the investment of their contributions into various investment options held at Mass Mutual. The Plan offers a variety of investment options and an insurance investment contract with various objectives and degrees of financial risk.

Participant Loans. Participants may borrow from their funds accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's vested balance and are payable through payroll withholdings. Such loans bear interest at the available market financing rates and must be repaid to the Plan within a one to five year period, unless the loan are to be used for the purchase of a residence, in which case the maximum repayment period may be longer then five years. The specific term and conditions of such loans are established by the Plan administrator.

Forfeited accounts. Forfeited non-vested accounts are re-allocated to active participants.

Note 2 – Summary of Significant Accounting Policies

Date of Management's Review
Subsequent events were evaluated thru September 15th, 2014, which is the date the financial statements were available to be issued.

Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting
The accompanying financial statements are prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other then generally accepted accounting principles. Consequently, contributions from the participants and the employer are recorded when received by the Plan.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value as determined by the trustee, using market quotations and other available information. Quoted market prices are used to value investments. See Note 4 for discussion of fair value measurements.

Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end.

An adjustment is made for fully benefit-responsive investment contracts to bring their fair value to the contract value that participants would receive if they were to initiate permitted transactions under the terms of the plan.

Net appreciation or depreciation of investments is reported in the statement of changes in net assets available for benefits and consists of the realized gains or losses and the unrealized appreciation or depreciation of these investments.

Participant loans are valued at cost, which approximate fair value.

Payment of Benefits
Benefits are recorded when paid.

Operating Expenses
All expenses of maintaining the Plan are allocated to plan participants.

Note 3 – Investments

Unaudited Information Certified by the Plan Trustee
The December 31, 2013 Statement of Net Assets Available for Benefits and the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the year then ended and the supplemental Schedule of Assets and the accompanying notes to the financial statements were prepared in part or entirely from information certified by Mass Mutual Retirement Services a division of Massachusetts Mutual Life Insurance Company, the record keeper on behalf of the trustee of the Plan in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $8,875,554 and $7,419,160 at December 31, 2013 and 2012, respectively, and related investment income of $1,171,866 for the year ended December 31, 2013.

The following presents investments that represent 5% or more of the Plan's net assets:

	2013	2012
Guaranteed interest account 1	$2,806,436	$2,513,837
Guaranteed interest account 2	-	437,250
Prm Core Bond (Badson)	$517,641	$549,881
Pr Cr Val (Bab/LS/Bw/OFI Ins)	494,309	-
Perm Intl Equity (OFI Inst)	896,829	667,860
RetireSMART 2040 II	854,083	630,498
Sel Sm Cp Gr (W&W/Wllngtn/Tmb)	565,367	-
	6,134,665	4,799,326

The investments held at Mass Mutual general accounts, are guaranteed fixed income funds with an average yield of 3.0%. The accounts are credited with interest earnings on the underlying principle balances and charged for participant withdrawals and administrative expenses. There are no reserves against the balance in the funds for credit risk or otherwise.

Note 4 – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 input are observable market data and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. No Level 1 inputs were available to the Plan. The Plan measures fair value using Level 2 inputs because they generally provide the most reliable evidence of fair value and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 2 Fair Value Measurements

Level 2 - Significant other observable inputs other than level 1 prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

Note 5 – Fully Benefit-Responsive Investment Contracts

MassMutual Retirement Services (MMRS) general investment account investment option for defined contribution plans is a guaranteed interest account provided through a group annuity contract. Under the terms of the group annuity contract, a crediting rate is established for amounts invested in the guaranteed interest account and participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their account balance at Contract Value. Contract Value represents contributions plus credited interest less participant withdrawals and fees. Contract Value is also often referred to as "Book Value." MMRS considers this investment option to be fully benefit responsive not withstanding the liquidation value events under the contract that limit the ability of the plan to transact at Contract Value.

Below is the estimate Fair Value presented on the Barclays market value formula provided by MMRS.

	2013	2012
Total General Investment Account assets at Fair Value	$3,421,111	$3,387,756
Adjustments from Fair Value to Contract Value for fully benefit-responsive investment contracts	(345,297)	(436,669)
Total General Investment Account assets at Contract Value	$3,075,814	$2,951,087

Below is the Fair Value rollforward provided by MMRS.

	2013	2012
Beginning Balance at Fair Value	$3,387,755	$2,781,902
Change in Unrealized Appreciation/ (Depreciation)	(91,372)	226,293
Net Cashflow Activity at Contract Value	124,728	379,561
Ending Balance at Fair Value	$3,421,111	$3,387,756

Note 5 – Fully Benefit-Responsive Investment Contracts (continued)

Below is the Interest Crediting Rates provided by MMRS.

	12/31/2013	12/31/2012
Average Yield earned by the Plan (a)	2.58%	2.68%
Average Interest Rate Credited to Participants (b)	2.58%	2.68%
Avg. Yield Earned less Avg. Int. Rate Credited (a-b)	0.00%	0.00%

The average yield earned is calculated by dividing the annual interest credited to the plan during the plan year by the average annual fair value (applicable for those plans that have been in-force with MMRS for more than one year). The average interest rate credited to participants is calculated by dividing the annual interest credited to the participants during the plan year by the average annual fair value (applicable for those plans that have been in-force with MMRS for more than one year). The average yield earned by the plan and the average interest rate credited to participants is the same; therefore, no adjustment is needed. However, the average yield earned by the plan and the average interest rate credited to participants reported above may differ from the guaranteed crediting rate on participant balances due to interest being credited based on contract values, the timing of cash flows, the process by which rates may be reset during the plan year and simplified assumptions used in the calculations noted above.

Certain events may limit the ability of the plan to transact at Contract Value. Such events include but may not be limited to the following: (1) temporary absence; (2) change in position or other occurrence qualifying as a temporary break in service under the plan; (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer; (4) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the plan sponsor's business; (5) removal from the plan of one or more groups or classifications of participants; (6) partial or complete plan termination; or (7) plan disqualification.

Note 6 - Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Mass Mutual Retirement Services a division of Massachusetts Mutual Life Insurance Company. Mass Mutual Retirement Services a division of Massachusetts Mutual Life Insurance Company is the record keeper on behalf of the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for administrative expenses amounted to $29,829 for the year ended December 31, 2013.

This party-in-interest transaction is exempt from the prohibited transaction rules of ERISA.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to modify its matching contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 8 – Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated May 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
