I. Description of Plan

The following description of the Energy Air, Inc. (the "Company) 401(k) Plan provides only general information. Participants should refer to the Plan agreement and related Plan amendments for a more complete description of the Plan's provisions.

General

The Plan, established and effective October 1, 1995, and subsequently amended, is a defined contribution plan (profit sharing). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Energy Air, Inc. is the Plan "Sponsor" and also the "Plan Administrator".

The Plan provides for various investment options through its participation in various mutual funds and other investment securities. The Plan is an ERISA 404(c) plan, with participants having the opportunity to direct the investment of all the assets allocated to their individual accounts. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level on uncertainty related to changes in the value of investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

All non-excluded employees of the Company who have attained age 21 and have completed one year of service are eligible to participate in this Plan.

Participant Contributions

Commencing January 1, 2013, eligible participants could contribute up to $17,500 of pretax annual compensation (salary reduction), subject to certain IRS limitations, and could contribute up to $5,500 of pretax annual compensation (salary reduction) as Catch-up additional deferral, subject to certain IRS limitations. The contribution limitation for 2014 is $17,500. For 2014, the Catch-up additional deferral remains at $5,500, for a total allowable pre-tax contribution of $23,000.

Employer Contributions

The Company will contribute (match) 25% of the participant's salary reduction contribution.

Participant Accounts

Each participant's account is maintained separately within the plan and is credited with the participant's elective deferrals, allocations of employer matching contributions and Plan earnings (losses). Allocations of Plan earnings (losses) are allocated based on specific identification to the participant's account, and any allocation of Plan earnings

(losses) not specifically identified would be allocated based on the participant's account balances, as defined in the Plan.

Vesting

Participant's are immediately 100% vested in their deferral contributions plus earnings thereon. Vesting in the Employer matching contributions are incrementally vested over six years of credited service. There is zero vesting for the first year of credited service, then 20% for each year thereafter. Participant's are immediately 100% vested upon reaching normal retirement age, death, total disability or termination of the Plan.

Payment of Benefits

Upon attainment of normal retirement age, death, disability, or termination of service, a participant or his/her beneficiary may elect to receive a lump-sum distribution amount, subject to IRS limitations and requirements.

Forfeited Accounts

At December 31, 2013, there was $6,625.50 in the plan's forfeited non-vested accounts of matching contributions. Forfeited balances, if any, of terminated participants non-vested matching contribution accounts may be used to reduce current or subsequent years employer contributions, or may be used to offset Plan administration fees.

Investment Options

Participants direct their contributions to a variety of mutual funds and money market funds held at John Hancock. Employer contributions are directed to the participants elected mutual fund and money market accounts in the same ratio as the participants elective deferrals.

Participant Loans

Participant Loans are not permitted under the Plan

II. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting. Under the accrual basis, receivables and accrued expenses are recorded, and investments are stated at market value.

Valuation of Investments

The Plan invests in mutual funds and securities. These investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Quoted market prices are used to value investments. Shares of mutual funds and other securities are valued at the net asset value of shares held by the Plan at year-end. See Note for a discussion of fair value meansurements.

The Plan presents, in the statement of Changes in Net Assets Available for Benefits, the net appreciation or depreciation in the fair value of its investments, which consists of dividends earned, the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

III. Investments

The following presents investments that represent 5 percent or more of the Plan's net assets at December 31:

	2013	2012
John Hancock Lifestyle Growth Fund	$ 994,453	$ 761,784
John Hancock Aggressive Fund	210,568	134,925
John Hancock Lifestyle Balanced Fund	140,757	96,871
John Hancock Lifestyle Moderate Fund	131,546	120,783

IV. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has to ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

IV. Fair Value Measurements (Continued)

If the asset or liability has a specified (contractual) term, the level 2 inplut mut be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds: Valued at the daily closing prices as reported by the fund. Mutual funds held by the Plan are open-end mutual funds and are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at the price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed Investment Account (Insurance Company General Account): Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the insurer. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

At December, the fair value of the plans assets were classified as follows:

	2013	2012
Level 1	$1,913,582	$1,482,890
Level 2	--	
Level 3	8,529	6,904

V. Related Party Transactions

There are no transactions which would qualify as party-in-interest.

VI. Income Tax Status

The Company has adopted a prototype plan. The Internal Revenue Service has determined and informed the Company that the Plan is designed in accordance with Internal Revenue Code. The Plan has been amended since receiving the original favorable determination and has received favorable determination of the amendments. The Plan has been operated in accordance with Internal Revenue Code and ERISA and therefore, will be considered exempt from federal income taxes. Accordingly, income taxes have not been provided for in the accompanying financial statements.

VII. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

VIII. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

IX. Subsequent Events

Management has analyzed subsequent events through September 30, 2014, the date on which the financial statements were available to be issued. No events have occurred since the Statement of Net Assets Available for Benefits date that would have a material impact on the financial statements.
